

Kansas State Collegian

VOLUME 65

Kansas State College, Manhattan, Kansas, Monday, February 16, 1959

NUMBER 86

BRENDA MILLER, HE Fr, draws her lucky number for the Little American Royal. Saturday afternoon 108 K-Staters, including seven co-eds, drew lots for the animals they will groom and show for the student contest April 11. Waiting to draw their numbers are Jarvis Brink, PrV Soph; Jim Dicken, PrV Soph; Kay Rudolph, BA Soph; and Walt Rudolph, AH Jr, chairman of the drawing committee.

Council May Set Policy For Payment of Claims

Student Council will probably determine its policy concerning paying damage claims submitted to the College by Aggieville businessmen whose property was damaged by students participating in last Wednesday night's bonfires which followed the K-State-KU basketball game, according to Herbert J. Wunderlich, dean of students.

Damage claims incurred in Aggieville rioting have been paid by Student Council in the past, but Dean Wunderlich stated "there is a strong sentiment in Student Council this year that individuals should be held responsible."

Singers Tour State For Four Programs

The K-State Singers appeared at Onaga yesterday for the first in a series of four appearances which they will make throughout the state this week and next week.

The Onaga appearance was sponsored by the 4-H girls of Pottawatomie county. The Singers will be in Kansas City tonight where they will present a program for the Midwest Feed Manufacturer's annual convention.

This Thursday the Singers will present a benefit program for a band uniform fund at Riley. From Riley they will go to Kansas City where they will appear on KMBC-TV at 12:30 p.m. Monday, February 23.

Following the TV program, the Singers will perform at the annual husband and wife dinner at the Asbury Methodist church in Prairie Village.

A motion to select an athletic holiday in the near future is expected to appear before the Council again tonight, according to Larry French, BA Sr, Student Council president. Possible dates for the holiday are the day after clinching the Big Eight title, the day after the NCAA regionals, or

the day after the national play-offs.

A lengthy discussion on methods of evaluating the worth and improvements of student activities is expected for tonight's meeting, according to French. Dean Wunderlich expressed a desire for such action at the last meeting.

"Stash trash, save cash" and "Don't put us in a pickle, pick up your cup and keep coffee a nickel" are two of the slogans hanging in the state room of the Union to remind K-Staters to clear the tables before leaving. The clean-up campaign is being sponsored by the Union under the direction of the Tours committee, a sub-committee of the Union Hospitality committee.

The committee has attached its own meaning to the letters UMOC. The new meaning attached to the letters is ugly mess on campus and refers to littered state room tables.

Containers for trash and used dishes and silver are placed at several spots in the state room and cafeteria to facilitate clearing of the tables.

Campaign slogans are stressing finances by giving state room users a choice of either cleaning up the tables or paying more for food and beverages.

"The purpose of the program is to make the students realize that if the Union has to hire people to clean up the tables, coffee prices and other food prices will have to go up," said Diane Watson, chairman of the Tours committee.

Students Get Choice—'Stash or Cash'

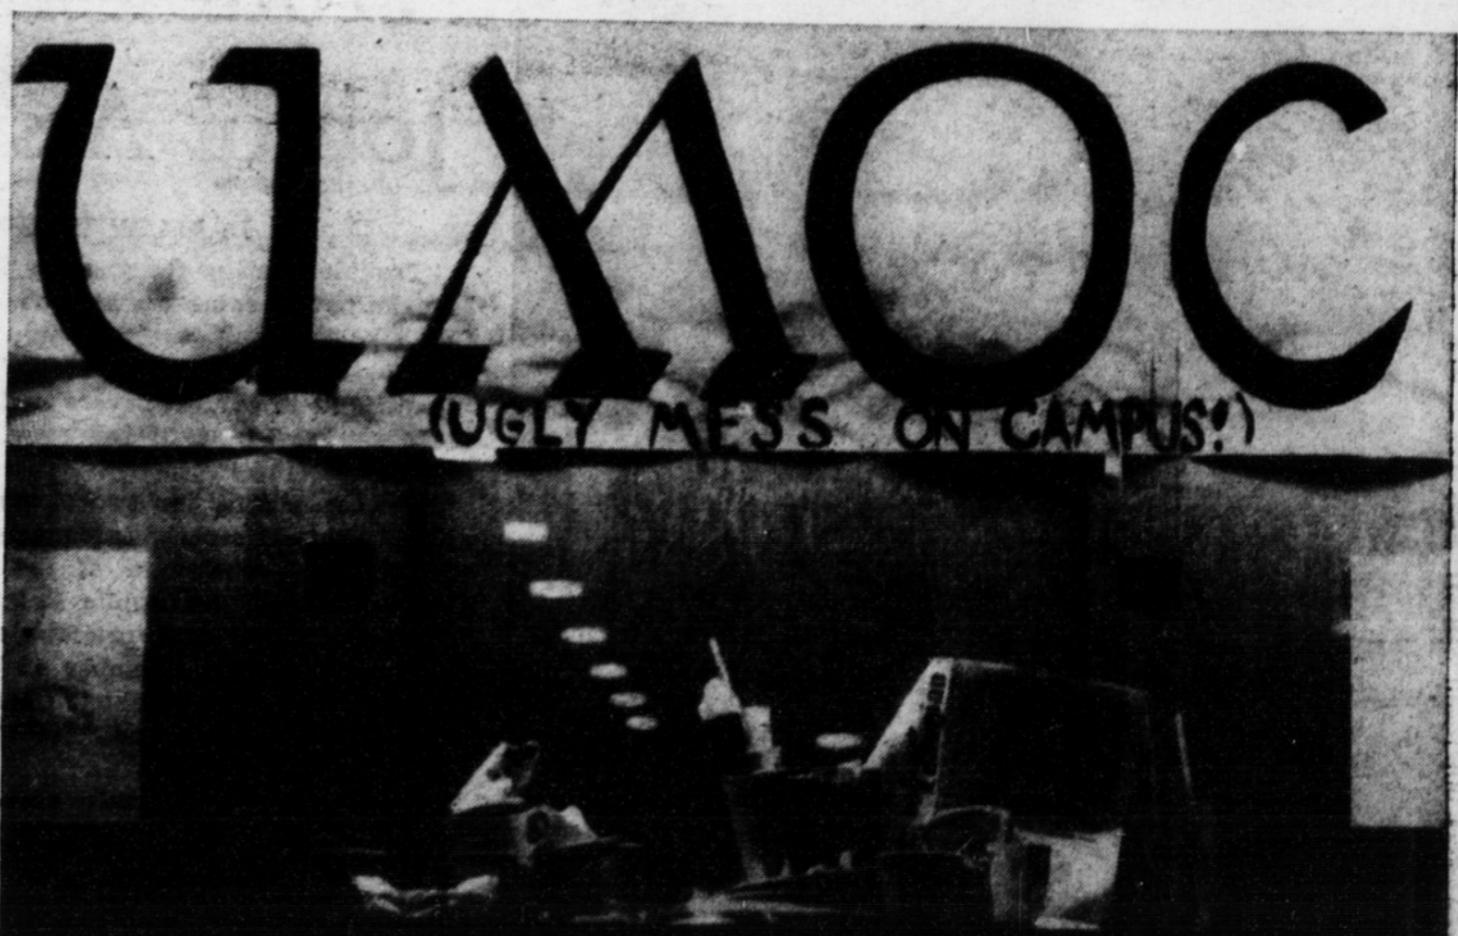

Photo by Clayton Griffin

THE STATEROOM in the Union has been described as the UMOC ("Ugly Mess on Campus"). As a part of a campaign to eliminate the validity of such a description, various signs have been posted on the poles in the Stateroom warning K-State Unionizers to clear the table before leaving. "Pick up your cup, or prices will go up."

Punitive Action Is Awaited

In Aggieville Bonfire Case

Names of four students involved in Wednesday night's Aggieville victory celebration have been given to Tribunal, according to Herbert Wunderlich, dean of students.

Wunderlich said he believed the Tribunal would "wait to see what action the city police will take" before talking disciplinary measures.

No complaints have been signed against the students, according to Police Chief Leo Osbourn. Names will not be published until complaints have been signed and warrants served.

If complaints are signed, one student will be arrested for furnishing the rope used to pull down a tree for the bonfire at 12th and Moro, and three others will be arrested for having a hand in tearing down fences and signs near the Campus theater.

"The College will not finance the spree, but will try to pin it

to individuals," Wunderlich said.

"We certainly will no longer expect student government to pay for damages," he added. "There is a strong sentiment in Student Council this year that individuals should be held responsible."

Wunderlich said it is "very likely" that the Council will de-

termine its policy on paying for the destruction at tonight's meeting.

Wunderlich stressed the fact that the College will "hold students individually responsible for conduct in light of the honor code."

Discussion Topics Set Up for LUNA

Discussion topic suggestions that can be included on the agendas for the Little United Nations committees were made at a meeting of the LUNA committee officers and advisers, Saturday, February 15.

The following suggestions were made for the Political and Security committee: situation in Hungary, unification of Korea, Berlin situation and unification of Germany, disarmament, question of Algeria, Cyprus, and the situation in Kashmir.

Economic and financial committee: special fund for economic development, technical assistance, liberalization of international trade, and budget of United Nations.

Social, Humanitarian, and Cultural committee: atomic radiation and peaceful uses of atomic energy, Palestine's refugee problem, human rights, inter-racial relations, and bacteriological warfare.

Legal committee: representation of China, United Nations emergency force, law of the sea, control of outer space, control of the Arctic and Antarctic regions, and internationalization of world water ways.

Trusteeship committee: progress of United Nations agencies

in non-self-governing territories, question of Southwest Africa, independence of the Cameroons and Togoland, and question of other trusteeship territories.

There will be a meeting of the head delegates of each country in Eisenhower hall, room 15, today, at 4 p.m.

AWS Meets To Evaluate '59 Program

The AWS officers and council will evaluate their year's program and plans for this semester's program at a meeting tonight at 7:45 in the Union art lounge. Dr. Ruth Hoeflin, professor of Family and Child development, will speak about the "Possibilities of Women in the World Tomorrow."

After the talk buzz groups will discuss final week closing hours and study habits, AWS government, publicizing K-State curriculums for women, and things that women will be doing in the world tomorrow.

'Get Tough' Policy Only Way To Stop Property Destruction

BONFIRES BLAZED in Aggieville again Wednesday night following the K-State-KU basketball game. Students (and others) used everything from debris to fences and other property in an effort to show their elation over a K-State victory (or more likely in an effort to have a good time). A truck was seriously damaged and a picket fence and several signs destroyed.

Why, we ask, should students be allowed to destroy property? Four K-State students have been caught and Dean Wunderlich has apparently initiated a "get tough" policy by telling City officials to go ahead and prosecute through the City Police court. We say its about time! And we see no reason why City officials should have to check with Dean Wunderlich before making this move and before releasing any information concerning it. We see no difference between K-State student lawbreakers and other lawbreakers.

DEAN WUNDERLICH wishes to start a campaign to stop rioting and destruction of property. We believe that no amount of pleading from the Dean, the student body president, or from anyone else will stop it.

Only punishment and getting the facts out in the open so everyone will know that students are not immune to punishment for destroying property and breaking the law will get results.

IT MAY be argued that very little property was damaged and destroyed Wednes-

day night. Two years ago some \$700 worth of damage was done and the bill was paid by the student body. This may seem like a very nice solution which keeps those participating from being prosecuted and also keeps peace between the College and Manhattan residents. It also seems unfair to the segment of the student body which had nothing to do with the property destruction but which has to pay anyway.

Protection and "coddling" of students is a bad thing, not only for Aggieville businessmen whose property is destroyed, but for students who soon learn they have nothing to fear from the law and are thus encouraged in a disregard for the property of others. We wonder if this "protection" is a part of the "wet-nursing" policy which President McCain says parents expect from the College when they send their children here. If it is, we believe it is about time to wean a few who apparently have not been taught common courtesy and regard for the property of others. Or on the other hand, this may be part of the policy to keep publicity concerning the College good. If this is so, those instigating it are barking up the wrong tree because continuance of what would now be bad publicity can only lead to worse publicity in the future.

SO WE SAY punish the offenders and stop hiding the fact that offenders are being punished so future would-be violators will be aware of the consequences before they begin.—st

Quotes from the News

By UPI

Herbriggen, Switzerland—Father Emil Schmid, Roman Catholic priest in this tiny Alpine village, on rumblings from a creeping landslide threatening the hamlet:

"It might be the beginning of the end."

Washington — Rep. Barratt

O'Hara (D-Ill.), the only Spanish-American war veteran in the House, explaining that he disagrees with some history books on the liberation of Cuba in 1898:

"Sometimes, from what I know of the way things really have happened in my life, I distrust all history."

DOING SOME PAPERWORK is assistant to the President Max Milbourn. "No two of my days are exactly alike," says Milbourn. A list of the activities he is involved in is proof of the statement. Milbourn has held the position of President McCain's assistant since 1949.

World News

Premier Castro Assumes Governmental Control

Compiled from UPI
By JOHN HOKANSON

Havana—Revolutionary leader Fidel Castro formally takes up the reins of government today as Premier of Cuba. At 32 he is the youngest in the turbulent 57-year history of the Caribbean island republic.

Intimates said the bearded young lawyer would make labor and agrarian problems his primary objectives.

Castro was named Premier Saturday by President Manuel Urrutia following the resignation of Jose Miro Cardona, in what was generally viewed as the first step toward the presidency.

A revision in the provisional constitution last week lowered the age requirement for president from 35 to 30 years.

Castro held a series of private conferences yesterday with members of his cabinet. He made it plain later that the majority of the outgoing ministers would be included in his government.

He said he considered himself completely subject to President Urrutia and is prepared to step down if Urrutia commands.

Dulles Battles Cancer

Washington — Secretary of State John Foster Dulles, encouraged by his doctors in his fight against cancer, began undergoing radiation treatment today at Walter Reed Army medical center.

One of his physicians said he "expected" and "hoped" that the 70-year-old cabinet member would be able to resume at least

partial duties provided there were no more complications and he responded to treatment.

Dulles demonstrated last night that he is not ready to be counted out. He summoned Acting Secretary of State Christian A. Herter to the hospital for a 15-minute conference on department matters.

Defense Work Proposed

Washington — Draft Director Lewis B. Hershey has proposed that young men rejected for military service be drafted for three hours of civil defense work each week, possibly without pay.

Hershey said the nation needed "large numbers of people" for civil defense, and experience shows that a training program works better when it is "compulsory."

Report Radiation Cure

Belgrade, Yugoslavia — Five Yugoslav scientists, who suffered heavy doses of nuclear radiation, arrived today from Paris where French doctors reported them cured by a revolutionary medical process—the transfusion of healthy bone marrow.

The French doctors hailed the recovery of the scientists as a milestone in modern medical science and a big step toward reducing the perils of persons who work with atomic reactors. It was the first time the transfusion of bone marrow had been carried out successfully with humans.

'Troubleshooting for President' Job of Assistant Max Milbourn

By MARY WELSH

"Troubleshooting for the President" is the way Max Milbourn sums up his job as President McCain's assistant.

"What my job really entails," Milbourn adds, "is difficult to say. It covers such a wide territory that just 'assistant to the president' is the best way to describe it."

Milbourn claims "no two of my days are exactly alike." This is clearly evident by noting some of his activities—chairman of the General Scholarship committee, the Public Relations council, the Radio and TV Policy commission, and the Civil Defense committee; member of the Student Loan Fund committee, the College Calendar commission, and the Advisory Council for Continuing Education.

One of Milbourn's main responsibilities is coordinating the College's legislative program. He states, "We live and hope we can get our present program through the legislature, not only to help the student body, but to help the whole state."

Milbourn believes this job to be particularly important because "this school is very much tied up in the life and economy of Kansas. As a land-grant college," he says, "we must consider the whole state as our campus."

The main satisfaction Milbourn gets from his

job as assistant to the president is "getting results from much hard work that is a real benefit to the training and serving of people."

"One thing I miss, though, from time to time, is regular contact with the students. Like all college administrators, I enjoy working with young people. It is for this reason that I particularly enjoy my work with the General Scholarship committee."

Milbourn first stepped into administrative work when he became assistant to President Jardine, who was then at the University of Wichita. He accepted this position upon his graduation from the school in 1938.

Speaking of his undergraduate work in journalism, Milbourn states, "everyone has one field that he is particularly interested in and mine is in mass communication." He did his graduate work in economics at Harvard university.

Upon Jardine's retirement from the K-State presidency in 1949, Milbourn took over his present position at Kansas State.

"I'm very happy here," claims Milbourn, "because much of what I do is a real challenge and it is no routine job. Everything I've done here has been a highlight in my life. The student body and the faculty are wonderful, and President McCain is quite easy to work with, plus being a very able administrator."

Cats Meet Sooners Tonight After Edging OSU Saturday

The K-State Wildcats cleared another hurdle on their way to the Big Eight basketball crown with a 60-49 win over Oklahoma State last Saturday, but will face an even higher one tonight when they meet the Oklahoma Sooners at Norman.

The Sooners, following their 65-50 win over Iowa State Saturday, are tied with Kansas and Colorado for second place in the Big Eight with five wins and three losses and have an 11-8 record in all games.

The win over Oklahoma State was the Wildcats' ninth straight in Big Eight play and their 15th straight overall, and raised their season's record to 19-1. Starting for Oklahoma will be

6-6 Joe Thompson and 6-6 Bill Hammond at forwards; 6-7 Jack Marsh at center; and 6-3 Raymond Lewis and 6-1 Dennis Price at guards.

K-State had more trouble than it expected against Oklahoma State Saturday before pulling away from the Cowboys in the last 10 minutes.

Oklahoma State's only lead was 1-0, but the Cowboys stayed within striking distance of K-State throughout the first half, and at one time pulled within two at 27-25 when Dennis Walker hit from the outside.

K-State built the lead to 10 early in the second half, but Oklahoma State cut in down to four at 43-39 with 12:54 left.

Boozer then hit two free throws, followed by a layup by Don Matuszak and a tip-in by Wally Frank. Clark tossed in a charity throw for Oklahoma State, but Cedric Price banged through a jump shot, was fouled by Clark, and hit the free throw to make it 52-40 with 9:04 left.

Ivan Loomis, top Cat scorer, tallied 14 points to run his season's total to 61. Loomis won first on the flying rings, finished second on the high-bar, and third on the trampoline. Ron Leslie

copped the other Cat first with a win on the side-horse.

Mike Dziura was second in scoring for K-State with 10 points, followed by Leslie with 6, Richard Rood with three and one-half, Don Kraska with three, and David Cudney and Roger Pine, two each.

The Wildcats' next meet will be at Boulder, in the All-College Invitational Championship on February 27-28.

KS Swimming Team Bows To Cornhuskers

Kansas State was defeated in a Big Eight dual swimming meet by Nebraska Saturday, 49-37. It was the second victory for the Cornhuskers over the Wildcats this season.

Dave Hinderliter, Wildcat freestyle ace, won both the 50- and

KS Bowling Team Ties with Kansas As Cowboys Win

K-State's bowling team tied for second place with Kansas as Oklahoma State won the match on the Union alleys Saturday afternoon. Oklahoma State had 18 points while K-State and Kansas had 10 each.

The Cowboys took top honors in the doubles matches and all three games of the team event, whiles KU took the singles. Tom Gess had the high game in the singles for Kansas with 215.

The Wildcats' top man in singles was John Walters with 192.

100-yard events to take honors as the only Cat double winner.

The Cats' other first came in the 400-yard relay, when Jerry Fitzgerald, Gordon Harper, Hinderliter, and Chuck Englund won the event in 3:50.2.

Dale Voss was the Cornhuskers' only double winner. He won the 220-yard freestyle and gained a first in the 440-yard freestyle. Jae Stocker placed first in the 200-yard breaststroke and swam a leg on the winning 400-yard medley relay team which finished in 4:15.5 for the Cornhuskers.

Jim Dunning, CE Soph, won last week's Roundball Picks contest by predicting a 62-49 K-State win over Oklahoma State. The actual score was 60-49.

Dunning foresees a 22 point production by Bob Boozer for K-State scoring honors. Boozer scored 27.

All 25 students who entered the contest predicted a K-State win.

Seniors Given Pointers By Vet Medicine Alumni

Seventy seniors in veterinary medicine received first hand information from experienced alumni about what may be in store for them when they begin practice at the Veterinary Medicine Senior-Alum Day, Saturday.

Three veterinarians from out in the state discussed questions in their own fields. They were Dr. John Gish, El Dorado, large animal practice; Dr. John F. Hudelson, Pomona, government phases of veterinary medicine; and Dr. Max Sutter, Kansas City, Mo., commercial drugs.

The meetings were in Burt hall, Veterinary Science hall, and Dykstra Veterinary hospital.

The alumni and their wives and the heads of the departments in the School of Veterinary Medicine attended a luncheon in the Union.

Department heads present were Dr. E. J. Frick, surgery and medicine; Dr. Jacob Mosier, Dr. Frick's assistant; Dr. M. J. Twiehaus, pathology; Dr. Morrisette, substituting for Dr. G. K. L. Underbjerg,

physiology; and Dr. D. M. Trotter, anatomy.

Dr. J. W. Lumb, acting for Dean E. E. Leasure, was chairman of the event.

AFROTC Chorus To Have Tryouts

Tryouts for the AFROTC chorus will be tonight at 7:30 in the walnut dining room of the Student Union. Robert Sanders, MGS Jr., is in charge of organizing the chorus.

Sanders hopes to be able to organize a chorus of 20 to 25 members with about half of them coming from the girls in Angel Flight and the other half from the AFROTC.

The chorus, with Capt. Robert Drown as sponsor, will work with the ROTC dance band. Sanders plans to arrange some of the numbers himself and to use standard arrangements.

Dance Instruction Begins Tuesday in Union Dive

The first meeting of persons interested in dance instruction this semester will be in the Union dive at 7:15 p.m. this Tuesday.

Two classes in dance instruction will be offered this semester—advanced and beginning. The advanced class will include instruction in Latin American dances such as the cha cha, the mambo, and the rhumba, in addition to requested dances. The beginning class will include the fox trot, swing, and cha cha.

ASME

Jay Knox, ME Soph, will discuss "Power from the Sea" at the ASME meeting tonight at 7:30 in the Union little theater. Bill Mahien, ME Sr., will read a paper, "Investigation of Glass Reinforced Plastics as Presently Produced and Possible Methods of Improving Them."

Papers that have been presented

since the beginning of the school year will be judged and a first place winner will be announced at the meeting.

AWS Officers

Applications for AWS officers close tomorrow at 5 p.m. Any qualified girl may obtain an application from her AWS representative in her house or dorm.

Qualifications include having an accumulative 2.5 grade average, and having served on either the AWS judicial board, a committee, or on the council. Applicants for president are required to have served on the council.

Student Council Won't Pay For Damage to Aggieville

Student Council does not intend to pay for Aggieville property damaged by celebrating students Wednesday night, it was decided at a meeting last night.

The resolution states: "Student Council regrets the incident which occurred in Aggieville involving a relatively small group of K-State students and other individuals not having any connection with K-State; however, as representatives of the student body we cannot accept responsibility for such actions."

"Those students involved violated the rules and honor code which we have established. If we did accept such responsibility, we would merely be giving license to further such events."

It further states, "In the future, any K-State student positively identified while participating in any destructive demonstration in Manhattan, either

directly or by physical presence at the scene will be liable for punishment designated by the Tribunal and/or city courts with possibility of dismissal from school."

Bills totaling approximately \$550 have already been received by Student Council and more are expected, according to Larry French, BA Sr., Student Council chairman. Five students have been identified as participating in the destructive acts and are awaiting filing of charges by the city and others whose property was damaged by the acts.

The tabled motion on a proposed athletic holiday was considered and final decision made. There will be an official athletic holiday Monday, March 16, if K-State wins the NCAA Regional tournament.

Another action taken by the Council was creation of a com-

mittee of one representative from each school at K-State and one from the Student Activities board to work with a faculty committee to evaluate student activities on campus.

This committee, which will make a long-range study in evaluating student activities, is open to any interested student on campus, according to French. Anyone interested may send a written request to French stating why he is interested, his classification in school, and the school he is in. Applications must be in by 5 p.m. Friday.

The committee studying the optional attendance system now in effect at K-State made its report. Since lists containing the names of all students who have qualified for optional attendance will be sent to instructors beginning next semester, Council decided no further action is necessary.

Photo by Bert Everett

LEADING A DISCUSSION on Hinduism in the Union last night is (at right) Ettigi Jayadevappa, Ch Gr. Two more discussions on Eastern religions will be in the Union today and tomorrow.

Hinduism Is Topic Of RCC Lecture

"Most religious conflicts are caused by misconceptions," said Ettigi Jayadevappa, Ch Gr., in a lecture on Hinduism last night in the Union art lounge.

Approximately 30 people attended the lecture which was the first in a series of three sponsored by the Religious Co-ordinating council in conjunction with Brotherhood Week February 15 through 21.

Tuesday, Buddhism will be discussed by Lada Ratagarasikorn, HED Gr. The Moslem religion will be discussed Wednesday by Ali El-Refai, Ent Gr.

According to Jayadevappa, the Hindu god is very flexible in that a person can worship any aspect that he likes. "The Hindu god is fashioned to fit the ideals of the person who is worshipping him," Jayadevappa said.

There are several gods for the Hindu to choose from. He may even have his personal god or a family god. Many sects come from the fact that one person may believe in one aspect of a god, while another may worship an entirely different phase of the same god's personality.

Hindus also believe in a theory of duty or action which involves a series of rebirths. A person is evolved spiritually or degenerated spiritually according to his deeds while on earth. "The ultimate in the stages of evolution is a state of loss of self and a merging with the absolute," Jayadevappa said.

Jayadevappa said that often people get a false impression of Hinduism from the majority of the Hindus in India. "Many of

the people don't know what the religion is, and it is unfair to take the practices of the majority as the actual religion," Jayadevappa said.

"Many of India's people have been uneducated for several generations, and they must learn from people who have studied the religion in order that they may learn its actual meaning," Jayadevappa said.

According to Jayadevappa, Hindus do not eat meat because they have a reverence for living things. He added that this belief was incorporated from the Buddhist religion which at one time was very strong in India. When the Hindus added this to their religion, Buddhism almost was forgotten in India.

Greek Pledges To Elect Two At IPC Dance

The Interpledge council king and queen will be elected at a "Mardi Gras" dance in the Union Friday.

Candidates and the houses they represent: Karen Braman, Art Soph, Alpha Chi Omega; Bertie Lou Powell, BA Fr., Alpha Delta Pi; Karen Smith, BA Fr., Alpha Xi Delta; Martha Samuelson, BA Soph, Clovia; DeAnn Seaman, EED Soph, Delta Delta Delta; Charlene Cox, Gen Fr., Gamma Phi Beta; Karen Bloomberg, Art Fr., Kappa Delta; Pat Roberts, HEN Fr., Kappa Kappa Gamma; Mary Kennedy, EED Fr., Pi Beta Phi; Herschel Pickett, AE Fr., Acacia; Don Joy, CE Fr., Alpha Tau Omega; Chuck Baker, NE Soph, Beta Sigma Psi; Rex Beach, CE Soph, Beta Theta Pi; Jim Kelly, ME Fr., Delta Sigma Phi; Skip Harkness, SS Fr., Delta Tau Delta; Ross Freeman, Mth Soph, Delta Upsilon;

David Wilson, TA Fr., Farm House; Phil Ziegler, ME Soph, Phi Delta Theta; Greg Schmidtlein, EE Soph, Phi Kappa; Jim Logback, BA Fr., Pi Kappa Alpha; Scott Allen, BPM Fr., Sigma Alpha Epsilon; Vic Hurtig, PrV Fr., Sigma Chi;

Bill Adams, AgE Soph, Sigma Phi Epsilon; Jerry Grace, NE Fr., Sigma Nu; Jim Munden, RM Fr., Tau Kappa Epsilon; and Phillip Wood, IE Jr., Alpha Kappa Lambda.

Engineers Pick Candidates For Open House Royalty

Departmental nominees for St. Pat and St. Patricia have been elected by students in the School of Engineering and Architecture.

Nominees are Mike Dole, ChE Sr., and Jan Stewart, Soc Soph, chemical engineering; Jim Burke, ME Jr., and Lee Lutz, EED Jr., mechanical engineering; Ferris Heaston, CE Jr., and DeAnn Seaman, EED Soph, civil engineering.

Republicans have a bill to give 100 per cent credit for prior service. It would cost the state about \$4.8 million a year. Compromise may be the only answer here.

Gil Veconi, Ar 04, and Charlotte Strah, ArG Sr., architecture and architectural engineering; Raymond D. Stratton, AgE Sr., and Paula Lehmann, EED Soph,

agricultural engineering; Jerry G. Higgins, IE Sr., and Deanna French, EED Jr., industrial engineering;

Larry R. Foulke, NE Sr., and Judy Hoy, Sp Soph, nuclear engineering; Bruce Irwin, EE Sr., and Charlene Strah, TJ Sr., electrical engineering. Six finalists will be chosen at a Sigma Tau smoker and tea Sunday.

St. Pat's prom will be the final event of Engineers' Open House which is March 13 and 14. Theme for the open house is "Design for the Future."

'It's a Woman's World' Is Theme of AWS Day

"It's a Woman's World," is the theme of the Associated Women students All-Women's Day March 5. Patricia Beezley, president of the K-State Alumni association, will be the principal speaker, and will talk on "It's a Woman's Choice," at the banquet that evening.

All Women's Day is to be an

afternoon and evening of events to stimulate thinking, to invoke self-examination, to promote fun and frivolity, and to inspire women of today," stated Sally Ingle, SED Sr., chairman of the publicity committee.

A style show is being planned in which one girl from each organized house and dorm will

model. Clothes will come from Manhattan dress shops.

The Chimes senior scholarship, dorm scholarship, and the slate of candidates for AWS officers will be presented at the banquet.

A cafeteria style banquet will start at 5:30 p.m. in the Union. Cost is 25 cents for women in organized houses and 75 cents for town girls and married students.

This year, discussion groups will be from 3 to 5 p.m. Some of the topics to be discussed are wedding plans, modern kitchens, new styles and fabrics, marriage and a career, a woman's place in other countries, and a men's panel discussion on "It's a Woman's World."

At the AWS meeting last night Dr. Ruth Hoeflin, professor in the Department of Family and Child Development, spoke on "Possibilities for Women in the World Tomorrow."

Jayadevappa said that often people get a false impression of Hinduism from the majority of the Hindus in India. "Many of

Public Hearings Open On Regents' Budget

UPI—Public hearings opened today in the Senate Ways and Means committee rooms on the Board of Regents' request for \$48.3 million to spend next year on the State's colleges and universities.

Chairman August Lauterbach (R-Colby) said first up among the Regents' spending requests will be the deaf school budget and the blind school budget.

The individual budgets of Kansas university and Kansas State college will be heard Wednesday and Thursday.

Democratic Gov. George Docking trimmed the overall budget of the Regents by \$2,410,233, cutting out all faculty salary increases and by-passing a "crash" building program.

Generally, the only higherary outlays Docking approved were to meet civil service steps-ups for classified employees and for additional teaching positions at the three smaller schools, where enrollments have exceeded estimates.

The "crash" building program wanted by the Regents would, in

three years, amount to a \$17 million building program that normally would require five years.

Faculty merit increases passed the Legislature without difficulty in 1957 and 1958. However, even staunch school supporters among the Legislators admit the struggle this year will be much tougher, in view of the prevailing mood in the Legislature.

Yet to come before the Legislature are two retirement plans. Docking pointed out a Republican-backed pension plan would cost the state \$1.5 million more than a Democratic-backed proposal.

But he admitted, "We have plenty of money on hand."

Democrats want to give 75 per cent credit for prior service to those covered by pensions. It would cost the state about \$3.3 million a year.

Republicans have a bill to give 100 per cent credit for prior service. It would cost the state about \$4.8 million a year. Compromise may be the only answer here.

Council Refuses To Pay Damages; Will Complaints Now Be Filed?

STUDENT COUNCIL refused last night to pay claims for the damages which resulted from the celebration in Aggierville following the K-State-KU basketball game last Wednesday night. In other words, the Council refused, as a representative of the entire K-State student body, to pay for the infractions of a few K-Staters and other individuals who are in no way connected with the College.

The resolution passed by the Council states, "Those students involved were not representing K-State; rather they violated the rules and honor code and in accepting such responsibility, we (Student Council) would merely be giving a license for future such events." We agree with the Council completely.

HOWEVER, now it will be interesting to note whether or not those who placed the damage claims sign complaints and press charges with the City police against the

students who have been identified as having participated in the Aggierville property destruction. The names of four students involved were known last Friday, but the people whose property was damaged seem to be playing a waiting game. No complaints had yet been signed last night, according to City police. Now that Student Council has refused to pay, it seems the injured parties are left with two alternatives—to stand the expense themselves or to press charges. Claims placed with the Council last night totaled some \$500, and it seems reasonable that those hurt will expect some payment.

ONE THING we hate to see is that only four K-Staters were caught, and it is not likely these four students did all the damage. Other K-Staters and many non-K-Staters were involved and if any action is taken, it is too bad these four may have to pay for the offenses of others along with their own.—st

World News

Budget Deficit Guilt Debated in Congress

Compiled from UPI

By JOHN HOKANSON

Washington—Democrats and Republicans were immersed today in a debate over which party is responsible for unbalancing budgets.

Senate G.O.P. leader Everett M. Dirksen issued the latest volley of the budget war.

He challenged a Democratic charge that President Eisenhower is loading up his deficit-ridden 1959 budget in an effort to come up with a balanced budget in the 1960 election year.

The Illinois Republican said there was nothing rigged or improper in the fact that Eisenhower last week asked Congress to vote \$3,175,000,000 in new obligatory authority for the World Bank and \$1,375,000,000 for the International Monetary Fund.

"The President is doing nothing but taking care of commitments the Congress has already made," argued Dirksen.

Two Democratic senators, John Sparkman (Ala.) and Mike Monroney (Okla.) told the Senate yesterday the President wants to add the item to the 1959 budget already 13 billion dollars in the red.

Provide Plan for Talks

Moscow—The Western proposal for a Big Four foreign ministers conference on Germany may have laid the groundwork for postponing the showdown this spring on West Berlin, foreign diplomatic sources said today.

The sources said they considered it likely that the Soviet Union would accept the Western proposals for the conference made in notes delivered yesterday.

The observers said the Western proposals provided a formula for getting talks started although not one which can be expected to be fully to the Soviet liking. The notes rejected once more the Soviet proposal to end the occupation of West Berlin and said the Western Big Three intended to "uphold by all appropriate means their communications with their sectors of Berlin."

Dulles Urged To Remain

Washington—Assistant Senate Democratic Leader Mike Mansfield today urged Secretary of State John Foster Dulles to remain in his cabinet post to give "guidance" on the German situation.

Mansfield, a member of the

Senate Foreign Relations committee, said it would be "a mistake" for the 70-year-old Secretary to resign now despite the intestinal cancer that has stricken him.

"We certainly need to have his knowledge and guidance on the German situation and the conferences that are coming up," the Montana Democrat told newsmen.

Farm Proposal Opposed

Chairman Allen J. Ellender (D-La.) of the Senate Agriculture committee voiced strong doubts about a Democratic proposal to support crop prices through Federal payments to farmers. He said he would keep an open mind on the issue during hearings but said he was "inclined at the moment to say it won't work." Agriculture Secretary Ezra Taft Benson flatly opposes the direct payment plan, too.

Over the Ivy Line

Wanted: Psychotic Female Midget; Object: Voyager for Space Travel

By Margaret Cooper

HERE ARE the recommended qualities for the ideal space voyager—the adventurer should be 1. a female, 2. a midget, 3. a doctor of philosophy with her degree from Massachusetts Institute of Technology, and 4. a psychotic! The Ohio State Morning Lantern says that Dr. Pepinsky, author of the qualifications, has received three favorable applications—two of which came from Italy.

A PROFESSOR of English at the University of Texas was lecturing his class about the modern novel.

"Nowadays," he said, "we've got books called 'Desire Under the Elms' and 'A Streetcar Named Desire.' "Pretty soon," he continued, "we're probably going to have a book out called 'Desire Under the Streetcar'!"

THE SPECTRUM from North Dakota State college informs us that a stack of 100 one-dollar bills is three-eights of an inch thick, but a billion one-dollar bills would be 59 miles high! Try it sometime to see if the information is correct!!!

STUDENTS with special dietary needs are given

'Tailormade Meals' at the University of Nebraska, according to the Daily Nebraskan. A separate dining room is open for students who are diabetics or have ulcers, and meals are planned to fit their particular problem. This is not, however, a place to eat if the student's problem is overweight.

WANT TO KNOW where the narrow, uniformed, worldly—ignorant people are found? It is NOT in West Snowshoe or North Afghanistan. The Drexel Triangle from the Drexel Institute of Technology in Philadelphia, Pa., says persons answering this description are residing on the American college campus. The college student can't be bothered by reading the Times because he is social chairman of his fraternity, or he might miss an important party to which he is bringing an equally ignorant coed. The coed doesn't know who Mikoyan is, but she does know how many of her sorority sisters are pinned. She is more concerned about her matrimonial chances than she is about a fallout. Interpretations of Peanuts and Pogo are expressed rather than opinions on the U.S. foreign policy. This shoe of ignorance to world affairs is worn unfortunately by too many people.

Rioters Should Take Medicine, Says Majority of Students Asked

By Mary Welsh

That the students caught destroying property in the Aggierville riot February 11 should be punished was the opinion of 12 of 15 students interviewed by the Collegian.

The majority of the students

favoring punishment believed that the rioters should be required to pay for the damage done, while a few thought that more drastic action should be taken.

Some of the comments to the question, What action do you feel should be taken against the students caught in the Aggierville rioting?:

MAX MOLLER, GA Jr—They broke the law and as students of K-State, they should be expelled.

MARILYN HANNA, PT Jr—When damage is done, I think steps should be taken to prevent it in the future; but I think these students started out with the right idea in showing enthusiasm and school spirit.

GLORIA ECKERMAN, EED Fr—I think compensation should be made for the damage and stricter rules should be made. In the future, they should be placed on probation for the first offense, and dismissed from school for the second.

MARLENE PINKHAM, EED Soph—Nothing. How can they prosecute just four out of that whole mob?

RONALD WELLING, Mth Gr—Something should be done about this sort of juvenile action. I think it is the school's responsibility to stop it. As far as possible, the guilty students should repay the damages.

LARRY DANNENBERG, EE Soph—I think the students should be required to pay. I don't believe it is the responsibility of the College.

WILLIAM JUSTICE, FT Fr—The destruction should be paid for by the students. If we just let the students tear things up, we are giving the College and ourselves a bad name.

DAVID STEVENS, TA Soph—I don't think Student Council should pay for it. The individuals should be responsible.

ROBERT DICKENS, SED Sr—I don't think the College should be responsible for what the students do off the campus. The College ought to plan something for the students after the game, especially after the KU game. Maybe it could plan an organized bonfire where it wouldn't do any damage.

Cat Cagers Dump Oklahoma

K-State's Wildcats took another step toward their second straight Big Eight basketball crown last night as they outclassed the Oklahoma Sooners, 75-55, at Norman.

It was the 10th straight conference win for the Wildcats, who can cinch a tie for the title Saturday afternoon by beating Oklahoma State at Stillwater.

It was K-State all the way last night. The Wildcats pulled into an 11-4 lead in the first 10 minutes of play and extended it to 31-17 on a field goal by Wally Frank with 1:31 left in the half.

But Buddy Hudson canned a fielder and then hit two free throws in the last second to cut the lead to 31-21 at halftime.

An eight-point spurt by the Wildcats in the opening minutes of the final period gave them a 39-21 lead.

Dennis Price and Raymond Lewis kept the Cats from blowing the game wide open, but the K-State lead was 50-32 midway through the half.

The Sooners then began to

pick up ground, with Lewis and Kenny Burd hitting free throws. Lewis followed with two more charity throws and then hit from the outside to cut the K-State lead to 51-40 with 8:00 remaining.

Following a K-State time out, Ced Price scored on a follow shot and Frank added a tip-in to up the lead to 55-40.

Dennis Price hit a jump shot

for the Sooners, but a 25-footer by Jim Holwerda and a layup by Frank put Oklahoma 17 points back, 59-42.

Lewis and Ced Price exchanged pairs of free throws, and Jack Marsh hit two quick field goals to pull Oklahoma to within 15, but Price and Bob Boozer put the lid on the victory by combining for 12 points in the final two minutes.

North Carolina Moves into No. 1 Spot In Coaches' Weekly Roundball Ratings

By UPI

The North Carolina Tar Heels, aided by Kentucky's loss to Mississippi State, took over first place today in United Press International's college basketball ratings for the first time since December 17, 1957. Kentucky slipped from first to third.

Coach Frank McGuire's Tar

Heels, beaten only by Michigan State in 17 starts, moved up from second, and Kansas State advanced from third to second.

The 35 leading coaches who rate the nation's major colleges for UPI also made several other changes in the top 10. The coaches considered games played through Saturday night in their latest ballots.

Mississippi State, 20-1, advanced from 15th to 10th and appeared in the select group for the first time since the UPI ratings were inaugurated in 1950. California, 15-4, advanced from 12th to 9th.

Bradley, beaten last week by St. Louis, slipped from 8th to 12th. West Virginia, upset by New York university, dropped from 10th to 14th.

Cincinnati, 16-2, North Carolina State, 18-2, Auburn, 18-0, and Michigan State, 13-3, remained 4-5-6-7. St. Louis, 16-2, moved from ninth to eighth.

Texas Christian, 16-4, the Southwest conference leader, headed the second 10 group. Bradley, Utah, West Virginia, Marquette, Louisville, St. John's (N.Y.), St. Bonaventure, Oklahoma City, and St. Mary's (Calif.) followed in order. No other schools received votes this week.

The United Press International major college basketball ratings

Badminton Singles Move Into Championship Round

Play was carried into the finals in both the independent and fraternity divisions last night as the intramural badminton singles tournament opened in Ahearn gymnasium.

Sonny Ballard, Beta Theta Pi, and Lane Brown, Sigma Chi, won in the semi-final round and will meet tonight for the championship of the fraternity division.

Tracy Clark and Orival Linder, both of Jr. AVMA, will meet in the finals of the independent division tomorrow night.

Ballard, who finished second in the tournament last year, defeated Ron Holman, Phi Delta Theta, 15-2 and 15-3 to move into the finals. Lane beat George Phipps, Beta Theta Pi, 15-6 and 15-13.

In the independent division, Linder, who also finished second last year, beat Larry Grubb, House of Williams, 11-0 and 11-0. Clark defeated Ray Eaton, AIA, 15-9 and 15-2.

Survey Will Evaluate KS Graduate School

A comprehensive study of the Graduate School program at Kansas State is now underway, according to Harold Howe, graduate dean.

The Graduate school is the fastest growing school at Kansas State. This spring a record number of 640 graduate students is enrolled. This is about 10 per cent of the entire student body.

Dean Howe says the Graduate council feels a special study is needed to evaluate what has been, and is being done to lay plans for growth in the next five to 10 years.

A special faculty committee of seven already has embarked on the study, which is expected to take a minimum of 18 months. First concerns will be "objectives," "graduate faculty," and "students." Howe said the committee also plans to seek financial assistance from some national foundation for funds to be used in collecting and summarizing

data, and for the services of expert consultants.

Among questions which the study group will consider:

What are the qualifications of graduate faculty and what should they be?

Where do K-State graduate students come from, and how well prepared are they?

What should admission requirements for graduate students be?

What are the needs of graduate students?

What criteria should be used to determine when new fields are prepared to offer graduate degrees?

What should relationships be between research and other phases of the graduate program?

What can be done to meet shortages, such as the need for college teachers?

Dean Howe said the study could be one of the most extensive evaluations of graduate work undertaken by any graduate school.

Larry Ball Wins ASME Technical Paper Contest

Larry Ball, ME Sr., was presented an award for technical papers at a meeting of the student section of the American Society of Mechanical Engineers last night.

Dr. Ralph Nevins, head of the Mechanical Engineering department, presented the award. The title of the winning paper: "Means of Determining Radiation Shape Factors by Photography."

Eight students who have given reports at previous meetings of the ASME competed in the preliminary contest last night. Reports to be given at future meetings may be presented to the judges as a part of the competition. Papers already

given may be revised and presented again.

Final selection of the technical papers will be made during the last of March. The paper selected at this time will represent the K-State Mechanical Engineering department at the ASME regional conference at Arkansas University.

Moslem K-State Student Explains Islamic Religion

"Moslems believe that Mohammed is the last messenger of God," Aly El-Refa, Ent Gr., said in his talk in the Union art lounge last night. The talk was sponsored by the Religious Coordinating Council.

El-Refa went on to say, "The religion of Islam is briefly expressed in this formula: God revealed his existence and inspired His message to different lands and in different languages to such people as Moses, Jesus, and Mohammed."

Mohammed was born in Mecca, Saudi Arabia in about 570 A.D. He was not satisfied with worshipping an idol as were most people of that era. Instead, he would go into the hills and worship God by himself.

In 610 A.D., Mohammed went into a cave on the hill Hira, where a vision of an angel inspired him with the first sentence of the Koran. In this sentence a solution for both the religious and social problems was given.

What Mohammed heard in this cave makes up a sura, which is the same as a chapter in the Bible. In this particular sura, it was shown to believe in this great power, God, and in the initial equality of all men before God. It was also shown that Mohammed was only a man, a servant of God and that he is only transmitting God's word as others did before him.

"The Islamic creed is very

simple," said El-Refa, "it simply states that there is only one God, and Moses, Jesus, and Mohammed were merely his messengers."

El-Refa stated that there are five main religious practices followed. The practice heading the list is the declaration of the creed. Moslems are also supposed to pray five times a day.

The other three practices include alms to the poor and orphans; fasting for one month out of the year; and for one who can afford it, making a pilgrimage to Mecca once in his lifetime.

El-Refa cited four differ-

ences between the Islam and Christian religion. First, there is no asceticism in Islam.

Second, El-Refa said, "because of our belief in the oneness of God, we cannot believe in a trinity."

Third, because of our belief in equality of all men in the eyes of God, we do not believe that any man can be raised by ordination to a position higher than that of the simplest of men."

The fourth difference is that the Moslems believe that men are born free, thus they cannot accept the idea of original sin.

Regents Will Stand Pat On State School Budget

UPI—The State Board of Regents yesterday told a Senate committee it was standing pat on its recommendations for state school budgets.

The regents said they did not approve of the \$2.4 million slash made by Gov. George Docking.

"The schools are not going to quit running if its not restored," Clement H. Hall, Coffeyville, Chairman of the Regents, told the Senate Ways and Means committee.

"However, we believe the schools will lose ground if those deletions are made in full. But we're going to try to run the schools no matter what."

Hall said the Regents thought their budget request was "appropriate or we wouldn't have made it."

The Ways and Means committee, headed by Sen. August Lauterbach (R-Colby), opened

hearings on the Regents' spending requests, starting with the deaf and blind school budgets.

The committee is scheduled to take up budget requests of Kansas university today and the budget of Kansas State college tomorrow.

Docking's cuts included elimination of faculty salary increases and a "crash" building program at the schools.

Radio, Television To Cover LUNA

Radio and television stations will cover K-State's Little United Nations assembly February 19, 20, and 21, according to Virginia Baxter, Gvt Soph, chairman of the event.

WIBW-TV will have cameras at the opening meeting of the general assembly Thursday evening, February 19. KSDB-FM will record the speeches, the assembly speech Friday morning, February 20, and portions of the general assembly Saturday, February 21.

Students from four other schools will come as observers to represent the observer countries in the United Nations. Schools that will be present are St. Benedict's college, McPherson college, Washburn university, and Hutchinson junior college. They will represent Switzerland, West Germany, and North and South Korea. Housing for these students will be provided by local fraternities and sororities.

There is evidence that many secret meetings are taking place in which the delegations are preparing to form blocs to use at the meetings of the general assembly.

SGA Office Petitions Available to Students

Petitions for student body president, Student Council, and Board of Student Publications may be picked up beginning today at the Student Governing Association office in the Union Activities center.

Petitions are due February 28 at noon. No petitions will be accepted after that time.

Primary elections for the offices will be March 11 and 12. General elections will be March 19 and 20.

All students enrolled in more than six hours at K-State are eligible to vote.

Any student with the above qualifications and a 2.2 scholastic average for his total period of enrollment at K-State is eligible to be a candidate for any of the offices.

sembly. Even in the head delegates' meeting there was much controversy centered along partisan lines.

The faculty advisers for the LUNA committees are Asst. Prof. Joseph Hajda and Prof. A. B. Sageser, political and security; Asst. Prof. John Hildebrand and Asst. Prof. Lawrence Van Meir, economic and financial; Prof. Cecil Miller and Inst. Robert Clack, social, humanitarian, and cultural; Prof. Louis Douglas and Asst. Prof. Joseph Menzie, legal; Prof. Fred Parrish, and Asst. Prof. Richard Hoath, trusteeship.

Shaw Group To Be Here

A full house is anticipated for the Robert Shaw chorale and orchestra concert Saturday, according to Prof. Luther Leavenworth, head of the Department of Music. The concert will be presented in the College auditorium at 8:15 p.m., and is under the auspices of the Manhattan Artist Series.

"Robert Shaw is one of the fine young conductors developed in this country, and the Robert Shaw chorale and orchestra probably has no equal in this medium," said Professor Leavenworth.

"This group of 30 singers, now in its eleventh year of uninterrupted activity, has become one of the brightest stars in the musical firmament of America. Its name and the name of its conductor is known to millions in this country and all over the world through its concert tours, radio appearances and recordings."

The Robert Shaw chorale has appeared in every state of the union but two, South Dakota and Nevada. In 1956, the group took a tour of 20 countries of the Middle East and Europe. While on tour the group sang 60 concerts within 70 days.

Old Office Looks Like New

By DORIS MILLER

For the first time in 38 years, the office of the dean of Engineering and Architecture has been remodeled. M. A. Durland is the present dean.

Last spring it was decided to remodel the office. The process wasn't started until the latter part of October, however. The improvements, completed last week, were designed by Asst. Prof. Vincent J. Cool, Prof. J. Cranston Heintzelman, and Prof. John F. Helm, all of the Architecture department.

A dropped ceiling, which includes translucent plastic blocks to let in light from previously-used lighting, was installed. Built-in mahogany filing and storage space and book cabinets completely line the east wall. A long, curved mahogany conference table dominates the room.

A new gray wool carpet, off-white drapes, and louver screens—in place of venetian blinds—were also added. The yellow-green plastic upholstered chairs blend with the light lime-green walls.

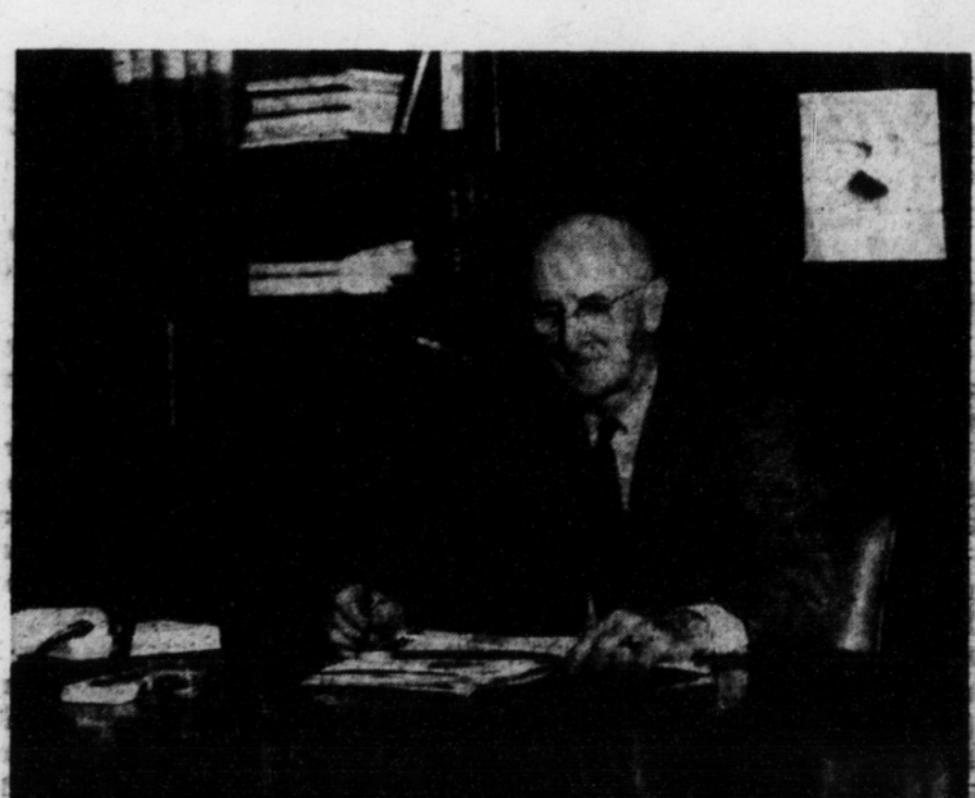

The dean of engineering has occupied this office since 1920. The only change that has been made previously to the recent change is new lighting.

"The unique thing about the office being remodeled is the fact that Seaton hall is an old building and this has been the only attempt to modernize it," Dur-

land reported. He thinks everyone did "a beautiful job" of remodeling.

"The office will be adequate for the next 10 to 15 years, but since the number of students will double by then, some provisions will have to be made for more room. We have no space to expand here," Durland added.

Dean Durland's office has the

M. A. DURLAND, dean of the School of Engineering and Architecture, sits at his desk in his newly-remodeled office in Seaton hall. Dean Durland terms the remodeling a "beautiful job."

Democrats To Remain Major Party—Douglas

"The Democratic party is destined to remain the majority party for a long time if it lives up to its responsibilities," stated Dr. Louis Douglas, professor of history and government at Kansas State, at a meeting of the Young Democrats last night.

Douglas stressed that it would take a great upheaval in social and economic affairs to remove the Democratic party from its position as the majority party of the United States.

"The 1958 elections were significant in proving that the Democrats will remain the majority party," commented Douglas. "The large sectional areas that have usually been predominantly Republican, went Democratic in 1958."

"In fact, the Republicans carried only seven states, while the

Athletic Parking Fee Would Prove Unfair

IT SEEMS there is a possibility that athletics may be given one more boost toward domination of our "academic" institution.

Last week Student Council recommended that the Traffic Control board make a study of the possibilities of charging for parking at athletic events. This week a member of the Traffic Control board reported that the board will follow the recommendation and will take polls and discuss the question with students.

DISADVANTAGES of the proposal brought out by the SGA Parking Lot committee included the suggestion that public sentiment might be against the additional expense. However, no mention was made of the fact that such a move would be extremely unfair to K-Staters who do not wish to, or are unable to attend athletic events but still wish to use the campus parking lots during that time.

Many things go on at K-State on Saturday afternoons in the fall and on basketball night in the winter—besides athletic events. People work, people have meetings, people study (although the Library, too, gives way to athletics by closing during games), and some people just go to the Union for a cup of coffee. But what they do is beside the point, because no matter what it is, they should not be asked to pay a parking lot fee because of an athletic event. Students buy the right to park in campus parking lots from 8 a.m. to 5 p.m. when they buy K-State parking permits. If parking places were charged for at athletic events, the whole process would probably have to be started early in the day of the event, according to Prof. Jacob Smaltz, a member of the Traffic Control board. During basketball season this would not only interfere with some who were not attending the game at night, but with those who wished to park in the lots while going to classes.

LAST FALL 4,206 students bought student football tickets, and so far 5,083 students have bought basketball tickets. This leaves approximately 2,500 students who do not attend football games and approximately 1,200 who do not attend basketball games. If a charge were made for parking during athletic events, these students would be forced to do one of two things—not park on the campus or pay for a parking place which is rightfully theirs (if they get there on time) in the first place.—st

'Smoke Gets in Your Eyes' Tops In Jukebox Plays for Sixth Week

"Smoke Gets In Your Eyes," by the Platters, remains in the No. 1 spot in Manhattan jukebox plays this week for the sixth consecutive week. "Stagger Lee" by Lloyd Price, which last week slipped from second place to eighth spot, has come back up to second place in this week's listings.

"Donna," by Ritchie Valens, is No. 1 in record sales in Manhattan this week. It replaces "Gotta Travel On," by Billy Grammer, which slipped to No. 10 spot in this week's polls. "Petite Fleur," by Chris Barber, and "Lonely Tear Drops," by Jackie Wilson, appears for the first time in the Top 10 as No. 6 and No. 9, respectively. "Smoke Gets In Your Eyes," "My Happiness," and "Sixteen Candles" all have had a decided drop in Manhattan record sales.

THE TOP 10 tunes on Manhattan jukeboxes:

- "Smoke Gets In Your Eyes," the Platters
- "Stagger Lee," Lloyd Price
- "Sixteen Candles," the Crests

DAVID SEVILLE'S new record, "Alvin and His Harmonica," is coming up fast in record sales.

Khrushchev Warns Western World Soviet Troops Not Stationed in East Germany To Play Games'

Compiled from UPI
By JOHN HOKANSON

Moscow—Soviet Premier Nikita S. Khrushchev, in a speech released today, warned that any Western attempt to use force to break through to Berlin by land, sea, or air would be met with force.

He said in a speech at Tula last night that Soviet troops were not stationed in East Germany just to play games.

The Western powers, in notes delivered Monday, rejected Soviet proposals to end the occupation of Berlin. The United States, Britain, and France, also reiterated their determination to "uphold by all appropriate means" their rights of access to West Berlin.

The Soviet government has not yet replied to the Big Three Western notes, which suggested a Big Four foreign ministers conference to discuss the problem of Germany.

Khrushchev warned that if anyone opened fire over Berlin: "This will mean the beginning of the war."

He called for agreement on a peace treaty with Germany and again reiterated that all nations were open to "great destruction" from modern weapons.

Khrushchev derided the idea that another Berlin could save the city if the land routes to the Western sectors were closed.

Khrushchev said that some Western leaders "soberly assessed the existing situation" and referred specifically to Sen. Mike Mansfield (D-Mont.), who called for talks between East and West

Germany on Berlin and reunification.

"Mansfield is just thinking soberly and sensibly," Khrushchev said.

Eisenhower Flies South

Washington—President Eisenhower flies south today for two days of shirt-sleeve diplomacy with the new President of Mexico, Adolfo Lopez Mateos.

After an overnight stop at Austin, Texas, Eisenhower will spend tomorrow and Friday as the guest of Lopez Mateos in Acapulco, a Mexican beach resort.

The two presidents have no fixed agenda of monumental problems to take up with each other; hence no need for platoons of technical experts who usually accompany heads of state when they visit foreign lands.

The informality of the trip is much preferred by Eisenhower, and apparently by Lopez Mateos, to the starchy formality of a conventional state visit where contact between the principals is controlled by the courtly rules of diplomatic protocol.

More Vanguards Planned

Washington—The Space agency charged ahead today with preparations for orbiting three more Vanguard satellites to unlock vital secrets about the sun's activities and the world's weather.

Dr. Homer E. Newell of the National Aeronautics and Space administration outlined new goals as Vanguard II twirled around the globe gathering data on the earth's clouds.

Newell said the satellites are doing experiments Russia has not done in radiation and cloud cover. They also are designed

KANSAS STATE COLLEGIAN
Wednesday, February 18, 1959—2

Quotes from The News

Los Angeles—Dr. John Lyman, of the University of California at Los Angeles, commenting on what his experiments in frozen sleep could mean to man:

"A man suffering from an incurable disease could be put into a frozen state until a cure is found. Or, suppose there is overpopulation or unemployment. People could be frozen until times were better."

Tiffin, Ohio—School bus driver Jesse Osborn telling how he gunned his bus loaded with students across a collapsing bridge:

"I saw one end of the bridge come loose as I drove across. I gunned it and got a third of the bus onto the roadway as the bridge went down. Somehow the rest of the bus followed, but it tore the rear wheels right off the body."

Asia Peace Threatened

Tokyo—The Republic of Korea warned today that the Japanese plan to repatriate Korean residents to North Korea threatens the peace of Asia.

ROK Foreign Minister Cho Cung Whan said that unless Japan withdraws repatriation plans, "the very peace of Asia" would be jeopardized. Under the plan, those Koreans in Japan who wish to go to North Korea in hope of finding better living conditions may do so.

U.S. Ambassador to Korea Walter C. Dowling conferred with U.S. Ambassador to Japan Douglas MacArthur II here today on the deteriorating relations between America's Far East allies.

Details of the talks were not disclosed, but it was known that the United States was disturbed over the increasing seriousness of the situation.

A report from Seoul said David M. Bane, deputy director of the State department's Northeast Asia division, was to arrive in South Korea tomorrow to confer with ROK officials on the dispute.

Cho said further negotiations with Japan were useless until the Japanese government changes its mind about sending resident Koreans to North Korea.

He also objected to Japan's use of the word "repatriation" in connection with the project, claiming it was being used "to cover up the fact that the fate of the Koreans would be forced labor in the terrible communes that Communism is establishing."

Cat Cagers Drop to Fourth In AP Weekly Cage Ratings

Kansas State slipped to fourth in the Associated Press weekly basketball poll this week as previously top-rated Kentucky was jolted down to the No. 3 slot. Nine of last week's top 10 were either jugged or lost their first 10 ratings.

Kentucky's 66-58 loss to Mississippi State last week shook it loose from the position it had held in the AP poll since mid-January.

North Carolina's Tar Heels edged into first place in the poll and unbeaten Auburn moved up into the second position.

Mississippi State took the biggest jump of the week as it climbed from 10th to 5th in the ratings. Two weeks ago the Maroons were in the 11th slot.

The Maroons, who now have a 20-1 season's mark, apparently proved to the sportswriters and broadcasters that they were not to be taken lightly in spite of

their comparatively soft schedule. St. Louis was the only team to retain its position from last week's ratings. It retained its No. 8 ranking after it knocked off Bradley. The poll, however, was taken before Bradley's victory over the Billikens Monday night.

Michigan State, after beating Michigan, regained its place in the top 10 and West Virginia dropped to 11th.

Auburn ran its winning streak to 29 with its 18th straight win this season. The Plainsmen drew 20 first place votes to Kentucky's 15.

The Wildcats, who defeated Notre Dame Saturday, barely edged out K-State for third place honors.

The Associated Press ratings (first place votes and won-lost records through last Saturday in parentheses):

1. North Carolina (38) (16-1)	... 871
2. Auburn (20) (18-0)	... 822
3. Kentucky (15) (19-2)	... 779
4. Kansas State (14) (19-1)	... 711
5. Mississippi State (12) (20-1)	... 613
6 (Tie) Cincinnati (4) (16-2)	... 569
and No. Carolina St. (18-2)	... 569
7. St. Louis (16-2)	... 468
8. Michigan State (1) (13-3)	... 205
10. Bradley (17-3)	... 160

The second ten: West Virginia, Seattle, Marquette, St. Bonaventure, California, Texas Christian, Utah, Oklahoma City, Indiana, and Purdue.

Cat Wrestlers Beat Ft. Hays

The K-State wrestling team won its fifth match of the season and its second straight from Ft. Hays as it defeated the Tigers, 22-6, in a match at Ft. Hays last night.

The Wildcats won six of the eight matches, four by decision, one by default, and one by a fall. Heavyweight Don Darter pinned his opponent in 4:30. Dee Gard, 147-pounder, won his match by default.

Wildcats winning decisions were Darrell Huggins, Riley Miller, Jerry Allen, and Charles Couch.

The Wildcats will host Iowa State on February 28 in their last action before the Big Eight tournament at Stillwater.

The results of the match with Ft. Hays:

123 pounds—Votopka (FH) decision Dooley, 4-2.

130 pounds—Huggins (KS) decision Paxton, 8-3.

137 pounds—Miller (KS) decision Roedel, 12-4.

147 pounds—Gard (KS) won by default over Jackson.

157 pounds Karr (FH) decisioned J. Caster, 6-5.

167 pounds—Allen (KS) decisioned McCloud, 13-0.

177 pounds—Couch (KS) decisioned Jones, 8-1.

Heavyweight—Darter (KS) pinned Leonard in 4:30.

Lane, Clark Winners In Badminton Tourney

Lane Brown, Sigma Chi, and Tracy Clark, Jr. AVMA, won intramural badminton singles championships in the fraternity and independent divisions, respectively, last night in the tournament in Ahearn gymnasium.

Brown defeated Sonny Ballard, Beta Theta Pi, 15-10, 15-10. Ballard was runner-up in last year's tournament.

Clark won over Orival Linder, also of Jr. AVMA, 15-11, 15-13. Linder was also runner-up last year.

Brown and Jim Holwerda won the fraternity doubles title for Sigma Chi by beating Howie

Rice and Bill Mohri, Sigma Phi Epsilon, 15-2, 15-6.

Brown and Holwerda won in the semi-finals over Phil Lukert and Bill Mengeling, Beta Theta Pi, 15-10, 13-15, 15-10. In the other semi-final round, Rice and Mohri beat Kerry O'Fallon and Fred Biederman, also of Beta Theta Pi.

The finals of the doubles in the independent division will be played tonight at 7. Glen Tolman and Greg Wakeman, Vets, will meet Clark and Linder. In last year's tournament, Linder was on the championship doubles team and Clark was on the team which finished second.

Robertson Eyes Record

Oscar Robertson, who established another University of Cincinnati scoring record without drawing a deep breath, today set his sights on one of Frank Selvy's major college marks.

The 6-5 "Big O" became the highest scoring player in Cincinnati history last night when he whipped in 43 points in leading the Bearcats to a runaway 102-73 victory over Miami of Ohio.

Robertson now has totaled 1,612 points in less than two seasons, surpassing the old Cincinnati career record of 1,598, set by Jack Twyman during a four-year term with the Bearcats. His next objective is the major college two-year record of 1,947 points, set by Selvy when he was running wild for Furman five years ago.

In order to even approach that mark, Robertson will have to maintain his current 33-point average in Cincinnati's remaining seven regular-season games. And then he would have to add at least 100 points in the NCAA tournament.

Marquette, meanwhile, became the first team to accept an "at large" berth in the NCAA tournament, while St. Bonaventure accepted a bid to the National Invitational tournament.

Marquette, which has won 17

of 20 games under Eddie Hickey, former St. Louis coach, turned down an N.I.T. bid to join the NCAA field.

Morton Winner Of Cage Picks

Harold Morton, AE Soph, won Monday's Roundball Picks contest with his prediction of a 73-55 K-State win over Oklahoma. The actual score was 75-55.

Morton predicted that Bob Boozer would be the Wildcats' leading scorer with 26 points. Boozer scored only 21.

Of the 49 students who entered the contest, 47 picked the Cats to win the game.

Korinek New President Of Women's Honorary

Carol Korinek, MGS Jr., is the new president of Mu Phi Epsilon, women's music honorary. Other new officers are Jo Ellen Cooley, MGS Jr., vice president; Betty Larkin, MEI Jr., secretary; Jean Harper, MEI Soph., treasurer; Barbara Wenger Strahm, Eng Sr., warden; Leslie Dole, MGS Soph., chaplain; Betty King, MED Soph., chorister; and Martha Evans, MEI Jr., historian. Meta Ann Knecht, district director, was present for installation of officers.

Professional Foods Club

A foreign foods dinner will be presented by the Professional Foods club Thursday, at 6 p.m., in Thompson hall. Food will be cooked by dietetics students and faculty members.

Alpha Phi Omega

Initiates of Alpha Phi Omega will be recognized at a banquet, February 24, at 6 p.m., in the Union main ballroom, according to president, Dick Kice, IE Soph.

A smoker for rushees will be March 3, at 7 p.m., SU 206. All those interested have been invited

to attend the smoker. Refreshments will be included in the evening program.

Senior Recital

Joan Taylor, MGS Sr., mezzo-soprano, will be presented in a senior recital tonight at 8 in the Chapel auditorium.

Miss Taylor is a student of William R. Fischer and a member of the A Cappella choir. She has been a soloist with the choir for four years. Nancy Irvine, MEI Sr., will be her accompanist.

Integrity Party

The Integrity party will have a meeting at 3 p.m. Sunday, at the Tau Kappa Epsilon house, Jack Hamilton, BA Sr., Integrity party president, has announced.

Candidates running for Student Council or interested in running for the Council and all members of the Integrity party who are on Student Council have been asked to attend the meeting.

United Staters

A general meeting of the United Staters Party was last night in the Union in which mem-

bers discussed qualifications for candidates for offices. Possibilities for candidates for student council and president were also discussed.

The next meeting will be February 26 at 7:30 p.m. on the third floor of the Union.

You'll be pleased with a Collegian classified.

Couples Can Apply For Jardine Units

Married students may now apply for reservations in the Jardine Terrace apartments now being built.

Applications for the waiting list will be accepted in the Housing office, according to A. Thornton Edwards, director of housing.

Between now and July 1, 240 new units will be completed in the Jardine area. The rental prices for the new units will be the same as it is for those which are occupied—\$62.50 for a one-bedroom apartment and \$67.50

for a two bedroom apartment. Utilities are included in the monthly rental price.

Married students who live in barracks apartments may also apply for the new Jardine Terrace units.

Although no new assignments will be made to barracks apartments, students living there now will not be forced to move.

The plan, according to Edwards, is to permit those who are living in the barracks to continue living there until finished with school, if they so wish. At the same time, all barracks vacated because of graduation will be sold as they become empty.

...As an RCA Engineer

Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part time at the University of Pennsylvania or Rutgers University.

Or, you may prefer a different path ahead... RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assignments.

Experienced engineers and interested management guide your progress. You may receive assignments in design and development of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in Electron Tubes, Semiconductors and Components. MS, PhD Candidates are eligible for direct assignments in the above mentioned fields.

There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus—

Kansas State Collegian

VOLUME 65

Kansas State College, Manhattan, Kansas, Thursday, February 19, 1959

NUMBER 89

Name Change Bill Gets Tentative OK

UPI—The Kansas House yesterday gave tentative approval and moved up for final passage a bill to change the name of Kansas State college to Kansas State university.

Rep. Charles Arthur (R-Manhattan), sponsor of the bill, said only six land-grant colleges in the nation "have not gotten around to changing their names to university. K-State has six colleges within it. The students want the change."

There was no opposition.

Before the Senate Ways and Means committee Chancellor Franklin D. Murphy of the University of Kansas made a plea for full restoration of his budget requests as well as the \$15 million crash school building program sponsored by the Board of Regents.

Murphy told the Senate committee that he believes the University "now faces a situation far more critical than at any time since I have been at the University."

The Board of Regents proposed a \$15 million "crash" building program to be completed in five years at the five state schools. Five million would go to the University.

Gov. George Docking completely eliminated the building

program in his budget, and also knocked \$2.4 million off the \$48.3 million budget requested by the Regents.

Murphy, asking for the full budget proposals, said "Even with the full appropriation of the Regents' request, we shall still have salary scales and fringe benefits substantially below those to be found in other institutions.

The committee, headed by Sen. August Lauterbach (R-Colby), will hear from representatives of Kansas State college and Emporia State today. Pittsburg and Fort Hays State budgets will be considered tomorrow.

Accused Five To Face KSC Tribunal Monday

Five students accused of violating the College Honor Code in the Aggieville victory celebration will appear before the Tribunal Monday night, according to Herbert Wunderlich, dean of

The students are Anthony Elde Ewert, ME Jr; Charles N. Long, BA Soph; William E. Johnson, Psy Jr; Leonard Tanenbaum, PrV Fr; and Gary Agron, RM Fr.

Buddhist Principles Told By Stater from Thailand

Because it deals with personal conduct more than metaphysics, many people would call Buddhism a philosophy rather than a religion, said Lada Ratagasilorn, HEA Gr, last night.

Miss Ratagasilorn, who is from Bangkok, Thailand, conducted the last in a series of three lecture discussions on Far Eastern religions.

The originator's real name was Siddhartha Gotama. His disciples named him Buddha, meaning blessed one or enlightened one.

Buddha was born and raised in luxury, but as he grew older he was troubled by the hardships in life.

At the age of 29 he left the "worldly life" and went into the jungle for meditation. He tried several schools of theory and many different religious groups but could receive no full satisfaction.

"But finally after an evening of long meditation he became enlightened," Miss Ratagasilorn said, "and decided to share his knowledge with mankind."

Buddhism has four basic principles.

1. Everything in the world is a form of suffering. Life is suffering from birth to death.

2. The cause of all this suffering is that the world is in an unconstant state. There is nothing real—it is all illusion and the hardship comes from holding to this illusion.

3. There is a way out of this illusion, by detachment from the material existence.

4. The detachment can be accomplished by intelligence, moral guidance, and the goal of mindfulness and conception. This sets up an efforts-means-and relationship.

"We do not look upon Buddha as a god," she added. "He was a human who attained a high spir-

itual level. And he never preached that he was a god, he preached only self-help.

"If something is good," she said, "it is heaven; if it is bad it is hell. You can't escape Karma, the law of cause and effect. You can't confess and be forgiven, you must redeem yourself by deeds."

Miss Ratagasilorn pointed out that Buddhism is tolerant of all other religions.

Little UN Kicks Off Tonight; Students Don Native Dress

Students dressed in native costumes, representing 82 nations, will open the Little United Nations tonight at 7:30.

Michael K. Newton, British Information officer from Kansas City, will speak on "A British View of the UN Today." Newton, a graduate of Cambridge, has taught history at the University of Michigan.

George Docking, Governor of Kansas, will give a welcome from the state of Kansas and will introduce Newton. Herbert Wunderlich, Dean of Students, will give a welcome on behalf of the College.

Chuck Wingert, Gvt Sr, will be president of the assembly and Virginia Baxter, Gvt Soph, will serve as secretary-general.

"Approximately 500 students will be participating in LUNA," said Miss Baxter, chairman of the event. Spectators are welcome to attend the sessions of the general assembly tonight and Saturday at 8 a.m.

The students that are participating have studied intensively so they can present the views of the countries they represent. Many of the delegations have also consulted foreign students on campus to get first-hand information about their countries.

Committee sessions will start Friday at 1 p.m. The five committees are political and security; economic and financial; social, humanitarian, and cultural; legal; and trusteeship. These committees will discuss various topics which apply to their areas.

A committee will meet Friday evening to set up the agenda

for the general assembly, Saturday at 8 a.m. The committees will present their resolutions, and discussions will be held on them. The general assembly

will reconvene after lunch for its final session.

For a complete program of Little United Nations turn to page 2.

McGee To Address Assembly Tomorrow

Senator Gale McGee, Democrat from Wyoming will speak on "Foreign Policy, Shades of Rip Van Winkle," at an all-College assembly Friday at 9:30 a.m. in connection with Little United Nations assembly.

McGee, a member of the Senate Appropriations committee, was elected to his first term last November. He exemplifies the trend toward younger men in the Legislature, as he is only 43. McGee was a former history professor at the University of Wyoming.

McGee says he feels that the United States needs a new perspective in attempts to seize the initiative in the "cold war." He took a group of American businessmen through the Soviet Union four years ago.

A coffee hour will follow the assembly in the Art Lounge of the Union.

The usual schedule of shortened classes will be followed. Classes regularly meeting from 8 a.m. to 8:50 will end at 8:35 a.m. Nine a.m. classes will meet from 8:45 to 9:20, 10 a.m. classes will be from 10:30 to 11:05, and regular 11 a.m. classes will be from 11:15 to 11:50.

McGee will speak on "The United States and the United Nations" in the second session of the General Assembly, Saturday morning.

SENATOR GALE McGEE

Queen of 1959 RP To Be Announced

The 1959 Royal Purple Queen will be announced Saturday night, February 28, at the Coronation ball in the grand ballroom of the Student Union, according to Charlene Strah, TJ Sr, editor of the Royal Purple.

The queen was selected by Madison Geddes, president of the National Photographers association on the basis of photographs. The queen will be crowned during the intermission of the dance by C. J. Medlin, graduate manager of student publications.

Tickets for the dance will go on sale February 23 at the Union information desk. The candidates are pictures on page 5.

Pledges Give Skits Tonight

Interfraternity Pledge candidates for king and queen of the Mardi Gras dance will be presented to all pledges of social fraternities and sororities tonight at 7:30 in the College auditorium.

The theme is a take-off on television variety shows. Dick Brummel, Sp Fr, will be master of ceremonies. Each pledge class will present a skit to introduce its candidate. The dance will be tomorrow evening from 9 to midnight in the Union ballroom. Both the dance and the variety show are open to the public.

George Sullivan, Chm Fr, who was not mention in Tuesday's list, is Kappa Sigma's candidate.

QUEEN FINALISTS for the all-College Air Force formal from left: Jan Stewart, Soc Soph; Judy McAlister, Sp Soph; and Brenda Morgan, HE Soph. The queen will be crowned at the formal March 7.

Members of the Arnold Air Society have chosen Jan Stewart, Soc Soph; Judy McAlister, Sp Soph; and Brenda Morgan, HE Soph, as finalists for queen of the all-College Air Force formal, formerly called the Military ball.

The girls were selected from Angel Flight and were judged on appearance, personality, and poise.

The queen will be chosen from the three finalists by a vote of all the AFROTC cadets. She will be announced March 7 during the intermission of the formal.

She will be awarded a traveling silver crown that will be displayed in her sorority house for one year.

The Carl Johnson orchestra from Topeka will play for the dance in the grand ballroom of the K-State Union beginning at 9 p.m. The "Skynotes," the AFROTC dance band, will play during the crowning ceremonies and at intervals throughout the evening.

The dance is open to the public and tickets will go on sale next Wednesday in the Student Union.

Coffee Price Headed For 10 Cents a Cup

WE PREDICT the price of coffee will go up in the Union state room—that is if slogans posted by the Tours committee can be taken seriously.

Apparently K-Staters who frequent the state room have made their choice—to pay cash rather than stash trash, to put someone in a pickle by not picking up their cups and thus not keeping coffee a nickel. Or maybe they have viewed another of the slogans (You can take it with you—please do) and decided that you can't take it with you anyway, so why not spend that extra nickel.

At any rate, we haven't seen much improvement in the state of the state room since the Tours committee initiated its clean-up campaign Monday. According to Diane Watson, chairman of the committee, "The purpose of the program was to make the students realize that if the Union has to hire people to clean up the tables, coffee prices and other food prices will have to go up."

After viewing the state room yesterday, it seems that if the Union is going to keep the tables clean, it will have to hire people to do the work, and consequently will have to raise prices. This is fine with us, but we believe, on the other hand, that if the Union does raise prices, K-Staters have every right to expect a clean state room in the future.—st

Union Director Loren Kottner Begins Fifth Year at K-State

By HELEN SPLICHAL

"Helping to organize a Student Union at Nebraska Wesleyan university when I was a student there started my interest in union work," says Loren Kottner, director of the K-State Student Union.

Kottner celebrated his fourth anniversary as the Union director Saturday. He came here one year before it was completed, and helped with the finishing of the building.

Kottner, who has five main supervisors for the five main departments in the Union—program, maintenance, foods, games, and business—still spends about 50-60 hours a week in the Union, including some Sundays.

His job is largely co-ordinating building operations and programs to provide services and activities to further college education.

Kottner's day at the Union is filled with conferences. Each morning, he has a meeting with the five supervisors to check the Union's activities for the day. After this meeting, he talks to students about their use of the Union and listens to their suggestions for new activities.

Other meetings during the week include conferences with agents about major events to be in the Union, with the chairman of the Union Governing Board, and with faculty members in relation to their departments.

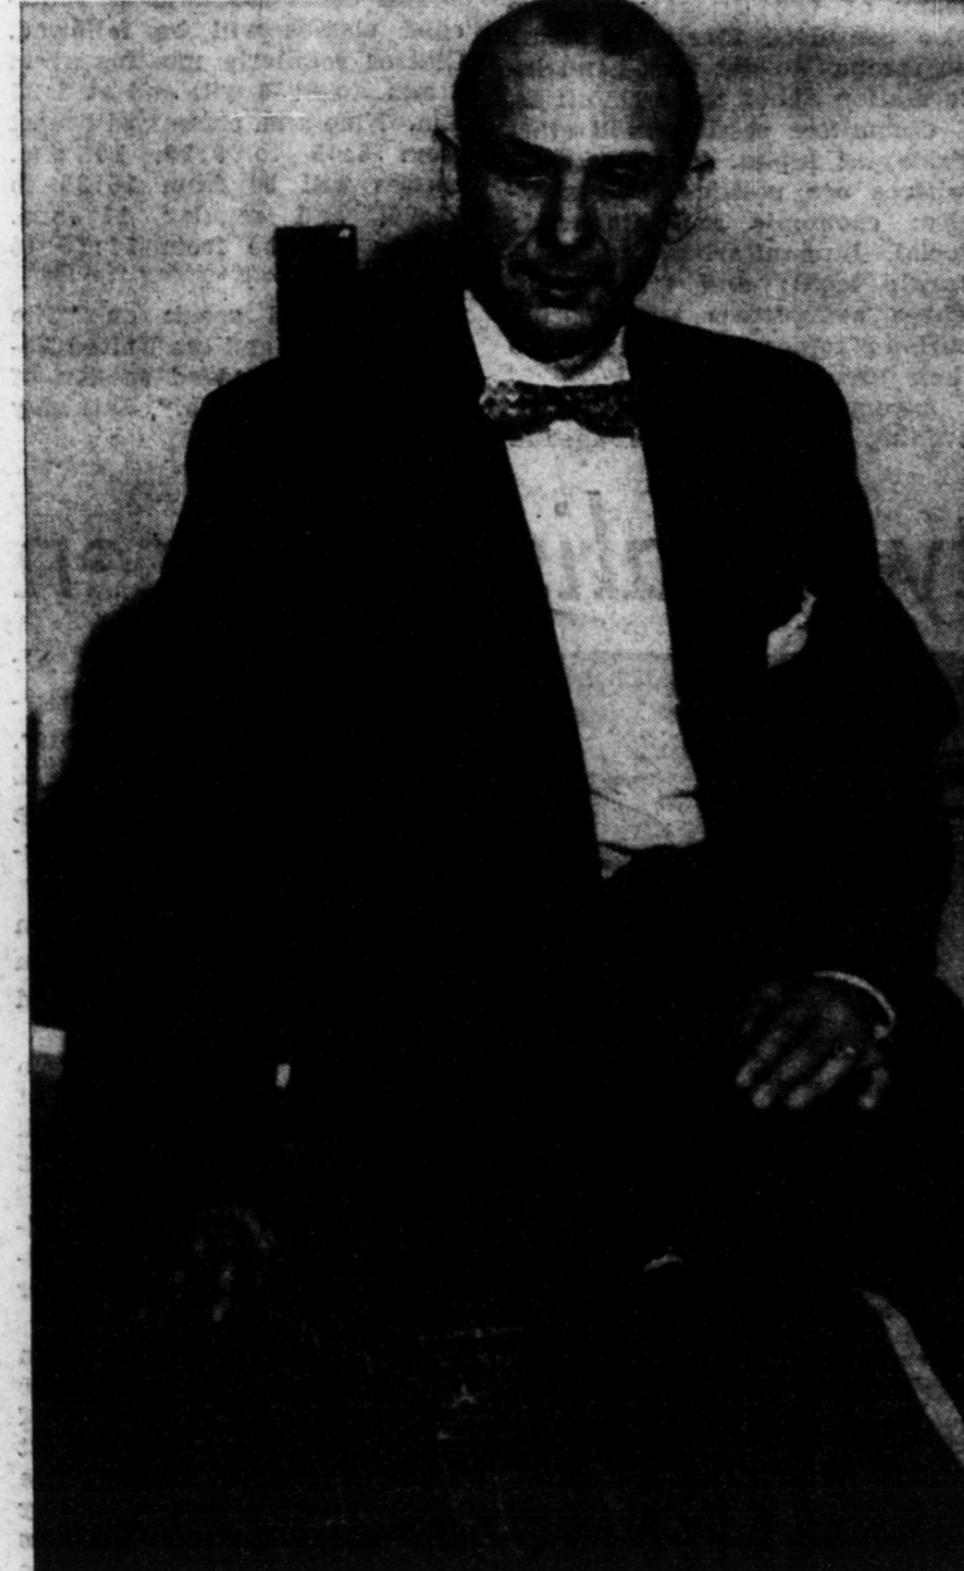

"Program and activity experience that students get from the Union is the justification for a union, because it gives them a chance to practice leadership and responsibility," explains Kottner.

He states that our Union program is considered to be one of the best in the nation. "Not too many unions in the country have been granted an addition as soon as the K-State Union has," he

observes. "This is an indication of the success and use of the Union.

Kottner came to K-State from Washington State college where he was an assistant director of a new union for 4½ years. After graduating from college he worked for the YMCA in Princeton, N.J. He then became Director of Activities at Case Institute of Technology in Cleveland before going to Washington State.

Kottner plans to receive his advanced degree in recreational administration from New York university this summer.

Western Position Will Not Soften, Eisenhower Tells News Conference

Russia from exploiting the illness of Secretary of State John Foster Dulles to gain an advantage in the Berlin crisis.

President Eisenhower made it clear yesterday that there will be no softening of the allied position in the face of Soviet Premier Nikita S. Khrushchev's statement that there would be war if the Western powers tried to shoot their way through a Communist blockade.

Diplomatic quarters interpreted Khrushchev's statement as a Russian attempt to throw a monkey wrench into Allied strategy and present the West with a new challenge while Dulles is hospitalized.

The President told his news conference that Khrushchev "must be talking about shooting to stop us from doing our duty." Eisenhower added:

"We are not saying that we are going to shoot our way into Berlin. We say we are just going

to continue carrying out our responsibilities . . . so that if we are stopped it will be somebody else using force."

House To Trim Aid Bill

Washington — Congressional Democrats decided today to give in to President Eisenhower's economy pleas by cutting back their airport aid program.

Key Democrats forecast the House Commerce committee would trim the Senate-passed 465 million dollar airport plan. Chairman Oren Harris (D-Ark.), who earlier sponsored a 437 million dollar version, was said to be ready to urge the committee to cut it to 380 million dollars.

Democrats, apparently feeling the sting of Eisenhower's "spendthrift" charges, already have cut 100 million dollars from the airport plan in the Senate and 875 million dollars from an omnibus housing bill in the House.

K-Stater Races Snipes; Has Won 30 Trophies

By JOHN PETTERSON

If someone asked you what a snipe was, what would you say? Most people would say it's a bird or a fish. However, if you asked Jack Schwindler, BA Fr, you would get an entirely different answer. As Jack would tell you, a snipe is a class of racing boat.

Jack lives on Lake Lotawana in western Missouri where boating is the major sport for people of every age. "I started boating when I was eight years old. My father raced boats, so it was just natural that I should take up the sport," Jack said.

Since then Jack has received many boating honors. His most prized trophy is the one at Lake Lotawana for having the best season on the lake. Jack won 12

times in 17 races for one of the lake's best records.

Jack can also boast of other honors — approximately 30 trophies plus many merchandise prizes. Among his awards is one he earned in 1957 at Peoria, Ill. for placing third out of 2,000 entries in the National Racing Association's finals in the junior division. In the same year he entered the senior class, and placed 16th among 8,000 boats. Last year Jack was eligible to go to the finals again, but they were being held in New York, and he decided that it was too far and would take too much time from his summer job of selling appliances.

The snipe is 15½ feet long, and cannot weigh less than 425

pounds. These sleek boats glide through the water at about eight to ten miles per hour under an average breeze. They are made of fiberglass, plywood or wood-planking. Jack's is made of spruce planking.

Great attention is paid to the finish, Jack says. "The smoother the finish the easier the boat can slip through the water."

Jack likes sailing, as it gives him many hours of pleasure and relaxation. "As long as I'm near water," Jack says, "I'll sail."

Jack likes boating because as he puts it, "The best thing about racing sailboats as a hobby is that no one is ever so good that he cannot be beaten, and no one is ever so poor that he doesn't have a chance."

THE TAREYTON RING

MARKS THE REAL THING!

THE REAL THING IN MILDNESS...

THE REAL THING IN FINE TOBACCO TASTE!

It doesn't take a FBK to know why new Dual Filter Tareytons have become so popular so quickly! It's because the unique Dual Filter does more than just give you high filtration. It selects and balances the flavor elements in the smoke to bring out the best in fine tobacco taste. Try Tareytons today—you'll see!

Here's why Tareyton's Dual Filter filters as no single filter can:

1. It combines the efficient filtering action of a pure white outer filter . . .

2. with the additional filtering action of ACTIVATED CHARCOAL in a unique inner filter. The extraordinary purifying ability of Activated Charcoal is widely known to science. It has been definitely proved that it makes the smoke of a cigarette milder and smoother.

Striking Color Combinations Featured in Spring Fashions

By MAGGIE SULLIVAN

Variety seems to be the keynote of fashion this spring for college women with the popularity nod going to natural waistlines and Empire waistlines, full skirts and slim skirts, and tiny hats and sailor hats.

Downtown and Aggieville clothing stores are already showing the new styles for spring, and fashion magazines are full of the current trends.

Simplicity of line is prevalent in the new clothes. Shirtwaist dresses will be popular, both in two-piece and one-piece styles. They are being shown in Manhattan in cotton, silk, silk-and-broadcloth, and other materials.

Many shirtwaists feature white collars and are of plain colors, small checks, and prints. Some are straight, while others have full pleated or gathered skirts.

In dressy outfits, suits and suit dresses with unfitted jackets are being shown. Some dresses are made along Empire lines. Others have very short jackets to give the Empire look to an otherwise simple dress.

The waistline is very much in evidence and is often accented with wide three-inch belts and cummerbunds. As part of the

high-waisted look, these belts begin at the waist and extend upward.

Jacket and dress collars are generally broad and fit very loosely around the neck. Flowers and large pins are used a lot with these.

For school, stores are featuring weskits and skirt outfits to be worn with white or contrasting blouses. Overblouses are the only remnants of last year's chemise style that the stores are stocking.

Hop-sacking is a popular fabric this year in addition to the drip dry materials, cotton and silk blends, and pure silks for better dresses.

Color is big news this spring, or more exactly, color combinations. Blue is the predominant color in the forecast in all shades: cerulean, turquoise, hyacinth, and just plain blue.

Fashion authorities are listing green, yellow, and lavender as accents for blue. The greens also come in a variety of hues ranging from mossy-green to sage-green.

Blues and greens are seen combined a great deal in the blurry flower-printed silks. Black and white are still popular, especially

with the new brilliant colors as accents.

Big and little checks and plaids will carry their winter popularity into the spring. The flowered prints for dresses and blouses will be shown more than ever.

Three colors being introduced in one sportswear line sound as though they might have come straight from the kitchen. They are persimmon, a green shade; curry, a dull gold; and paprika, a spicy orange-red.

The shirtwaist influence has inspired a new trend in jewelry. Instead of the rope necklaces of last year, the open neck of the shirtwaist dress will be filled with a bib of crystal or pearl beads. Initialed jewelry is expected to be popular also.

To the joy of most of the male population, the "sack" look is definitely out. The unfitted dresses have given way before the storm of criticism they raised.

Shoes with pointed toes will continue in style throughout the summer and into the fall. The only change will be in the heel shape. The little, short heels will be more popular than ever. Hemlines will be a little longer than the extremely short style of last year.

LOOKING FORWARD TO SPRING, Elaine Arnote, EEd Sr., examines a shirtwaist dress in one of the local stores. This style will be a fashion leader on the campus in a few months. The most popular shirtwaists will be made of drip-dry materials in all shades of blue and green. Prints will be used a great deal.

Greeks Elect New Heads for Future

Newly elected officers of Delta Delta Delta for the coming year are Maryanne Keller, TxC Jr., president; Harriet Harwick, EEd Jr., vice president; Harriet Tedrow, TxC Jr., recording secretary; Caroline Davidson, EEd Jr., corresponding secretary; Virginia Taylor, SED Jr., treasurer; Alyce Lambert, ML Soph., marshall; Linda Merritt, EEd Jr., chaplain; Joanne Jacobs, BA Jr., rush chairman; Marilyn Hetzer, Mth Soph., recommendations chairman; Juanita Wille, EEd Soph., service projects and fraternity education chairman; Vicki Merrill, BA Soph., formal social chairman; Judy McAlister, Sp Soph., informal social chairman; Joyce Rector, TJ Jr., house manager; Rosie Austin, EEd Jr., songleader; Shirley Oveson, SED Jr., scholarship chairman; Diane Coufal, BA Soph., sponsor's chairman; Marty Horstman, SED Soph., program chairman; Dee Baker, EEd Jr., activities chairman; Carole Gaede, TxC Jr., and Marjorie Suelter, BMT Soph., publicity chairman; Jones, HT Soph., librarian; Mateele Blessing, Art Fr., historian; Mary Sue Schroeder, Gvt Soph., senior Panhellenic representative; Jacquie Johnson, PEW Soph., junior Panhellenic representative.

New officers of the Lambda Chi Alpha pledge class include Robert Austin, Sp Soph., president; Gail Anspaugh, PrV Fr., vice president; Galen Siemers, BAA Fr., secretary; Norval Bixby, BA Fr., treasurer; Neil Howell, PrL Fr., social chairman; Dan Wilkerson, Ar 02, rush chairman; Phil Wilkins, CE Soph., Interfraternity Pledge council representative; Richard Powell, Ch Fr., IPC alternate; and Jim Burkholder, PrV Fr., sergeant at arms.

Sports At a Glance

By Gary Vacin

Things were looking up for the long-suffering football fans at K-State last September 20. The Wildcats had just won their first season's opener in four years by beating Wyoming.

The question running through everyone's mind: How many football games will K-State win this year? Some optimists went as far as to predict six victories for the Wildcats.

The Cats then lost to Colorado and were upset by Utah State, but came back with a win over Nebraska at Lincoln. Their record was now 2-2, and their first winning season in four years was still a definite possibility.

Then the roof caved in. Missouri came to town and beat K-State in its Homecoming game. The Wildcats could win only one of their remaining five, and finished up with another losing record, 3-7.

Although there was a lot of strong feeling against Bus Mertes, K-State coach, he was awarded a new contract.

The losing football season was then forgotten, and interest was centered on the basketball court, with the Wildcats again rated among the nation's best.

Then, in January, Pat Naughton resigned his post as line coach to take a similar position at Marquette. This move was a surprise to many people, but not much was said about it.

Bob Reynolds, backfield coach, was the next to check out. His resignation was announced on February 6. Reynolds will return to his former job as coach at Morton high school in Cicero, Ill.

"Any high school coach wants to coach at college," said Reynolds when he arrived here last spring. However, his resignation would seem to indicate that his views have changed somewhat.

Last week, the Athletic department announced the resignation of still another assistant coach, Ed Cavanaugh, who will coach next year at Arizona university.

So Bus Mertes is still head coach at K-State, but three of his assistants are gone. It was a short stay for Reynolds, who was here only one year. Cavanaugh coached the varsity only one year, following three years as freshman coach. Naughton joined the K-State staff in 1955, the same year as Mertes. It appears to us that their removal was due to friction on the staff.

Either Mertes was fed up with the aides and had them removed, or they got tired of Mertes, and football at K-State in general, and walked out.

The Athletic department has announced the appointment of Bill Walsh, assistant to Terry Brennan at Notre Dame last year, and Corky Taylor, former K-State gridiron, as assistant coaches. One position is still vacant.

The signing of Walsh and Taylor does brighten the football picture somewhat, but we feel only an improved showing next fall will satisfy the football fans at K-State.

Clark, Linder Win IM Badminton Title

Tracy Clark and Orival Linder, Jr. AVMA, won the intramural badminton doubles championship in the independent division by beating Greg Wakeman and Glen Clark, Vets, last night in Ahearn gymnasium.

It was Linder's second straight year on the winning independent doubles team. Last year he and Bob Cleveland defeated Clark and Phil Lukert for the championship. Both teams were from Jr. AVMA.

Tar Heels Near Title By Beating NC State

By UPI

North Carolina's top-ranked Tar Heels have hurdled their last major obstacle on the way to an unbeaten season in the tough Atlantic Coast conference, and can take another crack at the NCAA championship.

Frank McGuire's sharpshooters turned back arch-rival North Carolina State, 74-67, on their home court last night and can clinch a tie for first place in the ACC by defeating Maryland Saturday.

However, unlike most conferences, winners of the Atlantic Coast title do not qualify automatically for the NCAA. The first eight finishers meet in a post-season tournament, which was described by McGuire earlier this week as "a kinda Russian roulette."

The Tar Heels have lost only to Michigan State in 18 games and seem to be picking up momentum with each succeeding contest.

Kentucky and West Virginia, two other leading NCAA hopefuls, also turned back long-time foes last night. The third-ranked Wildcats avenged an earlier defeat in whipping Vanderbilt, 83-71, and West Virginia broke loose in the second half to defeat Pittsburgh, 90-69.

Texas Christian edged Rice, 68-64, and can clinch a tie for the

Wildcat Swimming Squad To Meet Gorillas Today

Coach Bill Thrall's K-State swimming team will meet the Pittsburgh State Gorillas in a dual match this afternoon at Pittsburgh.

It will be the second meeting of the two teams this season. The Wildcats won the earlier meeting.

Thrall is optimistic about his team's chances against the

Gorillas. "We should win both relays and that would give us a 14-point advantage," he said.

"Dave Hinderliter wasn't on the squad the last time we met Pittsburgh State," said Thrall, "so his presence will give us still more advantage."

Craig McNeal, who has missed the last few meets because of illness, will return to action today. His return will greatly strengthen the relay teams.

Bob Graham Plays Big Role In Wildcats' Bench Strength

By JOHN PETTERSON

Although not in a starting role, Bob Graham, 6-3 sophomore forward, has seen considerable action for Tex Winter's Wildcats this year. His play has helped make the Wildcat bench the strongest in the league.

"Graham has been a great help to us this season and has given us a boost when we have called on him," said Winter.

Scholastically, Graham is a junior in commercial art. Since he missed last year due to a knee injury, he is still a sophomore eligibility-wise.

Just before the Indiana game last season, Graham twisted his right knee in practice while rebounding. The knee bothered Graham all year, and it was operated on at the Kansas university medical center last summer.

"Although Bob was handicapped a great deal of this season and got off to a slow start, he is regaining the form that he showed prior to his knee operation," Winter said.

The Wildcat coach added that Graham is "over the hump with

Knicks, Lakers Win Cage Tilts

By UPI

The New York Knickerbockers and the Minneapolis Lakers took hammerlocks today on second place in their respective divisions of the National Basketball association.

The Knickerbockers, paced by a brilliant fourth-period performance by Richie Guerin, defeated the Cincinnati Royals, 118-116, last night while the Lakers, aided by the high scoring of Larry Foust and Elgin Baylor, beat the Detroit Pistons, 105-95.

The Knicks' victory gave them a 5 1/2-game lead over idle Syracuse in the battle for second place in the Eastern division. The Lakers now lead the Pistons by three games in the Western division.

his knee," and will be ready to shoulder more of the load during the remainder of the season.

"I think the best team we have played against this year is Brigham Young," said Graham. He doesn't think, however, the Cougars

ars are always as rough as they were against K-State. "They were just up for that one," Graham said.

Graham thinks the best player he has faced is Brigham Young's Gary Ernest, who led the Cougars in their upset over K-State.

Graham attended William Crisman high school in Independence, Mo., where his coach was Travis Hopkins. The Wildcat reserve lettered three years in both basketball and track and one year in football. With Graham as one of the team's standouts, William Crisman won the conference championship in the 1955 season and Graham was named all-conference and honorable mention all-state forward.

Graham believes Kansas State has a good chance of going all the way in the NCAA tournament. "We should be able to come out on top, especially if we can play like we did against Oklahoma and Colorado here," he added.

BOB GRAHAM

Boozer Top Cat Scorer

Although scoring only 21 points against Oklahoma Monday night, Bob Boozer remained the top K-State scorer by a large margin.

Boozer has hit 182 field goals and 164 free throws for 528 points and a 25.1 average. He is also the leading Cat rebounder with 235 for an average of 11.2.

Reserve Forward Mickey Heinz leads the Wildcats in field goal accuracy, hitting 14 of 28 for 50 per cent.

Leading the team in free throw percentage is Jim Holwerda, who has hit 18 of 22 for 82 per cent.

Cosmopolitan Club

Membership cards for the Cosmopolitan club are on sale now at a booth by the Union information desk. Tomorrow is the last day students may buy them, according to Kay Insley, BA Soph, publicity chairman.

Nursing Club

Pat Knight of the Nursing club will receive \$10 for her promotional talk on home economics. Her speech won the K-State contest and will now be sent to the state contest. The check will be presented to Kay at the Hospitality Day kickoff, March 12, in

the Student Union Little theater.

Collegiate 4-H Club

Collegiate 4-H club will meet tonight at 7 in Nichols gym, according to Carolyn Pickens, HT Jr., reporter for the organization. Recreation and dancing will precede the meeting which will be at 8 p.m.

Prof. Helm Speaks

John F. Helm, professor of architecture and allied arts, is speaking to about 50 Topeka high school students today at their Vocational Day. Professor Helm will discuss aptitudes for an art-career and professional opportunities for art graduates.

Civil Engineer Trip

Twenty civil engineering seniors will tour the State Highway office in Topeka, Monday. The trip is an annual affair.

Foreign Menu on Tap At Foods Club Dinner

Foods representing about 15 countries will be served at the annual Foreign Foods dinner, sponsored by the Professional Foods club, tonight at Thompson Hall. The foods are prepared and served by the club members, Quantitative Cookery class, and some of the staff members.

Meat dishes on the menu include sauerbraten from Germany, chicken pilaff from the Orient, and shrimp remoulade from France.

Vegetable dishes are French peasant potatoes, Spanish green beans, German carrots, Russian beets, Florentine broccoli, Oriental cucumber carrot bowl, Mexican guacamole, Swedish green top salad, and Danish stuffed cabbage.

Assorted breads, relishes, and cheese from various countries will be served with the main course.

Even the drinks will be different—Puerto Rican coffee and Jasmine tea.

Kansas State Collegian

VOLUME 65

Kansas State College, Manhattan, Kansas, Friday, February 20, 1959

NUMBER 90

Opening LUNA Session Welcomed by Governor

Photo by Bart Everett

A TURKISH DELEGATE TO LUNA Bill Dawe, Eng Jr., stands to vote on an important motion. His two table companions seem engrossed in proceedings on the other side of the assembly. LUNA meetings will also convene today and tomorrow.

Regents Bargain For 'Crash' Bill

UPI—The State Board of Regents yesterday laid before the Legislature the first detailed compromise proposal for a "crash" building program at the state's colleges and university.

In testimony before the Senate Ways and Means committee, the Regents asked for \$17 million over a four-year period to finance the construction of new classrooms and campus buildings.

This would require a \$5 million appropriation from the state. The remaining \$12 million would come from the $\frac{1}{2}$ mill edu-

tional building fund levy, now earmarked for schools.

The proposal represented a trim from original thinking of the board, which had suggested, although it never spelled it out, a \$17 million plan for three years. This would have required \$8 million in state funds.

Regent member Claude Bradeney, Columbus, contended the state treasury would have adequate funds in light of the fact the Republican majority appeared to have no intention of repealing the $\frac{1}{2}$ per cent sales tax increase, which produces \$13 million a year revenues.

Gov. George Docking asked for its repeal, and built his budget on the premise it would be repealed.

The Governor did not grant any funds for a "crash" program for the Regents.

KS To Hear Movie Critic

Besley Crowther, New York Times film critic and motion picture editor, will speak on "The Changing World of Movies and Television" at an all-College assembly Monday at 9:30 in the Auditorium.

Crowther will replace Stephen Potter, who was unable to attend because of an attack of pneumonia, according to A. L. Pugsley, chairman of the Assemblies and Forums committee.

Crowther received the first annual award of the Screen Directors' guild for distinguished criticism in the United States.

A coffee hour will follow the assembly in the lounge of the Union.

Shaw Chorale To Give Show For K-Staters

The Robert Shaw chorale and orchestra will present a concert tomorrow at 8:15 p.m. in the Auditorium. It is being presented under the auspices of the Manhattan Artist Series.

The Shaw group includes 30 singers. It is now in its eleventh year of uninterrupted activity. The group has appeared in every state in the United States except South Dakota and Nevada, and has toured 20 countries in the Middle East and Europe.

Approximately 500 students from 30 K-State organizations and two other schools opened the first Little United Nations assembly last night in the Union.

The delegates represented approximately 80 nations.

Gov. George Docking, in welcoming the delegates, said he thought the State Senate would pass the college name change bill "rather rapidly." Yesterday the House voted 109-0 in favor of it.

"It's nice to be at what will right shortly be Kansas State university," Docking concluded.

Michael K. Newton, British Information officer from Kansas City, was the guest speaker.

French trench coats and berets, Chinese kimonos, Japanese parasols, and Saudi Arabian robes and turbans were some of the costumes delegates wore to signify the traditions of the countries they represented.

Students from Pratt Junior college and McPherson college represented South Korea and West Germany.

St. Benedict's college, representing Switzerland, Hutchinson Junior college, and Washburn may attend today. The latter two have not been given countries.

Approximately 150 spectators sat in on the session, among them a group from Delta Sigma Phi fraternity representing the Chinese People's Republic.

Five LUNA committees will

meet in the Union from 1 to 5 this afternoon.

Committees and their suggested agendas:

Political and Security committee—the situation in Hungary, unification of Korea, Berlin situation and unification of Germany, and disarmament.

Economic and Financial committee—technical assistance, liberalization of international trade, and budget of the UN.

Social, Humanitarian, and Cul-

tural committee—atomic radiation and peaceful use of atomic energy, human rights, inter-race relations, and bacteriological warfare.

Legal committee—representation of China, UN and emergency force, control of outer space, and internationalization of world waterways.

Trusteeship committee—question of southwest Africa, and progress in UN agencies in non-self-governing territories.

Newton Tells Gist Of World Trouble

The principle source of world trouble today is not caused by Russian-U.S. relations, but by relations between the healthy people of the world and those who are hungry and ill, said Michael Newton, British information officer from Kansas City, in an address at the LUNA general assembly last night.

"We as the rich, industrial nations provide markets for the 'have not' nations," Newton said. "In that sense, their prosperity is tied up with ours. To escape this dependence, many of these nations are attempting to create their own industries."

"In their will to advance from

poverty to economic independence, the people of these countries will adopt those political and economic policies which will guarantee them the quickest returns.

"Today and increasingly in the future these people come and will come knocking at our doors with cheap goods to sell. What will be our response? The closed door of protection, or the opportunity to trade?"

Newton said one of the oldest questions in history is that which Cain asked: "Am I my brother's keeper?"

"Before the day when there will be 200 million Americans here, there will be one thousand million Communists between the iron curtain and the Pacific Ocean," Newton concluded. "Who then will call us brother?"

Staters May Attend Leadership School

Freshmen and sophomores with a grade average of 2.5 or more, interested in attending leadership training school, may now apply. Applications are being accepted in the SGA office until February 27.

Acceptance to the program will be based on the application and an interview, according to SGA Leadership committee chairman, Vash A. Rumph, Ec Gr.

No limit will be placed on any organized house as to the number of applicants accepted in the program.

Under the direction of Dr. Charles Goetzinger, the program will last about six weeks, starting March 17. The meeting place will be announced later.

The program has been revised with the hope of "making it better than ever," says Rumph. One of the changes this year is a reduced number of participants.

The school will be limited to 35 students this year, whereas, last year the program included 100. With this smaller number, students will make more of the decisions about the type of problems they wish to consider.

Photo by Don Dailey
SENATOR GALE McGEE, (D-Wyo.), spoke to K-Staters this morning in connection with LUNA. McGee discussed U.S. policy towards Red China.

Our Congratulations to LUNA

-A Really Worthwhile Activity

LAST NIGHT, what we believe to be one of the most valuable extracurricular activities we have seen at K-State, opened on a colorful note in the ballroom of the K-State Union—the Little United Nations assembly.

Recently there has been much talk of the value of student activities at the College. Student Council has set up a committee to evaluate student activities on campus. Don Hoyt of the Counseling center will soon be doing research to correlate students' aptitudes, academic achievement, and activities. This research is a result of discussion among the dean and associate deans of students and other campus administrators who are concerned over the matter of student activities.

The Little United Nations assembly, sponsored by the Political Science club, is an example of the type of "extracurricular" activity from which students can really

profit. This is no borderline case. Many students, through working with this activity have become well-versed in the workings and procedure of the UN. Students who have been assigned to represent the 82 nations of the UN have been studying intensively the countries which they represent to enable themselves to accurately express the views of these countries. Many groups have invited foreign students to help inform them of the country they represent. This has not only been valuable to education but to understanding.

THUS WE BELIEVE students participating in LUNA have gained as much or even more than they might have from a comparable time spent on curricular activities, plus a lot of excitement and a good time. So to students, faculty, and administrators who instigated, planned, and backed the Little UN assembly—congratulations.—st

World News

Mexican Welcome Pleases U.S. President

Compiled from UPI
By JOHN HOKANSON

Acapulco, Mexico—President Eisenhower and Mexican-American relations thrived today on a lavish diet of "Amistad"—the Spanish word for friendship emblazoned on trees, light poles and the rooftops of small native homes here.

Seldom has Eisenhower been more pleased by his reception in a foreign country as he started the second day of his whirlwind visit to this Mexican Riviera as the guest of President Adolfo Lopez Mateos.

The serious side of their conversations dealing with such weighty items as the United States import quotas on lead, zinc and coffee, and possible American financing of the new Diallo dam on the Rio Grande were necessary adjuncts of diplomacy.

But what seemed to please Eisenhower more was the genuinely enthusiastic reception he received.

Dulles Begins Therapy

Washington—John Foster Dulles will be wheeled through a one-ton lead door today to face

massive x-ray therapy that could stop the spread of his abdominal cancer.

On the outcome of the treatment from Walter Reed Army hospital's million-volt x-ray machine hinged Dulles' future activities as Secretary of State.

No "cure" is considered probable. Rather, physicians were hopeful the radiation therapy which begins today could arrest the disease.

Atlas Missile Explodes

Cape Canaveral, Fla.—A fuel-laden Atlas ICBM exploded like a huge oil storage tank early today on what was intended to be another 4,800-mile test hop to the South Atlantic.

The 100-ton Atlas, which has been chosen to boost the first manned space capsule into orbit, completely disintegrated in a white-hot splash of flame that rivaled the moon overhead in brilliance.

The air force said the blowup was caused by a malfunction which occurred at 12:41 a.m. EST, after the 80-foot war rocket's two powerful booster engines separated and began a long plunge into the ocean.

LITTLE MAN ON CAMPUS

Quotes from The News

Rockland, Mass.—The sister of Capt. Samuel B. Nikerson, skipper of the tug that rescued eight survivors of the plane crash in New York City's East River, telling of a nervous collapse he suffered five days after the crash:

"He kept worrying afterward that he might have saved more had there been more time and more rescue boats."

Chicago — The Rev. Karl Baehr, director of the American Christian Palestine committee, saying Arab refugees cannot go back to their homes in Israel and should be resettled elsewhere:

"It would be better than pushing them back into another culture which they have been taught to hate."

Melbourne, Australia — Billy Graham answering a question on whether those who made a dedication to Christ at his rallies kept their commitment:

"Unfortunately, no. But we are told by Our Lord that not all seed sown brings forth good fruit."

Over the Ivy Line

Is Your Throat Dry? Cracked?

By Margaret Cooper

CAN YOU CHUG THIS? This headlines in the Arizona Wildcat summoned the attention of all campus consumers. Beneath the bold type was the welcome news that a replacement had been found for the "common coke, the drab lemonade, and the disheartening hot chocolate." Suicide Swizzle is a new power-packed highball containing two shots each of lime, lemon, cherry, chocolate, vanilla and strawberry syrup mixed madly with coke, root beer, and Dr. Pepper. The article ended with the warning that reaction time was 20 minutes.

A RECOMMENDATION was made by an Oregon State college student to the Daily Barometer that a column entitled "Unpinning" be added to the society section. Because many pinning last only for a few weeks or months, the writer felt that the section would be very worthwhile. The names of those men and women who are "open game" would be made known, and the embarrassment that could result might stifle some of the never-meant-to-be-serious ceremonies.

WHAT'S BETTER than a good old gooey, sticky peanut butter sandwich? Nothing, say the Oklahoma Daily from the University of Oklahoma. Gamma Phi Beta at OU consumes about five pounds a month. The indispensable jar of foodstuff is on the

Readers Say

State Room Employees Apathetic Providing Space for Cups, Dishes

TO THE EDITOR:

Recently there has been a "big push" in the Union state room for students to clean up their cups and plates and put them in the trays provided.

This is all well and good and we would like to give a cheer for the person or persons who are finally doing something about the "UMOC." However it seems the employees don't give a hoot what happens to the dishes after they get in the trays. We have seen many people try to clean their table of cups but cannot find a place to put them. All you see is a mountain of cups with no more available spaces.

We think that if the students are as willing to co-operate as they seem to be, it should be the employees' duty to keep empty trays available as much as possible.

Bill Siebert, FT Jr
Errol Parthmer, Psy Fr

Editor:

The Little United Nations assembly is a farce. This is a view that is shared by many we have talked with after the first meeting last night.

We hope this statement is taken as a warning. It isn't a feeling of mutuality that the LUNA should stop, and we hope it won't. The irking situation is that our "well-versed" parliamentarians, who headed a few of the delegations from some of

the countries, seem to think this is another course in parliamentary procedure.

When LUNA was organized, unless we are misinformed, it was designed to inform the student of a few of the actual U.N. procedures. We thought it was to show all students their responsibility to world government and to afford them the opportunity to take a vital part in one facet of what has been referred to as an "American obligation."

Once again, the fault does not lie in the president, but in a few individuals who think that this was designed for them, to allow them to display their "extensive" knowledge of parliamentary procedure. We think it should be a duty of the president to conduct the next meeting of the General assembly in such a manner as to allow more vital business to come before the floor, or the LUNA program is going to die in the "bog" of parliamentary procedure, and hence will be a miserable flop.

Students Like Contact Lenses For Appearance Plus Ease

By SARA SCHULTZ

If you are among those who spend much of their time looking for misplaced glasses or cannot stand the sight of themselves in the mirror with them on, contact lenses might be the answer for you.

Appearance and convenience are two of the main reasons that contact lenses are becoming more popular everyday.

"I no longer look like a raccoon with white circles around my eyes when I get my summer tan," commented Jane Rogers, ML Fr.

People with contact lenses are relieved of the constant worry about breaking or damaging glasses frames.

Although contact lenses are expensive at first, \$125 to \$200 plus \$10 to \$15 for insurance, they frequently save money in the long run. The prescription does not have to be changed as often and frames do not have to be purchased.

The only disadvantage seems to be building up wearing time. This process usually takes from 10 to 12 days. The lenses can be worn only for three or four hours the first day.

Since the eye is not accustomed to having a foreign object on it, it will tear. The wearer will tend to squint at first and find it difficult to look at light.

Each day, another hour is added to the wearing time. After wearing time has been built up, the lenses can be worn during the entire day.

The eyes and lenses are checked for irritation every week for the first month. Gay Missildine, EED Fr, recommended that anyone planning to get contact lenses should do so during the summer. She explained that it is hard to build up wearing time during the school year.

The lenses are not hard to put in the eyes. They must first be placed in an antiseptic, and then rinsed in water. The disk is then placed on the finger, the gaze is directed down, the eyelid is

lifted, and the disk is placed on the eye.

The lens can be removed by lifting the eyelid and winking. They should not fall out, although they may be off center at first.

The lenses, which are tinted the color of the eye, have their own case with a separate side for each lens. The lenses seem to be less noticeable on brown eyes. Since they are tinted, they do not make the person wearing them look glassy-eyed.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and, "Barefoot Boy with Cheek.")

THE GIRL I LEFT BEHIND ME

It happens every day. A young man goes off to college leaving his home-town sweetheart with vows of eternal love, and then he finds that he has outgrown her. What, in such cases, is the honorable thing to do?

Well sir, you can do what Rock Sigafoos did.

When Rock left Cut and Shoot, Pa., he said to his sweetheart, a simple country lass named Tess d'Urbervilles, "My dear, though I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyeballs parch and wither, may my viscera writhe like adders, may the moths get my new tweed jacket!"

Then he clutched Tess to his bosom and planted a final kiss upon her fragrant young skull and went away, meaning with all his heart to be faithful.

Frog Club Show Features Colors

The first performance of "Splashes From a Paintbox," was presented by the Frog club last night in the men's pool in Nichols. About 60 persons attended the show.

The acts told the story of an artist and his work with colors, with each act interpreting a color. All the acts were choreographed by the 25 members who participated in the show.

The songs featured in the show were "Little White Lies," "Greensleeves," "Mood Indigo," "Red Wing," "Deep Purple," "Golden Slippers," "Black Magic," "Blue Danube," "Little Brown Jug," "Yellow Rose of Texas," "Silver

Lining," and the finale "Over the Rainbow."

The second performance will be given tonight at 8 in the men's pool in Nichols. Admission is 50 cents.

MS, PhD Candidates Meet Next Thursday

Candidates for advanced degrees at the May commencement will meet in the Memorial chapel next Thursday, February 26 at 5 p.m.

Novy Named Chairman Of 1959 Vet Open House

Lowell Novy, VM Jr., has been named chairman of the 1959 Veterinary Medicine Open House which will be next October 24.

Committee chairmen for Open House include George Ross, VM Jr., public relations; Bob Torrence, VM Soph., pathology; Dan King, VM Jr., publicity; Chad Clark, VM Soph., physiology; Gill Wright, VM Jr., education; Hugh Schantz, VM Jr., finance;

Tom Knappenberger, VM Fr., routing; Frank McLaughlin, VM Fr., anatomy; Stan Johnson, VM Jr., surgery and medicine; and Al Davis, VM Jr., program.

Bridge Tourney
A practice bridge tournament is scheduled tomorrow in banquet room A of the Union from 1 to 5 p.m. according to Bill Harrison, ChE Sr.

The session will be devoted to practice for the National Inter-collegiate Bridge tournament

March 14. Each person may bring a partner.

Latin American Students

Latin American students from K-State plan to participate in a seminar at St. Benedict's college, April 17, 18, and 19. The Latin American Seminar is being sponsored by the National Newman club Federation—Central States Province, and the National Federation of Catholic College Students—Mid West Region. It will include students from Kansas, Missouri, Nebraska, and Oklahoma.

Collegiate FFA
The Collegiate Future Farmers of America will have its charter meeting Tuesday at 8 p.m. in Seaton hall, 143.

IFC
Interfraternity Council will meet Monday at 7 p.m. in the

Alpha Kappa Lambda fraternity house.

Farm Mechanics Contest

More than 30 prizes will be awarded to winners of the annual Farm Mechanics contest tomorrow in the Ag Engineering wing. The contest is open to all college students.

The first event will start at 9:30, the second at 12:30. Each event will have a junior and senior division.

The four phases in the contest are farm machinery, farm carpentry, tool conditioning, and welding. The winners of each phase will receive awards which are valued at more than \$10 each. Prizes for the overall winners are worth more than \$20 each.

The contest is sponsored by the Agricultural Education club as a non-profit project.

Costumes, Speakers, Politics Provide Color for Little UN

Photos by

Bart Everett

Some 500 students from 30 organizations represented the countries of the UN.

A show of hands indicates the assent of delegates to a motion.

France was there . . .

. . . and so was China.

Governor George Docking:
"It's nice to be at what will
right shortly be Kansas State
university."

Michael Newton, British Information officer: "Who then will call us brother?"

Recording secretary Jody Goetsch takes a breather as the assembly recesses for some politics. A few delegations were finding it necessary to line up some backing.

K-State Cagers Meet OSU In Televised Tilt Tomorrow

Needing just two more wins to clinch the Big Eight basketball title, the K-State Wildcats will meet the Oklahoma State Cowboys tomorrow at Stillwater in a game to be regionally televised. Game time is 2 p.m.

The Wildcats, winners of 10 straight conference games, can assure themselves at least a tie for the championship by winning tomorrow.

Despite K-State's impressive record, Coach Tex Winter, feels the Big Eight race is still on. "Sure, we have won 10 league games in a row, and we are very proud of that record," said Winter, "but to consider the championship won is to be premature."

"It's not won until it's won. Remember last season. We had won 10 straight then, too. Then we dropped the last two, but it didn't matter. Now our 10-0 record doesn't sew up anything."

It will be the second meeting of the teams in the last eight days. The Wildcats beat the Cowboys, 60-49, here last Saturday. Oklahoma State, following

Monday night's 59-54 win over Iowa State, is sixth in the Big Eight with a 3-6 record. Overall, the Cowboys are 9-11.

Tex Winter feels the game tomorrow will be one of the sternest tests of the year for his Wildcats. "I have studied the films of Oklahoma State's play," he said. "They are good—much better than a lot of fans rate them. My conclusion is that our best performance of the season may earn us a win, but even that may not be good enough."

The Wildcats' Bob Boozer and Oklahoma State's Arlen Clark, the league's top scorers, respectively, will continue their dual started in last week's game. Boozer had the edge in that contest, scoring 27 to Clark's 20.

The game will also feature the meeting of two of the league's finest little men, Don Heffington of the Pokes and Don Matuszak of the Cats. "Heffington is a very fine defensive player," said Winter. "He did a great job on Matuszak last week."

Three Big Eight Teams Battle for Second Place

Although K-State can clinch a tie for the Big Eight championship by beating Oklahoma State tomorrow afternoon, a three-way battle is being waged for second place by Colorado, Kansas, and Oklahoma.

Colorado presently has undisputed possession of the spot with a 6-3 record, while Kansas and Oklahoma are tied for third with identical marks of 5-4. All three teams meet second division opponents tomorrow night.

Kansas begins a four-game home stand by hosting Nebraska. The Jayhawks surprised the Cornhuskers at Lincoln just one week ago, handing them their second home-court defeat in their last 14 games.

The Cornhuskers have fallen to 3-5 in Big Eight play, and must win tomorrow night if they are to stay within hailing distance of the first division. They have never won in Allen field house, scoring their last

Lawrence victory in old Hoch auditorium in 1955.

Colorado will be on the road, carrying its second-place hopes to Iowa State. The Buffaloes beat Iowa State at Boulder, 73-64, but had to go down to the wire before pulling away.

Two of the Buffaloes' top forwards are nursing injuries. Mick Mansfield re-injured his shoulder and is on the doubtful list for tomorrow night. Jerry Olson is hobbling with a strained back and saw only limited action Monday against Kansas.

Oklahoma will take on Sparky Stalcup's invigorated Tigers, who are fresh from an 85-80 conquest of Colorado at Boulder and a 51-44 trimming of Oklahoma State.

The Tigers will be out to stop Oklahoma's Dennis Price, who hit 10 of 14 field goal tries and a total of 27 points six weeks ago when the Sooners handed the Tigers a 64-59 loss at Norman.

Probable starting lineups:

K-State	Pos.	Okin. State
Frank (6-8)	F	(6-4) Claranan
Boozer (6-8)	F	(6-2) Wade
Price (6-6)	C	(6-8) Clark
Matuszak (6-0)	G	(5-10) Heffton
Douglas (6-4)	G	(6-2) Soergel

K-State's swimming team won first place in all 10 events last night as it defeated Pittsburgh State, 65-21, in a dual match at Pittsburgh.

Dave Hinderliter won the 100- and 220-yard freestyle events and anchored the winning 400-yard freestyle relay time. His time of 2:19.3 set a new K-State varsity record.

The 400-yard freestyle relay team also set a new K-State record with a time of 3:46.3.

Wildcat Mermen Win

that have been made recently, we feel the overall effectiveness and strength of the K-State staff has been increased," said Bus Mertes, K-State head coach. Two earlier

appointments named Bill Walsh, former Notre Dame line coach, and Corky Taylor, former Wildcat player, as K-State grid assistants.

Cat Thinclads Host I.S., CU In Triangular Meet Tonight

The K-State indoor track team will open its home season when it has its seventh annual triangular meet with Iowa State and Colorado tonight in Ahearn field house. Field events will begin at 7 p.m. and track events at 7:30 p.m.

Colorado must be rated the favorite, according to Ward Haylett, Wildcat coach. The Buffs won the meet last year, scoring 58½ points, to K-State's 39½ and Iowa State's 31. In the previous meets, the Wildcats have won three times, Colorado twice, and Iowa State once.

The meet will bring together the Big Eight's indoor and outdoor quarter-mile champions. DeLoss Dodds, Wildcat team captain and Big Eight outdoor 440 champ will meet Colorado's

Chuck Carlson, indoor king, in that feature.

Dodds won the outdoor quarter in 47.4 last spring and has been timed in 48.9 indoors. Carlson won the Big Eight indoor with a clocking of 50.5 last year, but has hit 49.5 this year.

Jim Cain, Wildcat shotputter, will be shooting for the meet record of 54-10½. Cain holds the K-State varsity record with a heave of 53-9½. Last week at Lawrence, Cain made his best throw of the season, a toss of 53-6½.

The Wildcats pin their hopes of a win in the hurdles on sophomore Rex Stucker. Stucker has hit 7.0 in the 60-yard lows and may well have finished below that time last week in a tight

finish with Kansas' Charles Tidwell, who was clocked in 6.7.

Steve French will be K-State's entry in the high jump. French reached 6-5½ last week for his best mark of the season.

N.Y. Teams Head N.I.T.

By UPI

It'll be no exaggeration if Madison Square Garden President Ned Irish decides to bill this year's National Invitational basketball tournament as "New York City vs. the United States."

That's the way it was in the golden days before the college point-shaving scandals in 1952 and it looks as if it'll be that way again when the tournament gets underway March 12.

St. John's of New York and

Fordham already have accepted invitations to the 22-year-old tourney and a bid to New York university is only a formality after the Violets' 78-60 rout of Villanova last night. In fact, the only question is whether NYU will take an N.I.T. bid or vote to go to the NCAA tournament.

You'll be pleased with a Collegian classified.

Sigma Tau Selects Six

Six finalists for St. Pat and St. Patricia have been selected by a committee of the members of Sigma Tau, engineering honorary fraternity. They are Larry Foulke, NE Sr; Ferris Heaston, CE Jr; Jim Burke, ME Jr; Jan Stewart, Soc Soph, representing chemical engineering; Paula Lehmann, EEd Soph, agricultural engineering; and DeAnn Seaman, EEd Soph, civil engineering.

M. A. Durland, dean of the School of Engineering and Architecture, will crown the royalty at the St. Pat's prom, March 14. The prom will be the final event of Engineering Open House, March 13-14.

A committee of two Sigma Tau members from each department in the School of Engineering selected the finalists at a tea yesterday afternoon. A general election of all engineering students will select the royalty March 5 and 6.

Photo by Don Dailey

FINALISTS FOR St. Patricia and St. Pat were chosen yesterday by Sigma Tau, honorary engineering fraternity. From left the finalists: Jan Stewart, Soc Soph; Ferris Heaston, CE Jr; Paula Lehmann, EEd Soph; Jim Burke, ME Jr; DeAnn Seaman, EEd Soph; and Larry Foulke, NE Sr.

Final Little UN Session Recognizes Red China

Seating of a Red Chinese delegation, thus providing for dual representation of China, provided the longest period of debate on the floor of Saturday's closing Little United Nations assembly.

The Chinese Republic kept up strong opposition in the matter of the dual representation, while the United States and USSR were strongly in favor. After the final vote of 64-14, the sergeants-at-arms seated the Red Chinese delegation next to its strong opponent, Nationalist China.

The seating of the Red Chinese delegation increased the total to 83 nations participating in LUNA.

"I feel that all students that participated in LUNA learned a great deal about the functioning of the United Nations," said Virginia Baxter, Gvt Soph, chairman of the event. "The interest that developed in LUNA after the first meeting of the general assembly was tremendous."

"I also felt that the speakers were the best and added a great

deal to the success of LUNA. If we are to consider LUNA a success, it is because the student delegations did a lot of work in preparing for the assembly," said Miss Baxter.

Among issues discussed at LUNA were resolutions on international trade, an international medical and psychiatric year, British and French Cameroon trusteeships, peaceful use of atomic energy, and the Israel refugees.

Twice the delegations tried to suspend the agenda to discuss other topics. The agenda had been set up by the steering committee before the meeting. Both attempts failed and the assembly went on as scheduled.

The Russian delegation, after a long continuous battle to defend its cause, walked out of the assembly 45 minutes before its adjournment.

The Hungarian delegation, feeling that it was not properly representing its people,

resigned from the Assembly. A new Hungarian delegation was soon formed and entered. When it tried to be recognized, it was discovered that its credentials were false, and it was immediately escorted from the floor by the sergeant-at-arms.

The international atmosphere of LUNA was attained as several delegations again came dressed in native costumes. The "Queen of England," after a fanfare of trumpets, made her appearance as the United Kingdom answered roll call. Flags of many of the foreign countries formed the background behind the speaker's table.

Campus Party Platforms Need Careful Study Before Adoption

CAMPUS POLITICAL PARTIES are again drawing up platforms on which they will campaign for the coming SGA elections and on which the winning party will supposedly base its actions during the next school year.

This year we would like to see platforms which are carefully thought out—platforms which do not include planks that will later and on closer scrutiny be found to be impractical.

Realizing the limitations of the Student Governing association at Kansas State, we still believe there are worthwhile and important functions which it can carry out. For instance the Student Council which polled the student body on the question of the name change proved itself, in this case, to be a vital instrument in the organization and expression of student opinion.

THE STUDENT BOOK exchange has proved to be something of a success and has brought benefits to students as far as it was able. We would like to see a Student Council use the experience and results gained here to lay the groundwork and to

begin mustering student opinion for an eventual student book store.

On the other hand, we would like to see planks such as establishing a Dead Week dropped from the platforms. We see no sense in either a social or an academic Dead Week. Each student should regulate his own social and extracurricular life to allow time for studying without any rules from a governing body. As for an academic Dead Week which would attempt to keep faculty members from giving tests and requiring papers and reports during the week before finals, we believe a test during that week would, in most cases, help, not hurt, preparation for a final. And when a professor requests that a paper or report be handed in before the end of the semester, there is no reason why a student who does not wish to be working on it at the last minute could not finish it early and hand it in before the deadline.

SO WE SAY to the political parties—study your planks before putting them into a platform and thus prevent wasted time and energy after election.—st.

Students Give LUNA Program Nod, But Say Could Stand Improvement

By Mary Welsh

The Little United Nations assembly was overwhelmingly approved by the student body according to students interviewed on the campus by the Collegian yesterday.

Not one student who consented to give his opinion was against the program, but many believed that there was room for improvement. The general feeling of the students interviewed is that the Little United Nations is very worthwhile and should continue in future years.

Some of the comments on the assembly:

CAROLYN HUMBURG, HE Jr—It helped my understanding of the way in which the UN operates and why it is so difficult for the nations of the world to agree on international issues.

DE ANN JOHNSTON, EED Soph—It was quite favorable on the campus and it was a worthwhile program. I liked to see so much enthusiasm worked up for it.

SUE GREENE, HEA Jr—It was very educational for the people in it and it gave the participants a broader understanding of what the UN and the world affairs are about.

JOANN COOL, Eng Fr—I thought it was fabulous. They should do it every year.

HOMER WILLIAMS, Ar 02—I think this is a very good thing

to stimulate the interest of the students in the affairs of the United States with regard to other nations.

LEWIS FOSTER, VM Fr—In general I think LUNA is a good idea. It promotes better relations between foreign and American students which is badly lacking on the campus.

PAT KAHRS, TxC Fr—I loved it. I spent all of my time over there.

CHARLA VINCKIER, BA Soph—It was an excellent program and should be continued next year.

LARRY BACON, PH Soph—Great! Anytime you try to coordinate the activities of the nations, you're working for a good purpose.

NORMAN WERNER, Ag Soph—I think basically the idea was good, but the K-State students didn't take it seriously enough. I think some of the foreign students felt slighted, because their country wasn't represented.

SUZANNE THIES, EED Fr—I think we should have them more often. I didn't sign up and I'm sure sorry.

CHARLOTTE SOTHERLAND, HEJ Fr—I was impressed with the delegates' knowledge of par-

liamentary procedure and the research they did into the governmental affairs of the countries they were representing.

Compiled from UPI
By JOHN HOKANSON

Washington—Key Democratic senators were split today over whether President Eisenhower should immediately replace cancer-stricken John Foster Dulles as Secretary of State.

Senators Stuart Symington (D-Mo.) and Hubert H. Humphrey (D-Minn.) called for the President to name a successor to Dulles at once. But Senators John F. Kennedy (D-Mass.), John J. Sparkman (D-Ala.) and Richard L. Neuberger (D-Ore.), said Eisenhower should wait.

Despite his illness, Dulles continued to keep his hand in foreign affairs. He conferred for 45 minutes yesterday with Vice President Richard M. Nixon on the Berlin problem.

The call by Symington and Humphrey for the immediate replacement of Dulles reflected growing concern over the uncertainty of State department leadership as the West moved toward negotiations with Russia on Berlin.

Voting Registrars Sued
Montgomery, Ala.—The U.S. Justice department goes into Federal court here today to seek a permanent injunction against the former voting registrars and to halt alleged Negro voter discrimination.

The suit charges E. P. Livingston and Grady Rogers with violation of Negro voting rights in predominantly Negro Macon county, and seeks to force registration of 20 "qualified" Negroes.

Livingston and Rogers resigned the day after the Civil Rights commission abruptly closed its hearings December 10 in the face of Alabama defiance.

Democratic Senators Divided On Dulles Replacement Issue

Both men had refused to testify before the commission.

The Justice department said the two former voting officials were named as defendants in the suit because they are required by law to serve until their successors are appointed.

Fires Take Heavy Toll

Twenty-seven children—10 from Massachusetts—were killed during the weekend in a cross country rash of fires.

A United Press International count showed at least 36 persons in all died in fires.

The most disastrous blaze occurred late Saturday when a mother and her seven children died when flames destroyed their four-room frame house at Crystal City, Texas.

States "much to the shame of this democracy."

"Good housing for all Americans is not the cure for all of our domestic social ills," he said. "It does, however, mark an excellent point from which to start."

Johnson, in a speech prepared for delivery to the 800 delegates attending the five-day biennial convention which this year marks the group's 65th anniversary, said that every service organization in a community must be brought to bear to get rid of slums.

"The cancer of slums is growing in almost every American city today, although the disease was diagnosed in the mid-30s as one requiring national action."

Johnson said most American cities seemed indifferent or behind the times in their attitudes toward slums.

Cheap Foreign Labor Hit

Los Angeles—Labor Secretary James P. Mitchell said today cheap foreign labor was pulling down wages and forcing U.S. farm workers to live in conditions that were "an affront to the conscience of the American people."

Mitchell reiterated his promise to draft legislation setting minimum wages and hours for U.S. workers and regulating imported foreign help. He said the Labor department was studying the matters.

In a speech prepared for delivery to the National Conference of Farm Labor Services, Mitchell said the public would demand an end to conditions in which the average migratory farm worker earned \$892 a year.

Cagers Clinch NCAA Berth; Can Win Big 8 Title Friday

The K-State Wildcats, after clinching a berth in the NCAA tournament with a 62-50 victory over Oklahoma State Saturday, can win the Big Eight championship by beating the Kansas Jayhawks at Lawrence Friday night.

Saturday's win assured the Wildcats of at least a tie for the Big Eight title. The Cats would go to the tournament even if second-place Colorado drew even with them, because they beat the Buffaloes both times during the regular season.

Following the win over the Cowboys, K-State is 11-0 in league play, while Colorado, 75-63 winners over Iowa State Saturday, is 7-3.

A crowd of 5,000 at Gallagher hall plus a regional television audience watched the Wildcats battle the Cowboys on near-even terms throughout the game before pulling away in the final three minutes of play.

Oklahoma State got the jump on the Cats and led 9-5 early in the game, but K-State caught up and went ahead 14-13 on a field goal by Ced Price.

The score was knotted on four different occasions before Price and Steve Douglas combined for six points in 20 seconds to put the Wildcats ahead, 26-22. The teams then traded baskets twice to make it 30-26 before the time ran out in the first half.

It took the Cats 5:24 to get their first field goal in the second half, but their lead was still four, 36-32.

After Wally Frank and Bill Claranian swapped free throws, Dick Soergel canned a two-pointer to make it 37-35.

Then Bob Boozer went to work. The K-State all-American scored eight straight points for the Wildcats, and his 15-foot jump shot with 11:16 remaining opened their lead to seven, 44-37.

But the Cowboys refused to

play dead. Clark tossed in a charity throw and Don Heffington scored from 20 feet out with 9:55 left to make it 44-40.

After another exchange of baskets, a 20-footer by Mickey Heinze and a layup by Frank opened the Cat lead to 50-42.

The closest the Cowboys could

come after that was six, and Don Matuszak put K-State out of reach with five points in the final three minutes.

Both teams were hot from the field. The Wildcats hit 23 of 49 for 46.9 per cent, while the Cowboys hit 20 of 45 for 44.4 per cent.

IM Volleyball To Begin

Eight games are on tap as this year's intramural volleyball competition gets under way at 7 p.m. in Ahearn gymnasium.

All eight games are in the fraternity division, with action in the independent division scheduled to begin tomorrow night.

Last year's volleyball winners attempting to retain their titles are Sigma Alpha Epsilon in the fraternity division and Jr. AVMA in the independent division.

Tonight's schedule:

7 p.m.—Sigma Nu vs Farm House, northwest court; Phi Kap-

pa Tau vs Kappa Sigma, southwest court; Pi Kappa Alpha vs Delta Sigma Phi, northeast court; and Alpha Tau Omega vs Acacia, southeast court.

8 p.m.—Theta Xi vs Alpha Kappa Lambda, northwest court; Sigma Alpha Epsilon vs Delta Tau Delta, southwest court; Sigma Phi Epsilon vs Tau Kappa Epsilon, northeast court; and Beta Theta Pi vs Sigma Chi, southeast court.

Jack Capron Wins Basketball Contest

Jack Capron, FT Soph, missed the actual score by only three points as he won last week's Roundball Picks contest with his prediction of a 60-49 K-State win over Oklahoma State. The real score was 62-50.

Capron guessed that Bob Boozer would be the leading Wildcat scorer with 23 points. Boozer scored 26.

Of the 25 students who entered the contest, 21 predicted a K-State victory while four foresaw an Oklahoma State win.

Cat Tracksters Win Triangular Meet

Winning 8 of 14 events, K-State's Wildcats upset favored Colorado with a one-sided victory in the seventh annual Kansas State-Colorado-Iowa State triangular track meet Friday in Ahearn field house. The Wildcats racked in 72½ points to 52½ for Colorado and 26½ for Iowa State.

Bob Groszek, sophomore distance runner, won first in the 600-yard run and finished second in the 880-yard run. Groszek's time in the 600-yard run was 1:13.3. This set a meet record as it was the first time the event had been run in the meet.

Broad jump—1. Bill Tiomey, Colorado, 23-1½; 2. Charles Runge, Iowa State, 22-11; 3. George Whitney, K-State, 21-9½; 4. Murray Corbin, K-State, 21-8½.

Mile run—1. Mike Peake, Colorado; 2. Tom Rodda, K-State; 3. Bernie Frakes, Colorado; 4. Ron Sanson, Iowa State. Time: 4:13.0. (Meet record. Old record, 4:20.9, Peake, Colorado, 1958.)

60-yard dash—1. Rex Stucker, K-State; 2. Tom Watkins, Iowa State; 3. George Whitney, K-State; 4. Harry Boyle, Colorado. Time: 6.4.

Shotput—1. Jim Cain, K-State, 53-9; 2. Frank Binder, Iowa State, 53-1½; 3. Dave Henschen, Iowa State, 50-½; 4. Dennis Krueger, Colorado, 47-11½.

60-yard low hurdles—1. Stucker, K-State; 2. Dowler, Colorado; 3. Falk, K-State; 4. Sweeney, Iowa State. Time: 6.9. (Ties meet and Field house records held by Corky Taylor, 1953.)

Mile relay—1. K-State (French, Chuck Burgat, Vader, Dodds); 2.

meet record in the 880-yard run with a time of 1:54.6.

Steve French cleared 6-2 to win first place in the high jump, and teammate Jerry Johnson took second with a jump of 6-1.

Bob Groszek, sophomore distance runner, won first in the 600-yard run and finished second in the 880-yard run. Groszek's time in the 600-yard run was 1:13.3. This set a meet record as it was the first time the event had been run in the meet.

Broad jump—1. Bill Tiomey, Colorado, 23-1½; 2. Charles Runge, Iowa State, 22-11; 3. George Whitney, K-State, 21-9½; 4. Murray Corbin, K-State, 21-8½.

Mile run—1. Mike Peake, Colorado; 2. Tom Rodda, K-State; 3. Bernie Frakes, Colorado; 4. Ron Sanson, Iowa State. Time: 4:13.0. (Meet record. Old record, 4:20.9, Peake, Colorado, 1958.)

60-yard dash—1. Rex Stucker, K-State; 2. Tom Watkins, Iowa State; 3. George Whitney, K-State; 4. Harry Boyle, Colorado. Time: 6.4.

Shotput—1. Jim Cain, K-State, 53-9; 2. Frank Binder, Iowa State, 53-1½; 3. Dave Henschen, Iowa State, 50-½; 4. Dennis Krueger, Colorado, 47-11½.

60-yard low hurdles—1. Stucker, K-State; 2. Dowler, Colorado; 3. Falk, K-State; 4. Sweeney, Iowa State. Time: 6.9. (Ties meet and Field house records held by Corky Taylor, 1953.)

Five Teams Battle For National Title

By UPI

Kansas State and Texas Christian hold "locks" on automatic bids in the NCAA basketball tournament today but the race for the national championship is once again a wide-open affair involving at least five teams.

Kansas State clinched the Big Eight's invitation and Texas Christian won the right to represent the Southwest conference Saturday night while the race for national honors was intensified by Kentucky's easy 75-56 victory over Auburn and Maryland's upset of first-ranked North Carolina.

With about two weeks of the regular season left, that means a battle among Kansas State, Kentucky, North Carolina, and Cincinnati.

Activities

Tryouts Begin Tuesday For Players Production

Preliminary reading tryouts for "No Time for Sergeants" will be tomorrow and Wednesday, at 4 p.m. and 7:30 p.m. respectively in Holton 206.

The date for final tryouts will be announced later.

The play will be presented April 17 and 18. Earl Hoover, professor of speech, is the director.

Purple Pepsters

Purple Pepsters will meet today in J 15 at 5 p.m. to discuss plans for attending the KU game.

FFA

A Collegiate Future Farmer of America chapter is being organized by former FFA members.

The chapter will be activated Tuesday, February 24, as a highlight of National Future Farmer

Job Interviews

Seniors seeking jobs may schedule interviews with companies on the campus this week, according to Chester E. Peters, director of the Placement center. All interviews will be scheduled in Anderson hall, room 8, unless otherwise indicated. If questions arise concerning a company, please check with the Placement center.

Companies and the majors they are interested in:

FEBRUARY 23: Lane-Wells corporation, EE, engineering physics, and geophysics; Jones store, Kansas City, BA, liberal arts, HE, and Econ, interested in retailing; Los Angeles County Civil Service commission, CE, in E 142.

FEBRUARY 23 and 24: General Electric, CHE, EE, IE, ME, Chem, Math, Phy, NE, and Juniors for summer.

FEBRUARY 24: Carter Oil company, accounting, B.S. or M.S.; U.S. General Accounting office, accounting, 24 hours; Fisher Governor company, ME, EE, Bethlehem Steel company, B.S. in all engineering fields, petroleum engineering, and geological engineering; Chrysler corporation, Institute of Chrysler Engineering graduate school, ME, EE, CHE, and metallurgical engineering; California State Personnel board, CE, interviews in E 142.

FEBRUARY 24 and 25: Cities Service, ME, CE, CHE, IE, Procter and Gamble Manufacturing, CHE, CE, EE, IE, ME, NE, Chem, Phy, and Juniors for summer.

FEBRUARY 25: Dowell Inc., ME, and M.S. in chemistry; Black Sivalls and Bryson, Inc., ME, CHE and EE; Missouri State Highway commission, CE, interviews in E 142; Sinclair Refining company, sales, CE, ME, and IE interested in industrial sales; Food and Drug Administration, Dept. of Health Welfare and Education, B.A. or B.S. with 30 or more semester hours in science Agr, AH, DH, DM, Ent, FT, and MTc, Bac, Zoo, and Bot; Halliburton Oil Well Cementing company, B.S. in ME, M.S. in EE, B.S. in CE, B.S. in petroleum engineering, B.S., M.S., and PhD in Chem.

FEBRUARY 25 and 26: International Telephone and Telegraph company, EE, Math, and Phy.

FEBRUARY 26: Warner Electric corporation, EE, ME; McDonnell Aircraft corporation, aeronautical engineering option, CE, EE, ME, B.S., M.S., and PhD; Jersey Production Research company, M.S., PhD in EE, Phy, and PhD in Gop; Carter Oil company, ME, CHE, petroleum engineering, EE, and CE.

FEBRUARY 26 and 27: Caterpillar Tractor company, EE, ME, and CE; IBM corporation, sales, liberal arts, BA, Actctg, and Math, Applied Science, Phy, Math, and engineering; Product Development, Phy, ME, EE, engineering physics, and Math; Manufacturing, IE, EE, ME, Math, and Phy.

of America week. The charter meeting will be at 8 p.m. in room 143 of Seaton hall.

Officers of the K-State chapter, who will be officially installed Tuesday night, include Joe Seibert, TA Soph, president; Larry

Johnson, AEd Soph, vice president; Larry Justice, CE Soph, secretary; Gary Harmon, Ag Fr, treasurer; Carl Whitcomb, AE Fr, sentinel; Bill Fultz, AH Soph, reporter; and George Huitt, AEd Fr, parliamentarian.

The K-State all-College rodeo will be April 24-26, Jim Carlson, VM Sr, general chairman for the rodeo has announced. The rodeo, sponsored by the Chaparajos club, will be at night April 24-25, and in the afternoon April 26.

Committee chairmen selected to plan the rodeo are Jim Carlson,

VM Sr, general rodeo chairman; Nancy Anschutz, Sp Fr, publicity; Jim Coffman, VM Fr, financial; Dave Nichols, PrV Soph, program; Gelane Moritz, EED Jr, tickets; Dave Sylter, AH Soph, stock; and Kent Massey, AEd Sr, arena.

KANSAS WEATHER made another change yesterday, and with the first hint of spring Marilyn Hetzer, Mth Soph, prepares to enjoy it while it lasts.

Old Kappa Sigma House Will Be Scholarship Hall

K-State will have a second scholarship house for men students, according to an announcement made yesterday by Pres. James A. McCain.

The new scholarship house, which will be known as the Oscar Straube Memorial Scholarship house, will be in what is now the Kappa Sigma fraternity house at 1221 Thurston street. Arrangements were completed for the purchase of the house Saturday, according to President McCain.

McCain said the new scholar-

ship house, which will house approximately 50 men, will not be occupied until a year from this fall. Kappa Sigma currently is planning a new \$215,000 structure at 2021 College View road and will retain possession of its present house until May, 1960.

The scholarship house will be a memorial to the late Oscar Straube, a Kansas City industry leader who died last fall.

An appropriation of \$40 was

Seventy of 285 Lots At Tuttle Are Sold

Approximately 70 of the 285 lots in the Tuttle Creek reservoir College recreation area have been sold to faculty and alumni, according to Kenneth M. Heywood, director of the Endowment association. Heywood said to the best of his knowledge no student has bought a lot.

One hundred acres of the 360-acre tract purchased by the Endowment association are being laid out in three housing districts. Schwab, Eaton, and Associates, consulting engineers, are planning the project.

Lots are being sold at \$875, \$975, and \$1,075 each. Basic costs of the lots are \$300, \$400, and \$500, depending on view, proximity to water, and timber on each.

The other \$575 a lot is for costs of surveying, planning, deeds, abstracts, and the laying out and construction of streets.

"The cost of water and sewage will probably be financed by a long-term bond issue," said Heywood, "so the annual cost to any landholder will not be great."

Heywood said fraternities, sororities, and other groups have shown interest in buying land in the area, but no provision has been made for larger sites by the Endowment association. No more than two lots are being sold to any one purchaser.

The Endowment association has adopted a covenant of restriction saying that each house built must be at least 500 square feet and must be the style of architecture and material approved by the association.

"We realize there is going to

Kansas State Collegian

VOLUME 65

Kansas State College, Manhattan, Kansas, Tuesday, February 24, 1959

NUMBER 92

SC Hears Revision Plan For Cheerleader Setup

Student Council discussed the possibility of revamping the cheerleading situation next year to include five male cheerleaders and five pom-pom girls at the meeting last night. The Cheerleader Advisory board has discussed several plans for changing the cheerleading situation and some form of action will probably be taken today.

The Council also discussed whether the head cheerleader should be elected by the student body. Under this plan the cheerleaders would be selected on the basis of the usual abilities required with special emphasis on gymnastic ability.

The possibility was also discussed of getting some cheerleaders from the other Big Eight schools to go to Louisville with K-State, if K-State should make it to the finals.

A committee report was made on the Student Directory evaluation. A motion was passed to suggest that applications for editor and business manager be opened by April 1 and the positions filled by May 10.

An appropriation of \$40 was

made for the use of the cheerleaders at the NCAA playoffs at Lawrence March 12 and 13.

The student book exchange program was discussed at length, with a report on the number of books handled this year and the amount of money taken in. The exchange handled 1,200 books

and took in about \$3,000. This compared with 1,001 books and \$2,400 last year. The statement was made that the exchange was too big a job for the Student Council to handle and the possibility of allowing some campus organization to take over was suggested.

KU Students Reply To Docking Attack

Kansas university students yesterday initiated a letter-writing campaign in reply to charges concerning the school made by Gov. George Docking last Friday.

The purpose of the campaign is to defend the University against three accusations which Docking made at a press conference with a reporting class at KU Friday, according to John Husar, assistant managing editor of the Daily Kansan, university student newspaper.

Husar summed up the accusations: 1) KU students are unethical, 2) KU is turning out students of inferior quality, and 3) the faculty and administration are inept and need cleaning up.

The letter-writing campaign is being led by Student Body President John Downing and major campus organizations which include the Student Governing association, the Interfraternity council, the Inter-religious council, and others.

The slogan for the campaign, according to Husar, is "If it's worth attending, it's worth defending."

Kansas university students and their parents are being urged to write letters to Lieutenant Governor Joe Henkle, and to state legislators. Letters are being sent to 81 state newspapers, according to Husar.

Docking was asked yesterday

if he had any comment on the Daily Kansan article. Docking replied, "I learned not to talk to unfriendly amateurs at press conferences." He indicated he would limit his comments henceforth to conferences with what he called "responsible" newsmen.

The campus articles were widely quoted in many Kansas daily newspapers.

IFC Reviews SAE Decision

Interfraternity council last night voted that Sigma Alpha Epsilon could not have rush dates, and that the previously granted privileges for pinning and serenading would now be denied. However, the decision will not be effective until the IFC judicial council places its seal of approval upon the council's decision.

The Sig Alphas were put on probation in November for violating the College policy on consumption of alcoholic beverages in organized houses. This action was not approved by the judicial council and therefore is unconstitutional, according to Gary Lassman, EE Jr and president. SAE had petitioned IFC for the privilege of having rush dates.

'Radio Free Europe' Topic Of Hajda Talk Tomorrow

Dr. Joseph Hajda, assistant professor of government, will talk on Radio Free Europe in the Union Browsing library, tomorrow at 3:30 p.m.

Sponsored by the Music Library committee, Hajda will explain how he selects the materials that he uses in a broadcast and how the programs are broadcast. In addition, he will tell about the areas in which Radio Free Europe is broadcast and what purposes the broadcasts serve.

Hajda is a native of Czechoslovakia. He writes the speeches and records them in Czech. The recordings are then sent to Munich, Germany, where they

are beamed across the Iron Curtain to Czechoslovakia.

Most of Hajda's speeches have been about college life, academic surroundings, courses he teaches, political science in general, and his colleagues.

Since coming of the U.S. from Czechoslovakia in 1950, Hajda has worked intermittently for the radio station. Radio Free Europe was started in 1948 as a step to have a station that was independent of The Voice of America.

As a regular contributor during the past two years, Hajda selects topics to attract the young intellectual in an effort to stimulate his intellectual life.

'Approved Fun' May Replace Aggie Bonfires

Plans to prevent Aggieville destruction after the KU game Friday were discussed at a meeting of the Games and Rallies committee yesterday.

Tentative plans as explained by George Hooper, BA Sr, and chairman of the committee, include a send-off rally for the team and post-game activities.

For the send-off rally, classes will be dismissed at 8:40 a.m., and will resume at 9:10 a.m., Friday.

Immediately following the game Friday night, there will be a bonfire rally in West Stadium parking lot. The committee hopes that a jukebox dance in the Field house will help keep students occupied until the team returns.

"We realize there is going to

If the Shoe Fits . . .

Governor Docking Calls on KU For 'Discipline,' 'Human Dignity'

GOV. GEORGE DOCKING was quoted last Friday by the Kansas university Daily Kansan as saying "Kansas university is a trouble spot in the state of Kansas and needs cleaning up." The Governor was quoted after he had a press conference with a reporting class at KU.

Docking made several other statements during the press conference, according to the Kansan, which included a charge that the KU administration and the Republican party was "tied up together." The Kansan quoted Docking as saying, "The lack of discipline and human dignity as evidenced by the group of Young Republicans and the incident in Leavenworth (he was referring to the KU Young Republicans who demonstrated at a Democratic dinner for Sen. Paul Douglas (D-Ill.) in Leavenworth last fall) could be the fault of the instruction. Students are being taught to emote. What is being taught in the way of ethical concepts?

"I AM CRITICIZING both the administration and the Young Republicans." Docking reportedly concluded by saying that he felt the KU students should be taught some ethics and manners.

When asked yesterday if he had any com-

ment on the Daily Kansan article, Docking said, "I learned not to talk to unfriendly amateurs at press conferences." He indicated he would limit his comments henceforth to conferences with what he called "responsible" newsmen. "There is no use arguing with them," he said. However, when questioned further, Docking did not deny having made the statements which the Kansan quoted him as saying.

SO IN ESSENCE what Docking has done is to make an effort to discredit Kansan reporters who quoted him by calling them "unfriendly amateurs" but has made no specific charge against them. He has not charged that they misquoted or misinterpreted him, but has merely called them amateurs. This then becomes just another rhetorical device to put them in a bad light with no basis. And rather than being specific and saying what he means, he has passed it off by saying "There is no use arguing with them."

IS THIS NOT then a show of the very thing the Governor has been charging to the University—a lack of discipline and human dignity? Indeed, what is being taught in the way of ethical concepts?—st

World News

Big Four Proposal Rejected by Soviets

Compiled from UPI
By JOHN HOKANSON

Moscow — Premier Nikita Khrushchev today rejected the West's latest proposal for a Big Four foreign ministers' conference on Germany.

Speaking after the first round of his talks with Prime Minister Harold MacMillan, Khrushchev said it would be "unbusiness-like" and "unacceptable" for the great powers to discuss Germany without including Poland and Czechoslovakia in the talks.

He also assailed the "entanglement in a network of diplomatic talks" which the Western powers suggested in notes to the Soviet government last week.

Khrushchev expressed his views in a speech to a Moscow city election rally during a day's recess in his talks with MacMillan.

The two men are known to have discussed the German stalemate at their meeting yesterday. Khrushchev's speech today indicated no prospect of compromise in Russia's insistence on handing over control of West Berlin's lifelines to the German Communists.

Earlier indications had been that the MacMillan-Khrushchev talks had revived the short-lived "Geneva spirit" that was generated by the Big Four "summit conference" in that Swiss city in 1955.

Statements made by the two men last night oozed good will.

Short Week Doubtful

Washington—Members of the House Labor committee expressed doubt that Congress this year would consider shortening the work week to 35 hours as proposed by the AFL-CIO's Executive council. Congressional backers of the proposal said, however, the new demands might pave the way for action in the future.

Senator Assails Hagerty

Washington—Sen. Hubert H. Humphrey (D-Minn.) said today White House Press Secretary James Hagerty "ought to be ashamed of himself" for accus-

ing some Democrats of headline-hunting in the illness of John Foster Dulles.

Hagerty reacted to statements by Humphrey and other Democrats urging President Eisenhower to appoint a successor to Dulles immediately by telling newsmen: "It is remarkable what people will say to get their names in the newspapers."

Humphrey said Hagerty "knows better than that."

"The decision as to the Secretary of State is distinctly in the hands of the President as I said," Humphrey declared. "No one could wish Dulles a more speedy recovery."

Philippine Talks Hopeful

Manila—Philippine officials expressed optimism today that this country's \$1 billion omnibus claims against the United States could be settled peacefully in forthcoming talks.

Informed sources said Foreign Secretary Felicberto Serrano would confer on these differences with U.S. Ambassador Charles Bohlen who went to Washington for consultations on the U.S.-Philippines differences.

Bohlen left Honolulu today and was expected to arrive in Manila tomorrow morning.

President Carlos P. Garcia said "perhaps through Bohlen the questions would be understood."

Johnson Silent on Attack

Washington—Sen. Lyndon B. Johnson (D-Texas) today answered by silence an attack on his tactics as Senate Democratic leader.

Sen. William Proxmire (D-Wis.) launched the unexpected offensive yesterday in a Senate speech. He charged that typical Democratic senators have "nothing to do" with setting their own party's program.

Friends say Johnson, now in Texas suffering a touch of flu, probably would ignore Proxmire's speech. But there was no doubt Proxmire had touched a spot sensitive to many Democrats.

Quotes from The News

Gainesville, Fla.—Former defense secretary Charles E. Wilson, calling for a realistic approach to disarmament proposals:

"Sound disarmament agreement would not only reduce the military burdens of both the East and West and improve the standards of living of all nations affected, but even more importantly, it would be pointed toward world peace."

Over the Ivy Line

Like These Kansas 'Beatniks' Are Really Living It Up Wild

By Margaret Cooper

THE KU Daily Kansan paints a very vivid picture of some of the more promising students attending Kansas university. The "Beatniks" are Bohemians and pseudo-Bohemians of the jeans, sneaker, and sweatshirt school. They are addicted to cool jazz, wild poetry, and sin. They are opposed to motherhood, Christianity, manual or any kind of labor. The women of the group are recognized by their costume of black leotard, sneakers, bulky sweater and skirt, and sunglasses if the day is cloudy. They wear no make-up and don't use a comb, because such things are "middle-class" and are to be avoided like the plague. The men follow suit in their wrinkled chinos or faded levis, a sweatshirt or sweater, and the common dirty sneakers. They are bearded and also fail to know the use of a comb. The organization originated in California and is heading east—perhaps to Greenwich Village where they will find "their kind of people."

GIRLS, do you feel as though you were being abused, run over, and pushed around? If so remedy these complexes by enrolling in a judo course. The Oklahoma Daily reports that the University of Oklahoma is offering a course in judo to any girl. The fee is nothing unless she is in the advanced course, and the instructor says no real strength is required—"just leverage, balance, timing, and the unexpected." This sounds like a good way to kiss one's femininity good-bye.

UNTIL TEST TUBES and beakers are made with handles, and compounds can be restored to their original state after decomposition, will the chemistry lab fee at Ohio State university be less than

\$10 to \$30 a student. Of course this amount doesn't seem so outrageous—not if a student runs up a bill amounting to \$180! Such was the case reported in the Ohio State Morning Lantern.

ACCORDING to the Spectrum, the library at North Dakota State college is getting to be a "has-been." The students seem to be acquainting themselves quite ardently with the fields of love, marriage, athletics, and architecture, as books in these fields have been disappearing. At least this is indicative that there are students who make use of the library!

K-State Integrity Party Releases Nine Point SGA Election Program

Preamble: We of the Integrity party at Kansas State university, believing in student government based on the principles which the name Integrity embodies, and maintaining that the true authority of this government is vested in the entire student body, do support the following:

- Establishing a Student Council position for an International student, thus assuring better representation of the student body.
- Establishing a permanent student book store within the proposed addition to the Student Union.
- Assuring that facilities and privileges at the Tuttle Creek Dam Reservoir be provided for university students.
- Extending the spring vacation.
- Exchanging liaison members with the Manhattan Chamber of Commerce in order to improve relations between the community and the University.
- Returning to a pre-enrollment system.
- Establishing a S.G.A. column in the Collegian for better communications between student legislative groups and the student body.
- Strengthening School Councils and encouraging the following projects for these councils:
 - Curriculum evaluations.
 - Improvement of school visitation programs.
 - Assume funds and drives responsibilities.

KS Steel Ring Reinstated

Student Activities board last night ended the suspension of Steel Ring, the professional engineering society which was denied recognition two years ago following its publication of a campus humor magazine, "Intake and Exhaust."

Steel Ring's new constitution, which was presented to the Activities board for approval last night, did not list publication of a humor magazine among its proposed projects.

Steel Ring is open to second semester juniors and seniors. Its stated purpose is to promote political, social, and professional activities in the fields of engineering and architecture.

Alpha Phi Omega

New officers of Alpha Phi Omega will be installed and initiates recognized at a banquet today at 6 p.m. in the Union main ballroom.

Officers to be installed are president, Dick Kall, GA Sr; vice-president, Duane Clum, ME Fr; recording secretary, Don Baldwin, CE Fr; corresponding secretary, George Weckel, EE Fr; treasurer, Jon Trentman, Ar 01; historian, Gary Agron, RM Fr; sergeant-at-arms, Bob Fisher, TJ Fr.

Junior Colleges

The fifth annual conferences of Kansas Junior college deans is on campus today and tomorrow. Twenty-two deans and faculty members from 14 junior colleges will be present.

The conference is to work on problems of "articulation and coordination," reported E. M. Gerritz, director of admissions

and registrar. "Its purpose is to help plan junior college programs so that the transition to a four-year college curriculum will be as easy as possible," Gerritz said.

Integrity

Integrity party will meet tonight at 7 in Union 205. Candidates running for Student Council, the Integrity party council, and all students interested in working for the party have been asked to attend.

Phi Kappa Phi

Phi Kappa Phi seniors may qualify for fellowships for first year graduate study worth \$2,500, according to Chester E. Peters, Placement center director.

Phi Kappa Phi is awarding the fellowships to four or five students who will receive their B.S. degree in the current year and

who will begin graduate study no later than September, 1959.

Application blanks may be picked up at the Placement center, with the deadline for applications being March 2.

Ag Ed Club

Winners of last weekend's Agricultural Education club Farm Mechanics contest will receive prizes totaling \$250 March 10 at a banquet.

Larry Riat, AED Sr, won the senior division of the contest; Don Foster, AED Sr, was second; and Coy Allen, AED Sr, was third.

Hollie Thomas, AED Fr, won the junior division; Jerry Gardner, AED Fr, was second; and Steve Miller, AED Jr, third.

Seventy-two students participated in the fourth annual contest. Phases were welding, tool conditioning, farm carpentry, and farm machinery. Twenty-eight prizes are to be awarded.

McFarland To Head Nuclear Laboratory

Robert McFarland has been appointed director of nuclear laboratories at Kansas State, Thomas D. O'Brien, director of academic research, announced today.

McFarland, professor of physics and a K-State staff member since 1947, will divide his time between his new duties and teaching and research in physics.

O'Brien said McFarland would be responsible for safety and all-College co-operation with respect to use of nuclear facilities on the campus. These include those of the present central isotope laboratory, which will be a part of the proposed nuclear laboratory.

McFarland will be responsible for the maintenance and safe operation of all nuclear equipment, for use of radioactive materials, and for acquisition of additional nuclear equipment which will be used, not only in the nuclear engineering program, but in instructional work in all fields, and in research.

The job will require co-operation between McFarland and heads of the departments which will use radioactive materials. Co-operation will be particularly close with the newly formed Department of Nuclear Engineering.

which will be located in the nuclear laboratory building.

A rapidly expanding program in nuclear energy led to the creation of the new post, O'Brien said. K-State received a \$91,493 grant from the Atomic Energy commission just about a year ago for purchase of laboratory equipment, and just recently received another grant of \$150,000 for the purchase of a nuclear teaching reactor.

WHO SAID IT FIRST?

A column of incidental intelligence

by Jockey brand

"GENTLEMAN AND SCHOLAR"

High praise, indeed, for any man! But did you know that the description comes from Robert Burns—who said it first about a dog? Here's the quote:

"His locked, lettered, brass collar
Showed him the gentleman and scholar."

You'll find the couplet in Burns' "The Twa Dogs."

"THE MORNING AFTER"

This horrible time was first immortalized by George Ade in "The Sultan of Sulu." Here's the way he put it:

"But, R-E-M-O-R-S-E!
The water-wagon is the place for me;
It is no time for mirth and laughter,
The cold, gray dawn of the morning after!"

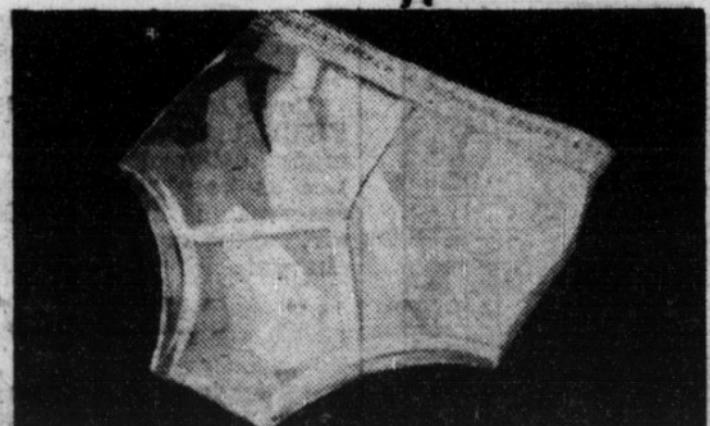

That's everybody's definition of news, and we're all indebted to John B. Bogart, city editor of the old New York Sun (1873-90) who first said:

"When a dog bites a man, that is not news, because it happens so often. But if a man bites a dog, that is news!"

Jockey Underwear

What's true about expressions is also true about styles. Somebody always got there first. Take Jockey brand underwear. Jockey brand is made only by Coopers. Coopers invented Jockey brand—and no copy can compare with Jockey brand for quality, comfort and fit. For underwear that feels better because it fits better, insist on Jockey brand—the original comfort-tailored underwear. You'll find it at better stores everywhere. Recognize it by the Jockey trade mark.

fashioned by the house of Coopers.

Coeds Visit Frats for SAE

Approximately 50 K-State coeds, including many Sig Alph "steadies," rallied 'round their boy friends yesterday evening in a fly-by-minute serenade to several fraternity houses. The women were protesting the restrictions laid upon Sigma Alpha Epsilon by the Interfraternity council Monday.

The women sang a song to the tune of the "Children's Marching Song," i.e., "This ole school, it ain't grand, it played rap rap on our hand with a knick knack paddy wack give the gals a hand, we're not tending kiddy land." This was followed by a loud cheer, "IFC, play it smart; stick together, do not part!"

The Sig Alphas were put on probation in November for violating the college policy on consumption of alcoholic beverages in organized houses. The action, however, was not passed by the judicial council, and is therefore not constitutional, according to Gary Lassman, EE Jr, president.

Monday, IFC voted that the fraternity could not have rush dates or pinning and serenading privileges—two of its remaining privileges. The judicial council will have to approve this move, however, before it becomes final.

The fraternities which the women visited seemed torn between amusement and surprise at the demonstration. Cars, some of them with Sig Alph stickers, drove the coeds to the fraternity houses.

Conferences On Isotopes Start Today

Snap-III, one of the latest developments in the nuclear energy field, is being exhibited at K-State as a feature of the Midwest Industrial Isotopes conference meeting here today and tomorrow.

Snap-III (sub-system for nuclear auxiliary power), is the first nuclear battery of usable size. More technically, the battery is a radioisotope-fueled (with Polonium-210) thermoelectric generator. It is a complete power unit with no moving parts and will operate over extended periods of time—a natural for such things as furnishing power in unmanned satellites, some scientists believe.

Speakers for the two-day conference include Jerome Gilbert Morse, manager of the isotopic power department for the Martin company; Philip E. Ohmart, president and director of research for the Ohmart corporation; Paul Blaetus, chief of the Atomic Energy Commission's isotope technology division;

Gordon Molesworth, head of Molesworth Associates, nuclear public relations and promotional firm; and key speaker Paul C. Aebersold, director of the Atomic Energy Commission's Office of Isotopes Development.

Radioisotopes offer industry an important means for improving quality and cutting expenses.

Photo by Don Dailey
COME ON GUYS stick together, chant approximately 50 girls in front of several fraternity houses last night. This demonstration was in protest of the IFC action which denied the Sig Alphas several privileges.

M.E. Study 14 Years Old

By WANDA EGERS

A 14-year-old study being made in the Mechanical Engineering department is slated to be finished by the end of this school year if all goes as planned.

The study, "Downward Projection of Heated Air," is under the direction of Paul Miller, instructor of mechanical engineering. Working with him on the project are three graduate research assistants.

K-State is probably the only institution that has done such extensive research on the subject, according to Miller.

Miller, who has been working on the study for about a year, said that it is the "pet project" of Prof. Linn Helander, former head of the Mechanical Engineering department. Prof. Helander has supervised the research since it was first started in 1945.

Although the study is basic research, Miller commented that it will find practical application by serving as an industrial standard. The standard will be used by manufacturers of heating and ventilating outlets in the design of their products.

Describing the project broadly, Miller explained it as one to "determine velocities and temperatures at various locations within a downwardly projected jet of heated air."

On days when research is being done, signs are posted on doors reminding students to "Please close door very carefully, research in progress today."

Instruments used in the study are so sensitive that even a slight draft will cause them to deviate abruptly. "When this happens," says Miller, "you can wait pa-

tiently until conditions return to normal and then continue the experiment."

In the study, an outlet eight inches in diameter, suspended 30 feet above the floor of the lab, is focused to blow heated air straight downward. To help prevent drafts which interfere with the air column, huge sheets of plastic are hung around the jet.

Instruments are used to measure pressure changes within the various parts of the air column. These figures can then be used

Douglas, Olander Bid for President

Definite possibilities to run in the coming SGA primary elections on the tickets of the two major campus political parties, Integrity and United Staters, have been released by party leaders.

Steve Douglas, Gvt Jr, Integrity; and Gene Olander, SEd Jr, United Staters, have indicated they will be in the race for student body president. Petitions for the SGA elections are due this Saturday at noon.

Hopefuls on the Integrity ticket from the School of Arts and Sciences are Larry Bingham, BA Fr; Sherri Burt, Art Soph; Mary Jo Cochran, SEd Soph; Leslie Dole, MGS Soph; Diane Endicott, BMT Jr; Claire Fryer, BMT Soph; Barbara Huff, Gvt Jr; Jeneane Hubert, Zoo Soph; Mark Johnston, BPM Soph; Betty King, MED Soph; Lois Larkin, EEd Soph; Jim Lisher, Ec Jr; Jim MacDonald, BAA Soph; Ann McMillin, Mth Jr; Tom Moore, BA Soph; John Nelson, BAA Soph; Peg Shannon, Acct. Jr; Mary Ann Simpson, SEd Soph; Linda Stont, Sp Jr; and Diane Watson, EEd Jr.

USP candidate from the School of Arts and Sciences are Bud Annan, BA Jr; Janet Claycomb, SS Soph; Harriet Harwick, EEd Jr; Joanne Jacobs, Psy Jr; Alyce Lambert, ML Soph; Harry Lehew, Sp Gr; Neal Meitler, BA Jr; Mary Richardson, SEd Soph; Joyce Rogers, Mth Soph; Nedra Ross, Sp Jr; Martha Steps, TJ Soph; Virginia Taylor, SEd Jr; and Judy Tyler, EEd Soph.

Integrity candidates from the School of Engineering and Architecture are C. J. Austermiller, IE Soph; Max Bishop, Ar 03; Larry Jeffries, EE Soph; Hal Judy, AgE Soph; Jay Knox, ME Soph; Bill Matthews,

EE Soph; Dick Miller, ArE Sr; Larry North, ME Sr; and Jack Robbins, Ar 02.

USP candidates from the School of Engineering and Architecture will be Richard Bach, ME Jr; Bill Bayless, ME Jr; Lyle Clun, EE Jr; Roger Cranmer, NE Soph; Fred Gardiner, ME Jr; Garry Lassman, EE Jr; Wayne Schope, ME Soph; Bill Taylor, ME Jr; and Don Wise, EE Soph.

The School of Agriculture will be represented by Ralph Gillmore, AE Soph; Ron Janasek, FT Soph; Ron Kruse, FT Soph; Bob Lewis, Ag Soph; and Hall Moxley, Ag Soph, from the Integrity party.

George Phipps, VM Fr, USP, and Sid Jones VM Soph, Integrity, represent the School of Veterinary Medicine.

From the School of Home Economics, Integrity party candidates are Wanda Eggers, HEJ Soph; Marilyn Hanson, HEX Soph; Carol Lala, HEA Jr; and Saundra McDaniels, HE Soph.

USP candidates from the School of Home Economics are Kay Nordstrom, HT Jr, and Sara Umberger, TxC Soph.

The list of candidates for Student Council will not be complete until Saturday when petitions are due in the SGA office.

Cheerleaders Meet, Obtain No Decision

The cheerleaders have come to no conclusions about possible revisions in their present program, George Hooper, BA Sr, head cheerleader, announced last night. The Cheerleader Advisory board had a meeting yesterday afternoon and will meet again next Tuesday. The conclusions of that meeting will be turned over to Student Council.

At the Student Council meeting Monday evening, there was a discussion of the possibility of revamping the cheerleading section next year to include five male cheerleaders and five pom-pom girls. There were hopes that some sort of action would be taken yesterday.

The Council also discussed whether the head cheerleader should be elected by the student body. Under this plan the cheerleaders would be selected on the basis of the usual abilities required with special emphasis on gymnastic ability.

Senate Committee Votes Salary Hike

The Senate Ways and Means committee voted today to give faculty members at the five state colleges and the university 4.68 per cent merit salary increases.

The committee recommended a total of \$946,458 for the increases.

This was less than half the \$2,017,958 the schools asked. That amount would have led to 10.7 per cent merit increases.

Sen. August W. Lauterbach (R-Colby), committee chairman, said bills carrying out the committee vote would be prepared as soon as possible.

The committee did not touch upon a "crash" building program in its vote today.

Sen. Glee Smith (R-Larned) who headed a subcommittee that worked out the merit increase proposal, indicated the committee might turn its attention to this matter next.

Photo by Jon Peterson
RECORDING DATA for their study on heated air are Archie Graham and Paul Miller, instructors of mechanical engineering. Miller is in charge of the project.

Wunderlich's 'Get Tough' Policy Shows No Signs of Toughness

WELL, IT SEEMS THAT Dean Wunderlich's "get tough" policy in regard to students involved in property destruction and violation of the College Honor Code in post-game victory riots in Aggierville has fizzled out—that is, if there was ever anything to fizzle out in the first place.

Last week Dean Wunderlich released the names of four K-State students who, he said, would be arrested for their part in the student rioting in Aggierville after the K-State-KU basketball game the preceding Wednesday night. Wunderlich reported that he did not know whether warrants had been served on the students at that time, but that they would be prosecuted in the Riley County Police court and would be dealt with "sternly" by the College Tribunal this week.

A few minutes after Wunderlich released the names, Police Chief Leo Osbourn reported that warrants had not been served—and up to this time, no warrents have been served.

LAST THURSDAY Dean Wunderlich stated that five students accused of violating the College Honor Code in the Aggierville victory celebration would appear before the Tribunal Monday night. Monday he stated that the Tribunal meeting would be postponed until a future time because of the illness of two Tribunal members.

Wunderlich has stated that he wishes to start a campaign to stop rioting and destruction of property, but it appears that he has paid only lip service to his "get tough" policy. Of course the Tribunal is yet to make a decision but it seems that if puni-

tive action is to serve as a warning to future would-be violators, it had better come within the next few days.

Student Council is to be commended for its action in the matter. Last Monday night it refused to pay for property damage which resulted from the Aggierville celebration, stating ". . . as representatives of the student body we cannot accept responsibility for such actions. The students involved violated the rules and Honor Code which we have established. If we did accept such responsibility, we would merely be giving license to further such events."

STUDENT COUNCIL, the Games and Rally committee, Union committees, and other organizations are also to be commended for what looks like a good program of rallies, a movie, a dance, and other provisions for entertainment for Friday when the basketball team will play KU at Lawrence.

We have to admire the optimism of Dean Wunderlich and others involved who apparently believe that after the last violations have been smoothed over, future violations can be prevented by this program. We sincerely hope to see the program serve as a replacement for destructive victory celebrations, but we must admit we are not as optimistic.

IN REITERATION of a statement which we made earlier—we believe students should be punished for lawbreaking just like any other lawbreaker, and we believe protection of student lawbreakers can only lead to a further disregard for the property and rights of others.—st

Quotes from the News

By UPI

Miami Beach — Teamsters President James Hoffa, predicting his Union would beat the AFL-CIO in a race to organize workers in Puerto Rico:

"We'll meet this situation as we have met others forced upon us by the AFL-CIO. And . . . we'll be on top when it is over."

London—British Dr. G. A. Rose reporting an increase of

angina cases marked by sharp pains in the region of the heart while watching exciting shows on television:

"Those people who aspire to mental detachment, even at the height of the chase in a western, may care to ponder that some hundreds of their less fortunate fellows are at the very moment clutching their chests with one hand while feeling for their medicine with the other."

Native Riot Continues In Kariba Dam Strike

Compiled from UPI

By JOHN HOKANSON

Salisbury, Southern Rhodesia—Army riot police were flown today to the giant Kariba dam where a strike by 1,000 African workers suddenly erupted into stone-throwing violence.

The Kariba dam strike began yesterday when 1,000 of the 6,000 men working on the project walked off, demanding higher wages because of the danger involved in their work.

Today workers stoned buildings, cars and other vehicles. Troops of the Royal Rhodesia regiment were flown in to reinforce armed police at the dam site.

Other troops were flown today to Chileka airport in Nyasaland where rioting yesterday caused the deaths of two natives and injuries to one other. The deaths resulted when troops fired into the rioters for the first time. Planes dropped tear gas to restore order.

New Urgency in Plans

Washington—Allied planning to meet a possible Communist blockade of Berlin took on a new sense of urgency today because of Soviet Premier Nikita Khrushchev's apparent rejection of a foreign ministers' conference with the West.

American officials still hoped that the formal Soviet reply to the Western proposal, when it comes, would not slam the door on negotiations on Berlin and German unification. They were studying the complete text of Khrushchev's remarks at a Moscow political rally yesterday.

They acknowledged that the

Russian premier's tough position made it more necessary than ever to anticipate a possible Communist effort to cut Britain, France, and the United States off from West Berlin.

Explosion Claims Two

Los Alamos, N.M.—Investigators are seeking the cause of an explosion which killed two employees of the Los Alamos scientific laboratory last night.

The victims were Leo G. Guerin, 35, and Raymond A. Means, 31.

A spokesman for the top-secret atomic laboratory said no radioactive material or radiation was involved in the blast.

Food Prices May Drop

Washington—The Agriculture department said today retail food prices are likely to average a little lower this year than in 1958 when they were at an all-time high.

The Department forecast a small reduction in prices because of prospective larger supplies of pork, eggs, and, at least during the first half of 1959, of fresh citrus fruits and vegetables.

There appeared to be little cause for joy among grocery-buying housewives and producers, however, because the Department forecast said "marketing charges for food are likely to increase this year." This means a smaller farm share of the consumer's food dollar, a bigger take for the middleman, and less savings for the housewife.

Academic Administration Dean Also Works on State Committee

By WANDA EGGERS

"Educator" is the title given to Dean A. L. Pugsley in "Who's Who in America." He is an educator plus many other things.

Under his extensive title of Dean of Academic Administration and Director of Summer School, Dean Pugsley takes care of the material of academic interest for the college.

Besides his job as academic administrator, Dean Pugsley is working half-time in Topeka. The job is as co-ordinator on a committee to "compile information from all of the institutions of higher learning in the state of Kansas."

The committee report, due next November, will contain facts, plus suggestions for a ten-year education program that colleges may follow.

The state is allowing \$50,000 for the study, and is paying half of Dean Pugsley's salary while he is working on the committee.

Twenty-seven states have already approved, have started work on, or have finished a study such as the one Dean Pugsley is working on.

Work at K-State for Dean Pugsley is mainly for the "welfare, development, and maintenance of the

institutional standing." He handles many items of business coming to President McCain's office that can't be handled elsewhere. These items are ones for which the President needs assistance.

Dean Pugsley also collects and compiles much of the information needed about the College. And he serves on such committees as the Faculty Senate, the President's Budget committee, and is chairman of the Assembly committee.

Recalling an amusing, but embarrassing incident, Dean Pugsley tells about his first assembly luncheon. "The assembly speaker was a Jewish rabbi. I forgot to check the menu, and what do you suppose we had? Roast pork!"

Other than being an "educator," Dean Pugsley has a BS in civil engineering, and an MS in architecture. He was awarded the Sheldon Fellowship for a year of study in Europe.

Shortly after World War II, Pugsley came to K-State as an instructor for structural engineering. He was selected for the position he holds now by Milton Eisenhower, former K-State president.

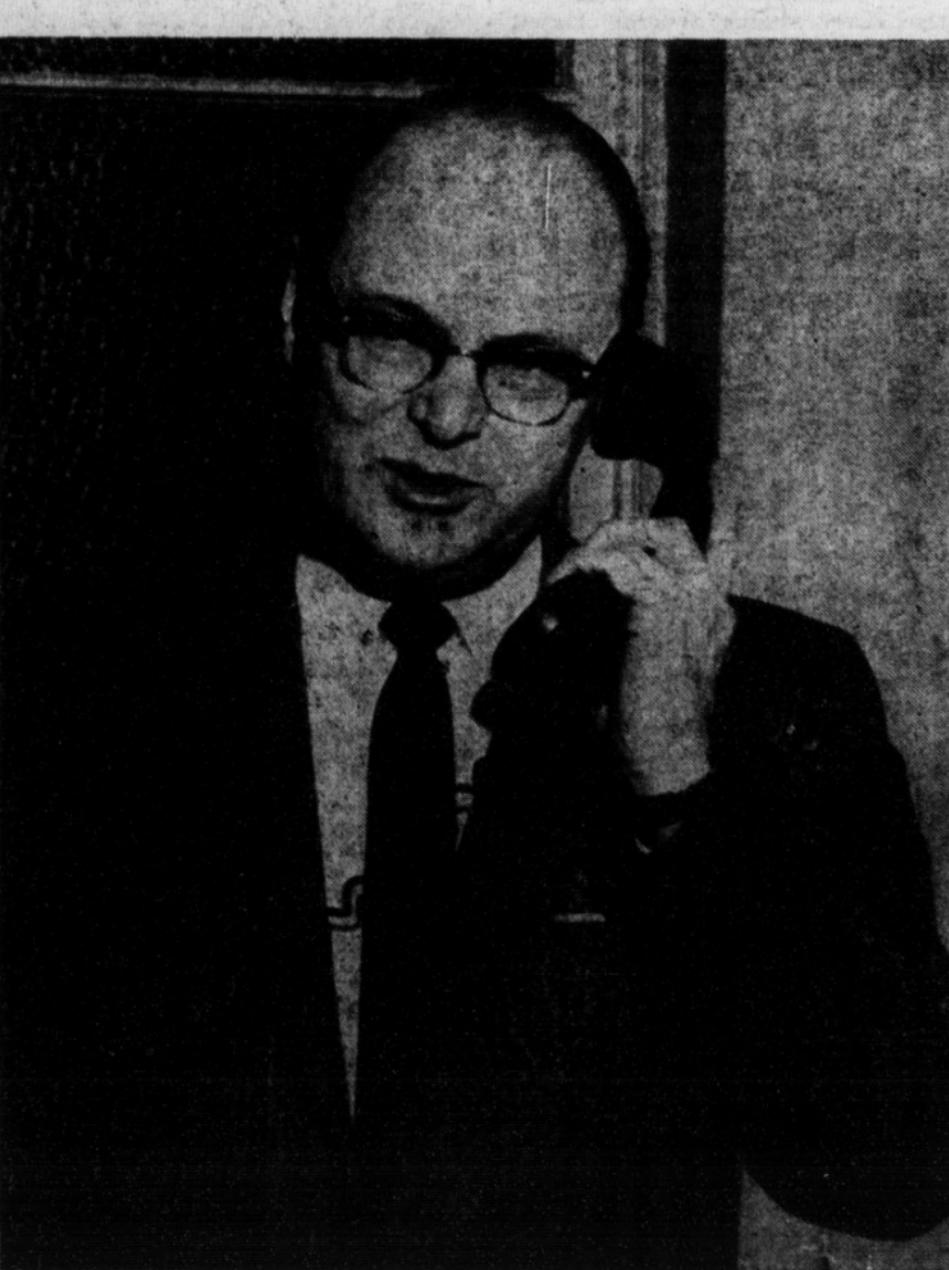

Photo by Elliott Parker

A. L. PUGSLEY, in addition to his duties as K-State dean of academic administration, works half-time in Topeka on a committee compiling information from all colleges and universities in Kansas.

Wildcat Cagers Second Best In Associated Press Ratings

Kansas State moved up to second place in the Associated Press basketball ratings this week as Kentucky bounced back into the top position.

K-State, which was rated fourth last week, was voted into the No. 2 spot on the strength of its wins over Oklahoma and Oklahoma State last week.

Coming back to defeat Vanderbilt, 83-71, Kentucky avenged its first defeat of the season. The Wildcats then ruined Auburn's 30-

NCAA Ducats Available

Tickets to the regional NCAA tournament at Lawrence on March 13 and 14 will go on sale tomorrow at 1 p.m. at the Athletic ticket office in Ahearn gymnasium, according to Frank Mosier, K-State ticket manager.

The tickets will be offered only in groups of two, with one ticket for each night. The price is \$6 for both tickets. Only one ticket will be sold to each student, and activity cards must be presented at time of purchase.

Louisville, St. Mary's Receive NCAA Bids

Louisville, 14-10, and St. Mary's of California, 16-4, today became the fifth and sixth teams to qualify for the 23-team NCAA major college basketball tournament.

That put the NCAA just one team behind New York's National Invitational tournament in the race to sign up blue-ribbon teams for the two big post-season carnivals.

Louisville, winner of the N.I.T. in 1956, accepted a "member at large" berth in the NCAA fray.

St. Mary's earned a berth as unbeaten champion of the West Coast Athletic conference when it defeated College of the Pacific, 58-57, in overtime last night. Bobby Dolf's 20-foot jump shot with one second left in the extra session gave the Gaels the victory.

game winning streak with a 75-56 win. Even with two blemishes on their conference record, Adolph Rupp's Wildcats may have a chance to get into the NCAA tournament, because Mississippi State may not compete because of racial issues, and Auburn is on NCAA probation.

Kansas State grabbed 24 of the 100 first place votes, only 6 less than top-ranked Kentucky.

North Carolina dropped to third after defeating its toughest rival, North Carolina State, and then losing to Maryland, 69-51.

On the usual scoring basis of

10 points for each first place vote, nine for second, etc., Kentucky polled 822 points to 737 for K-State and 662 for North Carolina.

The top ten teams with first place votes and won-lost records through Saturday, February 21, in parentheses points on 10-9-8, etc. basis:

1. Kentucky (35) (21-2) 822
2. Kansas State (24) (21-1) 737
3. North Carolina (12) (17-2) 662
4. Cincinnati (7) (18-2) 598
5. Mississippi State (14) (21-1) 556
6. Auburn (1) (19-1) 461
7. No. Carolina St. (1) (19-3) 427
8. Michigan State (15-3) 349
9. Bradley (2) (19-3) 256
10. West Virginia (3) (24-2) 146

The second ten: St. Louis, California, Marquette, Texas Christian, Oklahoma City, Seattle, St. John's, St. Bonaventure, Portland, and St. Mary's.

Two Forfeits Mar Play In Intramural Volleyball

Two forfeits marred intramural volleyball play last night as teams in both fraternity and independent divisions saw action.

AIA won over House of Brec by forfeit, and Wesley Foundation forfeited to the Kasbah. A for-

feit is recorded as a 2-0 win for the team receiving the forfeit.

In other action last night, Phi Delta Theta beat Phi Kappa, 15-4, 15-12; Jr. AVMA defeated Acropolis, 15-4, 15-10; and West Stadium topped YMCA, 15-3, 15-10.

The Hilltoppers whipped the Rebels, 15-9, 15-10; House of Williams trounced OK House, 15-13, 15-4; and the Vets edged DCC, 15-6, 5-15, 15-12.

Tonight's schedule:

7 p.m.—Westminster Foundation vs SPN, northwest court; Lambda Chi Alpha vs Kappa Sigma, southwest court; Sigma Nu vs Phi Kappa Tau, northeast court; and Acacia vs Pi Kappa Alpha, southeast court.

8 p.m.—Delta Sigma Phi vs Alpha Kappa Lambda, northwest court; Alpha Tau Omega vs Theta Xi, southwest court; Alpha Gamma Rho vs Tau Kappa Epsilon, northeast court; and Sigma Alpha Epsilon vs Sigma Phi Epsilon, southeast court.

Cat Frosh To Test Kansas

K-State's freshman basketball team will try to avenge an earlier loss to Kansas tonight when it meets the Jayhawks in Allen field house. Tipoff time is 7:30.

It will be the third game of the season for Coach Ernie Barrett's frosh. After bowing to Kansas, 72-57, in their opener, the young Cats, took a one-sided decision from the Washburn university "B" squad, 83-49.

Tonight's game marks the final action against outside competition

for the Kansas freshmen. Besides their win over K-State, they defeated Kansas City junior college, 85-82, and then edged Missouri, 79-70, Monday night.

Barrett will be renewing a personal dual with Jerry Waugh, Kansas frosh coach. Although they played high school ball together at Wellington, Barrett and Waugh were rivals in 1950 and 1951 when they played for K-State and Kansas, respectively.

"Our kids are looking forward to playing the Jayhawks again," said Barrett. "They know they didn't play well in the first game, and are anxious for a chance to redeem themselves."

"We have a bit more experience than we did last time, and I hope

we play a better ball game than we did before."

Wayne Hightower has been the major weapon for Kansas so far, scoring 75 points in three games. He scored 26 points and harvested 13 rebounds in the earlier game against K-State.

Probable starting lineups:

K-State	Pos.	Kansas
Heitmeyer (6-4)	F	(6-3) Goetze
McKenzie (6-6)	F	(6-2) Hensley
Wroble'ski (6-8)	C	(6-7½) High'er
Brown (6-2)	G	(6-0) Gardner
Johnson (6-4)	G	(6-2) Smith
Broadcasts:		WIBW, Topeka; KSDB-FM, Manhattan.

You'll be pleased with a Collegian classified.

Talk on Student Union Work To Be Tomorrow

"Opportunities In Student Union Work" is the title of the talk that Frank Burge, union director at the University of Kansas, will give to K-Staters Thursday at 5:45 p.m. in room 207 in the Student Union.

Mr. Burge is chairman of the Professional Preparation and Training committee for the National Association of College Unions.

The meeting is being planned by the Union Program council because of the growing need for trained personnel to serve as administrators in college unions throughout the country, according to Larry Foulke, NE Sr., chairman of the council.

"Any students interested in the opportunities of a career in this field are invited to the meeting," Foulke said.

ica will have election of officers tomorrow at 7:30 p.m. in the Union little theatre.

A slate of nominees has been prepared by the nominating committee and additional nominees for any office may be made at the meeting.

The chapter will also vote on a new name for the organization since FTA is the title used by future teachers in high school clubs.

Eta Kappa Nu

Members of Eta Kappa Nu, electrical engineering honorary will choose new initiates at a meeting Thursday at 4 p.m., in E 161.

Advancement of Management

A meeting of the Society for Advancement of Management is scheduled for February 26 at 7 p.m., in J 15. A 20th Century Fox TV film will be shown, and free coffee and doughnuts will be served.

Coffee Hours

The first of a series of "What You're Missing" news forums will be presented tomorrow at 4 p.m. in the Union art lounge. A panel of K-State professors will discuss the latest controversial news subjects. Students are invited to join in the discussions, ask questions, or just listen. The news forums are sponsored by the Union Coffee Hours committee.

Pep Clubs

K-State's pep clubs will attend the K-State-KU game in Lawrence Friday. The group will leave by chartered bus at 5 p.m. Friday and will return that evening. Approximately 36 Whippers, 10 Wampus Cats, and 28 Purple Pepsters will make the trip.

Religious Coordinating Council

Positions are now open for

ENGINEERS

Hydraulic systems are being used at an ever-increasing rate to power and control mechanisms in nearly every field. Cessna's Industrial Products Division is one of the fastest growing manufacturers of hydraulic components for Industrial and Farm Equipment use. Your future can be bright as a design engineer with Cessna if you are qualified. Cessna needs engineering graduates with up to five years experience — young, vigorous engineers with fresh ideas who want to grow with a growing organization. Investigate the advantages of working for Cessna where the Design Engineer can follow his design from concept, through testing and into production. Work without the frustration of the red tape that hampers the engineers work in many of the very large organizations. Plan to talk with the Cessna Engineer who will visit our campus March 5 or 6 1959 and learn of your opportunities with Cessna. Contact the Placement Center at Kansas State College for an appointment.

ENGINEERING UNDERGRADUATES

Cessna's Industrial Products Division has opportunities for engineering undergraduates to gain design experience during the Summer of 1959. A Cessna engineer will be available for interviews March 5th or 6th.

chairmanship of the following Religious Coordinating Council committees: program, hospitality, living group coordination, classroom and faculty relations, and publicity. The positions are for

the school year 1959-60. Those desiring further information should contact Neal Meitler, BA Jr., by March 5. Interviewing will begin on this date. Any student may apply.

Cosmopolitan Club

The educational systems of different countries will be discussed at the Cosmopolitan club meeting Friday at 7:15 p.m. in Student

Union 208. Coffee and doughnuts will be served.

Pershing Rifles

New pledges of Pershing Rifles were chosen Monday night by Capt. Don Potter, Sp Jr., president of the organization. The pledges were selected from freshman and sophomore members of ROTC on the basis of grades, desire, and military intelligence.

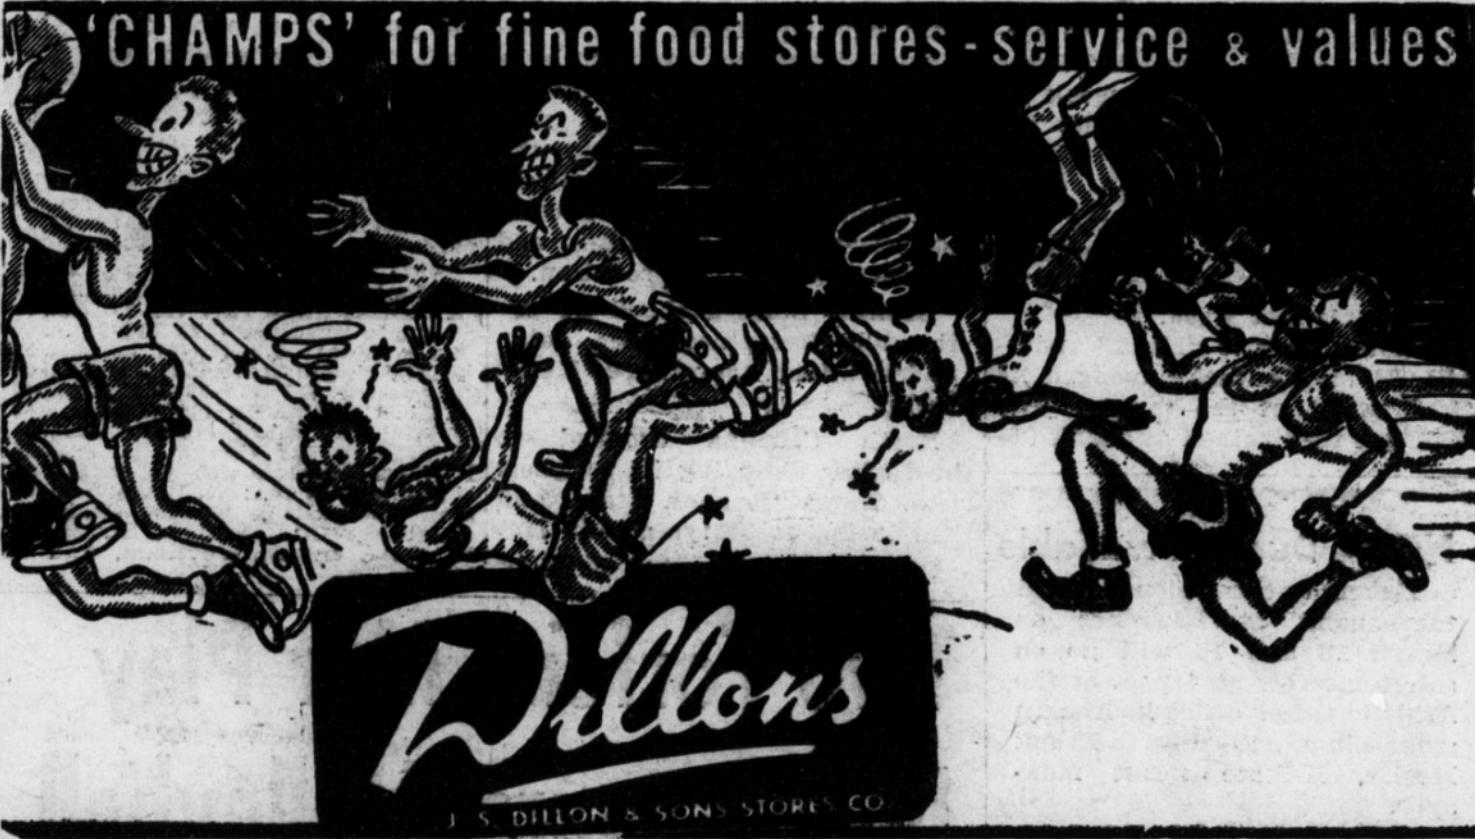

The pledges are David Berry, ME Fr; Larry Deal, EED Fr; Jerry Druen, BAA Fr; Joseph Jones, Gen Fr; Donald Joy, CE Fr; Gary Kaufman, PrL Fr; James Maxwell, Bac Soph; James McGrath, NE Fr; Gerald McKay,

Ar 01; James Munden, RM Fr; Homer Neff, AgE Fr; Richard Raus; John Starrett, AH Fr; James Wagner, NE Fr; Henry Thorne, AH Fr; Ronald White, BA Fr; and Alan Yabui, AgE Fr.

Radio Free Europe

"Radio Free Europe" will be the subject of a talk by Dr. Joseph Hadja, assistant professor in government, at 3:30 p.m., today in the Union browsing library.

Dr. Hadja, a native of Czechoslovakia, has written articles for Radio Free Europe for two years. In that time he has also made ten broadcasts.

BS CANDIDATES
Choose employment or graduate study

MS, PhD CANDIDATES
Choose direct assignment

...As an RCA Engineer

Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part time at the University of Pennsylvania or Rutgers University.

Or, you may prefer a different path ahead . . . RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assignments.

Experienced engineers and interested management guide your progress. You may receive assignments in design and development of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in Electron Tubes, Semiconductors and Components. MS, PhD Candidates are eligible for direct assignments in the above mentioned fields.

There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus—

MARCH 4

Mr. Robert Haklisch, Manager
College Relations, Dept. CR-11
Radio Corporation of America
Camden 2, New Jersey

Right now, though, see your placement officer. Get squared away on a specific time for your interview. And get your copies of the brochures that also help to fill you in on the RCA picture. If you're tied up when RCA's representative is here, send a resume to:

Tomorrow is here today

at RCA

RADIO CORPORATION of AMERICA

"**ARCHY AND MEHITABEL**," played by Jim Fairchild, BA Fr., and Joan Taylor, MGS Sr., will be the feature of the K-State Singers benefit program Sunday. A salute to George Gershwin, and three guest performers will complete the program.

'Archy, Mehitabel' To Be Presented

"Archy and Mehitabel," a love story of a poetic cockroach that falls in love with an alleycat, will be the feature of the K-State Singers benefit program Sunday at 3 p.m. in the College Auditorium.

The part of Archy, the poetic cockroach, will be sung by Jim

Atom P.A. System Transmits Speech

A public address system powered by atomic energy conveyed the speech of Gordon R. Molesworth, president of Molesworth Associates, at a dinner of the Midwest Industrial Isotope conference last night.

Snap III, which powered the public address system, weighs five pounds and will last 138 days without refueling. Introduced by the Martin company, it puts out 2.4 watts of electric power and costs about \$10,000, according to a company official.

Molesworth, a K-State graduate, said, "The military atom will maintain a lasting but uneasy peace to make way for peaceful uses of atoms."

The turning point for atomic energy was 1958 and by 1970 every industry will be using it as a power source, he said in his speech entitled "The International Atom."

"We lead in the number of nuclear powered submarines, but I am sure Russia has them, even though there has been no formal announcement. They do have a nuclear powered icebreaker," he said.

The Russians have an atomic powered aircraft which they flew in December of last year and we probably will not have one until 1963, he said.

Concerning peacetime usage of atomic energy, he said, "Ten per cent of the power capacity of this country will be nuclear by 1970 and by 1980 one-half of the electric plants will be nuclear."

The conference ends today with discussions including atoms and law, health and safety controls, commercial processing of isotopes, atomic energy through education, uses of radioisotopes in oil and gas wells, isotopes as power sources.

Fairchild, BA Fr.; and the part of Mehitabel, the alleycat, will be sung by a guest soloist, Joan Taylor, MGS Sr. Another guest soloist, Ernie English, MGS Jr., will sing the part of Big Bill.

Special costuming will help create the scene for the musical comedy which was prepared by George Kleinsinger. William R. Fischer, associate professor of music, will be the narrator and a small orchestra will provide the accompaniment for the comedy.

The first half of the program will be a salute to George and Ira Gershwin and a group of standard favorites of the Singers.

Three other guest soloists will be included on the program. Carol Stewart, MAI Fr., who recently made the tour with the Big Eight variety show, will provide several piano numbers.

Linden and Lass, a recording harmonica duo, will also appear on the program. They are stationed with the special services unit at Fort Riley.

Groundbreaking Set For Kedzie Addition

Groundbreaking ceremonies for the new addition to Kedzie hall will be at 4 this afternoon.

The removal of the trees south of Kedzie has been completed and construction on the building will begin before March 1. Prof. Ralph Lashbrook, head of the Department of Technical Journalism, said "We hope to be able to move in by September of 1960."

Invited guests include President McCain; Paul Young, dean of the School of Arts and Sciences; Cecil Hunter, contractor for the building; and the representatives of the Campus Development committee which approved the request for funds.

The new three-story T-shaped unit will be connected to the south wall of Kedzie hall with a corridor to connect each of the three levels.

Lashbrook, says "The need for a new journalism building at Kansas State college has been

Kansas State Collegian

Kansas State College, Manhattan, Kansas, Thursday, February 26, 1959

NUMBER 94

Dr. Hajda Explains Aim Of Radio Free Europe

"The aim of Radio Free Europe stations is to promote a gradual evolution of freedom. The stations work on the principle that there is an overwhelming wish for freedom in the five countries reached by their broadcasts."

The five countries, mentioned by Dr. Joseph Hajda, assistant professor of history, government, and philosophy, are Poland, Hungary, Czechoslovakia, Bulgaria, and Romania. Dr. Hajda referred to them yesterday in his discussion of "Radio Free Europe," in the Union browsing library.

"The practice of the broadcasts is to bring news about world affairs as objectively as possible to the people in oppressed countries."

"The substance of the program deviates little from American foreign policy. Radio Free Europe, however, is not the official voice of America," said Dr. Hajda.

Of the many subjects presented by RFE, the news from the fields of medicine and politics is received the best, commented Dr. Hajda. "The political views expressed represent the whole political spectrum from socialist to extreme conservative."

"The Soviet Union is worried

about these stations which threaten its power," said Dr. Hajda.

"The Russian solution is to fight the broadcasts with jamming stations, coercive measures and propaganda."

"There are hundreds of jamming stations to prevent reception of Radio Free Europe," commented Dr. Hajda. They operate on the same frequency as RFE, but RFE programs are beamed on several different frequencies. This helps to eliminate part of the jamming effect.

People caught listening to RFE in a group can be punished by a prison sentence of one to

five years or more, according to Dr. Hajda.

"Even though Communist governments try to stop reception of the programs, the number of listeners is actually increasing as time goes on," said Dr. Hajda. "Radio Free Europe is considered to be the most influential Western station."

Dr. Hajda said that he has prepared 10 to 12 broadcasts in the last three years. He writes the script, sends it to the New York office of Radio Free Europe for approval, and then makes a 20-minute recording of the broadcast in Czechoslovakian, his native language.

Docking Hits GOP On Education Plan

UPI—Gov. George Docking had this comment yesterday when informed of Republican plans for a broad state aid program to education:

"You can see from the actions of the leaders of the Republican party that they have every intention of spending at the earliest possible moment the one-half cent sales tax they put on the people last year."

Republican leaders today unveiled a broad legislative program to give \$3,588,458 in additional state aid to Kansas schools in grades one through the college level.

Basically, the plan calls for merit salary increases to faculty members at the state colleges and university averaging about 4.68 per cent.

And a second part of the plan for a "state school emergency finance fund" of \$2,000,000 for state aid to elementary and high school students at a rate of \$6 a pupil—over and above the current aid formulas which amount to approximately \$26 million.

Sen. Paul Wunsch (R-Kingman) said the \$3.6 million new state aid to education would be in excess of Governor Docking's state budget, but would not re-

quire new taxes and could be financed with current revenues.

He said GOP leadership will stay within the Governor's budget limits overall in spending allocations to other state agencies and merely differ on education.

Phi Kap Frat To Alter Title

Phi Kappa, Kansas State Catholic social fraternity, will soon be known as Phi Kappa Theta, according to Garry Lassman, EE Jr., president of Interfraternity council. The name change will be effective April 29 and is a result of the consolidation of two national Catholic fraternities, Phi Kappa and Theta Kappa Phi.

The consolidation took place at the national convention of the two fraternities in Columbus, Ohio, September 8, 1958.

The consolidation increases the membership of the individual chapters in each region and unifies the Catholic fraternities for purpose of facilitating business operations.

Use of Salk Polio Vaccine Advocated by Dr. Lafene

"People are risking both life and limb if they don't take advantage of the Salk polio vaccine," Dr. B. W. Lafene, director of Student Health, said yesterday.

Dr. Lafene said that there is no reason why everyone can't have a polio shot. Millions of injections have been given and the serum has been proven both safe and most of all, effective.

Dr. Lafene said, "One or two of the shots will not give the protection that is needed—it takes all three of the shots. There is no reason in the world

why anyone should have crippling polio, because Salk vaccine stops it. The vaccine doesn't stop anyone from contacting the disease, but it does stop paralytic polio."

"People must get shots now for this coming summer, because this summer will be too late," said Lafene. "Polio vaccine is the cheapest, best, health insurance obtainable."

Lafene said that uninformed people are the ones that must be vaccinated, for they are the "health hazards" of the family, community, and the nation.

Coffee Hours Group To Broaden Outlook

THE UNION COFFEE HOURS committee is sponsoring a series of news forums in which K-State faculty members will discuss "the latest controversial news subjects." The title of the series is to be "What You're Missing," and this seems to us to be quite appropriate—especially here at Kansas State where so many people get all wrapped up in college life and its many facets and completely miss what is going on "outside."

Oh, not that it is any easier to do this here than at many other places where it can and does happen, but it seems that at a college—or university—simply because of the nature of the institution, it should not happen. Kansas States, as an institution of "higher learning," should be a place where a person's outlook is broadened rather than narrowed to the confines of his day-to-day experiences.

SO CONGRATULATIONS to the Coffee Hours committee for "What You're Missing." And congratulations to anyone who realizes what he can miss and makes an effort not to miss it.—st

Quotes from the News

Washington — Chairman Otto E. Passman (D-La.), predicting that the House appropriations subcommittee would trim President Eisenhower's "wasteful" four-billion dollar foreign aid request despite veto threats:

"The threat of veto—or bluffing tactics—will not shake the integrity of the members of the subcommittee."

San Francisco — Rear Adm. Jack P. Monroe, commander of the Pacific missile range, replying to a question whether a Russian attempt to put a man into space would be a suicide mission:

"I wouldn't say suicide mission. But they won't be as careful as we are. They like the quick and dirty method of getting it up there."

Los Angeles—Lee F. Johnson of Denver, former executive vice president of the National Housing conference, calling for construction of a minimum of two million new homes a year:

"Good housing for all Americans is not the cure for all of our

domestic social ills. It does, however, mark an excellent point from which to start. The cancer of slums is growing in almost every American city today, although the disease was diagnosed in the mid-30's as one requiring national action."

Papeete, Tahiti—Actor Sterling Hayden, on plans to sail his schooner down to Tahiti from the Marquesas islands with his four children in defiance of a court order:

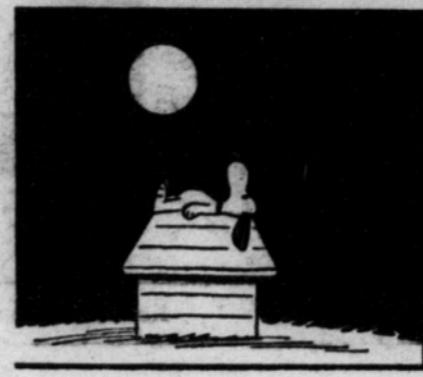

"My motivation? An ounce of freedom is worth a ton of gold."

Hollywood—Actress Arlene Dahl, on announcing plans to obtain a divorce from actor Fernando Lamas:

"I don't know where he is. I'm going to see an attorney."

Newark—Agriculture Secretary Ezra Benson, advocating lower price support of crops:

"We cannot spend ourselves into higher prosperity, but we can spend ourselves into real trouble."

World News

Average Farm Income Rises; Highest Level in Eight Years

Compiled from UPI
By JOHN HOKANSON

Washington—The Agriculture department reported today the average American farmer made more money last year than in any year since 1951.

The net income per person on farms from all sources rose 10 per cent in 1958 to a record \$1,068. This was 9 per cent above the previous high of \$983 per capita in 1951.

Realized net farm income—the money left over after production expenses are paid—totaled \$13,100,000,000 last year, up 21 per cent from 1957.

Farm costs were up 6 per cent to a record \$24,900,000,000. This reflected increases in livestock purchases, feed, mortgage interest, hired labor, and property taxes. The expense was much less, however, than gross income, hence the substantial gain in realized net income.

Crime Syndicate Spotted

Chicago—There is a definite indication of organized crime in Kansas City and a crime chieftain has even been spotted there, a special prosecutor for the Justice department said last night.

Richard B. Ogilvie, whose unit is investigating crime syndicates and tie-ups in an eight-state Midwestern area, said he would

not identify the crime king "until the proper time."

"But he said evidence he is collecting may result in a Federal Grand Jury investigation of a tie-up that is known to exist between mobsters in Kansas City and Chicago."

Ogilvie said Kansas City gangsters have made frequent trips to consult with Chicago crime leaders on "policy."

Docking To Sign

Merit Raise Bill

UPI—Asked if he would sign a bill giving merit salary increases to faculty members at the state's colleges and university, as proposed by Republicans, Gov. George Docking said today he doubted if he had the choice of a line veto—that he would have to sign it.

He contended he asked for faculty salary increases the last two sessions, but asked that the money be given to the Board of Regents which would dole out the money on a merit basis to those professors most deserving.

"They didn't do that. I don't know why. They gave it to the schools, and the school heads will grant salary increases to whom-ever they wish," he said.

LITTLE MAN ON CAMPUS

Top Ten Tunes

'Stagger Lee,' 'Donna,' 'Petite Fleur,' Top Jukebox Plays, Record Sales

By Helen Splichal

"Stagger Lee," by Lloyd Price; "Donna," by Ritchie Valens; and "Petite Fleur," by Chris Barber are No. 1, 2, and 3, respectively, in both jukebox plays and record sales in Manhattan this week.

"Hawaiian Wedding Song," by Andy Williams, appears for the first time in the Top 10 as No. 8

in jukebox plays and is destined to become a big record. Another fast-selling record is "Charlie Brown," by the Coasters. It is No. 10 in jukebox plays.

THE TOP 10 records in Manhattan record sales:

- "Stagger Lee," Lloyd Price
- "Donna," Ritchie Valens
- "Petite Fleur," Chris Barber
- "Children's March Song," Mitch Miller
- "Peter Gunn Theme," Ray Anthony
- "All-American Boy," Bill Parsons
- "Venus," Frankie Avalon
- "I Cried A Tear," Lavern Baker
- "Tall Paul," Annette
- "With the Wind and the Rain In Your Hair," Pat Boone

THE TOP 10 tunes on Manhattan jukeboxes:

- "Stagger Lee," Lloyd Price
- "Donna," Ritchie Valens
- "Petite Fleur," Chris Barber
- "Smoke Gets in Your Eyes," the Platters
- "Sixteen Candles," the Crests
- "Children's March Song," Mitch Miller
- "All-American Boy," Bill Parsons
- "Hawaiian Wedding Song," Andy Williams
- "I Cried A Tear," Lavern Baker
- "Charlie Brown," the Coasters

BEST SELLING LP albums are "Hungry I," by the Kingston Trio and "I Want To Live," by the original show cast. "The Score to the Peter Gunn Show," on RCA Victor label is booming in sales also.

A new record release by Brook Benton, "It's Just a Matter of Time," should be in the Top 10 soon, say Manhattan record sellers.

Readers Say

(Editor's note — the following letter was sent by leaders of various campus groups to presidents of fraternities and independent groups at K-State. It is being printed by the Collegian as an open letter to the student body.)

Dear President:

The support of you and your group is solicited by student leaders and the College in the drive to "win like champions." Our basketball team is winning acclaim throughout the nation. A small minority of misguided student celebrants could win us disgrace throughout the country by maudlin, destructive rioting in celebration. We refer to Aggieville bonfire celebrations.

This year we have every reason to believe the Wildcats may go all the way and become national champions. Win or lose, let's support our team in a manner which will make them proud to represent us.

You can support this program in the following ways:

1. By participating in the rallies and programs planned on campus by the Games and Rallies committee and Student Council.

2. By discussing, making resolutions and taking disciplinary action against students who participate in mob action, destroy property, and endanger public safety.

3. By assisting in the policing of your own members.

4. By asserting leadership through counsel of students outside your group.

Daily Job Routine Includes Laboratory 'Housekeeping'

By MARY WELSH

Wash out flask, rinse in tap water, rinse in distilled water, set on rack—wash out flask, rinse in tap water, rinse in distilled water, set on rack—this is the daily routine of the student working in the chemistry labs of Willard hall.

Charla Vinckier, BA Soph, who works for Dr. Philip Nordin in a lab in the basement of Willard, claims, "In a way we are regular housekeepers, only our 'houses' are chemistry labs. Instead of cleaning a house, we clean work tables; and instead of washing dishes, we wash test tubes and flasks."

This job may sound as if it is "all work and no play," but it does have its exciting moments. Several of the workers occasionally get together in a lab for a coffee-break. Rather than using a conventional coffee pot, they have rigged up a coffee-making apparatus out of laboratory supplies. They boil water in a flask over a Bunsen burner and pour the hot water over coffee placed in a funnel with pores in it.

Charla claims that undoubtedly the most exciting experience she encountered since working in the lab was "one day when we heard

this horrible blood-curdling scream coming from the other end of that dreary basement. I guess I've seen too many horror shows on television, but all kinds of visions about murders ran through my mind. After I found out what happened, though, I had to change my story from 'The Murder in the Chemistry

Lab' to 'The Boy Who Spilled Acid on his Arm.'

Charla states "strange as it may sound, I'm actually learning a little about chemistry in my job. Not that washing flasks is very educational, but just by being around people working on experiments I pick up little bits of information."

Photo by Jon Peterson

CHARLA VINCKIER, BA Soph, washes and rinses laboratory equipment for extra money. "In a way it's just like housekeeping, only we clean work tables and wash flasks," she said. "Dull as it may sound, it does have exciting moments."

Isotope Display Now in Union

An atomic energy exhibit illustrating the nature and uses of radioisotopes in industry is now on display in the Student Union. This multi-panel display is being supplied by the Oak Ridge national laboratory.

Two exhibits featured at the last Geneva "Atoms for Peace" conference are on display in the Union in connection with the Midwest Industrial Isotopes conference.

One of these displays is a working model of the Argonaut reactor. The other is a panel board showing reactor fuel fabrication. Both of these exhibits were sent to Argonne National laboratories of Lemont, Ill.

A closed loop movie television, a new projection system which shows at the touch of a button, a 16 minute movie on the Argonaut training reactor are also shown according to Dr. William R. Kimel, head of the Department of Nuclear Engineering.

Committees Named For New Men's Hall

Seven West Stadium men have been named to head committees to prepare for the fall 1960 opening of the new men's residence hall.

The group will begin prepara-

tion of a basic program for student governing activity of the 600 men who will live in the first of two men's dorms to be built. The \$2.5 million structure is still in its first phase of construction.

The group heads will work with C. W. Thomas Jr., director of West Stadium hall, in planning for the opening of the new dorm. The committee chairmen: Alan Yabui, AgE Fr; Clint Young, FT Jr; Dave Garfinkel, DM Soph; Homer Williams, Ar 02; Bill Fix, Ar 02; Pete Burger, PrV Fr; and G. Paul Dobson, IE Jr.

Tickets on Sale Today For AWS Day Banquet

Tickets for the March 5 All Women's Day banquet will go on sale at the Union information desk today.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and "Barefoot Boy with Cheek.")

THE PEN IS MIGHTIER THAN THE SMOOTH

Back in my courting days (the raccoon coat was all the rage, everybody was singing *Good Morning, Mister Zip Zip Zip*, and young Bonaparte had just left Corsica), back, I say, in my courting days, the standard way to melt a girl's heart was to write poetry to her.

I don't understand why young men today have abandoned this gambit. There is nothing like poetry for moving a difficult girl. What's more, poems are ridiculously easy to write. The range of subjects is endless. You can write a poem about a girl's hair, her eyes, her lips, her walk, her talk, her clothes—anything at all. Indeed, one of my most effective love lyrics was called *To Maud's Pencil Box*. It went like this:

"To Maud's pencil box" It went like this:

In your dear little leatherette pencil box
Are pencils of yellow and red,
And if you don't tell me you love me soon,
I'll hit you on top of the head.

Honesty compels me to admit that this poem fell short of success. Nothing daunted, I wrote another one. This time I pulled a switch; I threatened myself instead of Maud.

Oh, Maud, pray stop this drivel
And tell me you'll be mine,
For my sweetbreads they do shrivel
And wind around my spine.

My heart doth cease its beating,
My spleen uncoils and warps,
My liver stops secreting
Soon I needs be a corpse.

When this heart-rending ballad failed to win Maud, I could only conclude that she was cruel and heartless and I was better off without her. Accordingly I took back my Hi-Y pin, bade her adieu, and have not clapped eyes on her since. Last I heard, she was working in Galveston as a Plimsoll line.

But I did not mourn Maud long, for after Maud came Doris—Doris of the laughing eyes, Doris of the shimmering hair, Doris of the golden tibiae! Within moments of meeting her, I whipped up a torrent of trochaic tetrameter:

Oh, my sweet and dulcet Doris!
I love you like a Philip Morris
With its mild and rich tobacco
In its white and scarlet pack-o.
I'd swim from Louisville to Natchez
For Philip Morris and you and matches.

Well, of course, the dear girl couldn't resist a poem like that—what girl could?—and she instantly became my slave. For the rest of the semester she carried my books, washed my car, and cored my apples. There is no telling where it all would have ended if she hadn't been drafted.

So, men, you can see the power of poetry. Try it yourself. All you need is a rhyming dictionary, a quill pen, and a second-hand muse.

© 1959, Max Shulman

Let's drop rhyme and turn to reason. The reason Marlboro has gone to the head of the filter cigarette class is simple: better "makin's"—a flavor that pleases, a filter that works. Marlboro—from the makers of Philip Morris.

Still More Officers; Houses Continue Semester Elections

New officers of Van Zile for the spring semester are Sharon Studer, Soc Sr, president; Jean Swengel, VM Jr, vice president; Jeanette Campbell, HT Sr, secretary; Ruth Moline, EEd Sr, treasurer; Doris Miller, TJ Soph, and Carole Kerr, Soc Jr, AWS representatives; Vickie Richards, Eng Jr, publicity chairman; Carolyn Koch, TJ Fr, formal social chairman;

Marilyn Kufahl, FCD Jr, informal social chairman; Ruth Bybee, PEW Jr, intramurals chairman; Joan Taylor, MGS Sr, music chairman; Anita Torluemke, HE Soph, assistant music chairman; Carolyn Kuhn, EEd Sr, parliamentarian;

Virginia Bergstrom, HE Soph, librarian; Dolores Wilken, HT Jr, religious chairman; and Barbara Schlatter, EEd Soph, and Carolyn Cling, FCD Soph, interdorm representatives.

Kappa Delta officers for the coming year are Eleanor Zeornes, SED Soph, president; Carolyn Holbrook, HEN Soph, vice president; Maxine Burton, EEd Fr, secretary; Sharon Wissing, BA Soph, treasurer;

Gay Singular, ML Fr, assistant treasurer; Elaine Zerbe, TJ Fr, editor; Sharon Skupa, Soc Jr, membership; Linda Burge, EEd Fr, assistant membership; Linda Grothusen, EEd Soph, historian;

Anita Meckfessel, HT Jr, scholarship;

Irm Feldman, Eng Jr, activities; Marilyn Johnston, EEd Jr, assistant pledge trainer; Karla White, Gen Fr, intramurals; Pat Ryan, BMT Soph, social service; Judie Robertson, DIM Soph, social chairman; Carol Duesberg, MGS Soph, assistant social chairman; Maureen Berls, Eng Soph, good grooming chairman; Irm Feldman, Eng Jr, press chairman; Sue Greene, HEA Jr, house manager; Barbara Gentry, EEd Soph, Panhellenic senior representative;

Karen Bozarth, HE Fr, Panhellenic junior representative;

Ann Teas, BAA Soph, magazine chairman; Linda Grothusen, EEd Soph, education; Carol Duesberg, MGS Soph, song leader; Nancy Ann Peterson, HEJ Fr, chaplain; Karla White, Gen Fr, parliamentarian; Loretta Weizelman, EEd Soph, sergeant-at-arms; Paula Oppy, BPM Fr, guard; Loretta Lasho, BA Fr, corresponding secretary; and Linda Burge, EEd Fr, AWS representative.

Phi Delta Theta fraternity has elected the following officers to serve throughout the spring semester: Dick Brantingham, BA Sr, president; Mark Elliott, VM Jr, reporter; Nick Hudelson, AE Jr, recording secretary; John Garrett, EE Jr, alumni secretary; Rex Pearson, BA Jr, treasurer; Ken Schafer, BA Jr, Fred Saunders, EE Jr, Harris Laing, MTC Soph, executive committee; Bill Taylor, ME Jr, warden; John Davis, Ch Soph, chaplain;

Max Peterson, EE Soph, scholarship chairman; Max Blakely, EE Soph, rush chairman; Charles Moogie, BAA Sr, activities chairman; Bud Annan, BA Jr, Dick Hoyt, MTC Soph, social chairmen; Ed John, VM Sr, intramurals chairman and pledge trainer;

Lloyd Phillips, CE Sr, pledge master; Bruce Stover, ME Jr, Ron Holeman, BA Jr, IFC representative; Dick Kice, IE Soph, chorister; Larry Esau, NE Jr, historian; Merle Roberts, ME Sr, house manager.

The newly elected officers of the Delta Upsilon fraternity are president, Bill Gordon, AED Jr; vice president, Terry Bullock, MGS Soph; treasurer, George Lesovsky, BAA Soph; recording secretary, Bruce Dahlinger, BA Soph; corresponding secretary, Charles Wilkins, IE Sr;

House manager, Wayne Denton, BA Soph; rush chairman, Tom Holmberg, ME Soph; executive committee members-at-large, Jim MacDonald, BAA Soph, and Mack Boelling, BPM Sr.

Other officers are pledge trainee, Bill Grinstaff, BA Soph; former social chairman, Jim MacDonald, BAA Soph; informal social chairman, Bill Helvey, SS Soph; intramurals chairman, Steve Southerland, Sp Soph; scholarship chairman, Mack Boelling, BPM Sr; publicity chairman, Jerry Kintigh, FT Jr;

Chapter publications, Jim MacDonald, BAA Soph; senior IFC representative, George Beck, BAA Sr; junior IFC representative, Jerry Kintigh, FT Jr; historian, Darrell Richardson, BA Jr; song leader, Terry Bullock, MGS Soph.

Recently elected spring officers for Kappa Sigma are Bill Bloxom, EE Sr, grand master; Ralph Lambing, His Jr, grand proctor; Bill Brown, CE Soph, grand master of ceremonies; Larry Holman, BPM Jr, grand scribe; Ron More, BA Soph, grand treasurer; Norman Lowe, Ar 02, and Jim Selby, NE Soph, Manhattan, guards; and Charles Jacobs, BA Jr, house manager.

SIGMA PHI EPSILON SWEETHEART Emily Mohri, EEd Jr, was crowned at the annual Sig Ep Golden Heart ball in the Union Saturday night.

K-State Students Pick Favorites By Exchanging Pins and Rings

Waknitz-Doebling

The engagement of Mary Waknitz, HE Soph, and Dee Doebling, EE Jr, has been announced. Mary is from Bazine, and Dee is from Ness City.

Elyea-Swiercinsky

The engagement of Julianne Elyea and Jim Swiercinsky, DH Jr, has been announced. Julianne is attending Belleville High School and will graduate this spring. Jim is from Republic.

Schultis-Peters

The engagement of Kathy

Schultis, HEJ Sr, and Keith Peters, Eng Soph, has been announced. Kathy is a member of Gamma Phi Beta from McPherson. Keith is from Salina. An August wedding is planned.

Felton-Innes

Linda Felton, SED Jr, and Ron Innes, BA Jr, announced their engagement Valentine's Day. Linda is an Alpha Xi Delta from Mt. Vernon, Ill., and Ron is a Delta Tau Delta from Phillipsburg.

Light-Weathers

Barbara Light, HT Sr, and

Benton Weathers, electrical engineering instructor, announced their engagement recently. Barbara is from Liberal, and Benton is from Fayette, Mo.

Schmedemann-Erickson

The pinning of Mary Sue Schmedemann, EEd Jr, and John Erickson, BA Jr, was announced Wednesday at the Delta Delta Delta and Delta Tau Delta houses. Mary is from Manhattan and John is from Morago, Calif.

You'll be pleased with a Collegian classified.

More buxom blondes with shipwrecked sailors insist on Camels than any other cigarette today. It stands to reason: the best tobacco makes the best smoke. The Camel blend of costly tobaccos has never been equalled for rich flavor and easygoing mildness. No wonder Camel is the No. 1 cigarette of all!

Leave the fads and fancy stuff to landlubbers...

Have a real cigarette—have a CAMEL

Research, Studies Keep Graduate Students Busy

"Research projects are as numerous as the number of graduate students," said Dr. Harold Howe, dean of the Graduate school. According to Dr. Howe there are 648 students in the Graduate school at the present time, and during the entire year there are as many as 1,200 working on advanced degrees.

In order that more students may have the opportunity to earn degrees, assistantships are granted to over 200 each year in 45 fields. Twelve fellowships are given by corporations to students in Graduate school.

Research done by the students falls into two phases, primary and secondary according to the source used. In primary research the student does original work that is used in his master's thesis, and in secondary research the student uses information that has been already collected to use in his masters report.

Bauder Al-Rawi is doing original research in parasitology, the study of parasites. He is trying to develop a new species of a sheep parasite in a rabbit, so that it can be more easily studied, and its relationship studied. Al-Rawi has been working on this project for five months and will probably spend another year on his research.

The parasite makes sheep lose weight and unable to thrive properly especially in Iraq where Al-Rawi lives. "When I finish my research I plan

to go back to Iraq to use my knowledge to help my country," Al-Rawi said.

In the School of Home Economics Mrs. Clinitta Ford is also doing original research. She is working in the field of dietary and blood nutrient levels in a selective group of children. She has studied blood samples from 70 children, and is now in the process of analyzing her findings.

This is Mrs. Ford's third year in this research and she says "Research certainly takes a lot of time, and you have to have a love for your project to be able to spend so many hours on it." After she receives her degree Mrs. Ford plans to do research at Florida A & M.

Orlan H. Buller, AE Gr., is making a beef cattle study from the records collected by Kansas State college and the United States Department of Agriculture.

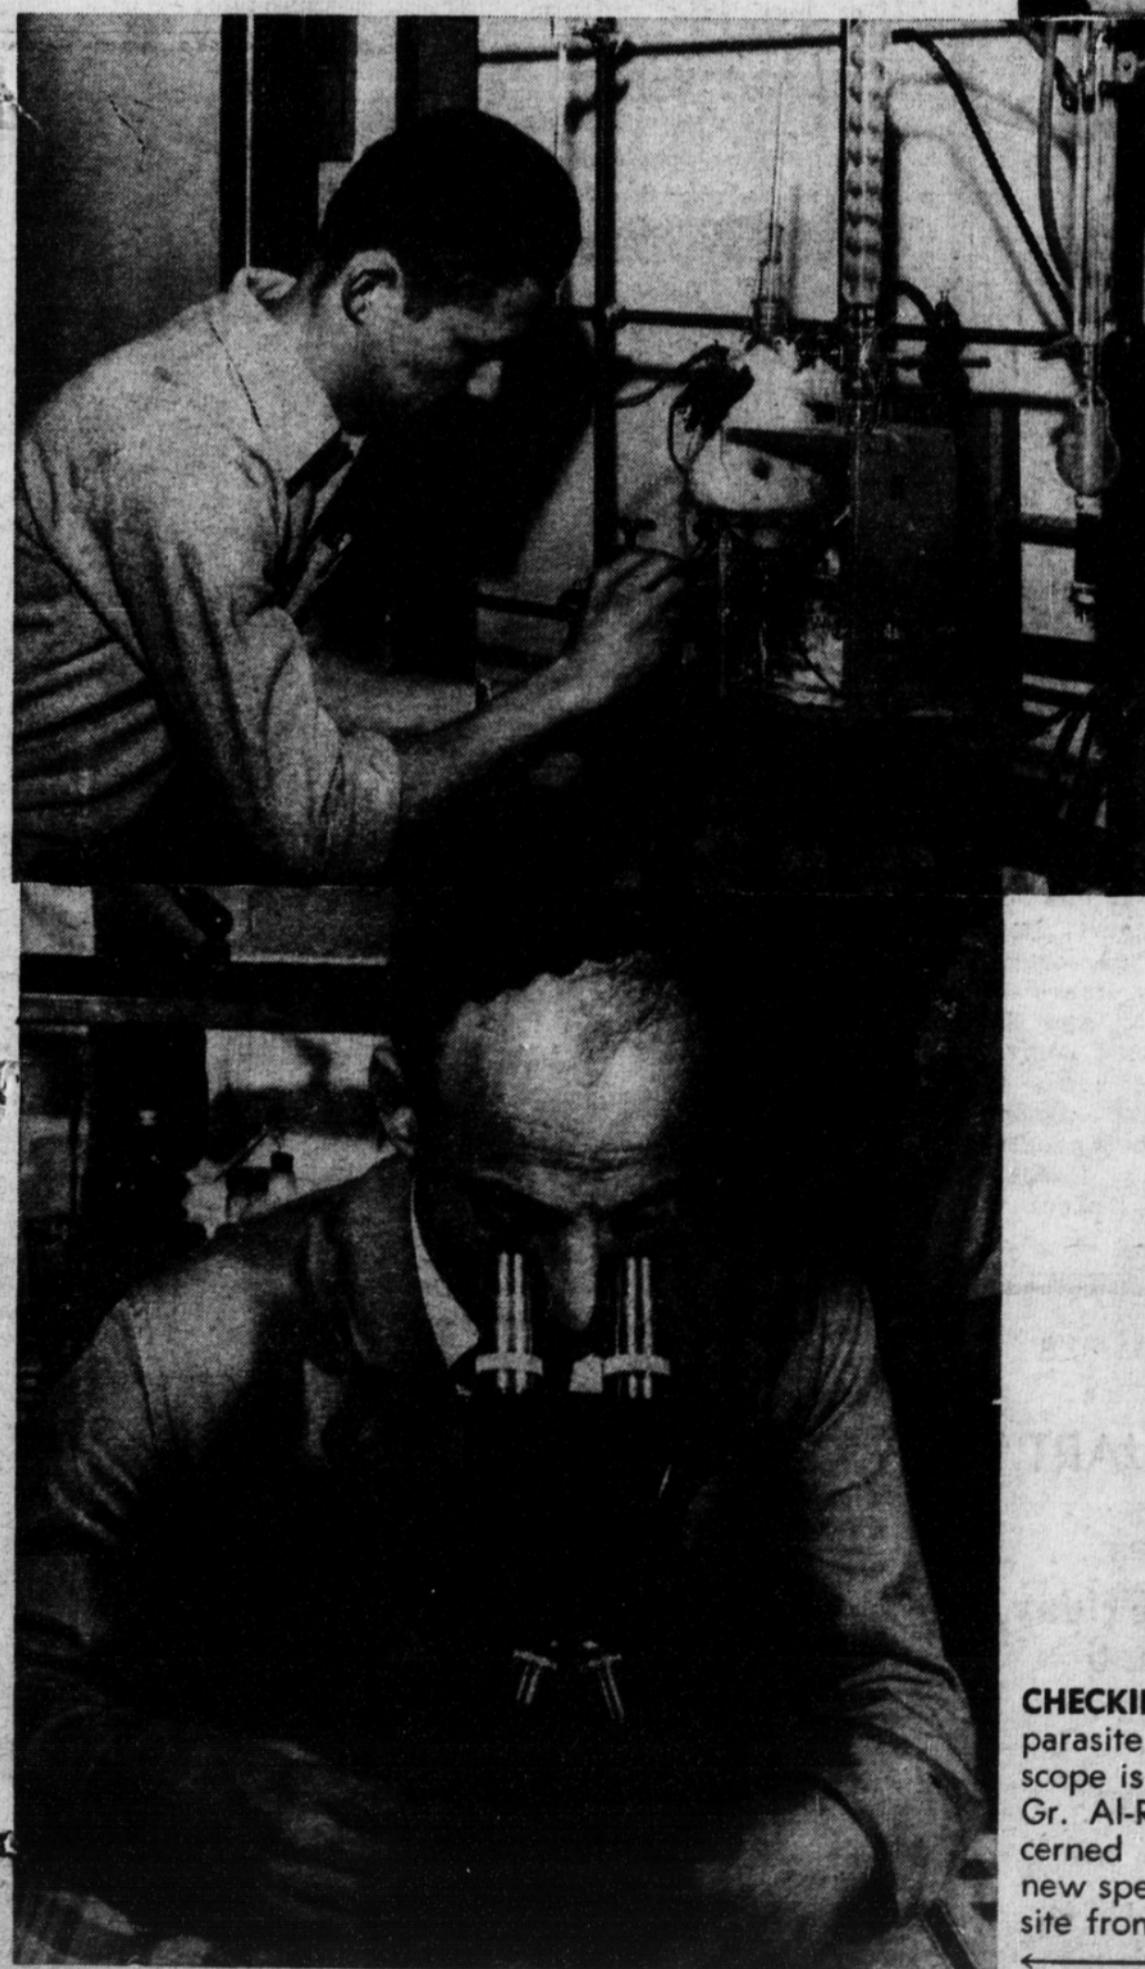

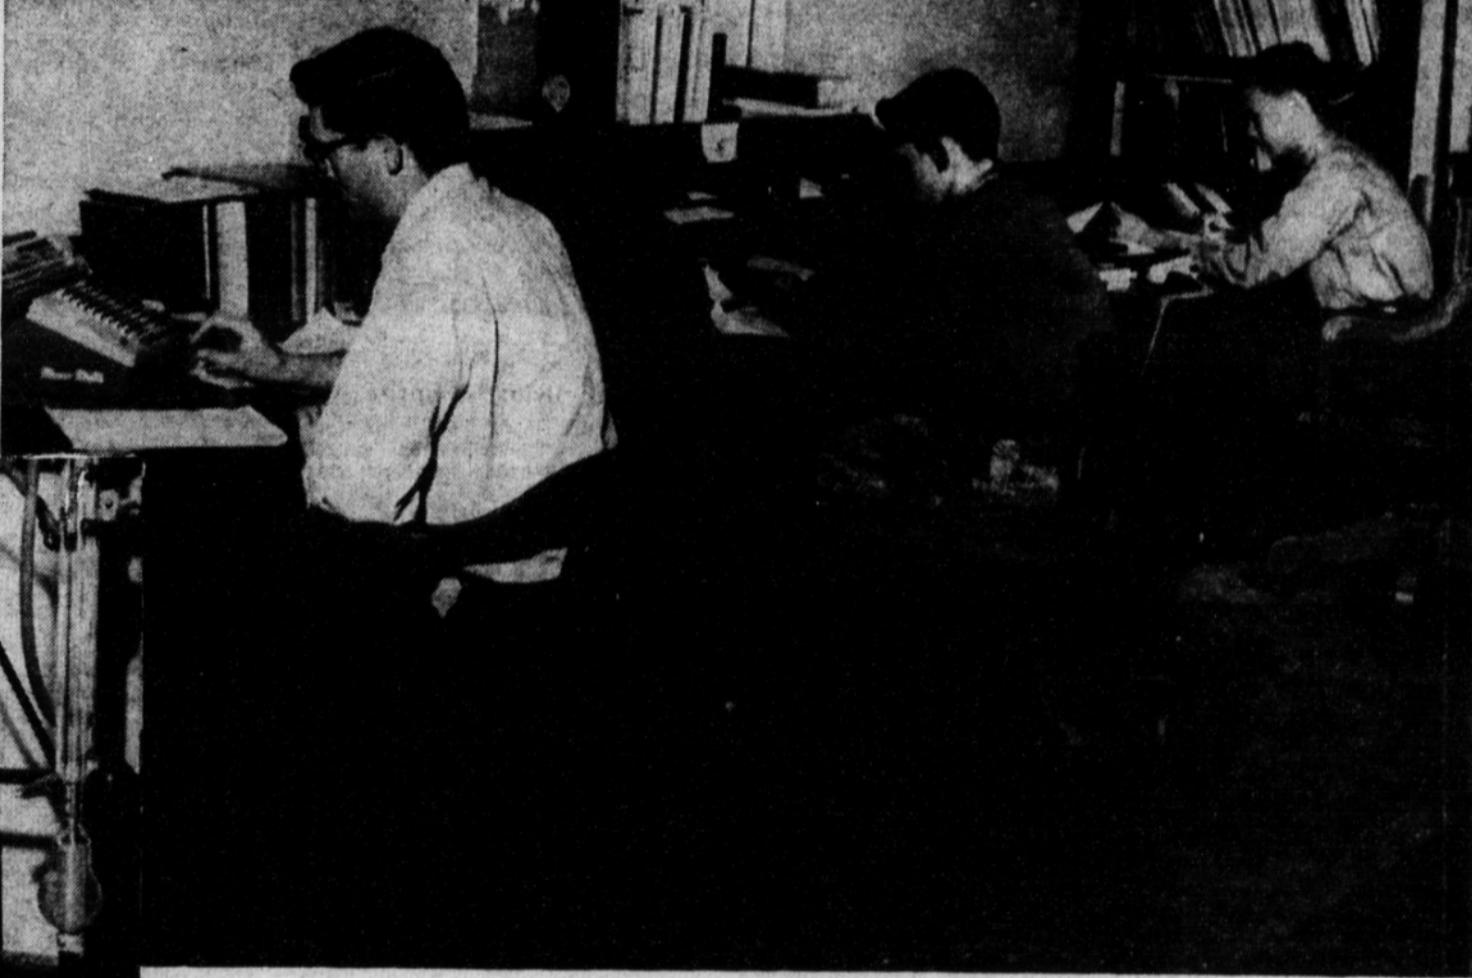

The survey covers several western counties, and concerns the number of cattle raised, changes in the number of cattle, and the reasons for the changes in the years from 1952 to 1957.

Buller began his research last September and plans to finish in August of next year.

Teaching and doing research work takes most of Dr. B. G. Kyle's time. Dr. Kyle is working in the Department of Chemical Engineering, and is studying methods of separating hydrocarbons by extractive distillation. This research is a continuation of the study Dr. Kyle did last summer with the aid of a grant from the DuPont corporation.

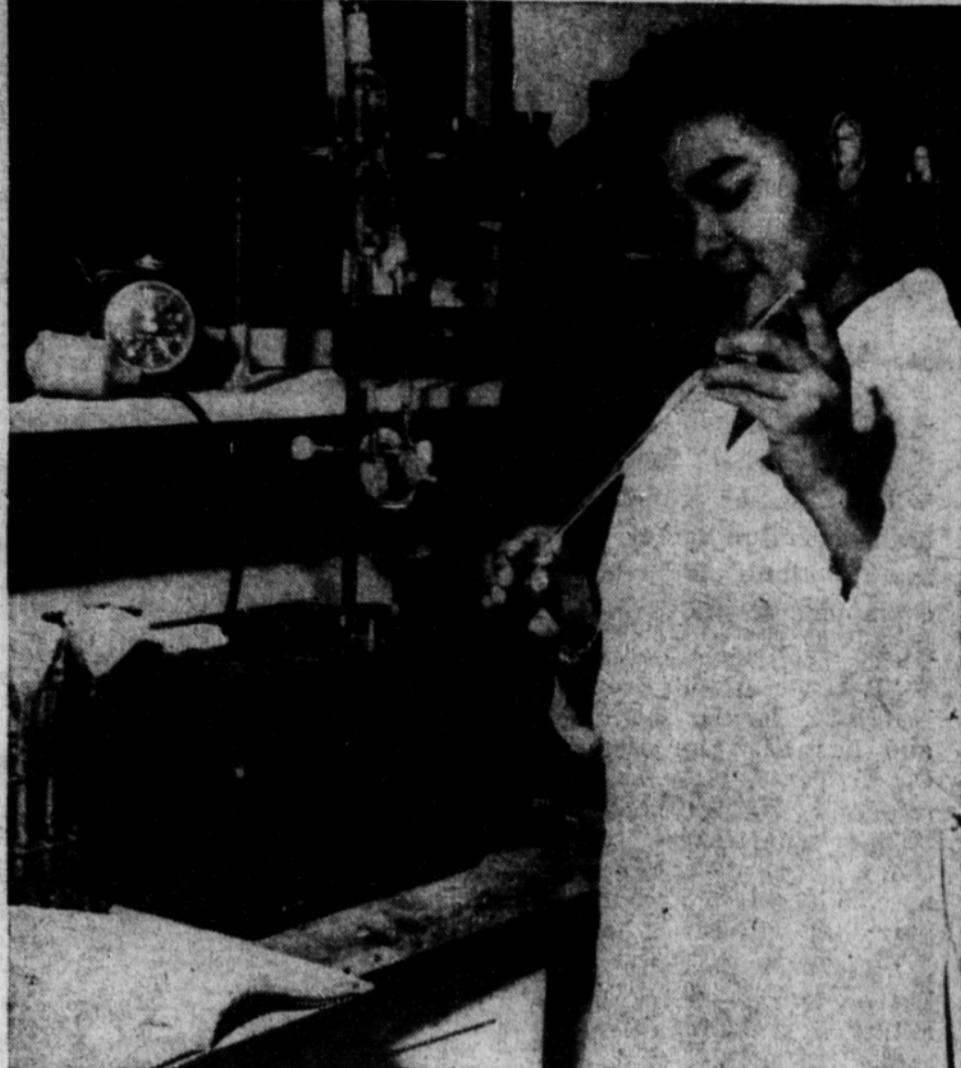

THIS IS THE "LAB" of the agricultural economics students. Here they tabulate and analyze information gathered in the field. From left: V. J. Norton, AE Gr.; G. P. Owens, AE Gr.; and J. J. Shieh, AE Gr.

DRAWING A SAMPLE from a phase equilizer is Norman Tetlow, ChE Gr. Tetlow is doing research on methods of separating hydrocarbons by extractive distillation.

Photos by
Don Dailey

CHECKING ON a type of parasite through a microscope is Bauder Al-Rami, Zoo Gr. Al-Rami's research is concerned with developing a new species of stomach parasite from sheep.

MRS. CLINITTA FORD, FN Gr., draws a certain amount of liquid for a vitamin C determination. She has done much work in the field of dietary and blood nutrient levels.

RESEARCH FOR an English graduate is more difficult than it may seem. Tom York, Eng Gr., is busy digging out information for his Master's thesis.

Playmaking Ability, Defense Make Matuszak Top Guard

By JOHN PETTERSON

Agile ballhandler, top playmaker, defensive ace — these terms describe Don Matuszak, Wildcat senior guard, who has been a major factor in Kansas State's climb to a Big Eight championship and a berth in the NCAA regionals.

"Because of his court savvy, Matuszak is our best floorman and has been for three years," Coach Tex Winter said. Winter referred to Matuszak as the team's "quarterback" because of the 6-0 guard's ability to diagnose a situation and to set up a play that will result in a basket.

"Matuszak doesn't shoot a lot, but he makes up for it with his ability as a ballhandler," Winter said.

Matuszak picked up his fancy dribbling and passing, "French pastry," as Winter calls it, from watching pro basketball teams when he was in high school.

"A lot of practice was necessary before I gained the confidence to use this type of thing," said Matuszak. "I have confidence in my passes or I wouldn't make them." He added that most of his teammates have adapted themselves to his type of play and watch for the ball.

Matuszak's goal while playing for the Wildcats is to win the NCAA playoffs. "We are determined to go back to Louisville and redeem ourselves for last year," he said.

"I love to play a fast game," said Matuszak, "one with a lot of running and shooting." He added that he especially liked to play a zone defense because it gives him a chance to follow the ball out front and to make a lot of steals enabling him to set up a fast break.

"Matuszak's outside shooting could be improved," said Winter. The senior guard is now hitting 48 per cent of his field goal attempts.

"His free throw average—59 per cent—doesn't indicate his ability," said the K-State coach. "He is able to hit the big ones when the pressure is on."

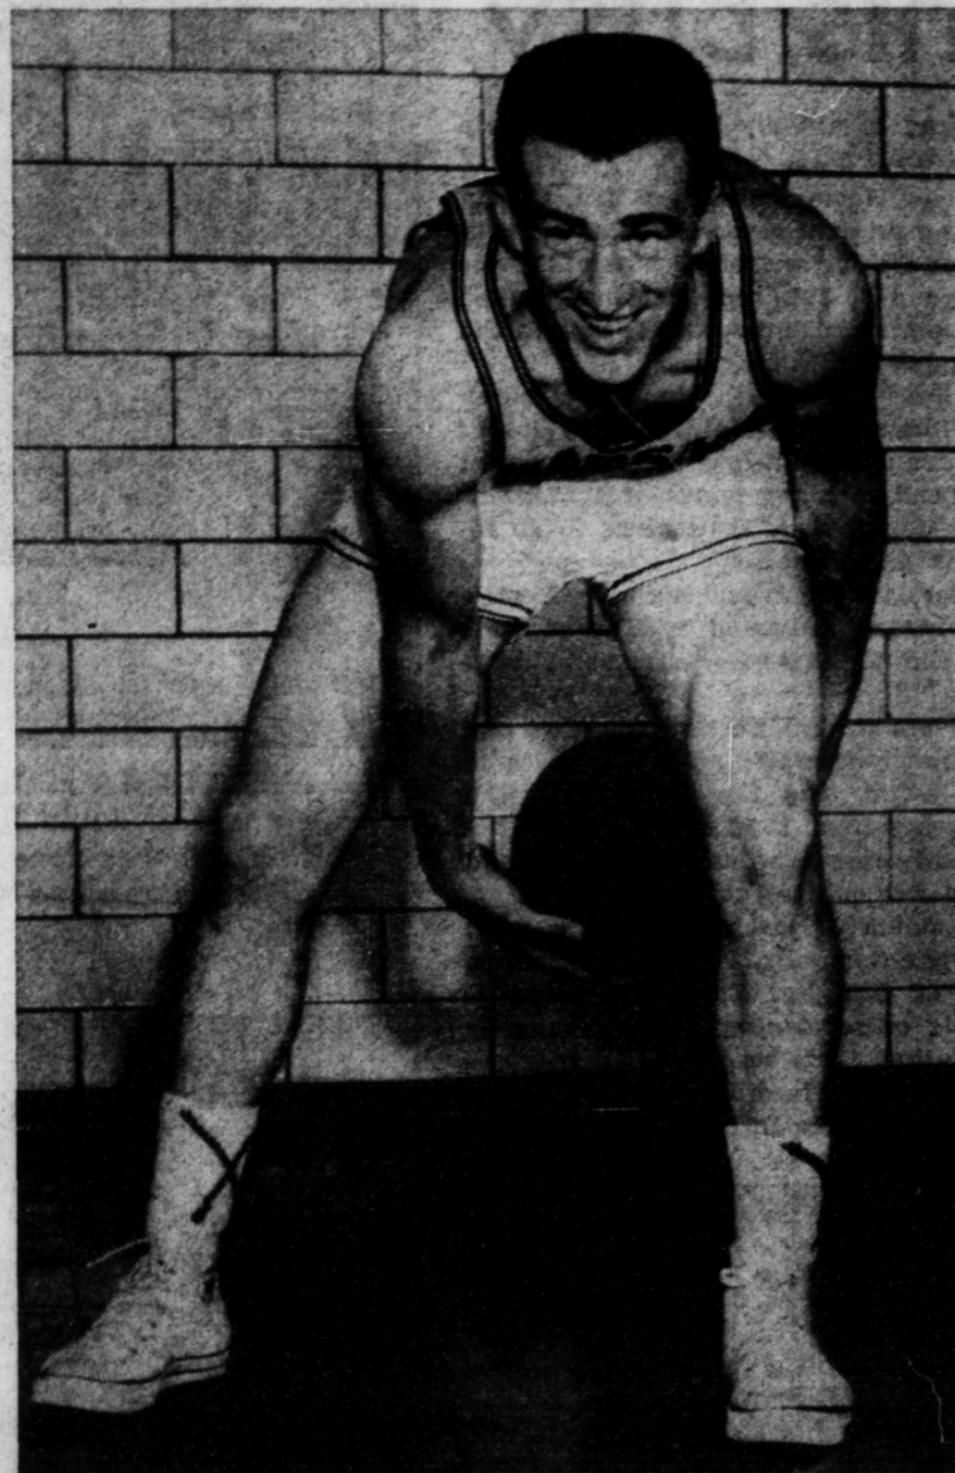

Lou Pucillo, North Carolina State's standout floorman, is the best guard Matuszak has played against this season. "Pucillo is a very clever ballhandler and an outstanding player," Matuszak said.

Because of its great balance, Matuszak thought North Carolina State was the best team the Cats have played against this season. "They keep you on your toes every minute," he said.

Matuszak is planning to coach when he graduates. He now spends part of his afternoons as a practice teacher at Luckey high school in Manhattan.

He isn't sure whether he wants to play pro basketball. "I might play if I get the chance. However, I'll have to wait until the time comes to make that decision," he said.

Matuszak is from Cicero, Ill., where he attended Morton high school. Basketball has always been his favorite sport, and he played four years at Morton. He earned three letters and in his senior year was named all-conference, all-Chicago area, and all-state, while his team took first place in its conference.

STANDOUT WILDCAT GUARD Don Matuszak engages in a bit of fancy ballhandling. The 6-0 senior has been K-State's top floorman the past two seasons.

Tie Highlights Action In IM Volleyball Play

A tie between Lambda Chi Alpha and Kappa Sigma highlighted intramural volleyball action last night in Ahearn gymnasium. The scores were 15-12, 7-15, 15-15.

The 50-minute time limit ran out in the final game, and the

match was called a tie according to intramural rules.

In other games last night, Westminster foundation trounced Sigma Phi Nothing, 11-0, 15-7; Sigma Nu beat Phi Kappa Tau, 15-2, 13-15, 15-8; and Pi Kappa Alpha toppled Acacia, 15-13, 15-4.

Delta Sigma Phi edged Alpha Kappa Lambda, 10-15, 15-9, 15-14; Alpha Tau Omega beat Theta Xi, 11-0, 14-16, 15-5; Alpha Gamma Rho dumped Tau Kappa Epsilon, 15-6, 15-6; and Sigma Alpha Epsilon whipped Sigma Phi Epsilon, 11-0, 15-17, 15-2.

Tonight's schedule:

7 p.m.—Beta Sigma vs Phi Delta Theta, northwest court; Beta Theta Pi vs Phi Kappa, southwest court; DSF vs House of Brec, northeast court; and Jr. AVMA vs AIA, southeast court.

8 p.m.—Scholarship house vs Hilltoppers, northwest court; West Stadium vs Rebels, southwest court; LSA vs Kasbah, northeast court; and Jokers vs SPN, southeast court.

In this afternoon's games, Chi Omega 1 will play Pi Beta Phi on the east court, and Chi Omega 2 will meet the Blitz Babes on the west court. Both games are scheduled for 5.

Mermen To Host Tigers

The K-State swimming team will meet Ft. Hays for the second time this season when they host the Tigers in Nichols pool at 4 this afternoon. The Wildcats won the earlier match, 64-22.

Although three of the Cat swimmers will be slowed down by illness, Bill Thrall, K-State coach, looks for an easy win for his team.

Craig McNeal, hampered by illness the last two weeks, will swim in only the 410-yard freestyle and medley relays. "McNeal is getting stronger all the time and should be in top shape for the Big Eight swimming meet next week," said Thrall.

With a record of 6-6, the

team will count on Dave Hinderliter in the 60- and 100-yard freestyle events.

Entries for K-State are Dave Leavengood, Al Rader, Chuck Englund, and McNeal, 410-yard medley relay; Tom Coblenz, 220-yard freestyle; Hinderliter and Gordon Harper, 60-yard freestyle; Chestnut and Dave Noblitt, diving; and Englund and Jerry Fitzgerald, 200-yard butterfly.

Hinderliter and Harper, 100-yard freestyle; Leavengood, 200-yard backstroke; Coblenz, 440-yard freestyle; Rader and Bruce Smith, 200-yard breaststroke; and Fitzgerald, McNeal, Englund, and Hinderliter, 410-yard freestyle relay.

OPEN TILL 8:30 THURSDAY NIGHT

Cat Frosh Edge Jayhawks

K-State guard Dick Ewy's clutch scoring outshone a 39-point performance by Kansas' Jerry Gardner last night as the Wildcat freshmen defeated the Jayhawk frosh, 97-95, in two overtimes in Allen field house.

Ewy's 25-foot jump shot in the final two seconds of regulation play knotted the score at 76-all, and the Wildcat guard repeated the performance with two free throws in the last three seconds of the first overtime to tie it, 82-82.

A slim crowd of 2,000 watched the young Wildcats overcome the deadly shooting of Gardner to avenge an earlier 72-57 loss to the Jayhawks at Manhattan.

With Mike Wroblewski hitting 20 points, the Cats rolled to a 45-36 halftime lead, only to have the Jayhawks come back strong in the final period.

Kansas had a 69-63 lead in the last eight minutes of play, but K-State began a stretch drive which was capped by Ewy's game-tying fielder.

Bill Goetze hit two jump shots and Charles Smith added two free throws in the opening two minutes of the first overtime to give the Jayhawks an 82-76 lead.

Scott Allen scored for the Wildcats, and Ewy hit another

long field goal to pull them to within two, 82-80.

Kansas then lost the ball, and Pat McKenzie was fouled with only eight seconds remaining. McKenzie missed the free throw and Kansas got the rebound, but Ewy stole the ball and was fouled by Dwight Nesmith with only three seconds left.

After Ewy tied the game, Jerry Johnson and McKenzie each hit two fielders in the second overtime to put K-State out in front, 92-88. A jump shot by Gardner cut the gap to two with 52 seconds left.

Gardner then fouled Warren Brown, who hit both charity throws for the Cats, but the Jayhawks

North Carolina Beaten By Virginians, 69-68

By UPI

A second-straight upset loss, this time at the hands of Virginia, threw a cloud today over North Carolina's post-season basketball chances and could serve as a warning to high-ranked West Virginia, which hits the tourney trail today. North Carolina, the nation's No. 1 team until upset by Maryland last week, took it on the chin again last night, 69-68, at Charlottesville, Va., when Paul Adkins of Virginia tallied two free throws with 1:30 to play.

The loss dropped North Carolina out of first place in the Atlantic Coast conference. Although it could be meaningless in the long run, since the ACC berth in the NCAA tourney goes to the team winning the league's own post-season tourney, the loss raised doubts about North Carolina's chances.

West Virginia, ranked 18th nationally, is a top-heavy favorite in the Southern conference's post-season tournament opening today in Richmond, Va., with an NCAA berth at stake for the winner.

In another tournament development, it was learned in Starkville, Miss., that Mississippi State probably will decline a berth in the NCAA tournament. The Maroons have clinched the right to represent the Southeastern conference in the NCAA carnival, but the state of Mississippi has an unwritten policy against racially-integrated athletic events.

University President Ben Hilburn said the school's decision won't be announced until after the Maroon's final game of the season Saturday night against Mississippi. But it was learned that the an-

nouncement almost certainly would be a rejection. That would clear the way for Kentucky, last year's NCAA champion, to return to the tournament on a "rain check."

ENGINEERS

Hydraulic systems are being used at an ever-increasing rate to power and control mechanisms in nearly every field. Cessna's Industrial Products Division is one of the fastest growing manufacturers of hydraulic components for Industrial and Farm Equipment use. Your future can be bright as a design engineer with Cessna if you are qualified. Cessna needs engineering graduates with up to five years experience — young, vigorous engineers with fresh ideas who want to grow with a growing organization. Investigate the advantages of working for Cessna where the Design Engineer can follow his design from concept, through testing and into production. Work without the frustration of the red tape that hampers the engineers work in many of the very large organizations. Plan to talk with the Cessna Engineer who will visit our campus March 5 or 6 1959 and learn of your opportunities with Cessna. Contact the Placement Center at Kansas State College for an appointment.

Glen Long May Return To Action Friday Night

By JAY WORKMAN

Glen Long, 6-4 K-State junior who has been sidelined with a knee injury since the second game of the basketball season, may return to action against Kansas tomorrow night.

"We plan to use Long in the Kansas game if the occasion arises," said Tex Winter, K-State coach. "We realize that he may not be back to full speed and strength, since he only Monday started full-speed workouts with the varsity. But he apparently is ready to play."

The Wildcats' team physician, Dr. Donald Cooper, tabbed

Long's recovery as surprisingly quick.

"Long has a tremendous desire to get back in action," Cooper explained. "That, plus the excellent treatment he has received from trainer Porky Morgan, has helped him return sooner than we had anticipated at first. While he needs to develop strength and endurance in the affected leg muscles, he has recovered remarkably soon."

Long was injured in the game against Indiana on December 6, when he pivoted and injured the knee on a K-State fast break with no one near him. When it became apparent the knee needed surgery, he underwent a knee operation on December 29.

The Wildcat forward returned to practice two weeks ago, although he had been limited to restricted light drills until this week.

"I want to get back and do something," Long said. "The guys on the team have been great about it. They encourage me and make me feel like I'm still part of the team, when I haven't been doing anything."

The Wildcats have three remaining games in the regular season in which Long may appear. Following tomorrow night's game with Kansas, they host Missouri March 7, and Nebraska March 9.

Winter indicated that even if Long does not play against Kansas he may boost Wildcat strength in the other two games, and he will be even more help in the NCAA playoffs.

Martha Steps, TJ Soph., was tapped by Theta Sigma Phi, women's journalism honorary, last night.

Junior College Conference

Problems of co-ordinating junior college courses with the regular college levels was discussed at the fifth annual conference of junior college deans February 24 and 25 on the K-State campus.

Deans and officials of 14 junior colleges in Kansas and Missouri met with K-State faculty members from engineering, agriculture, arts and sciences, and home economics schools.

"The major purpose of the conference was to better articulate and co-ordinate the junior college courses to our courses," said Ellsworth M. Gerritz, director of admissions and registrar.

Military Engineers

Major J. P. Barnes, Assistant District Engineer of the Kansas City Engineer district, will be the main speaker at a meeting of the Society of American Military Engineers, tonight at 7:30 in room 211 of the Military Science building.

Major Barnes is the president of the Greater Kansas City post and will discuss the purpose and benefits of the society from a military view. Accompanying him will be a civilian member of the post to discuss the society from a civilian viewpoint.

Dairy Club

An illustrated talk by Bob Vernon, BS '56, on the dairy manufacturing industry in Korea and Japan was the program for Dairy club at its meeting Tuesday night. Vernon showed slides taken both inside and outside one of Japan's larger dairy plants. He also discussed international relations on the individual level between Japan and the U.S.

John Carlin, DH Fr., was elected to fill the vacancy on Ag Council.

After a brief discussion it was decided to continue the printing of the alumni directory in this year's Dairy Student. The Dairy Student is a publication of Dairy club that is sent annually to Dairy Husbandry alumni and Kansas high schools.

IFC Studies Wages Paid to Frat Help

The Interfraternity council has set up a committee to study the wages paid by social fraternities to house mothers, house boys, and cooks, according to Garry Lassman, EE Jr., IFC president.

The purpose of the study is to give the fraternities some guide as to the proper wage for their employees.

The IFC has discovered that there is a great difference among the houses as to the wages paid to employees and that some are payed too much and others too little.

sent

to members of the United States party at their meeting tonight at 7:30 in the Student Union third floor.

Alpha Delta Theta

All girls enrolled in medical technology who are interested in becoming members of Alpha Delta Theta have been asked to attend a meeting of the club. The medical technology professional will meet tonight at 7 in the K-State Union walnut dining room. Plans for the annual spring tour will be discussed.

Veterans' Payroll

Veterans under Public Laws 634 and 550 should sign the payroll in the Veterans' Service office, Friday, February 27, or Monday, March 2.

Bridge Turney

The final practice session for the National Intercollegiate Bridge Turney will be Saturday from 1 to 5 p.m. in Student Union 208.

Dr. S. T. Parker, professor in the Mathematics department, will be on hand to brief the students on the rules and methods of playing tournament bridge. There is no charge for the practice session, but students wishing to enter the National Competition must pay a 25 cent fee.

"For the first time there was a scramble to get into the spring semester honors seminars," Assoc. Prof. Brewster Rogerson, head of the Arts and Sciences program, has announced.

The seminars meet once every two weeks for a two-hour session, either in a classroom or in the instructor's home. This semester there are 64 honors students participating in the seminars. This is approximately half of those in the program.

Students are admitted to the Arts and Sciences honors program on the basis of their entrance exams, or if they are in the upper 5 per cent of their

class. Those in the program have the privilege of optional attendance, the right to enter the stacks in the Library, and the opportunity to participate in the seminars.

When the juniors currently in the program graduate, they will present a paper or project in their major field of study. "It will be a sort of miniature master's paper," Rogerson explained. This will be required of every senior in the program starting next year.

The honors seminars, taken for one credit hour, include Chemistry—Atoms and Mo-

Tareyton

THE TAREYTON RING

MARKS THE REAL THING!

A FAR REACHING ADVANCE IN FILTER SMOKING!

From Me. to Mo. and clear out to Calif., New Dual Filter Tareytons have quickly become the big smoke on American campuses.

Why so? It's because the unique Dual Filter does more than just give you high filtration. It actually selects and balances the flavor elements in the smoke to bring out the best in fine tobacco taste. Try Tareytons today—in the bright, new pack!

Here's why Tareyton's Dual Filter filters as no single filter can:

1. It combines the efficient filtering action of a pure white outer filter . . .
2. with the additional filtering action of ACTIVATED CHARCOAL in a unique inner filter. The extraordinary purifying ability of Activated Charcoal is widely known to science. It has been definitely proved that it makes the smoke of a cigarette milder and smoother.

THE REAL THING IN MILDNESS . . . IN FINE TOBACCO TASTE!

PRESIDENT JAMES McCAIN speaks to the gathering at the ground breaking ceremonies for the new Kedzie hall addition yesterday. Ralph Lashbrook, head of the journalism department also addressed the crowd. The addition is scheduled to be completed by the fall semester of 1960.

New Dean Named For A&S School

A new K-State Dean of Arts and Sciences has been selected to fill the position which has been vacant for 18 months.

The new dean is Thomas M. Hahn Jr., who has been head of the Department of Physics at Virginia Polytechnic Institute, Blacksburg, since 1954.

The 32-year-old administrator who has already made his mark as a nuclear physicist will assume his duties next September 1, according to President James A. McCain.

The new K-State dean is international editor for Nuclear Energy Engineer. He has been a consultant to the Atomic Energy Commission, Leeds and Northup Company, Reynolds Metals Company, and the University of Puerto Rico.

Dr. Hahn has had numerous

research articles published in technical journals for physicists. Most of his work has been with high voltage accelerators. He has also made many studies on distribution of gamma rays from various nuclear reactions.

In recent years, Dr. Hahn has averaged 200 speaking engagements a year. Most of the talks have been on general education and popular science subjects.

A native of Lexington, Ky., Dr. Hahn received a B.S. in physics from the University of Kentucky in 1945. He was a lecturer in physics at the Naval Academy, a physicist at the United States Naval Ordnance Laboratory, and a research assistant at Massachusetts Institute of Technology before receiving his Ph.D. in physics from MIT in 1950.

From 1950 to 1954, Dr. Hahn was director of graduate study in physics and director of nuclear accelerator laboratories at the University of Kentucky.

Hahn replaces John C. Weaver, who resigned his position at K-State to become dean of the Graduate College at the University of Nebraska, June 1, 1957, and administrator of the University Research Council.

Dr. Weaver was head of the University of Minnesota Department of Geography when he came to K-State in 1955.

Pep Rally, Dance Will Follow Game

A pep rally and a stag jukebox dance are planned for after the KU game tonight, said George Hooper, BA Sr., chairman of the Games and Rallies Committee.

Immediately following the game, there will be a bonfire rally in West Stadium parking lot. At midnight, the rally will move into the Field House awaiting the arrival of the team. The band will be present to help with the rally.

If the team has not returned by 1 a.m., closing hours for women students will be extended, according to Margaret Lahey, associate dean of students. Announcement will be made at the rally if the hours will be extended.

The stag jukebox dance in the Union will begin immediately after the game. Free coffee will be served at the dance.

Kappa Kappa Gamma Tops Sorority Grades

Kappa Kappa Gamma topped the list of Kansas State sorority grades for the fall semester with an overall average of 2.878. Pi Beta Phi was second with 2.851 and Alpha Chi Omega was third with 2.829.

Pi Beta Phi held top grades for last spring semester with a

1.885 average on the 3. system.

Other sorority rankings: Gamma Phi Beta, 2.802; Chi Omega, 2.740; Delta Delta Delta, 2.732; Kappa Delta, 2.683; Alpha Delta Pi, 2.674; Alpha Xi Delta, 2.618; and Clovia, 2.314.

Overall sorority average was 2.712.

Students running for Student Council in the general election will be decided by the primaries March 11 and 12.

The number of Student Council positions that will be filled by the general election and the enrollment from the schools re-

spectively: Arts and Sciences, eight for 2,510; Engineering, six for 1,710; Agriculture, two for 700; Graduate school, two for 650; Home Economics, two for 480; and Veterinary Medicine, one for 270.

School enrollment figures were obtained from the Registrar's office.

Other openings: student body president, one candidate and three for the Board of Student Publications.

Eligibility exams for Student Council will be given March 2 at 7 p.m. in the Union. A passing grade of 80 per cent is required to be eligible for the Council.

A final list of students running in the primary election from the United Staters and Integrity parties will be released Wednesday, March 4, after exams are scored.

Five KS Students Await Judgement

Tribunal's recommendation on five students charged with participation in the Aggieville victory celebration February 11 was to be given to Herbert Wunderlich, dean of students, today. The students faced Tribunal last night.

Students who appeared before the Tribunal: Anthony Eldre Ewert, ME Jr.; Charles N. Long, BA Soph; William E. Johnson, Psy Jr.; Leonard Tannebaum, PrV Fr; and Gary Agron, RM Fr.

Wunderlich said the recommendation would be "accepted, altered, or revised as the college sees fit."

Wunderlich stated last week that four students who had been caught in the Aggieville rioting would be processed through Police court and would be dealt with "sternly" by the College tribunal this week. A meeting originally scheduled for this Monday was postponed.

In the future it will be the policy of Tribunal to recommend dismissal from college for any student apprehended in a riotous or destructive act, according to a statement released by Tribunal last night.

Wunderlich said Tribunal's future policy has been accepted and will be carried out by the College.

The statement said, "It is the opinion of the Tribunal that such action as occurred on February 11, following the KU-K-State basketball game is unacceptable and not condoned in our college community."

Profs Discuss Germany

"Difference of opinion on the Germany and Berlin problem is one of the main reasons for the cold war development," declared Dr. Joseph Hajda, assistant professor in the Department of History, Government, and Philosophy, in the first news forum sponsored by the Union Coffee Hours' committee yesterday in the Union art lounge.

Dr. Hajda and Dr. W. H. Barth, assistant professor in the Department of History, Government, and Philosophy, informed an audience of about 50 persons on the latest developments and the background of the Berlin problem in relation to the U.S., Russia, and the Western Allies.

Russia had given the U.S. and

the other free countries two ultimatums, concerning the Berlin problem, said Dr. Hajda. "The first one was presented November 27, 1958. It stated that West Berlin must be made a free city; that all foreign troops must be withdrawn from both West and East Berlin; and that demilitarized West Berlin would be neutralized. The proposed plan would take place within six months, which would be May 27," said Dr. Hajda.

"The second proposal, he continued, "was given to the U.S. January 10, 1959. It proposed to invite the 28 countries that had troops fighting against Germany in World War II, to have conferences to draft and sign a peace treaty with Germany. East and West Germany would participate in the conference. The meeting would take place within 2 months in Prague or Warsaw, both in Russian controlled countries."

The U.S. rejected both proposals.

'La Coronation' RP Theme

"La Coronation" is the theme of the 1959 Royal Purple dance which will be Saturday at 9 p.m. in the Union grand ballroom. The ballroom will be decorated in a night club atmosphere, and refreshments will be sold.

During the intermission, the 1959 Royal Purple queen and her attendants will be announced by Prof. C. J. Medlin, faculty advisor of the yearbook. This year's queen was chosen by Madison Geddes, a professional photographer from Cleveland. Geddes is the official photographer for the Miss America contest in this area and is president of the Professional Photographers of America.

Other intermission entertainment will include a solo by Ernest English, MGS Jr., and a modern dance by Phil Smith, Sp Fr.

Bill Heptig and his band will

sals and suggested instead that the foreign ministers of the countries have a conference in Russia to discuss the German and Berlin problems. This proposal was turned down by the Russian leaders.

"We should take these proposals very seriously," said Dr. Barth.

Athletic Holiday May Be After NCAA Regionals

The spring semester athletic holiday will be Monday, March 16, if the K-State basketball team wins the NCAA regional championship at Lawrence March 14, according to an announcement made yesterday by President James A. McCain.

The President set the athletic holiday on the recommendation of the Student Council.

Play for the dance. Tickets are on sale in the Union.

The 1959 Royal Purple queen candidates are Kathy Schultis, HEJ Sr, Gamma Phi Beta; Lee Lutz, EEd Jr, Kappa Kappa Gamma; Judy McAlister, Sp Soph, Delta Delta Delta; Mary Hall, BMT Jr, Alpha Delta Pi; Peggy Tholl, HT Soph, Chi Omega; Kay Peerson, Soc Jr, Alpha Chi Omega; Jackie Mall, SED Jr, Alpha Xi Delta;

Jan Stewart, Soc Soph, Pi Beta Phi; Loretta Weixelman, EEd Soph, Kappa Delta; Janice Collins, SED Jr, Clovia; Matee Blessing, Art Fr, Northwest hall; Judy Mai, HE Soph, Northwest hall; Cherie La Fromboise, TxC Sr, Van Zile hall; Susan Bissell, BA Soph, Walther hall; Sue Young, EEd Fr, Northwest hall; and Janet Hiett, BA Fr, Southeast hall.

Tribunal Decisions Ridiculous; Wunderlich Still Holds Power

TRIBUNAL MET last night and reached a decision on the case of the students accused of participating in the post-game rioting in Aggierville February 11. And we say—so what? In actuality this "decision" on the part of the Tribunal means absolutely nothing!

As Dean Wunderlich pointed out last night, the Tribunal has merely recommended action to him and he is now to decide whether to "accept, alter, or revise" the recommendation. This is, of course, in accordance with the SGA constitution which states, "The Tribunal shall have power in its jurisdiction to conduct a friendly study of each case, and to recommend action to the dean of students in the case of any student found guilty of willful violation of the Honor Code."

Students Use Gov't. Examinations, Get Booted from Texas University

By Margaret Cooper

TWENTY-ONE students at the University of Texas have learned that the penalty is heavy for those who attempt to make light work of final examinations. These students either bought, sold, and/or made use of the Government final examination. As a reward for their business-like and intelligent (?) actions, they will receive suspension terms ranging from a maximum of six semesters to a minimum of two semesters—excerps from the Daily Texan.

THE DAILY CALIFORNIAN proved by experiment that 52 out of 53 people place no value on a penny. The conspicuously-placed coin was looked at and ignored and even trod upon 52 times before being picked up by a "broke" University of California student. The observant student told the reporters that he was just thinking that it was his lucky day, and that besides that penny would buy him about 10 kilowatts of electricity!

MOST OF US engage in hard work every day—that is if we listen. According to the Minnesota Daily, "listening is hard work. When you listen hard your heart beats faster, circulation speeds up and your body temperature rises. Listening is strenuous." But just as the ability to read and comprehend are factors in attaining higher grades, so is the ability to listen intelligently. So don't give up listening just because you are against work!

SIGMA NU IS the outcast at the University of Oregon. For a familiar reason of drinking on the premises and also "below-standard" conduct at a recent house dance, the fraternity will be suspended from the University fraternity system until the fall of 1959. Rushing, pledging, and initiating privileges will be denied Sigma Nu throughout the remainder of this semester.

"DIPLOMATS may be splitting hairs, scientists may be splitting atoms, Pogo may be splitting oranges, and students may be splitting quizzes . . . but the Oklahoma House of Representatives passed a repeal resolution on legalizing liquor. Save your federal liquor stamps, boys, the South may rise again!" An eye-catching quip from the Daily Texan.

LITTLE MAN ON CAMPUS

"WELL, I SEE YOU DIDN'T GET HIM TO RAISE YER GRADE."

IN OTHER WORDS, all the Tribunal really is a play at a democratic form of government. It can conduct "friendly" investigations and make decisions which mean absolutely nothing since Dean Wunderlich can change them at any time. This brings us to the question—why have a Tribunal at all? And the only answer we can think of is that the Dean needs someone to do the investigating for him.

But if this is so then why not do away with the farce of calling it the judicial part of student government—it has no actual powers to judge, but only to investigate and examine—and recommend. Why not, then, give it a name which is more appropriate to its functions and stop kidding ourselves about the protections of our "democratic" form of student government.—st

Quotes from The News

Columbus, Ohio—Sen. Barry Goldwater (R-Ariz.), opposing the national budget:

"We are spending too much, and it is stupid and ridiculous."

Jessup, Ga.—Deputy Sheriff Ottis Jones, acknowledging that Georgia has gained a reputation as a speed trap.

"These people come speeding down through here killing people and we have to arrest them, that's all."

KS United Staters Party Releases 1959 SGA Election Platform

We the members of the United Staters Party, realizing our obligation to the Student Body, present a program which has come from and which we feel will benefit the Student Body and at the same time further the development of Kansas State university.

We propose that all beneficial programs now in effect be retained and further that:

1. A Student Council representative as liaison member to Faculty Council be established.
2. A Mock Political Convention be held next spring supported by S.G.A.
3. A spring vacation other than Easter be installed
4. A pre-enrollment be re-established
5. The student health insurance program be improved to provide better coverage for the students
6. A careful and thorough reappraisal of all apportionments be taken involving student activity funds
7. The parking fine system be changed to lessen the severity of the fines
8. A chapter of Phi Beta Kappa honorary be installed at this university
9. Student Council representation remain constitutionally within the realms of the schools

World News

U.S. Navy Boards Russian Vessel Suspected of Breaking Cables

Compiled from UPI
By JOHN HOKANSON

Washington—A U.S. Navy destroyer steamed toward Newfoundland today to make a full report on its boarding of a Russian fishing trawler to check whether it had damaged a multi-million-dollar transatlantic cable network.

A five-man party from the destroyer Roy O. Hale scrambled aboard the Soviet ship Novorossisk at noon yesterday about 120 miles northeast of St. Johns, Newfoundland.

An initial report by Lt. Cmdr. E. J. Korte, skipper of the Hale, said his men found no evidence the 1,670-ton Russian vessel was bent on anything "other than fishing." But the question of whether the ship had damaged the cables by accident was left open.

Korte turned the destroyer toward Argentia, Newfoundland, where he was due tonight. The State department will have to decide on the basis of Korte's detailed report what, if any, representations it will make to the Kremlin.

No resistance to the U.S. boarding party was encountered, according to Adm. Jerauld Wright, U.S. Atlantic Fleet commander. He said the trawler's master was "friendly and cooperative."

There was no immediate indication whether Moscow would view the incident as a major issue to further strain Soviet-American relations or accept it as a routine move under an international treaty to protect undersea cables.

Luce Silent on New Post

Phoenix, Calif.—Mrs. Clare Booth Luce, named by President Eisenhower for the post of ambassador to Brazil, refused to comment publicly on her selection.

Mrs. Luce's butler last night

said the President has told Mrs. Luce not to say anything until she is officially notified. Her name was submitted to the Senate for confirmation yesterday but the butler said Mrs. Luce so far has heard nothing official.

Stage Set for Moon Shot

Cape Canaveral, Fla.—The Army successfully fired another workhorse Jupiter on a routine test flight early today and then turned its attention to the new moon rocket it has assembled 150 yards away.

The Jupiter's flight of less than its full 1,700-mile range sets the stage for blastoff of the Army's second space probe, expected some time this weekend. The Jupiter will again be used as the Army moon rocket booster.

Today's Jupiter test was the first in which Air Force troops have participated. About 10 Air Force rocketeers, trained by the Army at its Huntsville, Ala., missile center, helped launch the 50-ton weapon at 12:49 a.m. EST.

No resistance to the U.S. boarding party was encountered, according to Adm. Jerauld Wright, U.S. Atlantic Fleet commander. He said the trawler's master was "friendly and cooperative."

There was no immediate indication whether Moscow would view the incident as a major issue to further strain Soviet-American relations or accept it as a routine move under an international treaty to protect undersea cables.

President Eisenhower has rejected the idea of top level talks. Soviet Premier Nikita Khrushchev rejects anything less than the summit—while still main-

taining Soviet determination to hand the Berlin lifelines over to East Germany.

It is felt the Prime Minister may reluctantly urge the West—if necessary—to parley with Khrushchev if nothing else will prevent conflict over Berlin.

The feeling in the most serious diplomatic circles in Russia was that Macmillan definitely was looking for a way to head off war over Berlin and that the summit should not be ruled out—even considering the firmness of Eisenhower's declaration at his Wednesday's news conference.

KU Union Head Speaks to UPC

"Good academic, social, and cultural backgrounds are the qualifications for persons entering union directing," said Frank Burge, director of the KU union, at the Union Program council last night.

"Our field has grown rapidly, and the need is great for personnel, but we don't just want anybody. Persons applying for union positions must have ability to read, write, and speak correctly, because they are primarily concerned with people," continued Burge.

"Preparation for union positions is a general college course and a finishing course of an academic preparation course, a short three-week course, or a high level short course at a major institution," he said.

Burge warned, "If dollars are the most important thing in life to you, don't give union work a second thought, but if you enjoy

things socially and culturally, go into the union field early."

FTA

Future Teachers of America elected new officers last night at a meeting in the little theater of the Union. The new officers will be announced at the annual spring banquet, March 19.

The new name for the organization, voted on last night, will also be announced at the banquet.

Plans for attending the two-day state convention at Hays April 10-11 were also discussed.

H.E. Council

A visitation program to interest high school students in home economics was discussed by the Home Economics council yesterday. Schools being considered by the council are those within a 40-mile radius of Manhattan. The possibility of visiting Topeka high schools was also discussed.

High Grades Worth \$15,000 To KS Freshman from Iraq

High grades were worth \$15,000 recently to Niran Al-Khayal, AE Fr. The scholarship awarded by the minister of education, Iraq, was not the only award. When she gets her degree in Agricultural Economics, she will have a job with Iraq's government.

The 17 year old red head, a first semester freshman in agricultural economics, attended the University of Bagdad for three months, but the school systems are so different that the credits

didn't transfer. Niran, who took art courses at the school, explained, "In Iraq at the end of the third year of secondary school, the students take a general test to see if they are best suited for the arts or sciences. The results of this test determines the courses they will take."

Niran said there are six years of elementary school and five years of secondary school. Most students go to a university because the tuitions are very low. Niran said that the tuition of the

university she was attending was \$15 for four years.

Niran said that she came to K-State because it accepted her application before the University of Illinois did and in Iraq K-State is known as a very good school.

'Don't Think, Drink' Labels

K-State Student's Collection

"Don't Think, Drink" is Jan Fry's, Psy Sr. motto labeling his international collection of beer mugs, and drinking flasks.

Jan started his collection when he traveled to Europe in 1956. Most of his fancy drinking flasks came from Spain and Germany. He also has collected various types of beer mugs from different parts of the United States.

Jan's most unique flask is the perron which he obtained in Spain. The perron has two spouts, one which you pour the wine into, and the other which you drink from. The tricky thing about the perron is that you hold it an arm's length away from your body and pour a steady stream into your mouth.

"Although the perron is a fancy way of obtaining liquids, I wouldn't suggest it for men who are wearing a sport coat or white shirt," said Fry.

Jan also obtained two wine bags in Madrid, Spain. The wine bags are very popular in Spain, commented Fry. People carry them on picnics just as we carry the thermos jug in America. The wine bags are made of leather and you

must squeeze it to get the wine out.

Jan got most of his beer mugs in Munich, Germany. It was in Munich that he got his pewter mug, which is made of pot

metal. While in Munich, Jan visited the Hofbrauhaus, which claims to be the largest beer joint in the world. The Hofbrauhaus is one-half block square and is three stories high.

ON TARGET—Jan Fry, Psy Sr., zeros in with a Spanish wine bag. The Spaniards hold them at arms length and manage to hit their mouths, according to Jan.

Applications Due Today For Leadership School

All applications for leadership school must be turned in by 5 p.m. today. They are being accepted in the SGA office. All freshmen and sophomores with a grade average of 2.5 or better are eligible to attend the school, which is scheduled to begin approximately March 17.

The school will be limited to 35 students this year, with the hope of giving the students more choice in the type of problems they wish to consider.

ENGINEERS

Hydraulic systems are being used at an ever-increasing rate to power and control mechanisms in nearly every field. Cessna's Industrial Products Division is one of the fastest growing manufacturers of hydraulic components for Industrial and Farm Equipment use. Your future can be bright as a design engineer with Cessna if you are qualified. Cessna needs engineering graduates with up to five years experience — young, vigorous engineers with fresh ideas who want to grow with a growing organization. Investigate the advantages of working for Cessna where the Design Engineer can follow his design from concept, through testing and into production. Work without the frustration of the red tape that hampers the engineers work in many of the very large organizations. Plan to talk with the Cessna Engineer who will visit our campus March 5 or 6 1959 and learn of your opportunities with Cessna. Contact the Placement Center at Kansas State College for an appointment.

Variety Provides Keynote For All Current Activities

Members of Sigma Nu will entertain their dates with a picnic Saturday afternoon. They will return to the chapter house for a "Cats" party that evening. Approximately 50 couples are expected to attend.

The Tri-Delts are having a buffet for Manhattan alumni and their husbands Sunday.

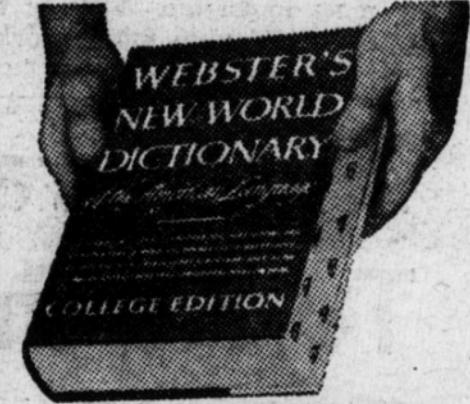

Members of Alpha Xi Delta were guests of Alpha Gamma Rho at an indoor picnic held at the AGR house last Tuesday evening.

Members of Pi Kappa Alpha celebrated their Founder's Day February 22 with a dinner for their alumni. Guest speaker was Dick Bills, PiKA district president. Tomorrow they will attend a dinner-dance in Kansas City in

commemoration of their founding. National president, John U. Yerkovich, will be the featured speaker at the banquet.

The executive officers of Gamma Phi Beta held their annual spring retreat last Sunday at the home of Mrs. Ferol Atkeson, a Manhattan alum. It was devoted to preparing a tentative spring calendar. Mrs. L. W. Hart, Province Collegiate director from Kansas City, attended the retreat and visited the chapter house the remainder of the week.

FLOWERS ARE BLOOMING EVERYWHERE, especially on the new spring hats. Harriett Carr, HE Jr., has decided that she likes the wide-brimmed, flowered styles after trying one of them in a Manhattan store. In addition to hats, flowers will be seen on dresses, purses, and shoes.

Both Hats and Heels Change Only Slightly

By HELEN SPILCHAL

Black patent leather and new pastel colors are the keynotes to women's spring accessories, according to Manhattan store clerks. This year's early Easter will bring darker shades of colors, but lighter shades will be very popular later this summer.

Shoes will be more pointed and the heel will be even narrower. Last year the toe was "needle," and this year it is called "double needle." A new feature, the heel tap, has been added to the shoe. The heel tap is screwed into the heel and when it is worn off, the wearer can purchase a new one and screw it on. The new version called a dowel lift, is cheaper than taking the shoe to a shoe shop.

Black patent leather will be the number one color choice; bone, a light beige, will be second, and then light pastel shades.

Pumps with bows will be the most popular shape of shoe, but T-straps and slings will be worn. Little shaped heels will also be popular. The shaped heels are 1 1/4 inch high.

Millinery fashion features not one, but three important new trends. From narrow, thin ones to boldly wide, brims will set the pace in the fashion picture. This season will be best for sailors, bretons, bonnets, cloches, and the cartwheel.

The second new trend is the higher look to crowns. These may be mounds, dome-shaped, peaked, or softly bloused, but they all will have height in common.

Another important fashion factor that ties in with both of

these new trends is the new coordination of coiffure with hat. Milliners and hair stylists have combined their talents this season so that there is a "more hair" look, and the hat and the hair flatter each other.

Black, white, and navy will be the most popular colors in hats, but all other colors will be worn. All-flower hats, and flower trimmed hats promise to be excellent for spring through summer.

This season's bags and purses will be all sizes, but larger ones will be most popular. Black patent will again be the number one choice, but other colors will be used.

Seamless hose will remain very popular, but they will be colored to blend in with the rest of the costume.

Scarves and flowers will be used a lot to add accents of color to spring fashions. Flowered headache bands will replace the winter velvet versions.

Long and gathered will be the fashion in gloves this spring.

All kinds of jewelry will be worn, but bracelet and earring sets made of iridescent stones will be the most popular to compliment the spring ensemble.

K-State's Fourth Oldest Building Razored

Illustrations hall . . .

Razing of Illustrations hall, previously K-State's fourth-oldest building still on the campus, was completed this week. The tearing down of the building was begun three weeks ago to make way for the new classroom addition to Eisenhower hall.

Illustrations hall, which for the last 39 years has housed the K-State Illustrations department, was built in 1876. The Horticulture department first occupied the building, then known as Horticulture hall, but the department was moved to Dickens hall when it was completed in 1907. The building was used for classroom space until the Illustrations department was created in 1920.

The only buildings still on campus which are older than the Illustrations hall are the farm mechanics, chemistry, and the central wing of the shops.

The first official K-State photographer was F. E. Colburn. He was also head of the Illustrations department when it was created at K-State. Picture taking facilities were on the first floor, and the darkroom was in the basement. The College photographer then took pictures for the Royal Purple and of administrative and campus leaders.

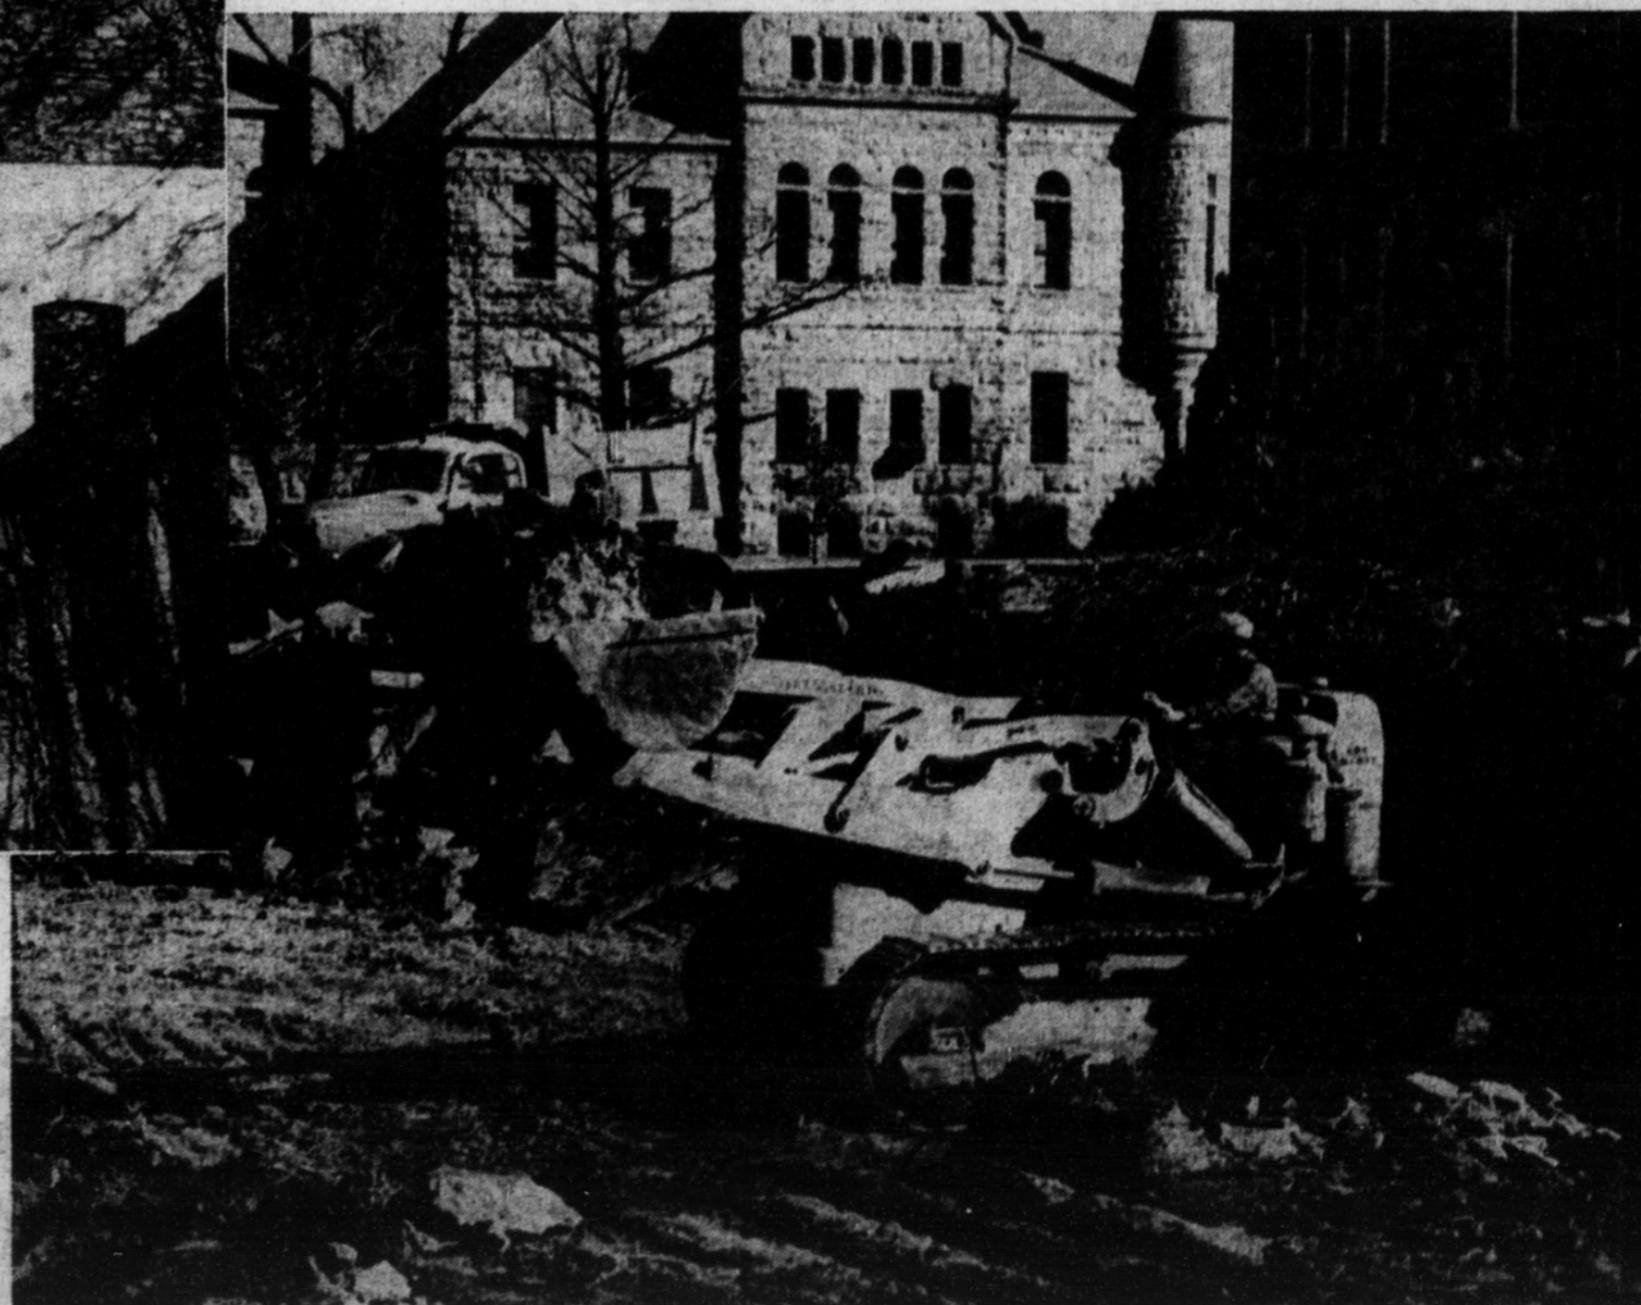

. . . going down

Razing . . .

Cats, Hawks Tangle Tonight

By GARY VACIN
Collegian Sports Editor

Already assured of a Big Eight championship and a berth in the NCAA tournament, K-State's Wildcats can move another step closer to an undefeated conference season tonight when they meet the Kansas Jayhawks in Allen field house. Tipoff time is 7:35.

Not since 1946 has a team gone undefeated to win the conference championship. That year Kansas won all 10 of its games to win the Bix Six title in a runaway.

Since 1948, when the loop expanded to seven teams, only four teams have attained 11 wins—a mark the Wildcats have already matched. The Jayhawks were the last to do that too, winning with an 11-1 mark in 1957.

The Wildcats will enter the game tonight with the best K-State record in history—21 wins and 1 loss. They have won 17 straight, surpassing the old record of 13 in a row by the 1950-1951 team.

Kansas, since losing the first game with K-State at Manhattan, 82-72, has won three of four conference games. The Jayhawks are now in a three-way tie for second place in the Big Eight with Colorado and Oklahoma, at 7-4. Kansas' overall record of 10-12, however, is not quite so impressive.

Even though Nebraska's 62-61 win over Colorado Monday clinched the title for K-State, Tex Winter, Wildcat coach, believes there is still plenty of incentive for his team.

"Any game with Kansas, played anywhere, anytime, is enough incentive for a K-State team," he said.

"We have other incentive, too," he added. "That is not to show the let-down we showed last year

Beta Sigs Win Volleyball Tilt

Beta Sigma Psi took advantage of the time limit ruling to beat Phi Delta Theta, 15-5, 4-15, 12-10, in intramural volleyball action at Ahearn gymnasium last night. Time ran out in the last game of the match, and the Beta Sigs were awarded the win.

In other action last night, Beta Theta Pi trounced Phi Kappa, 15-2, 15-9; House of Brec won over DSF, 15-9, 15-5; and Jr. AVMA beat AIA, 15-6, 15-13;

Scholarship House defeated the Hilltoppers, 15-7, 11-15, 15-8; Kasbah topped LSA, 15-12, 15-6; the Jokers belted SPN, 15-12, 15-4; and the Rebels forfeited to West Stadium.

Tonight's volleyball games have been canceled because of the basketball game at Lawrence. The games have been rescheduled for March 10.

Chi Omega Wins In Intramural Play

Chi Omega 1 defeated Pi Beta Phi, 28-11, yesterday in women's intramural basketball play in Nichols gymnasium.

Judy Pringle led Chi Omega scorers with 16 points, and Alice Lobenstein was high for the Pi Phis with 6.

In other action, the Blitz Babes took a one-sided decision from Chi Omega 2, 43-17.

Gayle Antenen led the Babes with 15 points, and Doris Binger took scoring honors for Chi Omega with 8 points.

after we had won the championship." A year ago the Wildcats reeled off 10 straight conference wins to cinch the crown, only to lose their last two in a row, to Nebraska and Kansas, respectively.

"We have always played well at Kansas," Winter said. "Our team feels it is almost a home away from home."

Winter's statement is well grounded in history. The Wildcats won four games in Allen field house last year. They beat California in the sunflower doubleheader there, defeated Kansas in a crucial conference game, and then beat Cincinnati and Oklahoma State in the NCAA regional playoffs.

Adding their win over St. Joseph's in the doubleheader at Lawrence this year, the Cats have a five-game winning streak in Allen field house.

K-State has won three of the four games with Kansas at Allen field house since the arena was dedicated in 1955. That year the Cats ruined the dedication ceremonies with a 77-67 win.

They won again in 1956, 79-68, and took a 79-75 double-overtime victory there last year. Kansas' only win over the Wildcats in Allen field house was in 1957, 51-45.

K-State has had little real trouble in winning its 11 straight conference games. The Cats

opened conference play with a 69-66 win over Iowa State at Ames, and later beat Nebraska at Lincoln, 50-43. No other league foe has come closer than 10 points to the Wildcats in conference play.

Late-season performance by two Kansas veterans, Ron Loneski and Bob Billings, have caused the Jayhawks' hopes to rise.

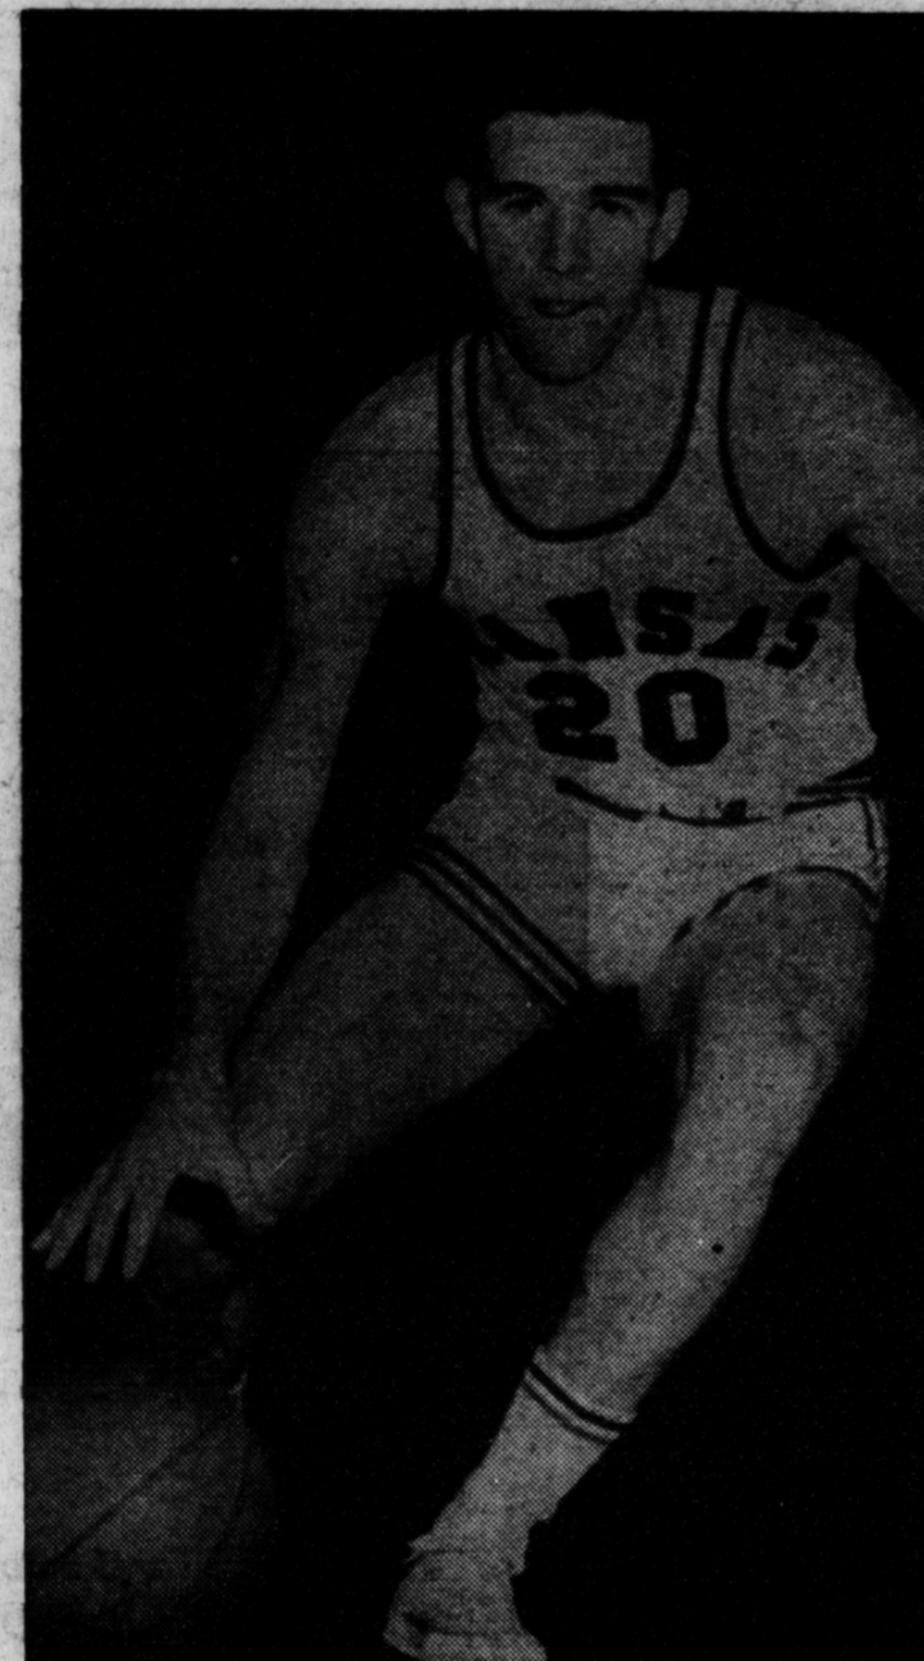

Staggering in the low 30's percentage-wise for most of the season, Loneski and Billings have hit 45 and 50 per cent, respectively, in their last two games to lead the Jayhawks past Nebraska, 66-50, and Missouri, 85-81. During that stretch, Loneski has scored 44 points to 20 for Billings.

With Bill Bridges, sophomore center, collecting 46 rebounds in the last two games and Jim Hoffman scoring 13 points and grabbing 10 rebounds, Kansas may have reached its peak for the season.

Probable starting lineup:

K-State	Pos.	Kansas
Frank (6-8)	F (6-4½)	Loneski
Boozier (6-8)	F (6-4½)	Don'hue
Price (6-6)	C (6-5½)	Bridges
Matuszak (6-0)	G (6-2)	Hickman
Douglas (6-4)	G (5-11)	Billings

Broadcasts: WIBW, Topeka; WREN, Topeka; KU network; K-State network.

JUNIOR GUARD Bob Hickman will be in the starting lineup tonight for the Kansas Jayhawks when they host the K-State Wildcats in Allen field house.

KS Mermen To Test KU

After defeating the Ft. Hays Tigers, 69-17, yesterday in Nichols pool, the K-State swimming team will meet Kansas tomorrow at Lawrence.

K-State Coach Bill Thrall is counting on Dave Hinderliter and Tom Coblenz to lead the way against KU. "The Jayhawks have good power and good depth, but we should give them a good race," Thrall said.

K-State won all 10 events against Ft. Hays as it raised its dual record to 7-6.

Dave Hinderliter led the Cats as he set two new varsity records. He broke his own record in the 100-yard freestyle with a time of 53.3. Hinderliter's other record was set in the 60-yard freestyle, in 29.6.

Dallas Chestnut won the diving competition to remain undefeated in that event. Dave Noblitt was runner-up for K-State.

The Wildcats also won both first and second places in the 200-yard breaststroke. Al Rader was clocked in a winning time of 2:42.3, and Bruce Smith was runner-up.

Relay Team To Defend Title At Conference Track Meet

K-State's mile relay team, only defending champs in a 16-man track squad, will be trying for a conference record at the Big Eight indoor meet in Kansas City's Municipal auditorium.

Preliminaries begin tonight at 6:30 and finals tomorrow night at 8.

Twice this season the Wildcats have bettered Oklahoma's league record of 3:20, set in 1956. In the Michigan State relays K-State clocked a 3:19 and last Friday ran a 3:19.3 in a triangular with Colorado and Iowa State.

Should the mile relay team set a record it would be the only time in modern track history that any team has owned both the indoor and outdoor conference marks.

K-State set the outdoor record with a 3:11.6 at Missouri last spring.

Possible mile relay team members are Larry French, Chuck Burgat, Jim Vader, and DeLoss Dodds.

French, Vader, and Dodds were members of last season's team, which ran a 3:10.4 mile for the nation's second-best time of last outdoor season. The same trio was on the team which won last year's Big Eight indoor with a clocking of 3:23.1.

Others who placed in last year's meet are Dodds, fourth in the 440-yard dash; Jim Cain, fourth in the shotput; and Steve French, who was in a five-way tie for fifth in the high jump.

Other K-State entries are Rex Stucker, Max Falk, Dale Evans, and Billy Rich, 60-yard high hurdles and 60-yard low hurdles; Stucker and George Whitney, 60-yard dash; Tom Rodda, mile; Vader, L. French, and Burgat, 440-yard dash; Bob Groszek, Dodds, and L. French, 600-yard run.

Groszek, Rodda, and Burgat, 80-yard run; Rodda, Groszek, and Burgat, 1000-yard run; Cain and Ben Grosse, shotput; Whitney, broad jump; and Karl Lindenmuth and Jerry Hess, pole vault.

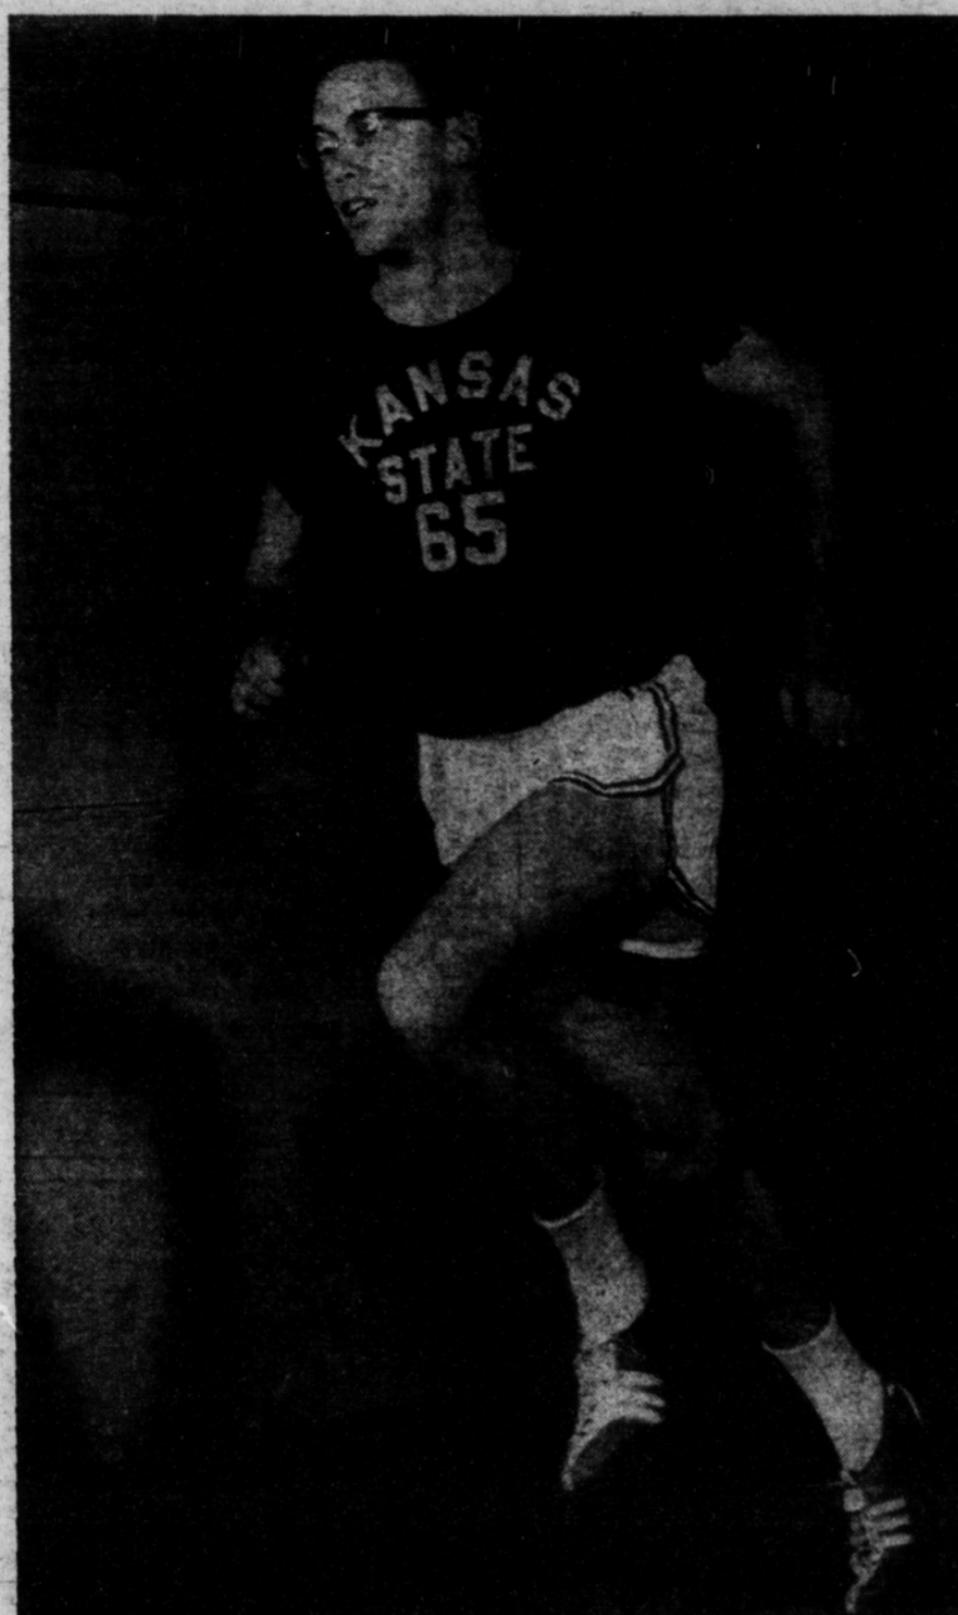

Kansas university is the heavy favorite to take its eighth straight indoor title.

The Jayhawks will anchor their title bid on the three short races. This includes Charlie Tidwell in the 60-yard dash and low hurdles; Paul Williams in the 60-yard dash; and Bill Tillman, Bob Okerstrom, and Darwin Ashbaugh in the 60-yard high hurdles.

Kansas also figures to be well-protected in the 440 with Bob Lida, 880 with Bob Tague and Tom Skutka, mile with Skutka and Bill Mills, 600 with Bob Covey, 1,000 with Cliff Cushman, two-mile with Dan Ralston, high jump with Bob Cannon, and broad jump with Williams and Ashbaugh.

Ernie Shelby, who won the indoor broad jump last year, reinjured a pulled muscle Saturday and will not compete.

Oklahoma's Dee Givens is the defending champion in the 60-yard dash, having tied the league record of :06.1 to beat Tidwell last year.

TOM RODDA, K-State distance runner, will compete in the mile, 880-, and 1000-yard runs in the Big Eight indoor track meet at Kansas City this weekend.

Wrestlers To Meet I.S.

With two victories in their last three dual meets, Coach Fritz Knorr's wrestling team will host Iowa State, defending Big Eight champions, tomorrow night at 7:30 in Ahearn field house.

The Wildcats raised their record to 5-9 in their last match by beating Ft. Hays, 22-6. Iowa State was an easy 25-2 winner over Cornell college in its last action.

Seven K-Staters, six of them freshmen, will wrestle in the Missouri Valley AAU meet at Ft. Hays today and tomorrow.

Pat Doyle, 157-pound senior who has been out with a knee injury, will return to action in the meet.

The K-State lineup for the Iowa State match:

123 pounds—John Dooley	Charles Couch
130 pounds—Riley Miller	Heavyweight—Don Darter
137 pounds—Larry Word	The Lineup for the AAU meet:
147 pounds—Dee Gard	123 pounds—Jim Dooley
157 pounds—Jim Caster	147 pounds—Joe Seay, Bill Lundy
167 pounds—Jerry Allen	157 pounds—Larry Byers, Pat Doyle
	177 pounds—Dan Lampe

Three Named to NCAA

By UPI

DePaul, Idaho State, and the University of Portland crashed the NCAA major college basketball tournament today, while Dartmouth and California will attempt to sew up bids to the same shindig tonight.

The latest three nominees accepted "at large" invitations. Portland, which has a 16-7 record with two games remaining, will play DePaul, 11-8, at an undetermined site early next month. The winner will meet Kansas State's Big Eight conference champions in the Midwest regionals at Lawrence, March 13.

Idaho State, 17-5, appearing in the NCAA championship for a record seventh straight time, will take on the Border conference representative, not yet determined, in the Far West regionals. The winner will play St. Mary's (Calif.), the West Coast conference champion, at San Francisco, March 13.

Dartmouth can clinch at least at tie for first place in the Ivy League by beating Princeton again tonight on the Tigers' home court. The Indians, 11-0 in the league, handed Princeton, 10-1, its first conference loss last Saturday at Hanover, N.H.

California, leading the Pacific Coast conference with an 11-2 record, also can clinch at least a tie for first place by knocking off Southern California. And the Bears will be home free if Idaho can upset Washington, 9-4.

West Virginia got off to a blazing start in the Southern confer-

ence tournament Thursday by spanking Davidson, 100-65, for its 48th consecutive league victory. The Mountaineers, who are heavy favorites to win the tournament and its accompanying bid to the NCAA championship, will meet William and Mary in tonight's semifinal round.

Four Gymnasts To Enter Meet

K-State's gymnastics team will be represented by four men at the all-College gymnastics meet at Boulder today and tomorrow.

Four Big Eight teams will compete in the meet, which, according to Coach Frank Thompson, is rated second only to the national championships.

Leading the Wildcats will be Captain Ivan Loomis, top scorer with 61 points. Loomis will compete in the rope climb, hi-bars, still rings, flying rings, and the trampoline.

Mike Dziura will compete in the free exercise and the hi-bars events for the Wildcats.

Domokos Hajdo will be the K-State entry in the all-around competition, which consists of six different events.

The other Cat entry will be Ron Leslie on the side horse.

The Nebraska Cornhuskers are defending champions of the meet, but, according to Thompson, the Air Force academy is favored to win this year.

DSF Group Attends Church on Weekdays

By CHESTER PETERSON, JR.

Members of the Disciple Student fellowship, student organization of the Christian church, not only attend church on Sunday, but many of them attend church on weekday mornings as well.

Members of the DSF have, in addition to their regular Sunday activities, worship services on weekday mornings, Monday through Friday.

The "Morning Watch," services have an average attendance of from 5 to 15 members. Starting at 7:30 a.m. and lasting until 7:45, means that participants must make an early morning trip to the campus.

Martin "Mac" McCartor, AH Gr., initiated the daily program last year. McCartor says it became a habit for him to be present at early morning church services at Texas Tech where he took his undergraduate training. When he came to K-State last year he found no daily student worship program.

After interesting several DSF members in his idea, McCartor helped plan a similar series of services here. McCartor and other DSF members decided to make the daily program completely a student affair. Students plan and present each program.

Jan Stewart Queen of '59 RP

Jan Stewart, Soc Soph, and a member of Pi Beta Phi, was crowned 1959 Royal Purple queen at the Royal Purple coronation ball in the Student Union Saturday night. About 200 couples were present.

Her attendants were Judy Mai, HE Soph, Northwest hall, first attendant; Cherie LaFromboise, TxC Sr, Van Zile hall, second attendant; Matee Blessing, Art Fr, Northwest hall, third attendant; and Mary Hall, BMT Jr, Alpha Delta Pi, fourth attendant.

In the crowning ceremony, candidates were escorted to the stage by their dates through an aisle formed by the onlookers. Charlene Strah, TJ Sr and editor of the Royal Purple, introduced the women as they walked across the stage.

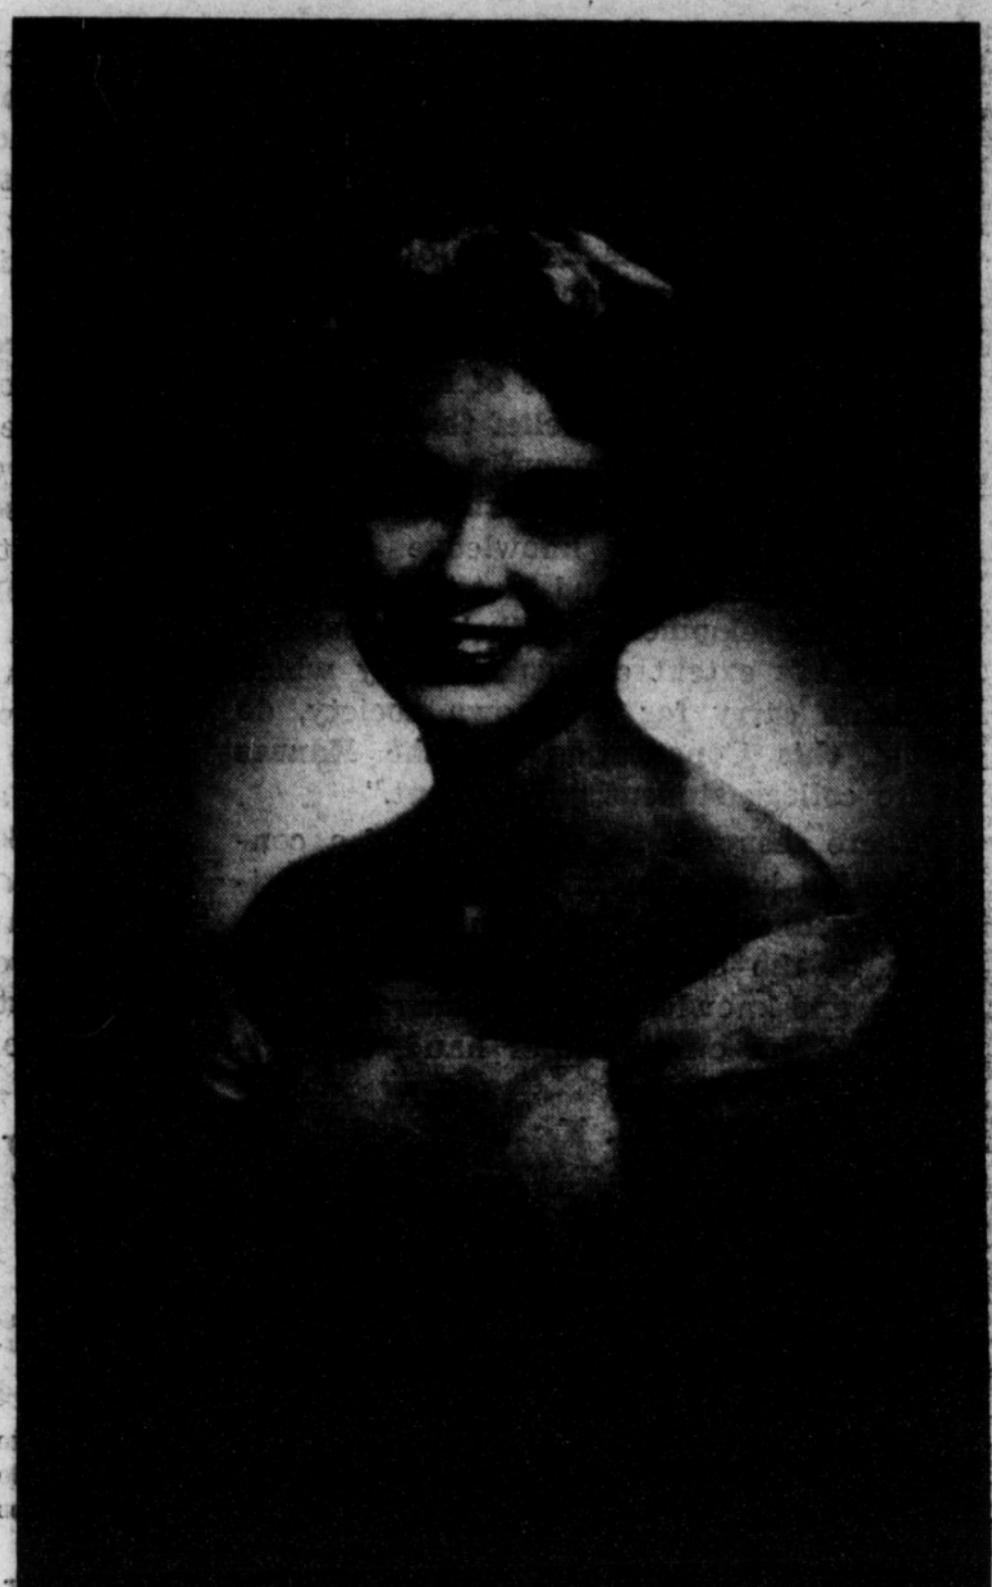

C. J. Medlin, graduate manager of student publications, announced the queen and her candidates and presented the crown to Miss Stewart. The

queen received a red rose bouquet and the attendants were given white carnation bouquets.

Miss Stewart and her attendants were selected from a field of 16 candidates by Madison Geddes, president of the National Photographers association and official Miss America photographer for this area.

In his letter, Geddes said "Realizing the importance of my decision, and that this is a once-in-a-lifetime honor for the girl selected, I have conferred with better than 20 of Cleveland's leading photographers. We each sincerely hope that we have been able to select the five most beautiful girls for the queen and her court."

"We know that she will wear her crown proudly and with regal splendor. We congratulate Kansas State and the 1959 Royal Purple, not only for their beautiful girls, but for their nationally known reputation."

Kansas State Collegian

VOLUME 65 Kansas State College, Manhattan, Kansas, Monday, March 2, 1959 NUMBER 96

Workers, Management To Discuss Restaurants

Jolene Buehler, RM Soph, will take the side of restaurant employees against four prominent faculty members in a panel discussion beginning at 1:30 p.m. this afternoon. The discussion is part of the seventh annual Kansas Restaurant Food institute on campus today and tomorrow.

The faculty participants are R. I. Throckmorton, dean emeritus of the School of Agriculture; V. D. Foltz, professor of bacteriology; Ruth Hoeflin, head of the Department of Family and Child Development; and Doretta Hoffman, dean of the School of Home Economics.

In the discussion, entitled "See Ourselves as Others See Us," the faculty members will attempt to tell what they feel is wrong with

restaurants in Kansas, while Miss Buehler and Norma McPherron, food production manager for the Union, will tell the employees' side. Richard J. Harman, Kansas and Missouri restaurant operator, will speak for management, and a question-and-answer period will follow.

Dr. Howard T. Hill, professor of speech, spoke to a meeting of the food institute this morning. His topic was "Talking to Each Other."

President McCain greeted members of the Restaurant association, and Elizabeth Huey of Wichita gave "Aims of the Institute."

During the morning session, demonstrations on food preparation and production were pre-

sented by students and staff members.

Featured speakers for the conference tomorrow include Mrs. Margaret L. Mitchell, vice president in charge of food production and director of test kitchens for Stoffer Restaurants, Cleveland, and J. W. "Jnd" Putsch, president of Putsch's Plaza Restaurants, Kansas City.

Banquet speaker tonight is S. T. Keim, head of the Department of Business Administration. He will speak about "Figuring the '60's." There will be special music by the varsity men's glee club.

-Studio Royal
JAN STEWART, Royal Purple queen, was selected by Madison Geddes, president of the National Photographers' association, after he consulted 20 other Cleveland photographers.

'Mary Stuart' To Be Thursday and Friday

Mary Stuart and Queen Elizabeth of England. The clash is for political, romantic, and religious reasons.

Elizabeth, as the protestant queen, does not want Mary, a Roman Catholic, to regain power in England. As a result of this clash Mary is imprisoned for 19 years and is finally beheaded by Elizabeth.

The Earl of Leister is secretly in love with Mary, but he marries Elizabeth so he may be the husband of the queen. As a result of this action he is forced to gamble away Mary's life so that he may save his own.

Laurel Lee Johnson, TJ Soph, is Mary Stuart, and Patsy Dunn, ML Fr, is Elizabeth. The Earl of Leister is played by Douglas Moore, Ar 04.

SC To Announce Evaluating Group

Members of a committee to study and evaluate students activities will be announced by Larry French, BA Sr and chairman of Student Council, at tonight's meeting. The committee will work with personnel from Dean Wunderlich's office in conducting the long-range study which will attempt to determine what is gained by students from the various activities on campus.

Committee reports are expected on evaluation of the use of money obtained from student activity tickets, student health insurance, the K-Book, and the final report on the book exchange. The financial report on the SGA budget for this year will also be heard.

SAE Decision Referred To Faculty Committee

The Interfraternity council decision to deny Sigma Alpha Epsilon rush dates and pinning and serenading privileges has been referred to the Faculty Council on Student Affairs, according to Garry Lassman, EE Jr, and chairman of the IFC judicial council.

The Faculty council meets Thursday and is expected to review the IFC decision then. Sigma Alpha Epsilon was put on probation in November for disregarding College policy on consumption of alcoholic beverages in organized houses.

Photo by Jon Peterson

ONE OF THE FEW who showed up at the bonfire in West Stadium parking lot following Friday's 87-77 K-State basketball win over KU, watches things die down. About 150 students did show up for movies in the Field House while waiting for the team to return.

Secrecy of Tribunal Meetings Contradicts Democratic Ways

THE TRIBUNAL, covered by a cloak of secrecy which allows no one (except those on trial) to see, condone, or criticize its actions, meets behind closed doors now and then to try students accused of violating the College Honor Code.

Yet the Preamble of the SGA Constitution states, "The students of Kansas State college, united in the belief that the goals of a democratic community can be furthered only by the citizenship habits, attitudes, skills, and knowledge acquired through experience, and that the degree of student development is likely to parallel closely the extent of responsibility which students carry for their own society, do adopt this Constitution for the Kansas State college student government."

There seems to be something of a contradiction here. On one hand the Constitution sets as a goal the gaining of experience in the citizenship habits, attitudes, skills, and knowledge of a democratic community. But on the other hand, the Tri-

bunal practices something which is completely contradictory—the judicial branch of a "democratic" community meeting in closed sessions and allowing no one to know what the accused is being tried for or what punitive action is taken if he is found guilty.

Is this realistic? Students who see the judiciary of their government veiled in secrecy are gaining no experience in any semblance of a democratic community.

TOO, it seems that since the Constitution states that the judicial is one of the branches of SGA and since every student enrolled in six hours at K-State is a member of SGA, it becomes the students' right to know what this branch is doing. A democratic government includes a system of checks and balances which we do not see in K-State SGA. The K-State student body is not allowed any check on the judicial branch of its government and is not even allowed to form an opinion on it because the student body is kept in ignorance of its actions.—st

Scholarships Important in Getting Qualified Students into K-State

(Editor's note—This is the first of a series of three on how students manage financially at K-State. The next two—part-time jobs and student loans—will be at a later date in the Collegian.)

By DORIS MILLER

"It is extremely important to the strength of the nation that we get all students of superior mental ability into college. To do this, we need to make use of the scholarships and part-time jobs we now have," reports Pres. James A. McCain.

There were 365 scholarships totaling \$70,772.38, issued this year. Of this number, 285 were cash scholarships, and 45 were grants to live in the new Men's Scholarship house. The remainder were honorary Putnam scholarships for those of scholastic achievement but not in need of financial aid.

Of the 285 cash grants, the average is \$248. Individual scholarships range from \$50 to \$700.

There are an increasing number of students applying for the awards, reports Asst. Dean of Students, Ron E. Jackson. "As a result, we have higher standards than before in awarding the grants." To exemplify the increasing number of applicants, last year 270 students took the test for a Putnam award. This year 460 took the same test.

In granting a scholarship, there are three criteria involved in addition to the applicant meeting the qualifications of the scholarship as to curriculum, sex, and others. These criteria are proof of potential of high academic work, financial need, and personal character. These are determined from the application the student presents in addition to consultation with the references he lists.

President McCain and Jackson agree that more scholarships are needed and that they could still be awarded to students of financial need and superior academic ability.

Jackson says "The greatest need is for scholarships which have relatively few iron-clad provisions. Some scholarships are too tied down, such as to curriculum, county, or high school. It's better to state a preference instead of a must. This would guarantee a higher quality of scholarship holders if these specifications were not so strict."

To apply for a scholarship, the student has to obtain an application from Jackson's secretary in the Dean of Students office. A history of the applicant, a record of the parents' financial conditions, references, and work experience is included in the application. It is to be completed, signed by the parents, and turned into the office before March 1.

Only one application blank is necessary to fill out, regardless of the number of scholarships for which the applicant is qualified. If he is turned down for one, the application is still good for another.

Quotes from The News

Melbourne, Australia—Evangelist Billy Graham, using the interruption of a fireworks display in his sermon at an outdoor rally:

"Unless the hearts of men change, the sounds you hear now will be nothing compared to what could come from another war."

"OH, HE'S OUR MOST POPULAR HISTORY TEACHER ALL RIGHT, BUT I HEAR HIS STUDENTS DON'T LEARN MUCH FROM HIM."

Technical Difficulties' Force Second Delay of Moon Shot

Compiled from UPI
By JOHN HOKANSON

Cape Canaveral, Fla.—A sun-and-the-moon shot by the Army was called off just before midnight last night to wind up a rough weekend for America's space探者 here.

It was a disappointing second postponement in two days for the Army's gleaming white Juno II which carried a 13.4-pound space-probing satellite in her nose. Scientists and technicians had shivered through wind-whipped and sopping-wet weather to prepare for the launching.

Everything appeared to be going like clockwork at the tower here where the 76-foot Juno II was being prepared for launching Sunday night. Weather—windy and rainy with a very low ceiling—had spoiled a scheduled Saturday night launching. Shortly after 11 p.m. EST Sunday, skies cleared as the count-down clicked along toward the scheduled 11:11 p.m. takeoff.

But Juno II never made it. At 11:38 p.m. a spokesman for the National Aeronautics Space administration said tersely that "technical difficulties" had caused "preparations pointing toward an early flight of a U.S. space probe launching vehicle (to be) postponed."

It was not announced when another try might be made. But, since there was no apparent damage to the four-stage space vehicle, a shoot could be re-scheduled as early as midnight tonight.

New Hoyt Bank Planned

Hoyt, Kan.—The defunct bank at this tiny embezzlement-struck community appeared headed for revival today.

Mayor Edward Beaman, a Re-

publican state representative, joined with 19 other residents to buy the bank building and fixtures. They promised to turn the institution into a trustworthy concern again.

Former cashier Jeff Williams has confessed to embezzling \$157,000 from the bank over a period of many years. He now is serving a five-year state prison term.

The newly-established trust paid \$3,050 for the bank building and its fixtures. Beaman said he expected no difficulty in meeting state bank requirements of \$25,000 capital and \$5,000 surplus.

Depositors learned today they might salvage more from the ruin than had been expected.

Several tracts of land owned by Jeff and his brother Orion Williams, the bank president, were sold at public auction for \$24,405.50. John Kirk, former Topeka banker appointed by the state as receiver, said depositors may get back "50 to 60 cents on the dollar."

Soviet Foreign Minister Andrei Gromyko handed notes to the U.S., British, French and West German ambassadors reportedly agreeing to a foreign ministers conference as a prelude to the "summit" conference demanded by Russia.

Western diplomatic sources said Russia had accepted a meet-

ing of foreign ministers on conditions that it be considered a preparatory step to a summit conference, that a time limit be set for the foreign ministers meeting, and that the ministers set a definite date for the convocation of a summit conference.

But Gromyko also delivered a message to East German Ambassador Johannes Koening dealing with Russia's stepped up plans for a peace treaty with East Germany—a peace treaty the West fears will make Germany's division permanent.

The East German news agency ADN described it as a reply to East Berlin's February 19 note accepting proposals for a treaty and proposing a peace conference. Observers said this indicated Khrushchev still planned to meet his May 27 deadline for turning control of West Berlin over to the Communist regime.

Two Rescued from Cliff

Vancouver, Wash.—A mountain rescue team from Portland, Ore., rescued two Vancouver youths from the face of a 300-foot cliff 45 miles northeast of here late Sunday night after the boys had been stranded for some five hours.

Charlie Haas, 17, and Darrell Jones, 18, were pulled to the top of the cliff one at a time after they had become stranded at the 200 foot level during a climbing attempt.

Haas and Jones were attempting to scale the cliff without the aid of proper climbing gear, sheriff's officers said. They reached the 200 foot mark on the cliff and then could neither go up nor down.

Wildcat Cagers Two Victories Away From Undefeated Conference Record

Following their 87-77 win over Kansas Friday night, the K-State Wildcats need only two more wins to become the first conference team in 12 years to go undefeated in league play.

The Wildcats have won all 12 of their Big Eight games, and finish up their season at home, hosting Missouri Saturday afternoon and Nebraska next Monday night.

The determining factor in K-State's win Friday night, according to Tex Winter, Wildcat coach, was the rebounding and defensive work of Cedric Price against Bill Bridges, Jayhawk center, who scored 28 points against K-State when the teams met earlier in the season.

"We didn't feel Bridges was that good a shooter when we played them last time," said Winter. "But this time we played him as a better shooter and we were ready for him."

Winter was also pleased with the play of Glen Long, junior forward who made his first appearance since injuring his knee in the second game of the season.

"Long will definitely help us during the rest of the season," said Winter. "I'm glad we had a chance to play him against Kansas as much as we did." Long entered the game late in the first half, and saw considerable action in the final period before fouling out with 13:38 remaining.

Hitting 50 per cent of their field goal attempts, the Wildcats built up a 46-32 halftime lead. But the Jayhawks kept within striking distance and

Bob Boozer Named To All-Star Team

Bob Boozer, K-State scoring star, has been named to the Sporting News' all-star basketball team announced Saturday.

Cincinnati's Oscar Robertson was the top vote-getter for the second straight year. The team was elected by a national panel of observers.

Rounding out the first team are Bailey Howell, Mississippi State; Jerry West, West Virginia; and Don Hennon, Pittsburgh.

Named to the second team were Johnny Cox, Kentucky; Johnny Green, Michigan State; Alan Seiden, St. John's; Bob Ferry, St. Louis; and Doug Moe, North Carolina.

cut the gap to 71-63 on two free throws by Monte Johnson with 6:38 left.

Steve Douglas scored two charity throws for the Cats, and Dee Ketchum came back with a field goal for Kansas.

Jim Holwerda and Bill Guth-

ridge each hit two from the line, and Wally Frank cranked through a 15-foot jump shot to make it 79-65 with only 4:05 left.

The lead was still 14 points with 1:27 remaining, but the Jayhawks cut it down to 10 before time ran out.

Coach Bill Thrall's swimming team was defeated by Kansas for the second time this season, 54-40, in a dual meet Saturday at Lawrence.

Dallas Chestnut won the diving competition to remain undefeated in that event, and Dave Hinderliter won both the 50- and 100-yard freestyle races to gain honors as the Wildcats' only double winner.

WILDCAT WRESTLERS LOSE
The K-State wrestling team

dropped a dual match to Iowa State, 20-6, in Ahearn field house Saturday night.

John Dooley, 123-pounder, and Don Darter, heavyweight, were the only Wildcats scoring against the Cyclones. Both won by decision.

K-State entries won two first places and two third places in the AAU wrestling meet at Hays Friday and Saturday.

Joe Seay, 147-pounder, and Pat Doyle, 157-pounder, won first place honors for the Wildcats. Gaining third places were Larry Dwyer, 167-pounder, and Dan Lampe, 177-pounder.

You'll be pleased with a Collegian classified.

Cat Tracksters Finish Third As KU Wins Big Eight Title

Kansas State failed to win a single event in the Big Eight indoor track meet at Kansas City Friday and Saturday but piled up enough points to finish third behind Kansas and Oklahoma.

The Jayhawks scored 70½ points in capturing their eighth straight indoor crown. Oklahoma had 30, Kansas State 26, Colorado 25, Missouri 18½, Nebraska 16, Oklahoma State 13 7/12, and Iowa State 10 7/12.

The summaries:

Broad jump—1. Darwin Ashbaugh, Colorado, 23-7½; 2. Bill Toomey, Colorado, 23-6½; 3. Paul Williams, Kansas, 23-3½; 4. Charles Runge, Iowa State, 22-9½; 5. Ken Barber, Oklahoma, 22-8.

60-Yard Dash—1. Charlie Tidwell, Kansas; 2. Henry Wiebe, Missouri; 3. Orlando Hazley, O-State; 4. Don Carafoli, Missouri; 5. Dee Givens, Oklahoma. Time—6.1 (ties meet record set by Givens and Keith Gardner, Nebraska, 1958, and Tidwell in the preliminaries).

Shot Put—Mike Lindsay, Oklahoma, 58-4½; 2. Dan Erwin, Oklahoma, 56-½; 3. Jim Cain, K-State,

54-11½; 4. Dan Larose, Missouri, 52-3½; 5. Bill Dryer, Kansas, 52-1. 60-Yard Low Hurdles—1. Tidwell, Kansas; 2. Rex Stucker, K-State; 3. Dove, Colorado; 4. Darwin Ashbaugh, Kansas; 5. Wiebe, Missouri. Time—6.7 (ties meet record set by Bob Derrick, Oklahoma, 1955; Gardner, Nebraska, 1958; and Tidwell in preliminaries).

600-Yard Dash—1. Joe Mullins, Nebraska; 2. Bob Groszek, K-State; 3. Bob Covey, Kansas; 4. Dick Devereaux, I-State; 5. Larry French, K-State. Time—1:13.4.

440-Yard Dash—1. Bob Lida, Kansas; 2. DeLoss Dodds, K-State; 3. Chuck Carlson, Colorado; 4. Ken Covert, O-State; 5. Hal Gernert, Oklahoma. Time—49.5.

Mile Relay—1. Gail Hodgson, Oklahoma; 2. Tom Skutka, Kansas; 3. Tom Rodda, K-State; 4. Ron Sonn, I-State; 5. Jim Sanders, Missouri. Time—3:18.7 (New record. Old record of 3:20.6 set by Oklahoma (Folsom), Fritchett, Denton, Dahl) in 1956).

1,000-Yard Run—1. Cliff Cushman, Kansas; 2. Mullins, Nebraska; 3. Sansom, I-State; 4. Ralph Poucher, Colorado; 5. Kent Metcalf, O-State. Time—2:11.6 (New record. Old record of 2:13.9 set by Cushman in preliminaries).

880-Yard Run—1. Bob Tague, Kansas; 2. Skutka, Kansas; 3. Mike Peake, Colorado; 4. Knolly Barnes, Nebraska; 5. Hodgson, Oklahoma. Time—1:53.1.

High Jump—1. Bob Cannon, Kan-

sas, 6-5½; 2. Jim Green, Missouri 6-4; 3. (tie) Steve French, K-State and Larry Neely, Oklahoma, 6-2; 5. (tie) Joe Bryant, I-State; Sam Pagues, O-State; Jerry Johnson and Cedric Price, K-State, 6-0.

Mile Relay—1. Kansas (Tidwell, Covey, Cushman, Lida); 2. K-State; 3. Oklahoma; 4. Oklahoma State; 5. Missouri. Time: 3:18.7 (New record. Old record of 3:20.6 set by Oklahoma (Folsom), Fritchett, Denton, Dahl) in 1956).

AND KANSAS STATE COLLEGE
STUDENT GOVERNING ASSOCIATION

SC Hopefuls Get Tested for Posts

Eligibility exams for Student Council will be given today at 7 p.m. in the Union. A passing grade of 80 per cent is required to be eligible for the Council.

A final list of students running in the primary election from the United Staters and Integrity parties will be released Wednesday after exams are scored.

AWS

Approval of the slate of officers to be presented by the nominating committee will be on the agenda for the Associated Women Students council meeting tonight at 7 in room 206 of the Student Union.

Also on the agenda is the "late minutes" code to be presented by the judicial board, a standards committee report, and announcements regarding All-Women's Day.

Dr. Marjorie Adams, assistant professor of English, will speak about "The Challenge of the Educated Woman—Independence or Conformity?" This is also the theme of the International AWS convention in Tempe, Ariz.,

March 31 to April 3 at which K-State AWS will be represented by five delegates.

Club Cervantes

Brazilian skits and slides will be presented at the Club Cervantes meeting today at 7:30 p.m. in Eisenhower 15. Mr. and Mrs. Everett Dennis, who have been missionaries to Brazil for the last three years, will tell of their experiences, according to Jose Salcedo, TA Jr and president of the club. Before the program, the club will have election of officers.

YWCA

The Young Women's Christian association is sponsoring a "Learn to Play" bridge party, tomorrow at 4 p.m. in SU 203.

Alpha Phi Omega

Alpha Phi Omega will have a smoker tomorrow at 7:30 p.m. in room 205 of the Union. Prospective rushees have been invited to the meeting.

You'll be pleased with a Collegian classified.

KSC Foreign Students Give Education Views

Educational systems of different countries was the topic for a panel discussion at the Cosmopolitan club meeting Friday evening. Ron Jackson, assistant dean of students, acted as moderator for the panel.

Representing Ethiopia, Bekele Endeshaw, AE Gr, said, "In the colleges in Ethiopia, there are separate schools for each curriculum, such as agriculture schools, engineering schools, and art schools. The schools are tuition-free for Ethiopians. The government often provides scholarships for students to study in other countries, too."

Endeshaw stated that the Ethiopians do not engage in as many "frivolous" activities as the Americans do. He added, "In our colleges, we have political clubs, but there are no political parties on the campus."

In Ethiopia, math and languages are mandatory. Instructors begin teaching English in the fourth grade. Many of their instructors are foreign-born, most of them being English and American.

Endeshaw said that after graduation from college, the graduate works two or three years in Ethiopia.

Er-chieh Ma, ApM Gr from China, told the audience that the Chinese attend two years of kindergarten. He said that they use the 6-3-3-4 system in China, which is six years of grade school, three years of junior high, three years of high school, and four years of college.

He said, "The curriculum in China is about the same as in the United States, except that we Chinese are taught math and foreign languages much earlier.

"When a person graduates

from grade school, he takes an examination to see if he will be allowed to go to high school. Only about 50 per cent of the applicants get to go to high school.

"There is no charge for attending grade school in China, but there is a small charge for high school and college. Most of the college graduates work for the government."

Ma stated that the average load in China is 20 hours, so there is not much time for outside activities. For entertainment students have suppers and discussions.

Pauleen Nomura, HEN Fr, spoke on her native country, Hawaii. She said that their educational system is just like the United States', except "where Americans might go to a basketball game, we go to beach parties."

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and, "Barefoot Boy with Cheek.")

POVERTY CAN BE FUN

It is no disgrace to be poor. It is an error, but it is no disgrace.

So if your purse is empty, do not skulk and brood and hide your head in shame. Stand tall. Admit your poverty. Admit it freely and frankly and all kinds of good things will happen to you. Take, for instance, the case of Blossom Sigafoos.

Blossom, an impecunious freshman at an Eastern girls' college, was smart as a whip and round as a dumpling, and scarcely a day went by when she didn't get invited to a party weekend at one of the nearby men's schools. But Blossom never accepted. She did not have the rail fare; she did not have the clothes. Weekend after weekend, while her classmates went frolicking, Blossom sat alone, saved from utter despair only by her pack of Marlboros, for even an exchequer as slim as Blossom's can afford the joys of Marlboro—joys far beyond their paltry price: rich, mellow tobaccos, lovingly cured and carefully packed; a new improved filter that works like a charm. Croesus himself could not buy a better cigarette!

However, Marlboro's most passionate admirers—among whose number I am paid to count myself—would not claim that Marlboro can entirely replace love and romance, and Blossom grew steadily morosier.

Then one day came a phone call from an intelligent sophomore named Tom O'Shanter at a nearby men's college. "Blossom," said Tom, "I want you to come down next week for the barley festival, and I won't take no for an answer."

"No," said Blossom.

"Foolish girl," said Tom gently. "I know why you refuse me. It is because you are poor, isn't it?"

"Yes," said Blossom.

"I will send you a railroad ticket," said Tom. "Also a small salami in case you get hungry on the train."

"But I have nothing to wear," said Blossom.

Tom replied, "I will send you one suit of cashmere, two gowns of lace, three slacks of velvet, four shoes of calf, five socks of nylon, and a partridge in a pear tree."

"That is most kind," said Blossom, "but I fear I cannot dance and enjoy myself while back home my poor lame brother Tiny Tim lies abed."

"Send him to Mayo Brothers and put it on my tab," said Tom.

"You are terribly decent," said Blossom, "but I cannot come to your party because all the other girls at the party will be from rich, distinguished families, and my father is but a humble woodcutter."

"I will buy him Yosemite," said Tom.

"You have a great heart," said Blossom. "Hold the phone while I ask our wise and kindly old Dean of Women whether it is proper for me to accept all these gifts."

She went forthwith and asked the Dean of Women, and the Dean of Women laid her wise and kindly old hand on Blossom's cheek and said, "Child, let not false pride rob you of happiness. Accept these gifts from Tom."

"Lord love you, Wise and Kindly," breathed Blossom, dropping grateful tears into the Dean's reticule. "I must run and tell Tom."

"Yes, run, child," said the Dean, a smile wrinkling her wise and kindly old eyes. "And ask him has he got an older brother."

Former K-State Athlete Leads Restaurant Talk

A former K-State All-American basketball player, Richard J. Harman, a 1949 graduate, led a discussion during the Kansas Restaurant Association conference yesterday.

Harman said his basic philosophy in life and business is "If you act enthusiastic, you'll

Senate Nods School Bill

UPI—The Kansas Senate yesterday passed without opposition a bill appropriating \$26,355,216 to the State Board of Regents. Vote on the measure was 36-0.

The bill, which includes \$946,458—4.68 per cent—merit salary increases for faculty members, now goes to the House.

The money is for the operation of the state colleges and university, plus the deaf and blind schools, under control of the Board of Regents.

Gov. George Docking said he planned to sign the bill, in spite of his objections to a faculty salary increase.

AWS Accepts Officers' Slate

The new slate of officers was approved by the AWS council at its meeting last night. The slate will be announced at the All Women's Day banquet Thursday night.

Voting for the officers will be March 12 and 13 in Anderson hall and the Union from 9 a.m. to 5 p.m.

Dr. Marjorie Adams, assistant professor of English, spoke on "The Challenge of the Educated Woman—Independence or Conformity?" She divided her talk into five areas: government, advertising, organizations, religion, and literature.

Dr. Adams said the challenge is where to draw the line between independence and conformity. "The best safeguard is as long as you accept the responsibility for your actions and do not act quickly and unthinkingly, you will never go too far to either extreme," she concluded.

SAB Okays AF Group

The Student Activities board voted yesterday afternoon to approve the Air Force association with the understanding that required membership will be eliminated.

There was a discussion on the possibility of moving Interfraternity Sing and/or some of the other large activities to the fall

be enthusiastic." This philosophy is backed by others such as, "If you have a manager, give him authority, back him up, and get out of his way," and "the easy way out is to do it yourself."

During his talk, Harman showed slides he had taken of food at the foreign foods dinner given by the Professional Foods club at K-State.

Another K-State graduate at the conference is Miss Patricia Beezley, manager of the Pennant Cafeteria in Topeka.

Mrs. Margaret Mitchell of the Stouffer corporation in Cleveland, Ohio will be the featured speaker today. Mrs. Mitchell, acting as vice president of food production for the corporation, guides the plans for feeding about 60,000 people daily.

Mrs. Mitchell also supervises

21 Stouffer restaurants in six cities.

Miss Beezley is vice president of the Kansas Restaurant association and president of the K-State Alumni association. Conference topics are dealing mainly with good service, good training, and attractive menus.

Seventy-seven restaurant employers and employees are attending the conference. The number doesn't include K-State students who are attending.

K-State students enrolled in restaurant management are also attending much of the conference. Roger Schuetze, RM Sr., believes, "The college is cooperating to make sure that all students enrolled in restaurant management may attend the conference if they want to."

Fall Rush Revised By Panhel Council

One extra day has been added to Panhellenic Rush Week, according to Alberta Timm, TxC Sr., president of Panhellenic council.

This fall, registration for rush week will begin Sunday at 8 a.m. rather than at the usual 3 p.m. Following registration, the girls will meet with the Panhellenic adviser, Miss Mary Frances White. The rushees will then visit the houses for the first time on Sunday afternoon.

On Monday, the rushees will visit the houses all day and again in the evening. In the past, the girls have just visited the houses during the day Monday and not in the evening.

The rushees will receive their first invitations to attend parties on Tuesday. These first invitations have previously been given on Wednesday. There will also be parties on Tuesday evening.

On Wednesday and Thursday afternoons and evenings, the girls will again attend parties. This new schedule will include parties both during the day and in the evening on Tuesday, Wednesday, and Thursday, rather than on just Wednesday and Thursday.

The rushees will make their preferences on Thursday evening, where in the past these have been made on Friday morning. The bids will be issued on Friday

afternoon and the girls will go to the houses at 5 p.m. on Friday.

A new rule has also been passed concerning the closing hours for the rushees, according to Miss Timm. This year, the girls will have to be back at the dorm 30 minutes after the last party. Previously definite closing hours have been set for each night of rush week.

SC Changes Date Of SGA Election

Student Council passed a motion last night changing the dates of the SGA general elections to Wednesday and Thursday, March 18 and 19. The original dates of March 19 and 20 conflicted with the playing of the NCAA National finals.

Members of the new SGA committee for evaluating student activities at K-State were announced by Larry French, BA Sr., Student Council chairman.

The members and the schools they represent: Ron McCune, FT Jr., School of Agriculture; Linda Merritt, EEd Jr., School of Arts and Sciences; C. J. Austermiller, IE Soph., School of Engineering and Architecture; Sara Umberger, TxC Soph., School of Home Economics; Cap Dierks, VM Soph., School of Veterinary Medicine; Larry Bingham, BA Fr., Student Activities board; Virginia Taylor, SEd Jr., president of AWS; and Gary Rumsey, AE Sr. No applications were received from the Graduate school.

The evaluation committee will work with the personnel from Dean of Students Herbert J. Wunderlich's office on the long-range study of all student activities on campus and values received from them by students.

Lynn Martin, EEd Jr., announced that the Student Activities board had decided that the Air Force association be allowed to remain as an organization on campus providing membership is not compulsory for advanced cadets.

A committee of four was appointed by Chairman French from among the members to check on the possibility of having a University Day celebration after K-State has officially become a university. A preliminary discussion also took place on the possibility of chartering buses to take students to Topeka to

Students May Apply For Artist Series Posts

Positions of business manager and publicity manager for the Artist Series committee are now open, according to Gene Westhusing, EE Sr., chairman of the SGA committee co-ordinating staff.

Deadline for applications is Monday, March 9 at 5 p.m.

witness the signing of the name-change bill by the Governor.

The activity ticket evaluation committee reported that it felt the activity ticket program as it was carried out this year is acceptable. It reported a \$17,430 increase in athletic funds over last year. Of the total, \$9,400 went to additional scholarships for minor sports and the remainder went for "general improvements."

The financial statement for SGA for 1958-59 was presented. The actual expenses were considerably below the budget. Actual and anticipated expenses for the rest of the present council's term was \$4,090.11 out of a budget total of \$5,935.00.

Members voted for the outstanding Student Council member for 1958-59. The winner of the award will be announced at the annual SGA Recognition banquet, March 10.

Five Men Students Must Pay Damages For Aggieville Riot

Five Kansas State students identified as participants in destructive action in Aggieville February 11, following the K-State-KU basketball game have been placed on disciplinary probation and will be required to reach a satisfactory settlement of damages with injured parties, according to an announcement made yesterday by Herbert J. Wunderlich, dean of students.

Students involved were Gary Agron, RH Fr.; Anthony Ewert, ME Jr.; Charles N. Long, BA Soph.; William Johnson, Psy Jr.; and Leonard Tannebaum, Prv Fr.

Tribunal recommended disciplinary action in the case last Thursday night. It was accepted and released yesterday by Dean Wunderlich.

Tribunal stated last Thursday that in the future any student apprehended in a riotous or destructive act, such as the action which occurred February 11, will be automatically recommended for dismissal from Kansas State college. Dean Wunderlich accepted the proposal in behalf of the College.

Greeks Rehearse Y-Orpheum

SORORITY AND FRATERNITY members are once again devoting much time to Y-Orpheum rehearsals. In the Alpha Delta Pi-Alpha Tau Omega skit, "Death of a Medium," Bill Glocker, Sp Fr, interviews Karen Alstrom, Zoo Sr, who plays the part of Marilyn Monroney. Y-Orpheum will be April 3 and 4 in the College auditorium.

Celebration Would Be in Order If Docking Signs KSU Measure

STUDENT COUNCIL last night discussed making plans for a University Day celebration if and when K-State officially becomes a university. This seems to us to be a time for real celebrating on the part of K-State students.

To bring everyone up to date on the progress of the bill which would change the name of Kansas State College of Agriculture and Applied Science to Kansas State University of Agriculture and Applied Science, it has been passed by a unanimous vote in the House and has two more barriers to pass before becoming official. It is expected that the Senate will act on the bill soon, because the Legislature is working for an early end to this session on March 17.

GOVERNOR GEORGE DOCKING has said that he will sign the name change bill, if it is passed by the Senate. In that event, the Governor would probably sign it around

the middle of March. If the bill is passed by this Legislature, the name change will go into effect as soon as it is published by the official state newspaper. This means that sometime in March if all goes well, the name of our school will be changed. Diplomas of students graduating this spring have been held up until the name change issue is decided. So students graduating this spring may be the first to graduate from Kansas State university.

Student Council is checking into the possibility of getting busses for students who wish to go to Topeka to be present when Governor Docking signs the bill.

STUDENTS can find many events to invoke a celebration and this seems to us to be one which we can really get behind and celebrate in a mature manner. Many hours and much planning have gone into this bill, and an expression of student enthusiasm would be in order.—st

Is He or She Lying? Try the Old Rice Test

By Margaret Cooper

SO YOU, a sentimental coed, don't think he was telling the truth when he whispered in your ear that you had such pretty blonde hair and such big blue eyes. And you, little man on campus, are wondering if she honestly had studying to do Sunday afternoon, and therefore couldn't have a coke date with you. In the first case, if your dreamboat's voice changed tones, if his heart beat faster, if his blood pressure rose, and if he started to stutter, then you have every reason to worry. According to the Indiana Daily Student, these are symptoms of a man who is lying. As for women, there is no visible way to determine whether they are being honest or not. They can tell a lie with little or no emotion. However, fellows, if you have some rice handy, you might try the old Chinese lie-detector test. Give your girl a mouthful of rice to eat. If she is lying, she will be unable to swallow it because dryness of the throat or lack of saliva is an established sign of guilt. Of course, you might have trouble in getting her to eat rice—but then you're stronger than she is.

AN ANONYMOUS LETTER to the editor of the Ohio State Morning Lantern was filled with degrading and unflattering remarks about the lovable little "Peanuts." The writer finds the strip a "blond attempt at humor dull and meaningless. The way the cartoonist runs the material in the ground is ridiculous." He says "Peanuts" is for the pseudo-intellectual type, i.e., "persons who do not have the intelligence to differ from the norm but attempt to do so, just to make others believe they have a mind of their own." Not all the Ohio State university students agreed with this author, as the next morning he was hanged in effigy!

FOR SALE: a new 1901 "Rollsmobile." It comes equipped with a wooden body, a steering stick, and a four horsepower engine which gets 67 miles to the gallon. Its other accessory is a horn which can be heard miles away. The horn makes up for the "lack of other modern conveniences such as doors, roof, spare tire, and speedometer." This \$1000 buy is two-thirds the original size and can be carried off by any interested party—its only drawback! If interested, contact the Arizona Wildcat.

A MEMBER of the Daily Kansan staff has found the logic behind Governor Docking's statements that KU students were "unethical" and that Daily Kansan reporters were "unfriendly." He admits that he is guilty of these accusations by the line of reasoning that the Governor said one Young Republican was unethical. This Young Republican is a KU student so all KU students are unethical. The author of the article is a KU student, therefore he is unethical. In the same manner he is guilty of being "unfriendly." A story was printed by the Daily Kansan which the Governor said was unfriendly. Since the story was written by Daily Kansan staff members, and since this person is a staff member, he is unfriendly.

A NEW EXPRESSION on the Indiana university campus is, "If you don't like what time it is now—just look at a different University clock!" The clocks vary from one to eight minutes, and the students find it quite disheartening to be ambling to class with the idea that they have several minutes before classes begin only to have some clock "toll out the message that they are late for class."

THE OREGON DAILY EMERALD expounds on the multiple uses of a tail. First developed among major vertebrates as a fin-like swimming organ, the tail "has evolved as a balancing organ (rats), a prehensile organ (monkeys), a parachute (squirrels), a formidable weapon (porcupines), a chair (kangaroos), a rudder in flight (birds), and a food locker (gila monsters). Peacocks use it for display, cows as a fly switch, beavers as an alarm, and lizards as an escape mechanism—when caught by their tails they detach them and run off to grow new ones."

World News

Scientists Say Moon Robot's Orbit To Exceed Earth's Elliptical Path

Compiled from UPI
By JOHN HOKANSON

Washington — Scientists said today that America's Pioneer IV moon robot, which was successfully launched early this morning from Cape Canaveral, will go into an orbit around the sun that will be larger than the orbit of the earth.

They explained that the robot's orbit will be more elongated. It will cover more miles, but since the robot is moving somewhat faster than the earth the space vehicle will still get around the sun in about a year.

At 8 a.m. EST, the National Aeronautics and Space administration calculated the cone-shaped satellite was 66,000 miles from the earth and traveling slightly off course at a speed of 6,748 miles per hour. This is higher than Pioneer III which soared 64,580 miles high last December. NASA said the space vehicle at 9 a.m. should be in the

neighborhood of the 71,300 miles reached by Pioneer I on November 11.

Bolivia Irked at Report

La Paz, Bolivia—Anti-American mobs surged through the streets of La Paz and Oruro yesterday in a furious protest against a Time magazine report that U.S. authorities here believe Bolivia and its problems should be divided up among its neighbors.

The rioters stoned the U.S. Embassy in La Paz and the U.S. Information Service libraries here and in the tin-mining center of Oruro, breaking most of the windows in the three buildings. No American casualties were reported.

U.S. Charge d'Affairs Wimberly Coerr assured the Foreign Ministry that he is "absolutely sure" that no member of the embassy staff made any such statement.

Quotes from The News

Scottsdale, Ariz.—Ted Williams, 1958 American league batting champion, as he began training for his 18th season with the Boston Red Sox:

"My ankle bothered me terribly last spring and it bothered me all season. I was lucky to play at all last season."

Vero Beach, Fla.—Partially paralyzed Roy Campanella on what it means to rejoin his ex-Dodger teammates as a coach:

"I love this game. To get back and be around these fellows means quite a bit."

Three Types of Student Loans Help K-Staters Through School

By DORIS MILLER

Another way a student can help finance his way through college is by loans. Kansas State has three types of loans available to its students.

The first, short-term loans, can amount to \$100 with 30 days to pay. There is no interest charged on this loan. This is an emergency program to help students get over short term financial problems.

During the first semester, 366 loans were made totaling \$31,465. Fees and books accounted for 78 of these loans, amounting to \$8,287; 56 loans totaling \$9,460 were for interviewing trips made by seniors. The majority of loans, 232, amounting to \$13,718, were for all types of general student expenses.

Alumni loans are granted through the alumni office. These are long term loans which may amount to several hundred dollars. They are to be paid within two years of graduation. A three per cent interest is charged.

From August 1 to February 1 of this year, 170 of these long term alumni loans were granted, amounting to \$58,138.

Students may apply for the Government loan fund which comes under the new National Defense Education act. Under this act, \$47,500,000 has been authorized for use from January to June 30, 1959. Kansas has been allocated \$97,505, of which Kansas State received \$8,620.

General requirements for this loan are: 1) only full-time students may borrow, 2) The students must be in good standing or capable of good standing, 3) The students must have a real need for the loan, 4) The loan is to be used primarily for college expenses, 5) The amount of the loan will be governed by the finances necessary for the student to continue or pursue the course of study, 6) Before receiving the loan, the student must sign the United States Loyalty Affidavit.

The law provides that special consideration must be given to students with a superior academic background who express a desire to teach in elementary or secondary school; or students whose academic background indicates a superior capacity or preparation in science, mathematics, engineering, or a modern foreign language.

Repayment is to begin one year after the bor-

rower quits or graduates from college, and ends 11 years afterward.

K-State may receive as much as \$150,000 for loans under this act during the 1959-1960 academic year, said Dr. Chester Peters.

Applications for the short term loans and the government loans are made through Dr. Peters, who is chairman of the faculty committee on student loans. The loans are acquired after a short interview with the committee and the granting of its approval.

Peters reported that the emergency fund has not been large enough to handle all the needs. Money for this fund comes from contributions and interest from the alumni loans.

"However, with the new act and the alumni loans, we will soon be able to meet the demands placed on these funds," Peters concluded.

Wildcats Voted Nation's Best In UPI Weekly Cage Ratings

By UPI

NCAA tournament-bound Kansas State, boasting the nation's second best won-lost record, replaced Kentucky atop the United Press International college basketball ratings yesterday in the next-to-last week of the balloting for the national champion.

Kansas State, second in last week's ratings even though it received more first-place votes than Kentucky, was the top pick of the 35 coaches who make up the UPI rating board this week, and the Wildcats picked up enough second and third-place votes to pile up a 305-point total.

Kentucky, which got the Southeastern conference berth to the NCAA tournament when Mississippi State, 24-1, declined, got 11 first-place votes this week, compared to 13 last week, for 297 points. The Adolph Rupp-coached Wildcats, beaten in only 2 of 25

games this year, are defending NCAA champions.

Cincinnati, 21-2, the pre-season choice of the coaches, held onto third place, drawing five first-place votes and 259 points, while Michigan State, 16-3, moved past North Carolina, 18-3, and North Carolina State, 19-4, into fourth place.

North Carolina slipped a notch to fifth and North Carolina State dropped two pegs to seventh.

Mississippi State, seventh a week ago, climbed a rung to sixth between the two Carolina schools, and California, 20-4, Bradley, 21-3, and Auburn, 20-2, completed the top 10. Michigan State, with two, and North Carolina, with one, drew the other first place votes.

There is a good chance that seven of the 10 top-rated teams will compete in the post-season tourneys. Also headed for NCAA action beside Kansas State and Kentucky are Cincinnati, Michigan State and California, while Bradley is in line for a National Invitational tournament berth if

it fails to overhaul Cincinnati in the Missouri Valley conference.

West Virginia headed the second 10 group, followed in order by St. Louis, Texas Christian, Utah, Marquette, St. Mary's (Calif.), St. John's (NY), and St. Bonaventure, Louisville, and Oklahoma City. The last three were tied for 18th. Utah State, Eastern Kentucky, and Washington were the only other teams to draw votes. Points were awarded on a 10-9-8, etc., basis for votes from first to 10th places.

The United Press International major college basketball ratings (first-place votes and won-lost records through February 28 in parentheses):

Team	Points
1. Kansas State (16) (22-1)	305
2. Kentucky (11) (23-2)	297
3. Cincinnati (5) (21-2)	259
4. Michigan State (2) (18-3)	214
5. North Carolina (1) (18-3)	205
6. Mississippi State (24-1)	128
7. North Carolina State (19-4)	115
8. California (20-4)	92
9. Bradley (21-3)	74
10. Auburn (20-2)	64
11. West Virginia, 43; 12. St. Louis, 36; 13. Texas Christian, 35; 14. Utah, 18; 15. Marquette, 15; 16. St. Mary's (Calif.), 9; 17. St. John's (NY); 18. (tie), St. Bonaventure, Louisville, Oklahoma City, 3 each; 21. Utah State, 2; 22. (tie), Eastern Kentucky and Washington, 1 each.	

Team Points
1. Kansas State (16) (22-1) 305
2. Kentucky (11) (23-2) 297
3. Cincinnati (5) (21-2) 259
4. Michigan State (2) (18-3) 214
5. North Carolina (1) (18-3) 205
6. Mississippi State (24-1) 128
7. North Carolina State (19-4) 115
8. California (20-4) 92
9. Bradley (21-3) 74
10. Auburn (20-2) 64

11. West Virginia, 43; 12. St. Louis, 36; 13. Texas Christian, 35; 14. Utah, 18; 15. Marquette, 15; 16. St. Mary's (Calif.), 9; 17. St. John's (NY); 18. (tie), St. Bonaventure, Louisville, Oklahoma City, 3 each; 21. Utah State, 2; 22. (tie), Eastern Kentucky and Washington, 1 each.

KS Rifle Team Tops Creighton

Tom Banks fired a 390 to pace the K-State varsity rifle team to victory over Creighton in a match at Omaha Saturday. The score was 1,921 to 1,900.

Each team was composed of 10 shooters, each of whom fired 40 shots; 10 each in the prone, sitting, kneeling, and standing positions. The possible score for each shooter was 300, and the top five on each team counted in the team scoring. The possible team score was 2,000.

Besides Banks, the other top K-State shooters were Bill Davis, 387; Fred Kohmen, 382; Roy Russell, 382; and Dean Eustace, 380.

Scoring for Creighton were Kent Weber, 385; Jerry Burkholder, 380; Don Cleveland, 380; John Slaughter, 373; and Bill Fulton, 376.

Cats Retain No. 2 Rating In Associated Press Poll

The K-State Wildcats remained second in this week's Associated Press major college basketball ratings as Kentucky retained its grip on the top spot.

Kentucky got 32 first-place votes and totaled 858 points, while K-State polled 28 first-place votes and got 750 points.

Cincinnati, fourth in last week's poll, moved up one notch into the third spot following North Carolina's 69-68 loss to Virginia. The Tar Heels dropped to fifth.

Mississippi State, which owns the nation's best record, 24-1,

also moved up one notch into the No. 4 spot.

Michigan State, last week's No. 5 team, slipped to sixth this week, followed in order by Auburn, West Virginia, Bradley, and North Carolina State.

Betas, Jr. AVMA Win in IM Action

Beta Theta Pi and Jr. AVMA, in the fraternity and independent divisions, respectively, remained undefeated as intramural volleyball went into its second week of play last night in Ahearn gymnasium.

Beta Theta Pi beat Beta Sigma Psi, 15-2, 15-7, and Jr. AVMA trounced DSF, 15-5, 11-0. It was the third straight win for each.

In other action last night, OK house edged LSA, 16-14, 15-13; Scholarship house defeated West Stadium, 15-8, 4-15, 15-9; and

the Rebels forfeited to YMCA; AIA toppled Acropolis, 15-9, 15-6; Sigma Chi dumped Phi Kappa, 15-4, 15-11; and Delta Tau Delta won over Sigma Phi Epsilon, 15-5, 15-4.

Van Zile Wins Basketball Tilt

Van Zile hall took an easy 40-16 win over Kappa Kappa Gamma yesterday afternoon in women's intramural basketball action in Nichols gymnasium.

Kay Linder was high scorer for Van Zile with 32 points, and Barbara Huff led Kappa Kappa Gamma with 14.

Alpha Delta Pi edged out Southeast hall, 38-36. Peg Shannon scored 26 points for the ADPi's, and Jane Berger hit 22 for Southeast.

In today's games, Chi Omega 1 will play Northwest hall on the east court, and Chi Omega 2 will play Walther on the west court. Both games are scheduled for 5 p.m.

NOTICE ALL VETERANS
H. J. McLaughlin, Long Investment Company, will give a short talk on investment and the stock market, Tuesday, 7 p.m., Room 11, Eisenhower.

Tonight's schedule:

7 p.m.—Kappa Sigma vs Sigma Nu, northwest court; Farm House vs Lambda Chi Alpha, southwest court; Theta Xi vs Pi Kappa Alpha, northeast court; and Alpha Kappa Lambda vs Alpha Tau Omega, southeast court.

You'll be pleased with a Collegian classified.

Insects, Mammals Topic Of Guest Scholar Talk

"Problems in the Psychology of Insects and Mammals" is the title of a talk to be given today at 4 p.m. in Fairchild 202 by Dr. T. C. Schneirla of the American Museum of Natural History in New York City.

Dr. Schneirla is speaking in connection with the guest scholar program which was initiated at K-State about a year ago by the Graduate council.

The purpose of the program

SGA Dinner Next Week

The Student Governing association recognition banquet will be March 10 at 6 p.m. in ballroom A of the Union.

A trophy will be presented to the outstanding member of Student Council. Outstanding members of standing committees will also be recognized.

Chuck Goetzinger, assistant professor of speech, will be the banquet speaker.

All Student Council and standing committee members must sign a list in the SGA office by March 7 if they wish to attend, according to Winkie Killian, SED Sr, chairman of the Recognition committee.

Job Interviews

Seniors seeking jobs may schedule interviews with companies on the campus this week, according to Chester E. Peters, director of Placement center.

All interviews are in Anderson hall, room 8, unless otherwise indicated.

Companies and majors they are interested in:

MARCH 3: Macy's, BA, HE, Ec, and liberal arts; Black and Veatch, CE, EE, ME, AR, and freshmen, sophomores, juniors, and seniors for summer; Firestone Tire and Rubber, BA, Ec, and liberal arts for sales; Hallmark Cards, Inc., BA, Ec, and liberal arts for sales; Gates Rubber, ME, IE, and ChE; Household Finance corporation, BA, Ec, and personal service.

MARCH 4: U.S. Naval Laboratories in California; China Lake, aero-engineering option, ME, EE, electronics, physical sciences, Phy, and PhD only in chemistry; Corona, electronic engineering, ME, Phy, BS, MS, or PhD electronic science, PhD Chem, BS and MS Math, and juniors and seniors for summer; Pasadena, ME, EE, electronic engineering, Phy, and applied mathematics; Radio Corporation of America, EE, ME, engineering physics, and juniors for summer; Vendo company, EE, ME; The Dow Chemical company, BS, MS, PhD in Chem, Phy, ChE, EE, ME, metallurgical engineering, or any degree with two years of chemistry for sales only, seniors interested in summer employment may sign after March 2; Bureau of Reclamation, CE interviews in E 142; Rath Packing company, BA, liberal arts, and Econ for sales.

MARCH 5: Convair, San Diego, aero-engineering option, CE, EE, ME, and MS, PhD in Math and Phys; Kroger, BA, liberal, and accounting; Maytag company, accounting, marketing and sales, traffic, and HE.

MARCH 5 and 6: Collins Radio company, EE, ME, and Phy; Cessna Aircraft company, ME, AgE, and Juniors for summer.

MARCH 6: Shell Oil company, production department, ChE, ME, EE, and CE; Panhandle Eastern Pipe Line company, BS in CE, EE, ME, and ChE; Motorola, BS, MS, PhD EE.

Activities

Landon To Speak Here

Alf Landon, former governor of Kansas, will speak to members of the Order of Artus, economics scholastic honorary, tonight at 6:30 in the Gillett hotel.

Chimes

Hot buttered popcorn will be sold at fraternity and sorority houses tonight between 8 and 10 by members of Chimes, junior women's honorary, according to Irene Mangelsdorf, EED Jr, publicity chairman. Proceeds

will help provide for a cash award to be presented to a scholastically outstanding senior woman at the AWS banquet Thursday.

Art Display

Members of Delta Phi Delta, honorary art fraternity, are showing examples of their work in an exhibition in the Student Union art lounge from March 1 to March 21.

The exhibit consists of oil and

water color paintings, figure and still life drawings, sculpture, mosaics and other art work.

Students exhibiting in the show are Bob Boozer, Art Sr; Mary Cox, Art Sr; Carolyn Dyer, Art Jr; Leon Hicks, Art Sr; Jeneane Hubert, Zoo Soph; Mina Jones, ArG Jr; LaDonna Keller, Art Jr; Winifred Killian, SED Sr; Paul Lu, Ar Gr; Margaret McKnight, Ed Gr; Judy Perine, Art Sr; Lois Smith, Art Sr; Charlotte Strah, ArG Sr; and Judy Wareham, Art Soph.

FORMER KANSAS GOVERNOR Alf Landon appeared in Manhattan last night to speak "off the cuff" at a dinner sponsored by the Order of Artus, economics scholastic honorary, in the Gillett hotel. With Landon from left: Tea Won Kim, Ec Sr, Order of Artus treasurer, and Willard Wright, Ec Gr, secretary.

Kansas State Collegian

VOLUME 65

Kansas State College, Manhattan, Kansas, Wednesday, March 4, 1959

NUMBER 98

Full Program Scheduled For All Women's Day

Miss Patricia Beezley, president of the Kansas State Alumni association, will keynote All Women's Day tomorrow with a speech titled, "It's a Woman's Choice." Miss Beezley will speak to K-State Associated Women Students at a banquet tomorrow at 5:30 p.m. in the Union grand ballroom.

Miss Beezley is the owner and operator of the Pennant cafeteria in Topeka. She also owns and manages a cafeteria in Wichita.

A 1943 graduate of K-State, she was, and still is, interested in the Associated Women Students program. In those years AWS was in the planning stages. Miss Beezley was active in forming the present-day AWS organization.

Her activities while at K-State included Chimes and Mortar Board. Because of her outstanding college work, she was chosen for "Who's Who in American Colleges and Universities."

Also at the banquet tomorrow night, Chimes, junior women's honorary, will present an award of \$25 to the senior woman with the highest cumulative grade average for 105 credit hours at K-State. Three senior women with the next highest cumulative grade averages will also be awarded certificates of honor.

Also on the banquet program are presentation of the Interdorm Scholarship award and announcement of the AWS slate of officers.

All Women's Day schedule for discussion groups: "All the Time You Need," a book review by Mrs. Walton Cole, 10 a.m., SU art lounge; "Trends in Fashion," Miss Sally Bradt, fashion co-

ordinator for Woolf Brothers, 2 p.m., SU 207; and "Kitchen Full of Ideas," by General Electric's Anne Phillips Lindsay, Union Little theater;

Men's panel discussion on "A Woman's World," by Lowell Novy, VM Jr; Chuck Wingert, Gvt Sr; Rhea Serpan EE Sr; Larry Edwards, GA Sr; and

Gene Olander SED Jr; and "Planning a Wedding," by Miss Dorothy Jay, bridal consultant for Crosby Brothers in Topeka, SU little theater; "Leading a Double Life," Asst. Prof. Louise M. Langford 4 p.m., SU 208; and "If You Lived in Norway," by Mrs. Inger Sogn, a home economics teacher in Norway's secondary school system, SU 207.

In main supporting roles are Jim Rosenberg, assistant professor in English, as Sir Ralph Bloomfield Benington, the pompous and fraudulent society doctor; Leon Damsky, graduate assistant in bacteriology, as Cutler Walpole, the surgeon who has discovered "the nuciform sac;" and Carlton M. Smith, Air Force ROTC instructor, as Sir Paddy Cullen, the wise old Irish doctor. Others appearing in the cast

Whan Heads County by County Studies On Listening Habits of Radio Audiences

By MARY JO MAULER

"One of the longest continuing series of annual studies ever made was started at K-State in 1937," according to Dr. Forest L. Whan, head of the Department of Speech. The study is a county by county survey of the listening habits and attitudes of radio audiences in Kansas and surrounding states.

In 1937, Dr. H. B. Summers, of the Speech department, started the study in Kansas which continued annually until 1954. While this study was going on, Dr. Whan started a similar study in Iowa in 1938. Dr. Whan completed his final annual study in Iowa in 1958.

"The study was started to find out what people like to listen to on the radio and why they listen," said Dr. Whan. "Since the study was started, we have interviewed over half a million people and have done studies in 20 other states from Texas to Maine. I have been in complete charge of the studies since 1941."

"The questions asked during

the studies fell into ten general categories," said Dr. Whan. They were ownership of sets; broadcast media prestige in Kansas; station preference ratings; meaning of ratings; listening hours and habits; newscasts, farm news, markets, and weather; program preferences; commercial advertising; facts about Kansas families; and miscellaneous information.

Dr. Whan commented that there is quite a difference in the likes of rural and city people. The amount of education that an individual has also makes a difference.

"Through the studies, we have found some unusual facts," said Dr. Whan. "In one case study it was shown that cows will give one quart more milk a day when soothing music is played during the milking process."

"In the first years of our studies, we also found that one-third of the women listened to the day serials, said Dr. Whan. Three out of ten of these women solved their marital problems by

SGA Candidates Announced After Grades Check, Tests

Candidates for student body president, Student Council, and Board of Student Publications have been announced, following a test on the SGA constitution, taken by applicants Monday.

Candidates for student body president are Steve Douglas, Gvt Jr, Integrity; and Gene Olander, SED Jr, United States. Graduate school candidates are Chuck Moggie, BAA Sr; and Larry Edwards, GA Sr, United States.

One candidate is entered for the School of Home Economics—Sara Umberger, TxC Soph, United States. The School of Veterinary Medicine is to be represented by Sid Jones, VM Soph, Integrity.

From the Engineering school are Richard Robbins, Ar 02; C. J. Austermiller, IE Soph; Jay Knox, ME Soph; Hal Judy, AgE Soph; Larry North ME Sr; Larry Jeffries EE Soph; and Bill

Matthews, EE Soph, Integrity; Don Wise, EE Soph; Fred Gardenhire, ME Jr; Richard Bach, ME Jr; Bill Taylor, ME Jr; Bill Bayless, ME Jr; and Lyle Clum, EE Jr, United States.

Candidates in the Architecture school include Dick Rees, FT Fr; Larry Laverentz, AH Jr; Ralph Gillmore, AE Soph; Ronald Janasek, FT Soph; and Robert Lewis, Ag Soph, Integrity; and John Schuetz, DM Soph, United States.

From the School of Arts and Sciences, candidates are Larry Bingham, BA Fr; Jim Lisher, Ec Jr; Diane Watson, EEd Jr; Jeneane Hubert, Zoo Soph; Barbara Huff, Gvt Jr; Carolyn Moriconi, Eng Soph; Betty King, MED Soph; Anne McMillin, Mth Jr; Leslie Dole, MGS Soph; Jim MacDonald, BAA Soph; Sharyn Burt, Art Soph; Claire Fryer, BMT Soph; Larry Bilotta, SED Jr; Diane Endicott, BMT Jr; John Nelson, BAA Soph; and Mary Jo Cochran, SED Soph, Integrity;

Judy Tyler, EEd Soph; Rob

ert Sanders, MGS Jr; Nancy Wantland, SED Soph; Nedra Ross, Sp Jr; Charles Hostetler, PrL Jr; Fran Schwartz, BMT Jr; Joyce Rogers, Mth Soph; Helen Anderson, Gvt Soph; Bud Annan, BA Jr; Norman Hostetler; Hum Jr; Alyce Lambert, ML Soph; Harry Lehwel, Sp Jr; and Neal Meitler, BA Jr, United States.

For the Board of Student Publications are Chester Peterson, DH Sr, Integrity; Martha Steps, TJ Soph; Doris Miller, TJ Soph; and Irene Mangelsdorf, EEd Jr, United States; and Karen Peterson, HEJ Jr, Independent.

SGA To Test Today

For those who flunked or missed the SGA examination required of Student Council candidates, another will be given in the SGA office in the Union Activities center today at 5 p.m.

Students, Faculty In Civic Play Cast

The cast for "The Doctor's Dilemma," the next production of the Manhattan Civic theater, is made up almost entirely of K-State students and faculty.

The George Bernard Shaw comedy features Laurence Lang of the K-State extension division, as Sir Colenso Ridgeon, the doctor who has discovered a cure for tuberculosis. Playing opposite him are Susan Weitzel, graduate assistant in English as Jennifer Dubedat, the beautiful wife of a dying artist, and Jose Benarde, instructor of philosophy as the artist.

In main supporting roles are Jim Rosenberg, assistant professor in English, as Sir Ralph Bloomfield Benington, the pompous and fraudulent society doctor; Leon Damsky, graduate assistant in bacteriology, as Cutler Walpole, the surgeon who has discovered "the nuciform sac;" and Carlton M. Smith, Air Force ROTC instructor, as Sir Paddy Cullen, the wise old Irish doctor. Others appearing in the cast

are Carolyn Hunt, instructor of speech, as Emmy; John Wieland, Eng Sr, as Dr. Blenkinsop; Al Ferguson, graduate assistant in English, as Redpenny; Elliott Parker, EE Soph, as an inquiring reporter; Jo Mangus, instructor of general studies, as Minnie Tinwell; and Virginia Mansfield, secretary in the Department of History, Government, and Philosophy, as Miss Danby.

The play will be given March 22, 23, and 24 at 8 p.m.

Cheerleader Squad Would Make Trip To Two Grid Tilts

Proposals were passed by the Cheerleader Advisory board yesterday enabling the entire cheerleading squad to attend out-of-town football games two times a year, and enabling at least the head cheerleader to attend the other out-of-town contests.

The proposals will be submitted to the Student Council for a final decision.

A committee was appointed at the meeting to work on the cheerleader budget for next year. The committee members are Sally Carney, Eng Sr, president of Purple Pepsters; Larry French, BA Sr, chairman of Student Council; George Hooper, BA Sr, head cheerleader; and Ollie White, cheerleader adviser.

Apparent Low Bid Given for East Ag

Apparent low bidder on the general contract for the replacement of East Waters hall was Mont Green, contractor of Manhattan, according to R. F. Gingrich, superintendent of the physical plant. The base bid for the general contract was \$680,240. East Waters burned in August of 1957.

Acker Electrical company of Manhattan was the apparent low bidder for the electrical contract, and Stevens, Inc., of Hutchinson was the apparent low bidder on the plumbing, heating, and air conditioning contract. The base bid for the electrical contract was \$128,960, and for the plumbing contract, \$245,960.

Test Failures Should Not Get Chance To Redeem Indifference

IT IS INTERESTING to note that 11 of the 73 petitioners for Student Council candidacy failed the SGA Constitution test given Monday night. Requirement for becoming a candidate in the primaries for Student Council was a score of 80 per cent or more on the test. This seems to indicate that several of the students who apparently wish to become members of Student Council and "campus leaders" did not care enough to bother about thoroughly studying the Constitution.

This might also indicate something about student government as a whole at Kansas State—perhaps students just aren't interested enough to care about looking into what Student Council is doing or should be doing. However, many students do seem interested enough to do some complaining when they see, on the surface and without any trouble, that the student government is, for the most part, ineffective. It isn't hard to criticize things which you have been too lazy or too indifferent to do your part in.

Many would-be student politicians are

only interested in the "prestige" that a student government office brings—not in the work that it should entail. So the SGA Constitution tests would appear to be one good method of eliminating student officers who are willing to take the "honors" but are not willing to do the work.

HOWEVER, we can see no point in giving the test for a second time for those who failed the first time (the test is being given again today at 5 p.m.). This would defeat the whole project. Students who were not interested or intelligent enough to pass the test in the first place may suddenly realize they had better "cram" a little, and they may learn the Constitution well enough to pass the test. But this does not indicate they will take any more interest in the future than they apparently did on the first test. After all, when it becomes absolutely necessary, most anyone can muster enough enthusiasm to pass a test of this nature. But what kind of enthusiasm will be mustered later on, and will this lead to improvement in our student government?—st

World News

Satellite Due To Pass Moon Today; Orbit Around Sun Appears Certain

Compiled from UPI
By JOHN HOKANSON

Washington—The U.S.-made Pioneer IV satellite, running slightly behind schedule, sped today toward a late afternoon rendezvous with the moon.

The National Space and Aeronautics administration said that the space capsule, on its way to becoming an artificial planet, should pass within 38,000 miles of the moon at 5:24 p.m. EST.

Pioneer IV was 190,000 miles from the earth and traveling 4,700 miles an hour as of 7:33 a.m. EST, according to the Jet

Propulsion laboratory in California.

The Laboratory announced that its Goldstone tracking station on California's Mojave desert picked up signals from the pint-sized artificial planet at 7:33 this morning for the first time since losing contact yesterday afternoon.

Khrushchev in Germany

Leipzig East Germany—Nikita Khrushchev flew today to Communist East Germany, reportedly with new proposals to settle the Berlin crisis and to

negotiate a separate peace treaty with the Red regime.

The Soviet premier was expected to make his proposals public in a major speech at a huge rally in Leipzig where thousands of persons began lining the streets early this morning to give him a boisterous welcome as ordered by the Communist party.

The visit came as East-West tension relaxed perceptibly over his climb-down acceptance Monday of an East-West foreign ministers conference on Berlin and by the announcement he and British Prime Minister Harold Macmillan agreed that cold war disputes should be settled by negotiation rather than by force.

There was nothing to indicate he was ready to back down on his major demands. Most observers saw the visit as serving notice to the world the Soviets attach great importance to their East German satellite and were determined to win international recognition for it.

Fifty Per Cent of K-State Students Have Part-time Work at College

(Editor's note—this is the third and final story on how students at Kansas State finance their way through school.)

By DORIS MILLER

Part-time jobs are the final way that students may help pay their own way through college. Approximately 50 per cent of K-State students work part-time while attending school.

This part-time work, in addition to summer jobs, earns approximately 35 per cent of their college money. From a 1956 survey made by a committee of Student Council members and Dr. Chester Peters, director of the Placement center, this and the following statistical information was gathered.

Men average 18½ hours a week and women 13½ hours. Average wages for men is 98 cents an hour, for women, 71 cents. This gives an average wage of 87½ cents an hour.

Although these statistics are three years old, Peters stated that they are probably still accurate.

The College employs 1100 students on a part-time basis. Pay rates vary from 55½ cents to \$1 an hour for most jobs and may be as high as \$2 for jobs requiring special skills. Increases depend upon ability and length of service. Campus employment may be found in College departments, the Library, class laboratories, administrative offices, dormitories, maintenance and custodian staffs, the Union, and others.

Approximately 2000 students work off campus in offices, service stations, farms, retail businesses, restaurants, homes, etc.

Students wanting to earn extra money, but not wanting to hold a steady job, may get temporary employment such as yard work, cleaning, or household chores.

Jobs in exchange for meals can be found in dormitories, sororities, and fraternities. Students are hired as houseboys, waiters, and kitchen boys to work a certain number of hours a week for their meals.

"Almost anyone that has to have work can get some type of gainful employment. They may not get exactly what they want but it will be a job. We rarely have a student leave school because he can't get financial help. We don't, however, encourage a student to work too much," Peters stated.

Pres. James A. McCain agrees with Peters in not encouraging students to work too much. He added, "The ability of a student to hold down a part-time job and still maintain a high academic record varies with the individual student. Certainly there are students who can do both. If a student has to make a choice between learning and an outside job, the intellectual pursuit should be the first choice, if at all possible."

Top Ten Tunes

'Stagger Lee,' 'Donna' Still Vie For City's No. 1 Record Spot

By Helen Splichal

"Stagger Lee," by Lloyd Price and "Donna," by Ritchie Valens, remain stationary for the second consecutive week in Manhattan music circles. In both record sales and on jukeboxes the records are rated first and second respectively.

"Hawaiian Wedding Song" by Andy Williams, is the fastest moving record toward a top position in record sales this week.

Also on the sales increase are two albums, "Hungry I," by the Kingston Trio and "For LP Fans Only," by Elvis Presley. A collection of Presley's earlier cuttings makes up his album.

The "Peter Gunn Theme" is available in two versions. They are a straight version by Ray Anthony and a jazz version by Shelly Manne and His Men.

A recent movie in Manhattan, "The Hanging Tree," has increased sales of the record by Marty Robbins considerably.

THE TOP 10 records in Manhattan record sales:

1. "Stagger Lee," Lloyd Price
 2. "Donna," Ritchie Valens
 3. "Charlie Brown," the Coasters
 4. "Sixteen Candles," the Crests
 5. "Petite Fleur," Chris Barber
 6. "I Cried a Tear," Laverne Baker
 7. "Venus," Frankie Avalon
 8. "Peter Gunn Theme" Ray Anthony
 9. "Alvin's Harmonica," David Seville
 10. "Gotta Travel On," Billy Grammer
- THE TOP 10 tunes on Manhattan jukeboxes:
1. "Stagger Lee," Lloyd Price
 2. "Donna," Ritchie Valens
 3. "Petite Fleur," Chris Barber
 4. "Children's Marching Song," Mitch Miller
 5. "Smoke Gets In Your Eyes," the Platters
 6. "Peter Gunn Theme," Ray Anthony
 7. "All-American Boy," Bill Parson
 8. "Hawaiian Wedding Song," Andy Williams
 9. "Charlie Brown," the Coasters
 10. "Lonely Tear Drops," Jackie Wilson

Horse Pays School Expense Of K-State Woman Student

By WANDA EGGERS

A horse is putting her through college!

Anne Scully, PrV Soph, Bottineau, N.D., says she has gotten enough money from a palomino stallion, Dakota Chief, to put her through school thus far. She added that it looks as though he will continue to finance her way.

Anne, who owned her first horse when six years old, said she and her younger brother purchased Dakota Chief a year ago this June. As partners, they now own ten horses, three of which will foal this spring.

According to Anne, Dakota Chief has been reserve champion of the South Dakota Breeders and Exhibitors association show for two years in succession. He was beaten both years by his sire.

Anne and her brother bought Dakota after he had won the show for the first time.

There are no money prizes given in the shows, only trophies and ribbons, said Anne. She and her brother make some money by selling colts, but they receive the most money from breeding fees.

When Anne came to school this fall she brought Dakota Chief with her. He was stabled on the Bob Ulrich farm north of Manhattan until Christmas, when she took him home. Every night after classes from September until Christmas, Anne walked out to take care of him.

Anne says they'll be showing Dakota Chief in all the shows in North Dakota next summer. "We have at least one show lined up for each weekend now."

"In the shows we will be competing with at least two and sometimes four and five other stallions. A rule in North Dakota states that a woman can't show a stallion, but I haven't been kicked out of a show yet."

Anne believes the reason she has no trouble showing is probably because Dakota Chief is so gentle and well-behaved. "I've never had any trouble with him. When I first got him I thought he was broken, so I rode him. A couple of weeks later I found out that he wasn't even broken!"

Although she has been showing horses for four years, Anne is entering the Little American Royal this year. She hopes to "learn a few tricks of the trade," to help in the shows next summer. "When you get down here you're competing against people who have shown horses all their lives. They can just walk over you," explains Anne.

The yearling filly she will show is entered in the halter class. She is one of seven girls entered in the Little American Royal, April 11, and is the only one showing a horse.

Transferring last fall from the North Dakota School of Forestry, Bottineau, Anne has applied for Veterinary school at K-State.

In reference to her curriculum,

she says, "I've always worked with animals, so I just drifted into it."

Besides her eighth grade partner-brother, who is also planning to enter veterinary medicine Anne has an older brother applying for West Point and a sister a year younger than she.

Although her father was originally a farmer, the family now raises canaries and parakeets. The interest in this

originated with her mother who bought the first pair.

According to Anne, the family is the largest breeders of canaries and parakeets in the country. "When I was in grade school and high school, we traveled all over the country attending bird shows. It was a lot of fun."

Other than raising birds, the Scullys have land around Bottineau and a 1,200-acre ranch on the Canadian border where they run their horses in the summer time.

Photo by Jon Peterson

A FRIEND IN NEED has a friend indeed, as a Palomino takes over her education. Anne Scully, PrV Soph, shows a filly, one of her several horses, that will appear in the Little American Royal. Her prize Palomino pays for her education with money earned from breeding and appearances in shows.

You'll be pleased with a Collegian classified.

Racing Sports Car Fascinates Student

By DON JOHNSON

Charles J. Wilkin, IE Sr, president of the K-State Sports Car club, has done some exciting sports car racing during the past ten years.

He drives an Italian Siata which has a maximum speed of 120 mph. The car is a red competition coupe with four forward gears, giving the maximum speed possible for the four-cylinder car.

Wilkin's most memorable race took place on the east coast during an inaugural race at Virginia International raceway, August, 1957. The track was 3½ miles long and the race a grueling 20 laps. On the first turn of the first lap, Wilkin ran off the track at an approximate 80 to 85 mph. He wasn't hurt and the car, suffering from a crumpled rear fender, carried Wilkin to a fourth place in the class E modified division.

"It's really embarrassing to miss that first turn," said Wilkin, "but I'm certainly happy that I suffered only embarrassment."

While stationed in Stuttgart, Germany, during the last war, Wilkin attended and graduated from a racing drivers' school. The school was sponsored by the Auto Club of Switzerland and the Swiss Auto Racing club. Wilkin learned racing principles from well-known foreign drivers such as von Hahnstein (Porsche's racing director) and Alfred Neubauer (racing director of Mercedes-Benz).

Wilkin was able to apply the principles that he learned at the race driver's school when he competed in Columbia, South Carolina, in an event sponsored by the Sports Car Club of South Carolina. This race was one of many where Wilkin has used the

principles learned at the race driver's school.

The airport track at Columbia was 1.9 miles long, making the driving more difficult because of the frequent turns in the track. Wilkin was on the 7th of a 10-lap race when the third gear in his transmission failed to function. This moved Wilkin out of the cherished first place into second where he finished the race.

According to Wilkin, there are four important elements in winning a race: brakes—stopping power; engine power—acceleration; cornering power—car's ability to take corners at maximum speed without leaving the track; and continued endurance—car's durability.

"Racing is a fascination with me," says Wilkin. "The longest period of time for any driver starts at the time he loses control of the car and ends when the car stops. During that period of time, the driver is completely helpless and awaits his fate with helpless hands and feet which previously were capable of controlling the motion and direction of the car."

Wilkin has raced as a hobby for 10 years and hopes to do more serious racing as soon as he is able to finance the expenses encountered in race driving.

Wilkin says, "The common conception that drivers race for the thrill of going fast is false. Sport car racers drive for the satisfaction of having done something well. Racing is an art which requires thinking. No one who is good at racing is fearless. It's not 'guts' that motivates a driver into dangerous positions, but the confidence that it can be done and the desire to have done it."

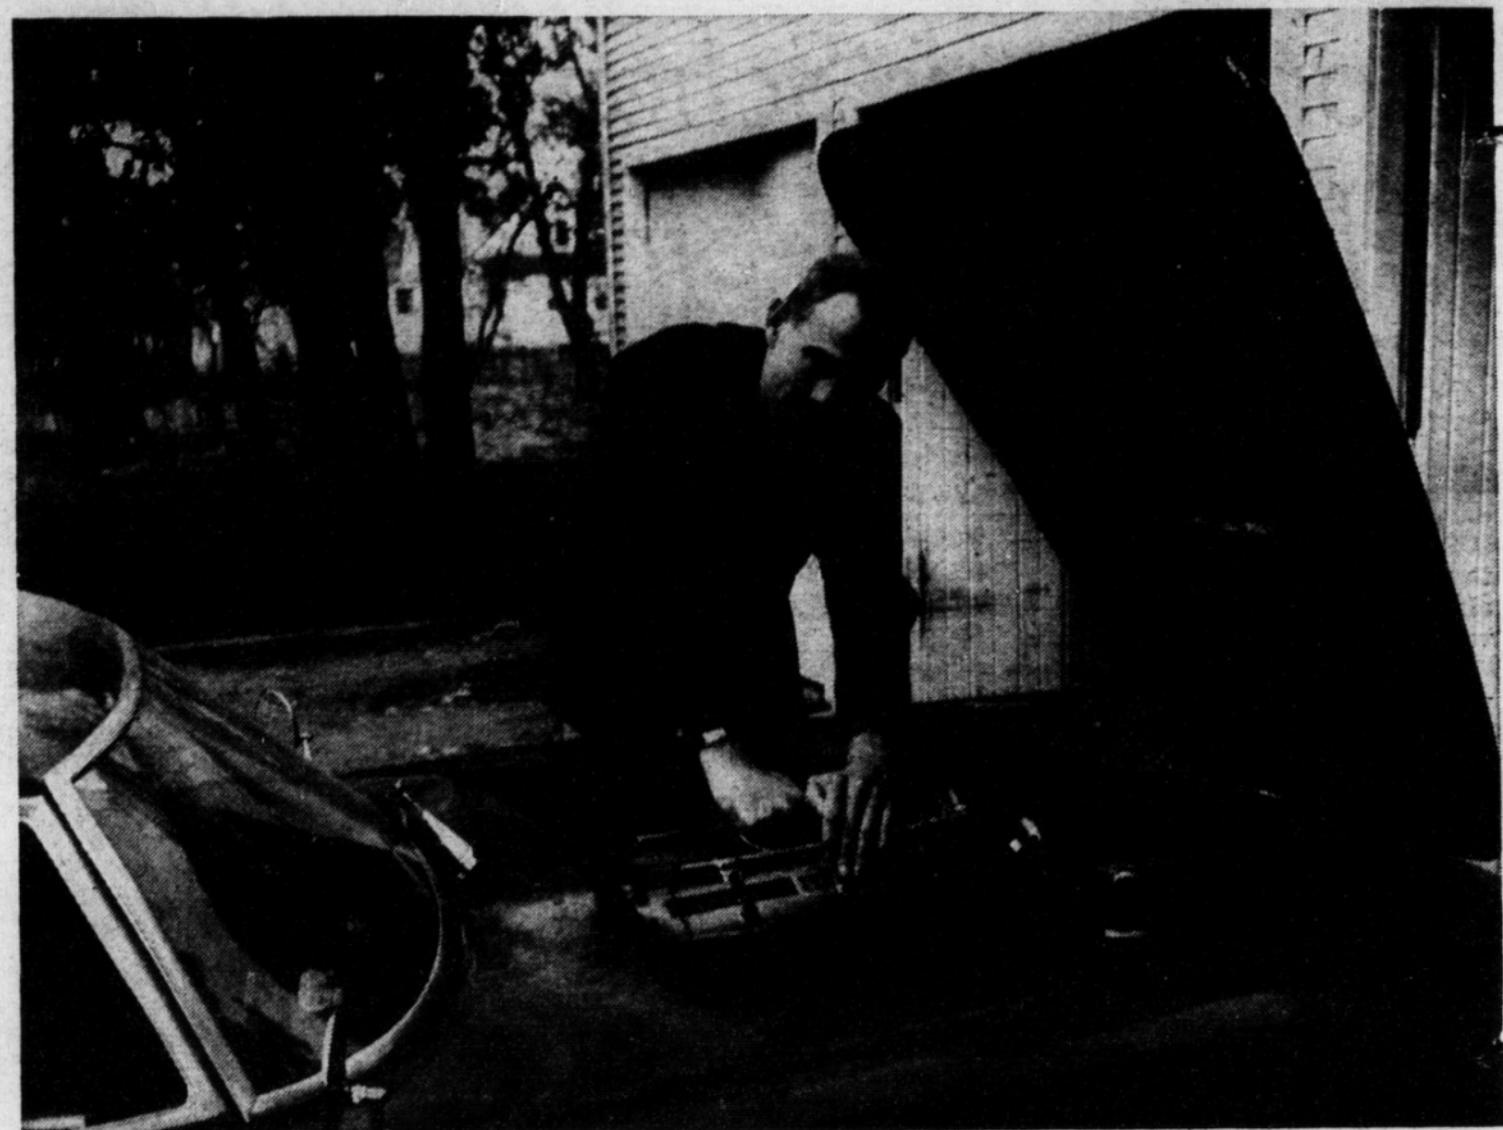

Photo by Jon Peterson

SPORTS CAR RACING is a "fascinating" pastime for Charles Wilkin, IE Sr. Wilkin has appeared in many sports car races throughout the country, and attended a racing drivers' school in Switzerland while in the Army. He is now president of the K-State Sports Car club, and owns an Italian Siata capable of 120 miles per hour. Wilkin says his most memorable race was an inaugural race at Virginia International raceway where he ran off the track at an approximate 80 to 85 mph. His car received only a crumpled rear fender and he finished the race in fourth place in his class.

Poetry Skit To Show H.E. Hospitality Day

A poetry-form skit will introduce Hospitality Day to all home economics majors March 12 at 4 p.m. in the Union little theater.

The skit will show the transformation of a high school girl to "my fair lady" in home economics. This year's Hospitality Day theme is "Home Economics for You, My Fair Lady."

At the assembly, Pat Knight, HEN Soph, will be presented a

Engineers To Sell Open House Buttons

Sale of Engineers' Open House buttons starts today in the Union and Seaton hall. The button was designed by Sheldon Williams, Ar 04.

The design of the button depicts the theme of Open House, "Design for the Future," by showing a satellite and its relation to the earth.

The buttons are to be worn to publicize the 35th annual Engineers' Open House, March 13 and 14.

The money from the sale will be used to aid in financing the Open House programs which will be given to those attending the exhibits.

\$10 prize by the Home Economics council. Miss Knight, representing the Home Ec and Nursing club, wrote the winning K-State radio speech directed to a high school girl. Her speech was submitted to the State College club, and the all-state winner will be awarded \$50.

After the program, home economics majors can fill out preference sheets for work on Hospitality Day, according to Wanda Eggers, HEJ Soph, chairman of the Hospitality Day publicity committee.

You'll be pleased with a Collegian classified.

Continental Look Due Soon, But Ivy League Still Good for Men

By HELEN SPLICHAL

"Men's spring and summer fashions will change very little," say Manhattan store clerks.

Three buttoned suits remain the number one choice, but the ivy league style has less influence on the fashions. Whereas ivy league featured the natural figure form, the new suit fashions have some shoulder padding.

A new fabric, hop-sacking, promises to be a big seller in

suits, but wool and dacron blends and wool are the most popular suit fabrics. The dacron and wool fabric is in demand because it is of lighter weight and holds the creases in the trousers better.

Dark and muted tones are the biggest trends in suit colors, and there are less stripes and more tweeds and solids.

The blazer that was introduced last year, is very fashionable in men's wear this spring. The

jacket features light-weight fabric, brass buttons, and striped or solid material.

White dress shirts will be worn the most, but pastel colors will be worn some. Light blue will be the most popular colored dress shirt.

This spring's fashion in ties will be narrow ones, 1 1/2 to 2 inches wide. The patterns on the ties will have big brightly colored figures. Stripes, plaids, and checks will also be in demand.

The "pork pie" in very dark colors will remain in fashion in men's hats.

Although men's fashions made very few changes for spring, a big difference will soon be seen. The "continental" look will replace the ivy league style by next fall, according to the store clerks.

The "continental" features a more form fitting jacket with two buttons, semi-peaked lapels, and a longer lapel length. The jacket will be palm length as compared to the style now which is finger length.

Houses Indicate Dinners Rate as Social Functions

Alpha Chi Omega and Beta Sigma Psi had an exchange dinner Tuesday, February 24.

Sunday was Hera Day for the Alpha Chi Omega's. Hera is the patroness of the Alpha Chi's and this was their annual Spring festival. The observance included a traditional ceremony.

Delta Sigma Phi initiated its "engineered leadership" program with a chapter dinner Thursday. Guest speaker for the occasion was Prof. Enrico Mercanti, mechanical engineering, who addressed the group on "Leadership in Industry."

This was the first in a series

of such dinners to be held by the Delta Sig's. President McCain will be a guest of the chapter tomorrow night for the second program in the series.

Sigma Nu Wins in IM Play

Sigma Nu topped Kappa Sigma, 11-0, 15-5, last night in Ahearn gym to remain undefeated in intramural volleyball play.

It was the third straight win for Sigma Nu, which is in first place in Group 1 of the fraternity

division and needs only one more victory to clinch a playoff berth.

In other action last night, Farm House edged Lambda Chi Alpha, 15-11, 15-12; Pi Kappa Alpha trounced Theta Xi, 15-3, 15-7; Alpha Kappa Lambda beat

Alpha Tau Omega, 15-5, 15-6; Acacia won over Delta Sigma Phi, 10-15, 15-10, 15-2; House of Williams defeated Wesley Foundation, 15-8, 15-7; Westminster Foundation downed DCC, 17-15, 15-9; and the Vets slipped past the Jokers, 15-7, 9-15, 6-8. Time ran out in the last game, but the Vets were awarded the match.

Tonight's schedule:

7 p.m.—Tau Kappa Epsilon vs Sigma Alpha Epsilon, northwest court; Delta Tau Delta vs Alpha Gamma Rho, southwest court; Phi Delta Theta vs Beta Theta Pi, northeast court; and Sigma Chi vs Beta Sigma Psi, southeast court.

8 p.m.—House of Brec vs Jr. AVMA, northwest court; Acropolis vs DSF, southwest court; Newman Club vs West Stadium, northeast court; and YMCA vs Scholarship House, southeast court.

GOING HIGH into the air, Don Neal, Alpha Kappa Lambda, spikes one against Alpha Tau Omega. Alpha Kappa Lambda won the match, 15-5, 15-6.

Iowa State Tops Kansas

By UPI

John Krocheski and Larry Fie combined for three points in the final minute of play last night to ice down a 67-62 victory for Iowa State over Kansas in Big Eight conference play.

Kansas made a determined bid in the final stages and sliced Iowa State's lead to a couple of points, 64-62. Then Kansas

fouled to gain possession and Fie hit one of two free throws to put the Cyclones safely in front.

With time running out, Krocheski hit a field goal and that clinched the victory.

Kansas had jumped ahead briefly in the first half. But Iowa State led most of the way and had a 30-28 halftime margin.

Ron Loneski scored 18 to pace Kansas and teammate Dee Ketchum got 15.

Ron Baukol got 14 and Ted Ecker and Bud Bergman hit 12 each for Iowa State.

Billikens Get N.I.T. Bid

St. Louis university is the latest team to own a nice shiny post-season tournament berth in college basketball and two more quintets—Connecticut and either Dartmouth or Princeton—could join the happy throng tonight.

St. Louis, 19-4, became the 10th team selected for the 12-team National Invitational basketball tournament at New York's Madison Square Garden, the announcement coming just as soon as the Billikens were eliminated in the Missouri Valley conference race.

Connecticut, 15-6, can sew up the Yankee conference championship by beating Rhode Island tonight.

The wise way to plan for the future is with

THE TAREYTON RING

MARKS THE REAL THING!

THE REAL THING IN MILDNESS ...

THE REAL THING IN FINE TOBACCO TASTE!

They were introduced only last semester, and already, New Dual Filter Tareytons are the big smoke on American campuses! How come? It's because the unique Dual Filter does more than just give you high filtration. It selects and balances the flavor elements in the smoke to bring out the best in fine tobacco taste. Try Tareytons today—in the bright new pack!

Here's why Tareyton's Dual Filter filters as no single filter can:

1. It combines the efficient filtering action of a pure white outer filter ...

2. with the additional filtering action of ACTIVATED CHARCOAL in a unique inner filter. The extraordinary purifying ability of Activated Charcoal is widely known to science. It has been definitely proved that it makes the smoke of a cigarette milder and smoother.

Boozer Voted All-American

K-State's Bob Boozer, who sets another Wildcat record every time he scores a point, has been named to the 1959 United Press International all-American team.

Named with Boozer by the direct vote of 290 sportswriters and broadcasters throughout the nation were Bailey Howell of Mississippi State, Oscar Robertson of

Cincinnati, Jerry West of West Virginia, and Don Hennon of Pittsburgh. Robertson and Hennon are repeaters from last year's team.

Robertson, currently leading the nation in scoring for the second consecutive season, received a total of 279 first-team votes, three for second, and was passed up on only eight ballots. He thus was named on an all-time high of 97.2 per cent of the votes cast, topping the old record popularity of 96.9 per cent set by Wilt Chamberlain of Kansas last year.

Howell, who led Mississippi State to the Southeastern conference championship, was the second highest vote-getter. He was a first- or second-team choice of 81 per cent of the voters. Boozer polled 76.9 per cent, West 73.1 per cent, and Hennon 67.2 per cent.

Howell, Boozer, and Hennon are seniors; Robertson and West are juniors with another season of eligibility remaining to amass college and likely Olympic glory, as well as setting themselves up for professional offers.

Hennon, who averaged 25.7

Northwest Hall Wins Cage Tilt

Northwest hall was forced into overtime before beating Chi Omega 1, 24-20, in women's intramural basketball action yesterday afternoon.

Eleanor Randels was high scorer for Northwest with seven points, and Mary Pruitt lead Chi Omega with seven.

Sally Hardwick scored 18 points to lead Walheim hall to a 52-14 routing of Chi Omega 2. Cathy Barber led Chi Omega with six points.

This afternoon at 5, Alpha Delta Pi will meet the Blitz Babes on the West court, and Pi Beta Phi will meet Kappa Kappa Gamma on the east court.

Boozer Retains League Scoring Lead

Bob Boozer, following his 28-point production against Kansas last Friday, remains the top scorer in the Big Eight with an average of 25.1.

In 23 games, Boozer has scored 204 field goals and has converted 170 free throws for a total of 578 points.

Kansas' Ron Loneski climbed past Arlen Clark of Oklahoma State into the runner-up spot. Loneski, who scored 29 against K-State last week, is now scoring 19.2 points a game. Clark is

third with an average of 19.1.

Herschell Turner scored 31 points against Missouri Monday night to raise his average to 17.1, good for fourth place. Rounding out the top five is Al Abram of Missouri with 15.7 points a game.

Clark retained his lead in foul shooting accuracy. He has hit 160 of 189 for 84.7 per cent. Iowa State's Ron Baukol is second with 77.9 per cent, followed

by K-State's Wally Frank with 77.8 per cent.

K-State is the league's top defensive team, averaging 73 points a game, while Oklahoma State leads in team defense, holding its opponents to 52.3 points a game.

The Wildcats are also the league's most accurate free throw shooters, hitting 73 per cent as a team. Oklahoma State is second with 70.2 per cent.

Scoring big with slick ideas
like the Electronic Secretary® answering unit,
product of America's second largest telephone system

Your phone is always "tended" when an Electronic Secretary unit is on your "line." For it answers calls in your absence and takes messages as well!

Here's how it works. When your phone rings, a recorded voice informs the caller that you are out—and invites him to leave his name, number and any information he wishes you to have.

When you return—or when you phone rings—all calls are repeated to you word for word. Result: no more "missed" messages, no more lost business, no more worrying about leaving the phone unattended any hour of the day or night.

This is just one of many ways Gen Tel is adding new dimensions to telephone communication. We know that, in an America which is expanding fast on all fronts, it is imperative to expand both telephone service and telephone versatility.

And we're meeting the challenge by developing new products and better methods for bringing more and more people together.

Little American Royal To Have Trick Rider

A trick rider has been chosen for intermission entertainment at K-State's Little American Royal April 11, according to Dick Dunham, DH Sr, chairman of the 1959 Little Royal.

J. W. Stoker of Colorado, one of the nation's youngest trick riders and ropers, is rated as one of the fastest and most precise trick ropers in show business. To add variety to his roping performance, Stoker will make six feature runs in trick riding.

Since he first appeared before the public in 1939 Stoker has performed at nearly all the leading western shows in the nation. "We feel fortunate to be able to obtain Stoker on our entertainment pro-

gram," Dunham said. "This act plus the added entries for the 1959 contest should put our show among the better Little Royals held at K-State," he said.

The total number of students entering the student fitting and showing contest is more than 110. This is 30 more students than last year.

Durham went on to say that the Little Royal committee has selected the Beloit high school band to provide music for the student show. Darrell Ramsburg, Beloit's band director, will bring a 65-piece band for the performance.

According to D. E. Glenn, DM Sr, manager of this year's Ag Week-Ag Science Day, plans to combine the Ag Week activities and the Little American Royal have worked out satisfactorily. This is the first attempt to combine the two School of Agriculture functions. Previously Ag Week activities had been in the fall semester with the Barnwarmer dance.

Ag Science Day will open Saturday, April 11, at 10 a.m. with an assembly for visiting high school students. The day will include educational displays on exhibit during the afternoon. The day's activities will be concluded with

the Little American Royal on Saturday evening in the Animal Industries arena.

This year 15 departmental clubs will have educational displays that will be of interest to college and high school students as well as informative to the public.

Home Economics Hospitality Day will also be Saturday, April 11. The three events were combined in an effort to bring more high school students to the campus.

"Home Ec for You My Fair Lady" has been chosen as the Hospitality Day theme. Exhibits in Nichols gym a style show in the Union ballroom, and a career program in the little theater are included in the day's program.

"Rare" books in Farrell Library include some that date from the 1500s, some that would be extremely hard to replace if they should be lost, and some that come from limited editions.

A wide variety of student interests are covered by these books which are especially prized by the library. Included are a cookbook collection, two volumes on the "History of the River Thames," old editions of Chaucer, and portfolios of printed plates in the areas of textiles and clothing.

The oldest book in the cookbook collection and possibly the oldest printed volume in the library is Xenophon's "Treatise of Household." Originally written about 334-355 B.C., it was translated from Greek and printed

in 1534. The leather-bound book is smaller than a pocket book and is probably worth about \$225, estimated W. F. Baehr, director of the Library.

The two volumes of the "History of the River Thames," were purchased in 1956 for \$750. The large volumes contain hand painted plates of scenes along the Thames river reproduced in watercolor.

Another rarity owned by the Library is a book containing actual samples of English grasses. It was printed in 1826. The book, kept in the safe of the Horticulture department, was purchased for \$700.

For literary fans, there are four editions of Chaucer. The oldest dates from 1561. Books such as these that are considered valuable are generally limited to faculty use or use for special student projects, however, said Baehr.

Committees Are Open For Religious Council

Committees are now open for Religious Co-ordinating council. They are publicity, program chairman, hospitality, classroom and faculty, and organized house. Applications may be picked up in the RCC office in the Chapel until tomorrow.

Do You Think for Yourself? (HERE'S A TEST THAT WILL TELL YOU!*)

1. Can you honestly say that you've made an effort to understand modern art? YES NO

5. Would you be at all hesitant to rent a desirable apartment where the previous occupants had died under mysterious circumstances? YES NO

2. If you were to break a New Year's resolution, would you renew it on the spot rather than wait until next year? YES NO

6. If you were walking to town in a hurry, would you be unwilling to accept a ride in a garbage truck? YES NO

3. Would you be unwilling to play a single game of "Russian Roulette" for a million dollars? YES NO

7. Would you be reluctant to participate in an important medical experiment which, though not dangerous, would cause some discomfort? YES NO

4. Are you fully convinced that the saying "Money does not buy happiness" is completely true? YES NO

8. If you had an independent income sufficient for all your needs, could you be happy never to go to work? YES NO

9. Can an extravagant claim make you switch from one filter cigarette to another?

YES NO

The truth is, thinking men and women aren't influenced by extravagant claims—especially when choosing a filter cigarette. They use their heads! They know what they want. They know that only VICEROY gives them a thinking man's filter . . . a smoking man's taste.

*If you have answered "YES" to three out of the first four questions, and "NO" to four out of the last five . . . you certainly do think for yourself!

The Man Who Thinks for Himself Knows — ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!

KS Foreign Student Program Should Have Better Utilization

WITH THE NATION'S and the states' leaders and lawmakers concerned over the problems of education, now is a good time to look at a phase of education at K-State which is readily available but largely neglected. We are referring to the wide divergence of backgrounds to be found at the College—among students of this country as well as men and women from foreign countries who are studying here.

We believe contacts between students from foreign countries and students from this country could be a vital part of education. But we don't believe people here at Kansas State take advantage of it.

MANY STUDENTS as well as educators for K-State travel to other countries to study and observe. Our campus has a large number of students from foreign countries. In essence, K-Staters have a golden opportunity here to gain understanding as well as education. An enthusiastic effort at a

free exchange of ideas among the majority of K-Staters can lead to learning on both sides.

We believe the program for the relationship between students of this country and students from other countries is inadequate here at K-State because many individuals do not wish to take the time to exchange ideas with people who are not in their living group, social group, work group, activities group, or in their curriculum.

ANOTHER REASON for the inadequacy of the program is that many organizations do not realize the import of the opportunity we have here. We believe organizations—Student Council, for instance—could be vital instruments in leading a program which would take advantage of the variety of backgrounds we have here at Kansas State. And until advantage of this factor is taken, we believe citizens of Kansas State are missing something important.—st

World News

Twenty-one Students Perish in Fire Of Little Rock School Dormitory

Compiled from UPI
By JOHN HOKANSON

Little Rock, Ark.—Twenty-one Negro boys burned to death early today when fire swept through their dormitory at the Arkansas Negro Boys Industrial school, 12 miles south of here.

The figure was established by Bill Strubel, a lieutenant in the Fire Marshal's section of the Arkansas state police.

The fire broke out in the room of the caretaker, who was ill and not at the school.

L. R. Gaines, the Negro superintendent, said the building, erected as a WPA project in 1938, went up "like matchsticks."

He said 68 boys were asleep in the barracks-like room of the building when the fire was discovered. Many kicked the glass and screens out of windows in their mad scramble to escape.

Gov. Orval E. Faubus said he would begin an immediate investigation of the fire.

Pioneer Track Fixed

Manchester, England—Officials at the Jodrell Bank radio-telescope reported at 6:45 a.m. EST today the American moon-

rocket Pioneer was 300,000 miles from the earth.

They said they were receiving the Pioneer signals clearly in what might be a new tracking record. They had picked up the Pioneer when it first appeared on the horizon this morning and followed it with no difficulty.

The Russians claimed to have received signals from the Russian "Lunik" 300,000 miles distant.

Soviets Issue Protest

Moscow—The Soviet Union has officially protested American boarding of a Russian fishing trawler off Newfoundland, Tass news agency said today.

The Soviet agency said the protest note was handed to the U.S. embassy in Moscow. Tass did not specify when the note was delivered.

The United States Navy last week detained and boarded the trawler Novorossisk off Newfoundland when it became suspicious after a series of breaks in trans-Atlantic cables.

The Soviet note said the Russians expected the United States

to take all necessary measures to prevent the reoccurrence of actions toward Soviet fishing vessels engaged in fishing in open seas.

Inquiring Reporter

K-Staters Interviewed Divided On Pom-Pom Girl Controversy

By Mary Welsh

couldn't match the style of the "Golden Girl" at Purdue.

JERRY RONGISH, BA Jr—I think they ought to have female cheerleaders and a group of pom-pom girls. This way they could both concentrate on doing just one job efficiently.

POM-POM GIRL or female cheerleader? Cheerleader Charlotte Strah and twin Charlene try to decide between the two. Looks like a toss-up from here!

LITTLE MAN ON CAMPUS

"HE NOT ONLY GIVES A LOUSY LECTURE - BUT HE EXPECTS YA TO TAKE NOTES ON EVERYTHING HE SAYS!"

Quotes from the News

Los Angeles—Mrs. Eugenie Anderson, former U.S. Ambassador to Denmark, on United States's responsibility for the present international impasse:

"We have witnessed, indeed we are party to, a steady decline of Western influence in the Middle East . . . we have witnessed, and we are a party to, the tragic erosion of American prestige throughout Asia."

Chicago—Sen. Hubert H. Humphrey (D-Minn.) commenting on pressing for peace at the same time building defense:

"We must arm, and yet at the same time strive to turn back the tide of fear that is engendered by the mounting arms race."

Hollywood—Comedian Bud

Abbott, on learning of the death of his ex-partner Lou Costello:

"What can I say? What can I say? It's the worst thing that ever happened. Poor little Lou. He's dead. He's dead."

WELL-WISHERS CROWD AROUND Sarah Heitman, Gvt Soph, and Jerry Crumley, BA Fr, after the announcement of their engagement last night at the Gamma Phi Beta house. Sarah and Jerry are both from El Dorado. The announcement was made during the annual scholarship dinner. From left to right, guests are Carolyn Banks, Psy Soph; Judy Hoy, Sp Soph; and Joyce Rogers, Mth Soph.

CREAMS ARE ESSENTIAL PART OF MARCH COMPLEXION CARE

By MARY JO MAULER

With the March winds blowing, your face and hands need special care to protect them from serious harm.

"The best way to begin the care of your skin, is by the use of a cleansing cream," says Mrs. Helen Custer, a cosmetologist in one of the department stores downtown. "The use of the cleansing cream followed by a skin freshener, will make your skin much fresher to begin with."

The natural skin oils that the March winds remove can be replaced by the use of emollient creams. These skin oils are removed by exposure and by the weather in addition to their removal by the wind.

The use of a moisture cream under your powder during the day will add moisture to your skin and protect it from the wind. This moisture cream should also be used while you are at home, even if you aren't planning to put on powder because your skin is exposed at all times and needs constant protection.

There are also special creams that are designed to give protection around the eyes and throat. Special preparations are also available to protect your skin from sun exposure.

"The before essentials of skin care should also be considered," said Mrs. Custer. These essentials are cleansing, lubrication (provided by the emollient cream), stimulation, and protection (provided by the moisture cream).

Your hands should be given some special consideration when wind exposure is so common. The use of hand cream or lotion before putting your hands in water is more important than its use after your hands have been in water. Your hands need the protection offered by the cream or lotion while they are in the water as well as after.

Using bubble bath or bath oil will also be a great help in keeping your skin from drying out and becoming flaky. The use of hand and body velvet or lotion after a bath will also increase the protection from the wind.

"The wearing of gloves is an essential that should never be forgotten," concluded Mrs. Custer.

SIG EP FRAT HAS ELECTION

New officers for Sigma Phi Epsilon are Roger Wolfe, FT Jr, president; Bill Shively, CE Soph, vice president; Bill Sears, AEd Jr, comptroller; Pat Moynagh, FT Soph, historian; Fred Gardenhire, ME Jr, secretary; Dave Zecker, PsP Soph, rush chairman;

ACTIVITIES HELP STUDENTS AVOID OVERWORK PROBLEMS

The Sigma Nu's staged a "Return of the Dead" party last Saturday. The men's dates were taken to the house in a hearse. The domain of a wizard able to recall the spirits of the dead was represented in the party's decorations.

Entertainment included a trip to the cemetery to dig up a pre-buried coffin which contained a live Sigma Nu pledge. The couples then returned to the house for dancing.

The Acacias were hosts to fifteen rushees from various parts of Kansas, last weekend. Following a party at the house Saturday evening, they attended the Royal Purple dance. The weekend was

completed by attending the Methodist church in a body Sunday.

The Tri Deltas, Kappas, and Gamma Phis will entertain their fathers Saturday with their annual Father's Day weekends. Activities will include the game, special dinners, and church on Sunday.

Sigma Phi Epsilon pledges took a sneak to Columbia, Mo., recently.

The Sigma Chis will entertain their dates Saturday at the Beachcomber's Ball. The party is to be a costume affair at the chapter house.

The Gamma Phi Betas and Sigma Chis participated in an exchange dinner Monday evening. Part of the group stayed at the Gamma Phi house for Y-Orpheum practice while the rest went to the Sigma Chi house for an hour dance.

The Pi Beta Phis were guests of the Acacias for an hour dance, Thursday, February 26.

SPRING HITS SOME EARLY

Higdon-Bach

The engagement of Sue Higdon, SED Jr, and Dick Bach, ME Jr, was announced February 21. Sue is a member of Pi Beta Phi from Cottage Grove, Ore. Dick is from Wichita and belongs to Sigma Phi Epsilon.

Anderson-Hostetler

Barbara Anderson, FCD Soph, and Norman Hostetler, Hum Jr, announced their pinning last night. Barbara is a member of Alpha Delta Pi from Manhattan. Norman is from Hillsboro and belongs to Alpha Kappa Lambda.

Kay Gardner Pledges

Kay Gardner, BMT Soph, officially pledged Gamma Phi Beta last night. Kay is from Louisville. She is now serving as a resident assistant in Southeast hall.

OPEN TILL 8:30 THURSDAY NIGHTS

Sets, Makeup, Costumes, Lighting

Sets, makeup, costumes, lighting—all will add to the impact of the dialogue presented by the actors from the time the curtain rises until the final scene. "Mary Stuart," an Elizabethan drama, presented tonight and tomorrow night by the K-State Players is under the direction of Don Hermes, assistant professor in the department of speech. The production will be presented in the College auditorium.

"Mary Stuart" was written by Jean Stock Goldstone and John Reich and is an adaption of Friedrich Schiller's "Maria Stuart". The newer work was first presented on Broadway October 8, 1957, in the Phoenix Theatre.

The drama is about two queens, Mary, queen of Scots, and Elizabeth. According to promotional material distributed by K-State Players, the play is "a tale of female giants which is calculated to make a theatre goer sit on the edge of

his seat. The drama is full of confrontations, intrigues, betrayals, and exciting clashes.

"The play winds its way through politics and religion toward an encounter between Elizabeth and the "much prettier, much younger lass who was in a fair position to steal her throne and, what is worse, her lover."

The play, according to director Don Hermes, necessitates broader acting than in naturalistic, contemporary, productions—the characters speak and move with more flamboyance. Hermes said that "Mary Stuart" has been no more of a directing problem than any other play." He says, "Every play is difficult—each presents a different kind of challenge and all have their problems." The specific problem in a play of this type, he feels, is to secure good, clear diction and projection of voice and to gain a release of emotional power.

The sets, also designed by

Hermes, are made in simplified fashion. Their purpose, he said, is to suggest, not represent naturalistically the scene. In a poetic play like "Mary Stuart," elaborate sets are not necessary.

According to Carolyn Hunt, speech instructor, the costumes used in the play were made by students who have been working on them since early December. The 30 costumes, worth \$800, were designed by Miss Hunt and the patterns for them were drafted from authentic Elizabethan dress. Many of the women's costumes are made with full skirts, held out by bolsters filled with sawdust.

Lighting for the play, directed by O. D. Hunt, professor in the department of electrical engineering, consists mainly of spotted areas of light rather than even illumination of the whole stage. One problem which Hunt has had to contend with is the tendency for characters in white and very

light costumes to stand out more than they should.

To facilitate changing of scenery, the end of several scenes are played on the forestage. According to Hermes, this alleviates almost entirely the problem of making the audience wait while the sets are changed.

According to the K-State Play-

ers, "Mary Stuart" should be of unusual entertainment value to all interested in outstanding theater. It is of special interest to students interested in Elizabethan history, art, and costumes, development of theater, classic styles of rhetoric and art, translation of German drama, and scene designs.

League Swimming Meet Begins Today at Lincoln

The Big Eight swimming meet opens today in Lincoln with Oklahoma and Iowa State favored to battle it out for the championship.

Coach Bill Thrall named a 10-man squad for the meet, which continues tomorrow and finishes up Saturday evening.

"It should be a real scramble for third place," said Thrall who is counting heavily on strong performances by Dallas Chestnut, undefeated diver, and Dave Hinderliter, freestyle ace.

"The team we are taking to Lincoln is by far the best and fastest we have had here at K-State," said Thrall. "However, we will have to work for everything that we will get in the meet."

Big Eight teams entering in the meet are Kansas, Iowa State, Oklahoma, Colorado, Nebraska, and K-State. Oklahoma State and Missouri do not compete in swimming.

K-State entries:
1,500-yards freestyle—Tom Coblenz.

200-yard butterfly—Jerry Fitzgerald, Chuck Englund.

50-yard freestyle—Dave Hinderliter, Gordon Harper, Englund.

200-yard backstroke—Dave Leavenwood.

220-yard freestyle—Coblenz.

100-yard breaststroke—Al Rader, Bruce Smith.

1-meter diving—Dallas Chestnut, Dave Noblitt.

200-yard individual—Smith.

400-yard relay—Hinderliter, McNeal, Harper, Englund.

100-yard butterfly—Fitzgerald, Englund.

100-yard freestyle—Hinderliter, McNeal, Harper.

200-yard breaststroke—Rader, Smith.

100-yard backstroke—Leavenwood.

440-yard freestyle—Coblenz.

3-meter diving—Chestnut, Noblitt.

400-yard medley relay—Leavenwood, Rader, Fitzgerald, McNeal.

Hawks' Pettit Seeks Record

By UPI

Bob Pettit, with two new individual National Basketball association records in his pocket, goes after the big one tonight—the scoring mark for one season.

Pettit, the only shining light in St. Louis' 127-97 loss to Detroit last night, set an NBA single season goal record of 680 and established a new standard for free throw attempts with 821. Clyde Lovelette had 679 baskets with Cincinnati last year.

Wally Frank Potential All-American, Says Wildcat Head Basketball Coach

"Wally Frank is potentially an all-American," says K-State coach Tex Winter. "He has played up to my expectations in the last few games."

Frank hit 8 of 13 field goal attempts for 61.5 percent against Kansas last Friday at Lawrence to boost his scoring average to 13.5 for the season. He has converted 79 per cent of his free throw attempts to lead the Cat starters in that category, and is the No. 2 Wildcat rebounder, averaging 8.3 a game.

Frank thinks his best game so far this season was the opener of the conference pre-season tournament against Oklahoma. Frank scored 23 points against the

Sooners to tie his season's high, which he also reached against Indiana in the second game of the year.

The 6-8 junior forward was a standout center at Norton Community high school and averaged 25 points a game his senior year. He lettered four years in basketball and three in track while in high school. He threw the shot, high jumped, and ran the quarter-mile in track.

Norton won the Northwest Kansas league basketball crown his junior and senior years and Frank was named to the all-state second team his junior year.

"My goal in basketball is to

make all-American," said Frank. "Frank is an outstanding ball-player," Winter said. "I was a little disappointed in his play at the first of the season, but I think he's over the hump and will continue to improve. He had difficulty getting in the right frame of mind early in the season because of his school work."

"Starting in the NCAA finals last year at Louisville was the biggest thrill I've had in basketball," Frank remarked, "and winning the conference was the team's high point of the season."

Frank prefers the man-to-man defense to the zone. "It gives me more personal satisfaction and places more responsibility on the individual player," he said. "I think it represents more of a challenge."

"Frank is the best outside shooter we have," Winter said. "He plays better when the pressure is on—we depend on him when Boozer is in foul trouble."

Frank was the third high scorer last season behind Bob Boozer and Jack Parr. As the "sixth starter" he had an 8.6 average in all games. Frank converted 55 of 79 free throws and led the team with a shooting percentage of 47.8.

"We won't be as strong next year as we are this season," Frank said, "but we should do pretty well with boys like Glen Long, Cedric Price, Mike Wroblewski, and several other players from this year's freshman squad."

He forgot to mention himself as one of next season's team leaders.

WALLY FRANK, K-State forward, is a potential all-American, according to Coach Tex Winter. Frank is third in the league in free throw accuracy with a percentage of 79.

Cincinnati's 'Big O' Year's Top Cager

By UPI

Record-breaking Oscar Robertson of the University of Cincinnati established another precedent today when he was named college basketball's "Player of the Year" for the second straight season in the United Press International poll.

The 20-year-old junior from Indianapolis was the overwhelming choice of the 277 sports writers and broadcasters

same UPI all-America team with Robertson earlier this week, finished second and third in the balloting. Howell received 31 votes and West was named on 14 ballots.

In becoming the first player to win the UPI award twice in successive seasons, Robertson added another page to his long list of remarkable achievements.

Last season, the six-foot, five-inch "Big O" was the first sophomore ever chosen player of the year in the UPI poll. He also was the first sophomore to win the national major college scoring championship, averaging 35.1 points per game.

Mendenhall Out For NCAA Play

Mike Mendenhall, starting guard on Cincinnati's Missouri Valley championship basketball team, will be ineligible for the NCAA tournament, according to George Smith, Cincinnati head coach.

A 6-3 senior, Mendenhall is enrolled in a five-year course at Cincinnati and appeared in two games for the varsity three years ago. He was allowed to play this season by the Missouri Valley conference, but will not be eligible for the NCAA tournament.

Mendenhall has been a major factor in the Bearcats' success the past two years. He has averaged 13.7 points in 24 games this season and has hit 52.7 per cent of his field goal attempts.

who participated in the 1959 nation-wide voting. He was selected on 188 ballots, drawing 67.8 per cent of the votes cast.

Bailey Howell of Mississippi State and Jerry West of West Virginia, who were named on the

Pi Beta Phi Wins IM Basketball Tilt

Pi Beta Phi raised its record to 1-1 yesterday as it defeated Kappa Kappa Gamma, 26-14, in women's intramural basketball action in Nichols gymnasium. It was the second straight loss for the Kappas.

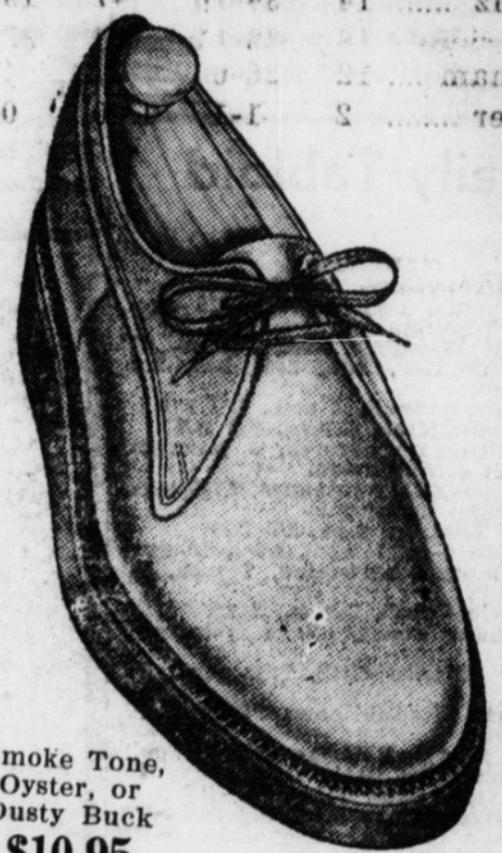

Alice Lobenstein was high scorer for the Pi Phis with 14 points, and Nancy McVicar led Kappa Kappa Gamma with 6.

The Blitz Babes won their second straight game as they edged Alpha Delta Pi, 43-42. It was the first loss against one win for the ADPs.

Gale Antenen scored 30 to lead the Babes, and Peggy Briebat was high for Alpha Delta Pi with 20.

Today's games have been cancelled and will be played at a later date.

Manhattan Museum Collects Antique Toys and Equipment

By WANDA EGGERS

K-State students, in their search for educational entertainment, may have overlooked the Manhattan Historical museum.

The museum, located in the City auditorium across from City park, is open every day from 1:30 to 4:30 p.m., except Monday.

Displays in the museum include antique furniture, early farm equipment, pioneer children's toys, household equipment, and a map history of Riley county and K-State.

A former K-State staff member, Earl Ray, 74, is working part time in the museum. According to Ray, another Kansas pioneer, Mrs. C. M. Slagg, can be credited with much of the museum's success.

Mrs. Slagg has arranged most of the exhibits in the museum. Ray says that because of limited show-

ing space, almost as many articles are in storage as are on display, but Mrs. Slagg refuses to show them until there is enough room.

One of the features of the museum is five hand-carved windows that came from a century-old Monastery on the banks of the Mississippi river. The cypress windows were given to the museum for the price of shipping to Manhattan.

"We were living a hand to mouth existence then, and could only pay the cost on five of the six windows they offered us," said Ray. "The sixth window later sold for \$2,000."

Another attraction is a music box originally owned by Kansas Gov. Nehemiah Green, 1868-1869. The clear toned music box and the alloy records it plays are worth about \$5,000, Ray believes.

Pictures displayed include a

hair wreath, native ferns framed and pressed under glass, and a feather-flower picture.

The hair wreath has almost every color of human hair in it. Ray calls it a "conversation piece in pioneer parlors," and refers to its construction as a lost art.

Only one of the native ferns framed in the pictures, is still growing around Manhattan, said Ray.

A 1908 picture of the college faculty has several staff members in it for whom buildings on the K-State campus have been named.

The City auditorium was dedicated to the pioneers of Riley county with the understanding that a room would be saved for the museum, said Ray. When the auditorium was finished, the only room not assigned to use was the basement.

TWENTY-FIVE DOLLARS—Peggy Daniels, Eng Sr (right) receives the Chimes' award for the women's highest cumulative grade average. The presentation was made by Carol Korinek, MGS Jr, Chimes president, at the AWS banquet last night in the Union ballroom.

Top Grade Award To Peggy Daniels

With a straight 4.0 grade average for seven semesters, Peggy Daniels, Eng Sr, was awarded the Chimes' junior women's honorary award of \$25 for the senior woman with the highest cumulative grade average for 105 or more credit hours at K-State. Carol Korinek, MGS Jr, president of Chimes, presented the awards at the AWS banquet last night.

Three runner-ups were Mary Ann Havel, EEd Sr; Dee Oberg, Eng Sr; and Beverly Ryman, EEd Sr. These women were presented with certificates of honor.

Miss Daniels is a member of Mortar Board and was a member

of Chimes last year. She was also in Alpha Lambda Delta, freshman women's honorary, and is in Phi Alpha Mu, honorary for upper class women in arts and sciences.

Last year she was first vice-president of Associated Women Students and president of Kappa Kappa Gamma. Her home is in Kansas City, Mo.

Southeast hall was presented the Interdorm scholarship cup for an average of 2.6. The cup was presented by Deanna Swift, HEN Soph, Interdorm Council president. This is the third year the cup has been awarded.

"Our heritage has passed on a responsibility to all women—not, particularly, to loudly herald a feminist movement, but to so live in all facets of life that we are sure of our direction, and our influence today on campus, as well as in the future, is a credit to this heritage," stated Miss Patricia Beezley, president of the K-State Alumni association, at the All Women's Day banquet last night.

Miss Beezley said that on a

A Cappella Choir To Give Concert

The A Cappella choir will present its annual spring concert Sunday at 3 p.m. in the Auditorium.

The choir usually presents its spring concert the Sunday after it returns from its spring tour, but this year the group is presenting it the Sunday before it leaves.

The Fort Riley chorus will appear as guests on the program. Charles Neale is conductor of the chorus.

Another guest Margery O'Shea, soprano, will sing two concert arias by Franz Schubert. She will be accompanied by Yvonne Hodges, MEI Sr, piano; Robert DeCou, MEI Sr, French horn; and David Clark, MEI Sr, clarinet.

The choir will present its concert in two parts and the guests will appear on the program between the two parts. Royce Johnson, MGS Jr, baritone; and Joan Taylor, MGS Sr, mezzo-soprano; will sing solo parts. Carol Stewart, MAI Fr, is the pianist.

co-educational campus, women's opportunities for leadership are often limited. "Such organizations as AWS and the YWCA provide opportunities for women to know each other and to develop as leaders," she said.

"Often in attempting to separate the world into one controlled by either man or woman, we hear the phrase, 'battle of the sexes.' Actually this is a battle that will never be won by either, because there is too much fraternizing with the enemy. We can, whether we be man or woman, conclude that the world, in its various phases, spiritual, economic, intellectual and business-wise, is ours if we so choose to actively claim it," she added.

Miss Beezley stated that women have been accepted as being proficient in the fields of scientific technology, business, journalism, nursing, home econom-

ics, education, medicine, politics, and others.

"I think All Women's Day was a success. All the discussion groups were well attended and I'm sure many of the girls gained lots of new ideas from them," stated Virginia Taylor, SED Jr, president of AWS. "Everyone who worked on the committee was pleased with the results of the day," she added.

Senate Committee Nods KS Name Change Bill

UPI—The Senate Federal and State Affairs committee yesterday reported out favorably a bill changing the name of Kansas State college to Kansas State university.

Queen of AF Formal Will Receive Crown

The queen of the Air Force formal will be announced tomorrow at the dance in the Student Union grand ballroom. The formal is scheduled to begin at 9 p.m.

The finalists for queen are Jan Stewart, Soc Soph; Judy McAlister, Sp Soph; and Brenda Morgan, HE Soph.

The girls, selected from Angel Flight, were chosen by the members of Arnold Air society, AF-ROTC honorary. They were judged on appearance, personality, and poise.

The queen has been chosen

from the three finalists by a vote of all the AFROTC cadets. She will be crowned at the intermission of the dance by Col. Gordon Stallings, professor of air science at Kansas State.

She will receive a traveling silver crown that will be displayed in her sorority house for one year.

The Carl Johnson orchestra from Topeka will play for the dance. The "Skynotes," the AF-ROTC dance band, will play during the crowning ceremony and at intervals throughout the evening.

'Phem Bones' To Be Theme For Play Day

"Phem Bones," a take off on "Them Bones," is the theme of the 1959 Play Day Saturday in Nichols gym.

The Play Day is sponsored annually by the Women's Physical Education department to interest high school girls in career possibilities in physical education work and to show them Kansas State college. About 110 girls from 14 Kansas high schools will participate in the event.

Following registration in the morning, the girls will be divided into 10 "bone" teams, such as the Pelvic team or the Scapula team. The teams will compete in contests of baseball, volleyball, and relays. After a lunch in Nichols gym at noon, the girls will attend the K-State-Missouri game and will be served refreshments after the game.

Schools scheduled to participate in Play Day are Manhattan, Clay County Community of Clay Center, Russell, Wichita West, Highland Park of Topeka, Olathe, Westmoreland, St. George, Alma, Abilene, Beloit, Herington, Paola, and Blue Valley Rural high of Randolph.

MARY STUART (Laurel Lee Johnson, TJ Soph) asks for her life from Queen Elizabeth (Patsy Dunning, ML Fr) in the K-State Players production, "Mary Stuart," last night. Looking on from left: John Sticklen, Sp Gr, and Douglas Moore, Ar 04. The play will also be presented tonight at 8 in the College auditorium.

Women's Apathy Toward AWS Indicated by Action at Banquet

STUDENTS WERE HEARD commenting last night on the fact that many women attending the All Women's Day banquet left before the featured speaker started to speak. The comment seemed to be that the women who left should be chastised for their rudeness.

We will agree that walking out before a speaker begins, in general shows a lack of consideration and a good deal of rudeness. However, we think also this action might be indicative of the attitude of K-State women toward the Associated Women Students organization. There seems to be very little interest and a great deal of apathy toward this organization. We would venture to say that many women who attended the banquet last night went only because meals were not being served in their dormitories or sorority houses. This seems rather an unfair—but effective—way of "encouraging" women to participate.

TWO STATEMENTS in the AWS constitution under Article I, Section 2: The purpose of this organization shall be to (a.) unify all the Kansas State college women students. (e.) Foster a spirit of co-operation and loyalty among women on campus. We believe these are two points which the AWS has not fulfilled. It has unified a group of leaders, but as for all K-State women—who are required upon enrollment to become members—we believe most of them do not consider themselves a part of the organization, because only a few have a chance to participate to any degree personally.

TO REMEDY the situation we believe the AWS should set up a program which would include more actual personal participation by all women—not a system in which all women consider themselves members for only one or two days a year.—st

World News

Date Set for 'Big Two' Conference; Macmillan Will Fly to Washington

Compiled from UPI
By JOHN HOKANSON

Washington — British Prime Minister Harold Macmillan and President Eisenhower will meet here March 20 in a "Big Two" summit conference on the Berlin crisis, the White House announced today.

White House Press Secretary James C. Hagerty said the British leader wanted to report to the President on his recent Moscow talks with Soviet Premier Nikita S. Khrushchev.

The two free-world leaders are faced with reconciling their differing views on long-range strategy for dealing with Khrushchev. The United States and Britain are in accord on basic issues.

Hagerty said Macmillan had accepted Eisenhower's invitation to fly here. He said the Prime Minister and his Foreign Secretary, Selwyn Lloyd, would arrive March 19. The talks, Hagerty said, would last "a few days."

The Eisenhower-Macmillan conference was announced before the President's special meeting with Congressional leaders and his top military and diplomatic aides to discuss swift-moving

developments in the Berlin crisis.

Eisenhower summoned Senate and House leaders of both parties, Vice President Richard M. Nixon, Acting Secretary of State Christian A. Herter and Defense Secretary Neil H. McElroy to a conference on the evolving situation in Berlin and the broader question of Germany."

Pioneers Move Slowly

Angola, Ind.—A motorized wagon train carrying 50 modern pioneers straggled westward today on the second day of a journey to new homes on the Alaskan frontier.

The caravan bogged down in the wilds of Indiana yesterday when some of the 15 cars got mixed up in a toll road clover leaf and began traveling eastward.

Then an overloaded trailer shifted, ripping off a tree, and the '59ers bedded down for the night in Pokagon State park near here—only 125 miles from their homes in Detroit.

The homesteaders left Detroit early yesterday in a flock of station wagons, a 1934 moving van, mobile homes and pickup trucks.

Their destination is Alaska's Kenai Peninsula, an arm of fertile soil jutting into the Gulf of Alaska on the southern side of the 49th state.

Some 160 acres of unsettled land await each frontiersman. They plan to build log cabins and clear and cultivate the land.

Fire Probe Launched

Little Rock, Ark.—State police launched a full-scale probe today of the tragic reform school fire that killed 21 Negro boys trapped behind locked doors.

Gov. Orval Faubus, shaken and angered, charged negligence was responsible for the deaths and ordered State police to "let the chips fall where they may." He prepared to go before the Arkansas legislature and ask for an emergency appropriation.

Faubus arrived on the scene of the fire yesterday at the Arkansas Negro Boys Industrial school, 12 miles south of Little Rock, in time to watch firemen cool debris that covered a pile of 12 bodies. They were heaped below a window they couldn't open.

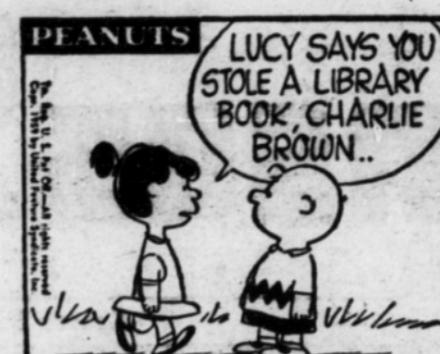

Superintendent L. R. Gaines said the boys, all ranging in age from 14 to 17, were in for minor violations, such as hubcap stealing.

California U Pep Band Has a Ball At Expense of Refs, Tuba Players

By Margaret Cooper

THERE IS NOTHING tame or subdued about the University of California's Pep Band. Called the Straw Hatters, the lively and original group dresses in colored jackets and straw hats. Its antics include engaging in water fights occasionally, with the basketball referees as targets, and tossing pennies into the bass tuba. As the Oregon State Barometer put it, "they represent a show in the Spike Jones tradition."

AN ADDED ITEM to a University of California student's shopping list is an application for dates form. Printed in either blue or gold the form asks for pertinent information such as "How much of a drop is it from your bedroom window to the ground? Do you like to park? Do you have a car?" The cost of these reference sheets is only ten cents, but once they are filled out their value is immeasurable.

THE DAILY CALIFORNIAN says that the same store has stretchable paper bags. "They pack faster, handle easier, stack firmer and cost no more than old-fashioned bags." They might solve the problem of what to do with your lunch if you are carrying it on a rainy day and would enjoy a watered down or stretched sandwich!

THE DAILY KANSAN revealed some of the demonstration speech topics used in the Speech I class at KU. The topics range all the way from "The Making of Chernozem Cecils" (rendered more intelligently—"The Making of Mud Pies") to "How to Dry-Shampoo Stuffed Animals." One student took the matter of a demonstration speech very seriously. His speech was on ironing a pair of pants. This was an excellent subject except that he used the pants that he was wearing in order to demonstrate—much to the embarrassment of the several female members of the class.

A TOUCH OF HUMOR found in the Daily Nebraskan involves the mystery phone calls—the kind in which the caller craftily avoids revealing his name. A University coed, having no results in identifying the young man on the other end of the line, finally remarked, "I don't know who you are but I know you are a DU because I can hear the toilets flushing." The new fraternity house is considering moving its phone booths.

LITTLE MAN ON CAMPUS

Quotes from The News

Columbia, Mo.—Former President Truman telling the Press Congress of the World he would like to be a newspaper editor so he could get what he wants in the paper:

"I don't know what a free press is—I have never seen one. I want to be a telegraph editor or one of those blue pencil men. Then I could get what I wanted in the papers."

Toronto, Ont.—Canadian atomic scientist Dr. W. F. Baldwin, nominating the South American kissing bug, which can take 250,000 times as large a dosage of radiation as man, to inherit the earth:

"Bugs like these would be good candidates to inherit the earth after an atomic war. If man had resistance like them, he too might survive."

New York—Bob Hope, on entering a hospital for treatment of his left eye:

"It could have been my heart, and then I would have been in real trouble."

Legislature

Proposed Amendment Killed For Liquor Purchase Plan

A proposed amendment to have the Legislative council study a permit system for purchasing liquor in Kansas was pulled back on reconsideration and killed. The proposal passed yesterday, but died on recall today.

The House Assessment and Taxation committee heard State Revenue Director John Kirshner testify that half of any oil-gas severance tax revenues would be paid by non-residents of Kansas.

The committee did not vote on a bill for a 1 per cent severance tax, delaying action. Kirshner said one-half of the income from Kansas oil production goes to out-of-state resident.

State Control Favored

UPI—Passage of a controversial bill for state control of the Hugoton gas field reserves was recommended yesterday by the Kansas House Oil and Gas committee.

With one vote to spare, the measure had passed the Senate.

The House committee left it intact. At least four public hearings were held before the House committee's recommendation. A mass of testimony both for and against it was presented.

Under the bill, the Kansas Corporation commission would be authorized to set allowables and determine the depletion of the vast reserves of the Hugoton gas field in southwestern Kansas.

Several pipeline companies, including Cities Service company and Northern Natural Gas company, bitterly opposed the measure.

In other House committee action, the State Affairs committee recommended for passage a bill to

put all annual and biennial reports of all 123 state agencies into one volume.

This would create a new composite "fact book" on Kansas government similar to the so-called "Blue Books" of other neighbor states, including Nebraska and Missouri.

Rep. Richard Rock (D-Arkansas City) testified on a Democratic-backed bill to take away from the GOP-controlled State Finance council all control over state civil service matters.

No final action was taken. Governor Docking has asked that the bill be passed.

School Heads Testify For Regents' Budget

Heads of all schools under the Board of Regents appeared before the House Appropriation-Writing committee yesterday to testify on a Board of Regents budget already passed by the Senate.

Chancellor Franklin Murphy told the committee that the University of Kansas Medical school is the only one in the nation with a divided campus.

Murphy, in budget testimony before the ways and means committee, said first-year medical school is carried out on the KU Lawrence campus, the last three years on the School of Medicine campus in Kansas City.

Murphy and Dan W. Clarke Wescoe of the Medical school made a plea for \$1 million in state funds to build an addition to Wahl hall on the Kansas City campus.

Dr. Wescoe put high priority on the building project, reminding the lawmakers that \$850,000 in Federal matching

funds are available for the building.

He said with equipment installed, the building would cost \$1,850,000 and permit shifting of the entire freshman Medical school class to Kansas City.

The budget bill does not include the KU Medical school building. Murphy and Wescoe asked for restoration of the project.

Dr. James McCain, president of Kansas State college, also gave top priority to restoration of building requests cut out by the Senate.

Mccain said K-State was attempting to restrict out-of-state students and raise the academic quality of the College in order to hold down enrollments.

"Our academic standards are higher," McCain said. "More than 600 students failed last year. It is normal to flunk about 400."

"Still our enrollment is going to rise. We can either do these things, restrict the quality of instruction, or turn away students."

He said K-State has a student population of 6,700, which he expects to rise 75 per cent in the next decade. He said mathematics was being taught in 14 different buildings, and men's dormitories were short. "We have 1,200 students living in basements in Manhattan, half of them undesirable," he said.

Mccain made a special plea for restoration of a request for \$2,700,000 for construction of a physical science building.

Both McCain and Murphy said they use temporary barracks type buildings for classrooms. Murphy said, "We use barracks that no local school board would tolerate or permit for long."

Mosaic Design for Union Created by KS Student

A new mosaic design, by Linnea Brown, Ar 05, will be placed above the stairs leading to the Union ballroom soon. The abstract design shows Linnea's interpretation of activities in the Union and the functions of the Union on the campus. Blue, aqua and green are the main colors with accents on the warmer colors.

Her artistic interests include areas other than painting, for she is interested in all forms of dance.

The mosaic which Linnea designed will be made in the mosaic class taught by Assoc. Prof. Alden Krider. The design will first be laid out in reverse on heavy brown paper. The glass pieces,

which are imported from Mexico, will then be glued upside down to the paper with a vegetable glue. A coat of mortar will be applied to the mosaic and placed on a thin concrete panel. The brown paper will then be moistened and peeled off.

The mosaic will be designed so that it may be moved at some future date, if necessary, Linnea pointed out.

She said the reason she chose architecture was because of her interests in mathematics, science and art. She prefers to do her work in water color which she used for the mosaic. The water color of the mosaic was reduced to about one-fifth its actual size.

Meeting President Tops Stater's Washington Trip

"The highlight of my trip to Washington, D.C., was meeting and talking with President Eisenhower," said John Carlin, DH Fr, who recently returned from the capital after being part of a group which made the "report of 4-H club work to the nation."

John was among six 4-H members, chosen from the nation's 2,200,000 4-H members, to make this report. The other five were from Texas, New Mexico, North Carolina, Colorado, and Indiana.

The group, before meeting the President, met Secretary of Agriculture Ezra Taft Benson, who formally introduced them to Mr. Eisenhower.

"We spent about 30 minutes meeting with the President and his greeting was very informal," Carlin said. Carlin presented the President a white dogwood tree about three or four feet high to be planted on his farm. "I guess the reason I got the honor of presenting the tree was because I am from his home state," he said.

President Eisenhower asked John, after he presented the tree, how he could get rid of the bores infesting the trees on his farm. John replied, "We don't grow white dogwood trees in Kansas, Mr. President, so I don't know anything about them."

John said the President showed them his office and explained all the paintings in the office. Afterwards Secretary Benson remarked, "I am sure glad I came along, since this is the first time the paintings have ever been explained to me."

The group also met with the presidents of the different farm organizations. One of the main purposes of these organizations is to persuade Senators and Representatives to back farm legislation. These presidents agreed that "many people do not realize the amount of pressure put on Senators and Representatives from all facets of our economy, so farmers have to push for themselves," he said.

The group wanted to attend the church President Eisenhower attends, so they went about 9 a.m. and as they were walking down the sidewalk they noticed a number of policemen around. "We finally figured out that it was not an accident, but the President going to church. Of course, we were late and had to sit down front, and to our amazement we were sitting right across the aisle from him," John said.

John was awarded a \$125 scholarship as a result of his trip and ranking ninth in grades among freshmen in agriculture.

AWS Slate Named For March Election

The slate of officers for the AWS elections March 12-13 was presented at the AWS banquet last night.

The slate: president, Judy Young, Psy Soph, and Beverly Bass, HT Jr; first vice president, Ada Church, HT Soph, Marianne Gench, DIM Jr, and Judy Mai, HE Soph; second vice president, Brenda Morgan, HE Soph, and Janice McClenahan, EED Soph;

Third vice president, Carolyn Moriconi, Eng Soph, and Kay Balderson, EED Soph; treasurer, Peggy Ogan, EED Fr, and Ginny Caldwell, TxC Jr; corresponding secretary, Marilyn Hanson, HEX Soph, and Sharon Frodin, HT Soph; recording secretary, Dee Baker, EED Jr, and Mary Jo Mauler, HEJ Soph.

Elections will be from 9 a.m. to 5 p.m. in Anderson hall and the Union. All women students are eligible to vote by presenting their activity ticket.

'All Work, No Play' Avoided By Most K-State Socializers

Members of Farm House fraternity will entertain dates with a western party Saturday at the chapter house.

Miss Faith Luther, national traveling secretary of Alpha Chi Omega sorority, is paying an informal visit to the local chapter. Miss Luther, who is from Oregon, will remain here four or five days. This is her first visit to Kansas.

Mr. K. M. Heywood, director of the Endowment and Development office, Mr. Ron Jackson, assistant dean of students, and their

wives, were dinner guests of the and his orchestra will furnish music for the dance. The Manhattan alumni association will act as host.

Members of Sigma Alpha Epsilon will host approximately 100 alums for its annual Founders Day celebration Friday and Saturday. The weekend's activities include a buffet dinner Friday evening and a banquet and dance Saturday evening.

Kansas alums and local actives will attend the Kansas State-Missouri basketball game Saturday afternoon. Several guest speakers will be present for the Saturday evening banquet.

Matt Betton, a Sig Alph alum,

The Pi Kappa Alpha's will be entertaining prospective pledges this Saturday. The high school seniors will attend the Kansas State-Missouri basketball game and later will be guests at a rush party at the PiKA house. Chaperones for the event will be Prof. and Mrs. Karl Stacey.

You'll be pleased with a Collegian classified.

MODELING in last night's AWS style show is Vicki Matthews, BA Soph. Seventeen women, representing the sororities and dormitories, modeled various types of women's attire for spring wear.

AWS Fashion Show Gives Style Preview

If the AWS style show last night was correct, K-State coeds will be wearing shirtwaist dresses and three-piece outfits to class this

spring more than any other styles. The combination sets were formed of a straight skirt, weskit, and blouse.

Plaid will be popular in sports wear, Manhattan stores predict. Tapered pants in plaids with solid colored blouses were shown several times. Matching slacks and jackets or weskits also received the coeds' approval. Many of these also featured matching skirts.

The Empire look was present in many of the dresses and also in the single bathing suit that was shown. Suits with straight skirts and boxy jackets dominated the church wear.

Lace and chiffon will be seen a lot this spring for evening wear just as they are every year. A majority of the dresses used some kind of draping on the bodice. The bell skirt featured in last fall's fashions was still present.

Blue was by far the most popular color shown.

Gamma Phis, Kappas Head Sorority Lists

In addition to topping the overall sorority grade list, Kappa Kappa Gamma also had the active chapter with the highest average, 2.941.

Pledge grade honors went to Gamma Phi Beta with a 2.880 average. Second was Kappa Kappa Gamma, 2.769 and third was Delta Delta Delta, 2.750.

The second high active chapter was Alpha Chi Omega at 2.932, followed by Pi Beta Phi with a 2.922 average.

Other active grade rankings: Alpha Xi Delta, 2.764; Chi Omega, 2.745; Gamma Phi Beta, 2.738; Delta Delta Delta, 2.721; Kappa Delta, 2.717; Alpha Delta Pi, 2.716; and Clovia, 2.347.

The rest of the pledge grades ran as follows: Chi Omega, 2.732; Alpha Chi Omega, 2.668; Kappa Delta, 2.623; Pi Beta Phi, 2.618; Alpha Delta Pi, 2.610; Alpha Xi Delta, 2.448; and Clovia, 2.294.

When pledge and active grades are averaged, the house averages were Kappa Kappa Gamma, 2.878; Pi Beta Phi, 2.851; Alpha Chi Omega, 2.829; Gamma Phi Beta, 2.802; Chi Omega, 2.740; Delta Delta Delta, 2.732; Kappa Delta, 2.683; Alpha Delta Pi, 2.674; Alpha Xi Delta, 2.618; and Clovia, 2.314.

Phi Kappas Stage Rituals

New pledges of Phi Kappa fraternity are: Pat Malloy, CE Fr; Bob Fisher, TJ Fr; Omar Knoll, Ar 02; Larry Deal, EEd Fr; and Bill McKinney, ME Soph.

New initiates of Phi Kappa are: Larry Chaput, BA Jr; Dan Whitmore, BA Fr; Dan Miller, ChE Fr; John Meurer, AH Fr; Kenny Miller, Ar 01; Greg Schmidlein, EE Soph; Mike Healy, CE Fr; Gene Smith, ChE Fr; Leo Voet, Mth Fr; and Jim Mentgen, Ar 02.

The whole is equal to the sum of its parts

(But some of its parts are more equal than others!)

Even Euclid had to admit...

**It's what's up front
that counts**

Euclid proved that a straight line is the shortest distance between two points. And if you'll walk a straight line to the nearest pack of Winstons, you'll find it the shortest distance to a really enjoyable smoke. It's the tobacco up front that makes

the difference and that's where Winston packs its own exclusive Filter-Blend—a special selection of light, mild tobacco, specially processed for filter smoking. You'll find Filter-Blend gives Winston a flavor without parallel. In fact, it's axiomatic that...

WINSTON TASTES GOOD, LIKE A CIGARETTE SHOULD!

R. J. REYNOLDS TOBACCO CO., WINSTON-SALEM, N.C.

A Cappella Choir To Tour Kansas

Fourteen concerts will be presented by the A Cappella choir on its concert tour, March 9-12, according to William R. Fischer, associate professor of music and director of the choir.

The choir will leave Manhattan Monday and will sing concerts at the Topeka high school, the Atchison County Community high school, and the Atchison high school.

Tuesday, the choir will present two concerts at both the Washington high school and the

Shawnee Mission East high school. In the evening, they will present a concert at the Asbury Methodist church.

Three concerts will be given Wednesday. They will be at the Garnett high school, the Ottawa high school, and at the Kelly hotel in Ottawa.

On the last day of the tour, the choir will sing concerts at the Eureka high school, at the Burlington high school, and at Forbes air base at Topeka.

Block and Bridle club formally initiated 10 men recently in the Animal Industries building. Those initiated: Don Stinson, AED Soph; Ken Kocher, AH Fr; Kermit Kroetschner, AH Fr; Richard Janssen, AH Fr; Robert Snider, Ag Jr; Stanley Steere, AH Fr; Douglas Bolt, AH Soph; John Forrest, Ag Jr; Lloyd Gillet, Ag Fr; and Donald Ochampaugh, Ag Fr.

Preparations for the National

Angus conference, March 15-17; guest dance band at the Union Ag Week, April 6-11; and the annual Block and Bridle club banquet, May 2, were main items in the business meeting.

Dr. C. E. Aubel, professor of Animal Husbandry, gave a talk and showed slides of the trip he took last summer in Oregon.

Art Association

Head of the Art department at K-State, Dorothy Barfoot, will attend the meetings of the National Art Education association in New York March 8-12.

She will serve as a member of a panel which is to discuss "Curriculum Unification."

Beat Hour

Varsity Club Combo will be the

Beat Hour Friday at 2:30 p.m. in the Dive. Cookies and coffee will be sold.

Arnold Air Society

Arnold Air society decided recently to have a smoker at their next meeting, March 17, for invited guests from the AF-ROTC. The men who are invited will be asked to join Arnold Air society.

Gary Parker, publicity chairman, announced that the queen of the Air Force formal will receive a desk model of an F-100 aircraft, while the attendants will receive a model of a T-37.

You'll be pleased with a Collegian classified.

KS Student Treated Well On Summer European Tour

By DORIS MILLER

"The people everywhere treated us well, especially in Scandinavia where they are more like Americans. France was the least hospitable country," comments Myrie Lou Mundhenke, HT Sr, on her two month trip to Europe last summer.

Myrie visited 15 countries in all, including England, Scotland, Norway, Sweden, Denmark, Holland, Belgium, Germany, Switzerland, Austria, Italy, and France, on a student tour which was conducted by Americans Abroad.

Twenty students made up the tour in the Scandinavian countries and 24 on the continent. All were girls except for three, and those three were members of Sigma Chi fraternity at K-State.

In the Scandinavian countries we traveled by train. After we arrived in Amsterdam we had a German bus and driver who remained with us the rest of the trip. He spoke only German and none of us knew any

German at all. It was surprising how well we could communicate by motions and pointing. The tour leader had a German dictionary that did come in handy once in a while."

Myrie thought Norway was the most beautiful of the countries visited. "The mountains and fjords were gorgeous. The fjords were something that I had never seen before. I was a bit disappointed in Switzerland, I guess because I saw Norway first."

"Although we stayed in the less expensive hotels on the tour, our rooms were usually clean and included minimum facilities," she said. The tour traveled tourist class in order to cut down on expenses as much as possible.

"We ate real well, especially in Scandinavia where we had huge smorgasbords. Copenhagen was the best. While there we had the biggest strawberries I ever saw for every meal but breakfast."

Myrie liked Paris also. She was there for eight days, during which she did the usual sightseeing, plus going on a nightclub tour that was "very thorough," she said.

The tour spent one day at the World's Fair. Myrie said it was "very impressive." "The first glance made chills run up and down my back just to realize I was really there. The Russians had much larger and more displays than the U.S., but I still thought ours was better. Russia had their displays explained

in three languages, French, German, and Russian."

"The trip made me want to learn about these countries more than any amount of books ever could. It also brought the reality of war much closer. I got a better understanding of what war is and can do. It showed up not only in the buildings and the ruins, but in so many people who were crippled and blind. There is so much begging too. People were so desperate that they would pick up even the smallest cigarette butt off the street."

Ship life, Myrie explained, is something that is entirely different. "It is just like an isolated community set off by itself with no connection with the outside world. There are no worries; we just ate, slept, played games, and watched movies."

Myrie wants to go to Europe again. When people ask her if she would have given a year of college for the trip, she always answers by saying, "I'd give two. I think it is that important."

Applications for UGB Available March 19-26

Students may apply for Union Governing board positions March 19-26. Application blanks may be picked up in the office of the K-State Union director.

Pi Kappa Alpha Wins Volleyball Tilt

Pi Kappa Alpha remained undefeated in intramural volleyball play as it beat Alpha Tau Omega, 15-4, 15-9, last night in Ahearn gymnasium.

There were 11 matches played last night with both fraternity and independent teams seeing action.

In other matches, Kasbah defeated OK House, 15-11, 15-11; House of Williams won over LSA, 15-5, 13-15, 15-8; the Vets trounced SPN, 11-0, 15-5; the Jokers slipped by DCC, 15-13, 7-15, 15-4; Lambda Chi Alpha beat Phi Kappa Tau, 15-9, 15-13;

Kappa Sigma edged Farm House, 15-12, 15-10; Delta Sigma Phi downed Theta Xi, 11-0, 8-15, 15-5; Acacia beat Alpha Kappa Lambda, 12-15, 15-5, 15-5; Alpha Gamma Rho won over Sigma Phi Epsilon, 13-15, 15-11, 9-6; and Delta Tau Delta toppled Tau Kappa Epsilon, 15-2, 15-12.

Tonight's schedule:

6:45—Phi Delta Theta vs Sigma Chi, northwest court; Phi Kappa vs Beta Sigma Psi, southwest court; AIA vs DSF, northeast court; and House of Brec vs Aeropolis, southeast court.

7:45—Rebels vs Scholarship House, northwest court; Hilltoppers vs YMCA, southwest court; Wesley Foundation vs LSA, northeast court; and Kasbah vs House of Williams, southeast court.

8:45—Westminster foundation vs the Jokers, northwest court; and SPN vs DCC, southwest court.

Rupp Coach of Year

By UPI

Adolph Rupp of Kentucky, now busy getting another squad of "fiddling" Wildcats ready to defend their NCAA basketball title, today was voted United Press International "Coach of the Year" for the 1958-59 season.

Rupp received 65 votes, more than twice as many as his closest rival in the balloting, Frank McGuire of North Carolina.

Sports At a Glance

By Gary Vacin

Kansas university has always been a conference basketball power, having won or shared the title 30 times since 1908 and five times in the past nine years. Except for a few bad breaks, however, the Jayhawks may have dominated the scene even more.

In 1954, Kansas tied for the Big Seven championship with Colorado. The Buffaloes won the drawing to determine the conference's NCAA representative but lost to Bradley in the first round of the tournament. We feel Kansas would definitely have done a better job representing the Big Seven and would have won the Midwest regionals.

The Jayhawks started fast again in 1956, and were one-half game behind league-leading Kansas State at mid-semester. Kansas had already beaten the Wildcats at Manhattan, and was in good shape, with the return match at Lawrence still coming up.

But fate dealt Kansas another blow. Dallas Dobbs, KU's high-scoring guard, was declared ineligible because of scholastic difficulties. The Jayhawks could win only three more conference games and finished up with six wins against six losses.

Then Wilt Chamberlain enrolled at Kansas. The Jayhawks won the crown in 1957 and were undefeated through pre-season tournament play last season. But the Big Dipper missed the next two games because of groin injury, and Kansas lost them both, to Oklahoma State, then not eligible for Big Eight basketball competition, and to Oklahoma.

Thus Kansas was one game down at the start of the title race and went on to tie for second place with Iowa State. It may have been quite a bit different if the Jayhawks had gotten off to a better start instead of having to fight from behind.

Last spring Chamberlain departed from the KU scene for good. If he was still around this year, we feel Kansas would surely be a challenger for the conference title, and may have won it again.

MR. AND MRS. BOB BRATTON

Boozer Named All-American By Associated Press Voters

Bob Boozer, K-State's high-scoring 6-8 center-forward, was named to the Associated Press all-America basketball first team yesterday. Don Matuszak, flashy 6-0 Wildcat guard, made the AP honorable mention.

Oscar Robertson of Cincinnati received the most votes from the sportswriters and broadcasters across the nation, pulling down

1,288. Jerry West of West Virginia, with 1,029 points; Bailey Howell of Mississippi State, 1,003; and Johnny Cox of Kentucky, 978, rounded out the first five. Boozer had 1,007 points.

Big Eight cagers earning honorable mention beside Matuszak are Arlen Clark, Oklahoma State center, Bill Bridges, Kansas university center, and Gerry Schroeder, Colorado guard.

Robertson is a junior and an all-American for the second straight year.

All of the first team cagers were picked from teams with winning

records. West Virginia, K-State, Mississippi State, and Cincinnati are conference champs. Kentucky is defending NCAA champion and tied for second in the Southeastern conference behind Mississippi State.

Johnny Green, who sparked Michigan State to its first undisputed Big 10 title, made the second team with 577 points. Others are Tom Hawkins of Notre Dame, Leo Byrd of Marshall, and Lou Pucillo of North Carolina State.

Hawkins received only 18 first team votes, but enough second team ones to rank eighth highest.

AP All-America Cagers

The 1959 collegiate all-America as selected for the Associated Press by a vote of 319 sportswriters and broadcasters throughout the country. Number of first team votes in parentheses:

First Team

Player	School	Ht.	Class	Hometown
Oscar Robertson, Cinn. (256)	6-5	Jr.	Indianapolis, Ind.
Jerry West, W. Va. (177)	6-3	Jr.	Cabin Cr., W. Va.
Bob Boozer, K-State (171)	6-8	Sr.	Omaha, Neb.
B. Howell, Miss. St. (173)	6-7	Sr.	Middleton, Tenn.
Johnny Cox, Kentucky (168)	6-4	Sr.	Hazard, Ky.

Second Team

Don Hennon, Pitt (145)	5-8 1/2	Sr.	Wampum, Pa.
Johnny Green, Mich. State (83)	6-5	Sr.	Dayton, Ohio
T. Hawkins, Notre Dame (18)	6-5	Sr.	Chicago
Leo Byrd, Marshall (27)	6-1	Sr.	Hunt'n, W. Va.
Lou Pucillo, N. C. State (26)	5-9	Sr.	Philadelphia

Wildcats Host Missouri Tomorrow

Rated the nation's No. 1 basketball team by United Press International, the K-State Wildcats host Sparky Stalcup's Big Eight cellar-dwelling Missouri Tigers tomorrow at 2 p.m. in Ahearn field house. The game will be regionally telecast.

Already crowned Big Eight champions, the Wildcats have won 12 straight Big Eight games and can move to within one victory on an undefeated conference season with a win tomorrow. The Cats then close out their regular season Monday against Nebraska.

"Missouri has a history of giving us fits here at Manhattan," said Tex Winter, K-State coach. "Even when we have won from them at Columbia, they have won here."

The Tigers have beaten K-State here three times since Winter became head coach in 1953. In that same time, the Wildcats have won all five games at Columbia.

The Cats, however, have beaten Missouri in the last eight meetings between the teams. The Tigers' last win was in 1956, when they toppled K-State's Big Seven champions, 85-72, at Manhattan. Missouri won here in 1954, 75-71, and again in 1955, 93-85.

"Stalcup has groomed a group of young players this season, and they apparently are jelling into a fine team here in late-season play," said Winter. "I hate to think of next year. Come to think of it, facing them Saturday will be no picnic."

The Tigers have won just 5 of 23 games, but boast an 85-80 win over Colorado at Boulder and a 51-44 victory over Oklahoma State at Columbia.

Although these are Missouri's only Big Eight wins against nine losses, the Tigers came within two points of Nebraska Monday, 81-79, and have lost by over 10 points in only three conference games.

This will be the season's second meeting between K-State and Missouri. The Tigers came within three points of the Wildcats in the Big Eight pre-season tournament, losing, 69-66, and then lost in league action at Columbia, 75-60.

The loss at Columbia was part of an 11-game Missouri losing streak, longest in Stalcup's reign as head coach. Since beating Oklahoma State and Colorado,

the Tigers have returned to their losing ways, dropping their last four decisions.

Winter plans no lineup changes for tomorrow's game. The Wildcat starting lineup has remained unchanged the last six games, since Ced Price, 6-6 sophomore, moved into the starting center berth.

Improving game by game, Price tallied 16 points in the first half against Kansas last Friday, and grabbed nine rebounds in only 21 minutes. With an average of 7.2 points a game, he is now K-State's fourth leading scorer.

The Wildcats' shooting percentage, which hit a season's low of 27 per cent in the Cats' only loss of the season, to Brigham Young, has soared in recent games. K-State hit 46 per cent in the 87-77 win over Kansas last week, and reached 47 per cent in the 62-50 win over Oklahoma State two weeks ago.

Probable starters:

K-State	Pos.	Missouri
Frank (6-8)	F	(6-5) Abram
Bruzer (6-8)	F	(6-6) Talley
Price (6-6)	C	(6-7) Henke
Matuszak (6-0)	G	(6-2) Pulliam
Douglas (6-4)	G	(6-3) Scott

MISSOURI FORWARD Al Abram is averaging 15.7 points a game this season, good for fifth place among Big Eight scorers. Abram was held to eight points when K-State met Missouri at Columbia earlier in the year.

Colorado Buffaloes To Meet Cowboys

The Colorado Buffaloes will be trying to clinch at least a piece of second place in the Big Eight race when they face Oklahoma State tomorrow at Stillwater.

The Buffaloes will be out to repeat their 65-52 win over the Cowboys at Boulder last January. They will then travel to Norman

Sooners Top Huskers

The Oklahoma Sooners topped Nebraska in Lincoln last night, 65-54, as Herschell Turner set a new one year scoring record of 412 points for the Cornhuskers.

Turner broke the record in the first half when he scored 10 points for a total of 401, one point better than the old mark of 400 set by Jim Buchanan in 1952.

Bob Stoermer broke a 30-30 tie with a basket and Ray Lewis added another to put Oklahoma out in front for good with 13:37 to play.

to finish out their season against Oklahoma Monday night.

Buff seniors Don Walker and Gerry Schroeder both scored in double figures last Saturday as Colorado toppled Oklahoma, 73-56, at Boulder. They scored 18 and 16, respectively.

It was the first time in double figures in four games for Schroeder, who was named to the all-Big Eight team last Friday.

Colorado now sports an 8-4 conference record while Oklahoma State has just the opposite at 4-8.

Cat Gymnastics Star To Present Exhibition

Mike Dziura, K-State gymnastics star, will give a gymnastics exhibition at the annual Physical Fitness show at Oklahoma City tomorrow night.

The Wildcat gymnast will also enter the Mr. Physical Fitness contest, sponsored by the district AAU in Oklahoma City.

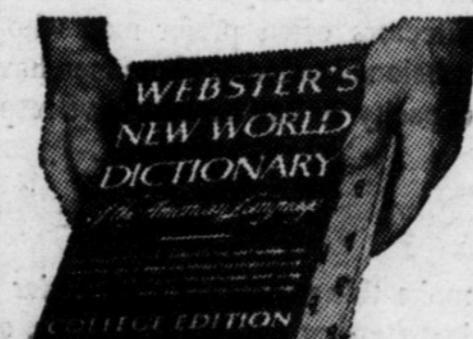

Three trophies will be given to the top entries in the contest. Winners will be picked by a combination of physical development, physical fitness, and ability to demonstrate athletic ability.

Dziura has already won many physique contests, including the Mr. Heart of America annual contest, which covers a 10-state area in the mid-west.

Dziura will also give a demonstration of free exercise for the Oklahoma City high school gymnastics team.

Dziura has been a consistent

scorer on Coach Frank Thompson's gymnastics team this season, and has helped to build the team's winning record in dual meets. His events are free exercise, parallel bars, and tumbling.

TUESDAY, March 10
Dr. William Kirkland, McCormick Theological Seminary, will counsel persons interested in religious vocations. Make appointments at the Denison office, 8-4289.

4 p.m. Dr. Kirkland will speak on "Applied Christianity," Union Art lounge.

THURSDAY, March 12
Cabinet meeting, Union 208.

You'll be pleased with a Collegian classified.

Building in Offing For Westminster

By KAY DENTON

A new Westminster house is in the offing for the K-State Westminster fellowship.

Plans have been made for work to begin on a new building for Westminster fellowship early next year. The group hopes the move to the new building will be completed by the end of the year.

The new Westminster house will be located on Denison avenue directly north of the Sigma Alpha Epsilon house, according to the Rev. Emerson Abendroth, group adviser. The estimated cost of the building is \$125 thousand. Total cost of building, lot, and furnishings is expected to be close to \$200 thousand, he said.

The new structure will provide space for activities previously impossible. In addition, a larger and stronger graduate program will be inaugurated at that time. More facilities for foreign students will be included.

The fellowship has a current program of weekday discussion groups. The topics are "What Presbyterians Believe," "The New Testament Message," and "Christian Basis by Ethical Discrimination." In April there will be a

series of Sunday evening programs on discrimination and prejudice.

A five-week series on "Sex and the Christian Life," has just been completed.

Plans are being completed for a trip to Alta Vista, Colorado, at the end of the school year. Members will spend a week of relaxation and fun before returning to K-State for summer school or returning home for the summer.

Kappa Beta Initiates Five

Five women were initiated recently by Kappa Beta in a candlelight service at the Christian church. Those initiated were Ann Burch, Chm Soph; Nancy Crist, DIM Soph; Sara Sheldon, SED Fr; Ester Clarke, Gen Fr; and Creta Lawson, HT Fr.

Two women were pledges at a special service later in the evening. They were Doris Miller, TJ Soph, and Delores Hutchinson, EEd Soph.

Why did
14,436
sophomores
enter advanced
Army R.O.T.C.
during 1958?

Many more applied. Not all were accepted. In more than 200 U. S. colleges, 14,436 college sophomores met the high standards set. These students were selected to continue officer training in the advanced R.O.T.C. course. Why did each of these young men decide that he would benefit by fulfilling his military obligation as an Army officer? Here are two important reasons. Perhaps they'll help you make your decision.

1... TRADITIONAL RESPONSIBILITIES

As an Army officer, you're in command of men. More men than the number supervised by many civilian executives years older than yourself. To meet your command responsibilities, you employ a great many of the LEADERSHIP principles acquired in advanced R.O.T.C. training. And your executive potential develops while

you gather LEADERSHIP experience. The executive ability you gain as an Army officer will be an important advantage in any civilian career. That's why employment directors often prefer men who have served as commissioned officers. These men have already proven their capacity to handle executive responsibility.

make things a great deal easier for a married couple just starting out. What's more, an Army officer is entitled to take his dependents with him, wherever possible. Imagine sharing the fun of travel with your wife — in the United States or foreign countries like France, Germany or Japan.

SOPHOMORES: Are you considering whether to apply for advanced Army R.O.T.C.? Why not discuss your decision with the Professor of Military Science and Tactics at your college? He'll be glad to talk it over with you.

TRADITIONAL Responsibilities Rewards

In every organization, greater responsibilities mean greater rewards. The traditional prestige of an Army officer is matched by material advantages. A second lieutenant earns a minimum of \$355.88 per month — plus substantial fringe benefits. Think you might want to marry soon after graduation? An officer's salary can

NUMBER 101

Deans' Honor Roll Nets 544 KS 'High-Graders'

The Scholastic Honors list for last semester numbers 544 undergraduate students. To be eligible for the Honors list, a 3.25 grade average with a minimum of 15 hours for the previous semester is required.

This is the first time such a list has been released. It replaces the optional attendance list published in the past. Before, juniors who had a 3.0 average for the previous semester and all seniors had optional attendance. Now all those on the honors list, with the exception of freshman and first year architecture students, are granted this privilege.

School of Agriculture—Donald P. Ade, MTC Sr; Carl Alexander, TA Sr; Gerald L. Backman, TA Sr; James L. Balding, FT Jr; Bryan B. Barr, AH Sr; Robert A. Baruth, PH Jr; Earl D. Beck, AED Jr; Loren D. Becker, Ag Jr; Frank G. Bell, AE Sr; William C. Boon, LDS Sr; James Booth, FT Jr; Benny Brent, AH Sr; John Carlin, Ag Fr; David B. Cool, AE Sr; Billie Cowell, Ag Fr;

March 20 and 21, to do so without missing a day of classes.

The Council will hear reports from three committees which are investigating the possibility of a spring vacation, studying the feasibility of re-establishing pre-enrollment, and making arrangements for a "U" Day celebrating the signing of the name change bill by Governor Docking.

Freshman Orientation, Homecoming, and Parents' Day committees will be appointed.

The Council will meet at 5 p.m. in SU 207.

McAlister Crowned Queen

Judy McAlister, Sp Soph, Delta Delta Delta, was crowned queen of the annual all-College Air Force formal Saturday night in the grand ballroom of the Student Union.

Her attendants were Jan Stewart, Soc Soph, and Brenda Morgan, HE Soph. Both attendants are members of Pi Beta Phi social sorority.

The three candidates were selected from Angel Flight by the members of Arnold Air Society. The queen was chosen from the three candidates by a vote of all the AFROTC cadets.

After being crowned queen, Miss McAlister said, "Thank you so much. I know you were all responsible. On behalf of the attendants and myself, thank

crowned and kissed Miss McAlister. He also presented the queen with a dozen red roses and a desk model of an F-100 aircraft. Each of the attendants received a model of a Cessna T-37.

The three candidates were selected from Angel Flight by the members of Arnold Air Society. The queen was chosen from the three candidates by a vote of all the AFROTC cadets.

Guests attending included Colonel Stallings; Paul M. Young, acting dean of the School of Arts and Sciences; Herbert Wunderlich, dean of students; and Col. Carl F. Lyons, professor of military science.

you from the bottom of our hearts."

The Carl Johnson orchestra from Topeka provided the music for the dance. The "Skynotes," the AFROTC dance band, played at intervals throughout the evening.

Larry Van Pelt, ME Sr, president of Arnold Air Society, estimated the attendance at approximately 150 couples and said the ball was "very successful."

Guests attending included Colonel Stallings; Paul M. Young, acting dean of the School of Arts and Sciences; Herbert Wunderlich, dean of students; and Col. Carl F. Lyons, professor of military science.

A Cappella Choir Presents Concert

About 600 people heard the A Cappella choir present its annual spring concert yesterday afternoon in the Auditorium. William R. Fischer, associate professor of music, directed the choir.

The choir left this morning on a four-day concert tour. While on tour, the choir will present 14 concerts.

In the first group of songs presented by the choir, Royce Johnson, MGS Jr, baritone, sang a solo in "How Fair Is Thy Face." Joan Taylor, MGS Sr, mezzo-soprano, sang a solo in "Beautiful Savior." Other num-

bers included in the first group were "Gloria," "Alleluia," "God's Son Hath Set Me Free," "Entreat Me Not To Leave Thee," and "For All the Saints."

Sixteen former choir members in the audience joined in the singing of "Heavenly Light."

Guest soloist Margery O'Shea, soprano, sang two concert arias by Franz Schubert. They were "Auf dem Strom" and "Der Hirt auf dem Felsen." Accompanying her were Yvonne Hodges, MEI Sr, piano; Robert DeCou, MEI Sr, french horn; and David Clark, MEI Sr, clarinet.

Tougher Exams, Faculty Can Aid Serious Student

IN A "RED HOT" Saturday Evening Post article entitled "Are We Making a Playground Out of College?" an Indiana university professor has urged the abolition of several campus "abuses," which he says are "pushing education aside."

We see something of a parallel between this statement and President McCain's statement in his State of the College address—"Here and in other major colleges, a 'hyper thyroid' program of campus life and activities is diverting far too much time and energy from the main task—scholastic achievement."

President McCain's statement and the discussions of other individuals have resulted in several groups at Kansas State looking into and evaluating campus activities.

THE WORK of these groups is vitally important and could be effective, we believe. But the author of the Post article has suggested another remedy which could eliminate students who are in school for fun and allow for more serious considerations by students who are in school for an education.

In Indiana professor has suggested a two-year university curriculum, crowned with an associate-in-arts degree for those who pass it successfully. He says, "Let

it be tough, and let it be the same for everybody. Those who wish to go on for the full four years would return to college in a frame of mind to get down to business. A re-entrance examination at the beginning of the junior year should be tough enough to weed out those who are in college mainly for the Second Curriculum (extracurricular activities)."

This "tough" re-entrance examination—or even a tough entrance examination of college and university freshmen—seems to us to be an excellent plan for helping assure that students who are in the school are there for the business at hand. We also believe that a tougher faculty could help insure against students who are only in school for extracurricular activity.

THESE SUGGESTIONS may appear to be asking for help from the faculty for a problem which should be solved by the students themselves. However, we believe it is obvious that many students cannot or do not wish to regulate their extracurricular activities. In the interest of others who do wish an education but are blocked much of the time by those who don't, the faculty could do an invaluable service by helping to eliminate them.—st

Abolition of Fraternities, On-campus Cars, Advocated by Professor in Recent Article

An Indiana university professor, in a controversial lead article of the March 7 Saturday Evening Post, entitled "Are We Making a Playground Out of College?" charges that our campuses are becoming marriage mills and fun factories, more devoted to beauty queens than to higher education.

Jerome Ellison, the author of the article, advocates the prohibition of automobiles on campuses, disbanding of fraternities and sororities, and abolition of plush university housing for married students until the head of the house is at least a senior.

The article depicts the overemphasis of extracurricular activities at universities throughout the country with pictures of campus campaigns, queenships, riots, and pranks. The author says, "It's part of a growing national inclination to push education aside whenever it interferes with love or comfort, money or fun."

He goes on to say, "In today's world I question whether we can afford it. Communists and free men agree on at least one thing—the abler, better-informed side in this contest is more likely to prevail. Higher education will play an increasingly vital role in the struggle. We water it down, it seems to me, at our own great peril. And watering it down we certainly are."

The author is concerned over an intellectual immorality in the nation's universities—the "encroachment upon the main business of college of an accumulation of irrelevancies which together make up a 'Second Curriculum' that often takes precedence over the first."

The Second Curriculum, says the author, is that odd mixture of status hunger, voodoo, tradition, lust, stereotyped dissipation, love, solid achievement, and plain good fun sometimes called "college life." It drives a high proportion of our students through college chronically short

of sleep, behind in their work, and uncertain of the exact score in any department of life, he says.

Ellison names such items as the student union, living quarters, cars, the married minority, souped-up program of professionalized athletics, "big weekends," queen and king contests, within the Second Curriculum. These diversions are, of course, over and above those amusements which are considered by school authorities to have cultural, educational, or recreational value, he says.

The Indiana faculty member says, "Standards of scholarship are responsible to public expectation. Our state universities face a rising—and, in my thinking, justified—public opinion that education beyond high school is every child's right." He suggests a two-year university curriculum, crowned with an associate-in-arts degree for those who pass it successfully.

"Our many junior colleges have set the precedent. Let it (the two-year course) be tough, and let it be the same for everybody. Those who wish to go on for the full four years would return to college in a frame of mind to get down to business. A re-entrance examination at the beginning of the junior year should be tough enough to weed out those who are in college mainly for the Second Curriculum."

Concerning the faculty, Ellison says as certain current novels suggest, it is far from perfect. A concern for "tenure" bends many teachers toward cautious utterance, often blunting the kind of searching, outspoken discourses that might explode into exciting teaching and learning.

Ellison goes on to defend the kind of repetitious teaching called "time saving." There are certain foundation subjects, often humdrum, that the student simply has to "get." These are the barren places in the terrain of learning which must be crossed to reach the thrilling peaks beyond, he says. "The work is a rut, and here the patient Mr. Chips serves well."

Quotes from the News

Melbourne, Australia — Evangelist Billy Graham, reporting he had received a letter from a friend in San Francisco asking why Australia had turned down the San Francisco zoo's request for two Koala bears:

"I replied that Australia would send them if America gave back the Davis cup."

Milwaukee, Wis.—Sen. Hubert Humphrey, (D-Minn.), commenting acidly on the Administration's foreign policy at a Midwest Democratic conference:

"Maximum deterrent" has given way to "minimum deterrent" this year. It's cheaper, you know."

New York—Actress Ingrid Bergman, discussing the problem of Communist infiltration in the European movie industry in a filmed TV interview:

"I worked long enough in Italy and France to know that half of the people I work with, if not more, are Communists, and we think nothing of it. Here in Europe, we don't have the problem of Communists as you have it in America, because here it isn't a crime."

Cat Cagers Meet Huskers Tonight

After drubbing Missouri 108-69 Saturday, Coach Tex Winter's K-State Wildcats will try to become the first team in 13 years to go undefeated in conference play when they host the Nebraska Cornhuskers tonight.

To win over Missouri was the 13th straight Big Eight victory against no losses for the Wildcats. Kansas was the last conference team to go undefeated, winning all 10 of its Big Six games in 1946.

Nebraska, after starting fast

they have 10-non-league victories for a total of 23 against a lone defeat to Brigham Young. The Cats have won their last 19 in a row.

Making their last home-court appearance tonight will be seniors Bob Boozer, Don Matuszak, and Jim Holwerda.

Winter has a special reason for wanting to win tonight. It would be his 100th win at K-State since he became head coach back in 1953.

The Wildcat coach had words of praise for Boozer after Saturday's game. "After being named to all those all-American teams, he is still improving with every game," said Winter. "He was doing things out there

Halftime Score: Kansas State 59, Missouri 37				

in league play, has dropped to fifth in the Big Eight with a record of 5-8. In an earlier meeting at Lincoln, the Wildcats edged the Cornhuskers, 50-43.

The Huskers are paced by their Indianapolis twins, Herschell Turner and Al Maxey. Turner, who broke Nebraska's all-time single-season scoring mark in Thursday's 65-54 N.U. loss to Oklahoma, is averaging 17.1, and Maxey, just a sophomore, is hitting at a 15.1 clip.

The Wildcats, rated No. 1 in the nation by the coaches and No. 2 by the sportswriters and sportscasters, have compiled the best record ever by a K-State team. Besides their 13 conference wins,

today he hasn't done all year.

"The whole squad was great today. Everyone who played gave an all-out effort."

The 108-point outburst tied one K-State scoring record and set another. It matched the previous K-State and Big Eight record of 108 points in a game, set by the Wildcats against Nebraska in 1953. In hitting 43 field goals, the Cats broke the old single-game record of 42 set in the same game with Nebraska.

The Tigers led only once, 2-0, on a field goal by Rich Pulliam.

The Wildcats then jumped into an 8-2 lead on two fielders each by Cedric Price and Boozer.

Missouri began to chip away at the K-State lead, and pulled to within 2 at 24-22 on a jump shot by Cliff Talley with 11:08 remaining in the first half.

But the Cats scored 10 straight points, 6 of them by Price, and were ahead 34-22 with 8:50 left.

It was 59-37 at halftime, and Winter, in a vain attempt to keep the score down, kept three of this starters, Steve Douglas, Don Ma-

tuszak, and Wally Frank, on the bench the entire final period.

The Wildcats, with 43 field goals in 80 attempts, hit their highest percentage of the year, 53.8. The Tigers had 25 of 61 for 41 per cent.

In a preliminary game to start tonight at 5:30, the K-State freshmen will play the Wichita freshmen.

Probable starting lineups:

K-State	Pos.	Nebraska
Frank (6-8)	F	(6-3) Kowalke
Boozer (6-8)	F	(6-3) Maxey
Price (6-6)	C	(6-6) Harry
Matuszak (6-0)	G	(6-2) Turner
Douglas (6-4)	G	(6-2) Hester

Wildcat Swimming Team Fourth Best As Oklahoma Wins Conference Meet

K-State's swimming team finished fourth in the Big Eight swimming meet at Lincoln last weekend as Oklahoma University won the championship for the ninth straight time.

The Sooners won first place in 14 of the 16 events for a total of 198 points. Iowa State was second with 61, followed by Kansas with 50, Kansas State with 33, Nebraska with 29, and Colorado with 25.

Dallas Chestnut won first place in the 1-meter diving event and placed second behind Oklahoma's Loren Hale in the 3-meter diving. Chestnut, who was undefeated in all meets this season, was K-State's high-point man with 12 points.

Sophomore Dave Hinderliter was second high scorer for the Cats. He finished second in

the 50-yard freestyle and scored a total of 9½ points.

The K-State squad set two new varsity records and tied another in the meet. Captain Tom Coblenz set a new record in the 1500-meter freestyle with a time of 22:07, breaking the old record of 23:22.1 set by Don Matsuoka in 1957.

Dave Hinderliter tied the 50-yard freestyle record with a time of :24.2. The old record was held by Leo Yeo and John Leitt.

Chuck Englund, Gordon Harper, Craig McNeal and Hinderliter set a new record in the 400-yard freestyle relay, breaking the old

record by 4.6 seconds. The same four had set the old record earlier this year.

Sigma Chi Winner In Intramural Play

Sigma Chi defeated Phi Delta Theta, 15-9, 4-15, 15-5, in intramural volleyball play Friday night in Ahearn gymnasium. It was the third win for Sigma Chi against one loss.

In other matches, Beta Sigma Psi trounced Phi Kappa, 15-2, 15-2; AIA forfeited to DSF; House of Brec beat Acropolis, 15-7, 15-4; the Rebels forfeited to the Scholarship house;

YMCA forfeited to the Hilltoppers; LSA toppled Wesley foundation, 15-2, 15-3; House of Williams defeated the Kasbah, 15-9, 16-14; the Jokers slipped by the Westminster foundation, 15-7, 15-11; and SPN forfeited to DCC.

There are no games scheduled for tonight because of the Kan-

Martin Winner Of Cage Picks

Kendall Martin, Ent Sr, won last week's Roundball Picks contest with his prediction of a 100-70 K-State win over Missouri. The actual score was 108-69.

Martin foresaw a 30-point production by Bob Boozer for K-State scoring honors. The Wildcat all-American scored 32.

A total of 20 students entered the contest, and 18 of them predicted a K-State victory.

Second place went to Jack Capron, FT Soph. Capron picked the Wildcats to win, 90-69, and Boozer to score 30 points.

K-State Signs Contract For Tracking Satellites

Kansas State college has signed a \$35,523 contract with the Air Force Cambridge Research center to cover research in satellite tracking to be directed by Phil G. Kirmsner, professor of applied mechanics, and Ike Wakabayashi, electrical engineering instructor.

This is the largest one-year contract ever signed by the engineering experiment station, according to Leland Hobson, associate director of the station.

The grant is the result of work which Kirmsner and Wakabayashi have done, largely on their own

time, since the advent of Sputnik I back in the fall of 1957.

The two engineers' goal is to develop an improved technique of tracking satellites. Their major effort the coming year will be directed to perfecting their techniques.

Once they had begun the project, they got "Sputnik-chasing fever" and have since devoted much spare time to this activity. Wakabayashi, a nine months employee of the College, became so interested that he remained in Manhattan all last summer at his own expense to work on the satellite project.

With present makeshift equipment, the men have been able to locate a satellite in space to within a mile or two at a range of 800 miles. With the aid of some first-rate equipment which will be supplied by the Air Force, including several aerial cameras and timing gear, the engineers hope to be able to pinpoint a satellite in space to within 60-70 yards of its actual position.

For the coming year Wakabayashi and Kirmsner will continue to collect and analyze data. They will refine a satellite ap-

parent-position calculator which they developed, and will spend some time considering geodetic applications of satellites.

"It was possible to obtain the triangulation photographs only because of the willing help of College faculty members and students," the two emphasized. They will now spend half of their official time working on the satellite project.

Chuck Winger, Gvt Sr and SGA president, announced that the Apportionment board has provided \$158.20 for a 24-piece pep band to play at the NCAA regionals at Lawrence Friday and Saturday nights.

Anne Pederson, SEd Sr, rep-

Privileges Granted SAE Provisionally

Sigma Alpha Epsilon has been granted pinning, serenading, and rush date privileges by the Interfraternity judicial council, according to Garry Lassman, EE Jr, president of IFC.

SAE was put on social probation for violation of the college rule concerning possession and consumption of alcoholic beverages in organized houses.

The judicial council made seven stipulations in granting these privileges:

SAE may have two weekend rush parties, provided—the rush parties are held in the spring semester of 1959; the functions are held in the chapter house;

SC Rules

Holiday Remains At Original Date

Student Council yesterday turned down a petition to change the tentative athletic holiday from Monday, March 16, to Friday, March 20.

The petition, which had over 200 signatures, requested the holiday for three reasons: to enable students who go to the NCAA finals at Louisville to do so without cutting Friday classes; to provide a three-day weekend for those not going; and, assuming there will be an athletic holiday March 23, to provide a four-day weekend celebrating an NCAA championship.

The Council favored the Monday holiday, feeling it was a more appropriate time to celebrate a regional championship and that many had already made plans for having Monday off.

Chuck Winger, Gvt Sr and SGA president, announced that the Apportionment board has provided \$158.20 for a 24-piece pep band to play at the NCAA regionals at Lawrence Friday and Saturday nights.

Anne Pederson, SEd Sr, rep-

resenting the University Day committee, reported that the committee had chosen Monday, March 23, as a tentative date for celebrating the signing of the Name Change bill by Governor Docking.

It was pointed out that a possible double celebration could be staged on this date if K-State were to win the NCAA championship.

The committee is considering the possibility of a two-hour assembly for the celebration.

A committee of the Faculty Senate studied the pre-enrollment system and recommended that the system be abolished. No hope was given for return to the program by the Senate committee.

The Council decided to invite Dr. E. M. Gerritz, director of admissions and registrar, or his assistant, to next Monday's meeting for further discussion of the program.

The SGA book exchange operating at the beginning of this semester netted a profit of \$6.12, according to a report submitted by Tom Cour, ChE Sr and chairman of the Book Exchange committee.

Income from books sold was \$3,135.62, and expenditures were \$3,129.50, including money paid back to owners, manager's salary, printing, and minor expenses.

Approximately 60 to 75 per cent of the 1,212 books handled were sold, according to the report.

Staters Vote In Primaries Wednesday

SGA primary elections will begin tomorrow morning at 7:45 in Eisenhower hall, Veterinary hall, Seaton hall, Calvin hall, Anderson hall, and the K-State Union.

Polls will be open tomorrow until 5 p.m. and again Thursday from 7:45 a.m. to 5 p.m. The only change in voting places for the primaries Thursday will be from Veterinary hall to the Vet hospital.

Voting for the primaries will be by secret ballot in booths borrowed from the city of Manhattan. Students must present their activity tickets to vote.

The primaries will determine the candidates for student body president, Student Council, and Board of Student Publications.

Election rules as stated in the SGA Constitution in the Student Directory will be followed. Violation of election rules will be treated as disciplinary cases.

SOPHOMORE CENTER Cedric Price comes down with one of his 17 rebounds at last night's 76-54 K-State basketball win over Nebraska at Manhattan. It was the last home game of the season for the NCAA-bound Wildcats and seniors Bob Boozer, Jim Holwerda, and Don Matuszak and gave them 20 wins in a row and a 24-1 record for the year. The Cats' next game will be at Lawrence Friday night against DePaul university.

Senate Will Consider Retirement Bill Today

UPI—The Senate scheduled floor debate today on a bill proposing a \$2 million to \$3 million retirement program for state workers.

The measure was introduced yesterday and sent on an emer-

Sex and Ethics Subject of Talk Today in Union

William Kirkland, professor of applied Christianity at McCormick Theological seminary, Chicago, will conduct a discussion in the Union art lounge from 4 to 5:30 p.m. today on "The Christian Ethic and Sex."

During January Kirkland was host and narrator of the "Look Up and Live" television program, which is sponsored by the National Council of Churches and CBS.

Kirkland is a fellow and former director of the National Council on Religion in Higher Education. He was chaplain at Vassar college and lecturer in Christian ethics from 1950 to 1954. Before assuming his present post at McCormick seminary, he was on the faculty of Garrett Biblical Institute, Evanston, Ill. Yale university awarded Kirkland his BD and PhD degrees. His BA is from Emory university, Atlanta, Ga.

The United Student Christian council at Kansas State is sponsoring his discussion. Students and faculty are invited.

gency status toward debate today.

Other retirement bills have been introduced in both houses, but this bill was considered the one which would get major legislative attention. It would cover about 17,000 state workers.

The plan was attacked by officials of the League of Kansas Municipalities as a "cheap fraud on both the employees and tax-payers." The league branded the proposal as enforced savings.

In rebuttal, Sen. James Porter (R-Topeka) called it a "good bill."

Pritchard said the bill was patterned after the retirement plans of Southwestern Bell Telephone and Goodyear Tire and Rubber company, both of which require no employee contributions.

The Senate bill calls for state workers, and any city and county workers who elect to come under it, to contribute 4 per cent of their salaries.

The bill gives full credit for prior service by state workers, except for the first two years.

Dean to Hospital; Operation Today

Doretta S. Hoffman, dean of the School of Home Economics, underwent surgery for a growth on her lung this morning at the University of Kansas Medical center. She was admitted to the hospital yesterday morning.

Dorothy L. Harrison, head of the Foods and Nutrition department, is acting dean in the absence of Dean Hoffman.

The question of whether or not local girls should be allowed to enter the Miss K-State-Manhattan beauty contest was brought up at the Associated Women Students executive board meeting yesterday. Don Volker, representing the Manhattan Chamber of Commerce, will attend the AWS council meeting next Monday to discuss the matter.

The executive board discussed plans for election of AWS officers which will be Thursday and Friday. All women students may vote at the booth in the Union from 9 a.m. to 5 p.m. Voting booths will also be set up in the dormitories.

Beauty Contest Under Scrutiny

Council Fails To Act Logically on Holiday

THE LOGICAL TIME for this semester's athletic holiday was presented to Student Council yesterday in the form of a petition which contained more than 200 signatures.

Student Council turned down the petition which proposed changing the tentative athletic holiday from Monday, March 16, (if K-State wins the NCAA regionals) to Friday, March 20, the weekend of the Nationals at Louisville.

The petition requested the holiday for three reasons: to enable students who may go to the NCAA finals at Louisville to do so without cutting Friday classes; to provide a three-day weekend for those not going; and, assuming there will be an athletic holiday March 23, to provide a four-day weekend celebrating an NCAA championship.

ONE OF THE petitioners' reasons—to provide a three-day weekend for those not going—cannot be taken too seriously because either plan would provide for this three-day weekend if K-State wins at Lawrence.

The reason which begins, "assuming there will be an athletic holiday March 23," assumes quite a lot since no provision has been made for this holiday.

Disregarding these arguments, the reason which states, "to enable students who may go to the NCAA finals at Louisville to do so without cutting Friday classes," gives the most logical reason for the change. This would have been an excellent opportunity for Student Council to endorse some real team backing, and would have set the date far enough in advance so anyone who could not go to Louisville could make definite plans.

THE COUNCIL stated as one of its reasons for not accepting the proposal the fact that many had already made plans for having Monday off. We say these plans could not have been so definite that they could not be changed easily since the Monday holiday would not in any case be assured until Saturday night.

The logical time for this semester's holiday has been presented to Student Council, and we believe Student Council has failed to act logically upon it.—st

Quotes from the News

Nicosia, Cyprus—Col. George Grivas, leader of the Greek underground on Cyprus, reporting he would leave the island now that an agreement for an independent Cyprus had been reached:

"I have done my duty."

New York—Sen. John L. McClellan (D-Ark.) charging that the instability of the U.S. Supreme court threatens our Republic:

"More than a dozen decisions warrant severest criticism."

Washington—AFL-CIO President George Meany calling on

Congress to vote a bold new construction program for homes, schools, roads, airports, and hospitals, despite claims such a program would be inflationary:

"The real danger of inflation would come if we continue to neglect the nation's housing needs and permit present shortages to become aggravated."

Lafayette, Ind.—Atomic Energy Commissioner Willard F. Libby telling of the dangers of radioactive fallout over thousands of square miles following a nuclear attack:

"It would be hazardous to life to stay out in the open for more than an hour."

Possible Iraqi-UAR Frictions Cited As Abortive Revolution Snuffed Out

Compiled from UPI

By JOHN HOKANSON

Beirut, Lebanon — Baghdad radio claimed total victory today over a right-wing army revolt against the Iraqi government and said a "foreign state" had backed the slain leader of the abortive revolution.

Dispatches from Cairo later today quoted reliable sources there as saying 11 United Arab Republic diplomats had been expelled from the Iraq capital, apparently on charges of backing the insurgents.

The reports, if confirmed, would create the possibility of an open break between the two biggest Arab powers and pose a grave new threat for the Middle East.

The rebel "Mosul" radio was silent today in apparent confirmation of the government victory, which would mark the emergence of the Communists as the most powerful force in Iraq. The government called the Mosul radio "an enemy underground transmitter belonging to a foreign state."

The government broadcast did not identify the foreign state it said was co-operating with the "Imperialists," but it warned it to "abandon this intrigue." Some reports said it was aimed at the United Arab Republic; others said it might be one of the pro-Western Baghdad pact nations.

Baghdad said Col. Abdel Wahab Shawaf, leader of the Mosul rebellion, "met his death at the hands of the people and soldiers and officers of the Army." His rebellion, the radio said, was "smashed and buried at birth."

Newsmen apparently still were barred from visiting Mosul to confirm the situation there, but the general feeling was that the revolt was over barring some unexpected surprise.

The consensus of Middle East experts in Beirut was that failure of the revolt would leave the Communists as the most powerful force in Iraq although Kassem himself has not been labeled a Communist by the West.

Rather it was felt that the Iraqi leader had been caught on the crest of a Communist-led wave and had to ride with it as the price of maintaining order in Baghdad.

New Hope for Berlin

Berlin—Soviet Premier Nikita Khrushchev's first apparent

major concession in the Berlin crisis may open the way for a face-saving deal with the West to prevent a war, Western observers said today.

The Soviet leader, in a speech in the Communist sector of Berlin last night, dropped his previous uncompromising demand that Western Allied troops get out of the city's free Western sectors after May 27 and suggested a "minimum" of U.S., British, French, Russian and

perhaps neutral troops remain in the "Free City."

His only condition, he said, was that these troops should not meddle in West Berlin's internal affairs.

Western sources saw an immediate serious objection in Khrushchev's proposal that Russian troops should be among those stationed in West Berlin. They said the West never would agree to permit Russian troops in West Berlin for the first time. But they saw some hope of successful negotiations.

Readers Say

To 'Mary Stuart' Critic—Onions

"Remain silent, and be thought a fool;

Open your mouth and remove all doubt."

This old saying might well be applied to the writer of the Collegian review of "Mary Stuart."

Perhaps, though, in this student's favor, it may be pointed out that this is her first review. We hope so. For a second review to show such obvious ignorance of the intent of drama would be inexcusable for student, instructor, and editor.

We suggest this reporter read "Mary Stuart" again, or perhaps her Written Communications I text on the purpose of dramatic tragedy. Mary Stuart is not intended to be funny. And it is ridiculous to command an actor who, by bringing humor into serious scenes, converts a good play into one less than mediocre, —simply to show his own talent. (Perhaps because he had too little REAL talent to snare a major role?)

The last factor we would point out is that in her haste to show how BAD the play was, this reviewer forgot that the purpose of a critic is to show both good and bad sides of a performance. In this article there was no mention of the elaborate and well-done Elizabethan costumes, the near-perfect lighting and set, and skillful use of forestage to speed a tremendously difficult play.

We say orchids to the Kansas State Players, Don Hermes, and Carolyn Hunt for something rare in our world of easy TV entertainment—attempting a difficult task. And we say onions to the reporter for ignoring the successful parts of this task and lauding the ridiculous.

Anita Taylor, Sp Gr
Myron McCartor, AH Gr

To All Independent Students at K-State:

The Independent Students association is an agency for every independent student regardless of race, color, creed, or marital status. Veterans and non-veterans alike are equally welcome and are invited to participate in all of its activities.

There are many independents

on this campus who have little or no way to make general contact or friends. With the participation of each independent student in an organization such as the Independent Students association these needs may be met.

The Independents Students association does not intend to become an opponent to the organized Greek houses. Rather, it desires to become the representative agency for all independent students on the campus.

To those of you to whom the foregoing seems to be broad general principles and you have specific questions or doubts, there will be a "Special Guest Night" meeting for Y.O.U. Wednesday night, March 11, at 7:30 on the third floor of the Student Union. See all of you there!

By the order of the Executive Council of the Independent Students association.

Charles E. Swanlund,
President

I'd like to give the strongest possible endorsement to the drive for funds currently being conducted by the Student Council. Traditionally, the money raised during this drive has been used to support community activities of vital importance to students attending the College.

I was especially pleased to learn that this year an energetic effort is being made to raise funds for the support of the World University Service. I had an opportunity in 1957 to visit the international headquarters of this Service in Geneva, Switzerland, and to gain first-hand knowledge of many of its activities. I consider it an organization of surpassing importance to the welfare of higher education on an international scale. I'm sure that its objectives are completely worthy of the interest and support of students at Kansas State College.

It is for these reasons that I hope our entire student body will respond most generously to this drive.

James A. McCain,
President

Wildcats Beat Cornhuskers; Go Undefeated in Big Eight

K-State's NCAA-bound Wildcats beat Nebraska, 76-54, last night in Ahearn field house to become the first conference team in 13 years to go undefeated in league play.

It was the 20th straight win for the Cats, their 14th straight in Big Eight play, and boosted their overall record to 24-1.

The loss dropped Nebraska into sixth in the conference. The Huskers ended their season at 5-9 in league play and 12-13 for the year.

K-State jumped off to a 4-1 lead in the first minute and one-half of play, and opened the gap to 14-6 on a jump shot by Bob Boozer with 13:54 left in the half.

KANSAS STATE (76)	27-74	22-29	66	18	76
NEBRASKA (54)	22-68	10-18	46	19	54
Halftime Score: Kansas State 38, Nebraska 26					

The Huskers scored three straight baskets to make it 14-12, but the Cats slowly pulled away and had their largest lead in the first half with 5:30 left, 30-15.

Nebraska came back with four straight fielders to cut the lead to 30-22, but Boozer and Price each scored two field goals in the last three minutes to make it 38-26 at halftime.

The lead was still 12 points with 14:49 left in the second half. George Swank and Herschell Turner then combined for three free throws for the Cornhuskers and Jim Holwerda cranked through a fielder from the side. Al Maxey and Bob Harry then scored to pull the Huskers to within seven, 49-42.

Holwerda and Boozer hit fielders for the Wildcats, and Harry and Turner added two-pointers for Nebraska, making it 53-46 with 11:32 left.

Jerry Johnson tossed in a free throw followed by a jump shot by Steve Douglas, and the Cats widened the lead to 60-46 on two more free throws by Johnson.

Turner hit from the outside for Nebraska, but K-State then scored 10 straight points to pull out of reach.

Three K-State seniors, Boozer, Holwerda, and Don Matuszak,

made their final appearance in Ahearn field house. Boozer scored 29 to lead both teams, Holwerda hit his high of the year with 10, and Matuszak added 11.

Bob Boozer and Don Matuszak, the "Mutt and Jeff" combination which paced K-State to a conference title, have been named to the United Press International all-Big Eight basketball team.

Others on the first team as selected in a poll of coaches, sports writers, sportscasters, and college publicists are Arlen Clark of Okla-

homa State, Gerry Schroeder of Colorado, and Herschell Turner of Nebraska.

Boozer won the only unanimous position on the team, and Matuszak was the only other player to be named on every ballot. He received two second-place votes.

Schroeder earned his first team slot by a bare margin over Ron Loneski of Kansas and Dennis Price of Oklahoma, who both landed on the second team along with Wally Frank of Kansas State, Don Walker of Colorado, and Bill Bridges of Kansas.

The third team is composed of Al Abram of Missouri, John Krocheski and Ron Baukol of Iowa State, Al Maxey of Nebraska, and Al Donaghue of Kansas.

It was no surprise that Boozer was everybody's all-star. He has averaged more than 25 points a game in again leading his team into the NCAA tournament with only one defeat this season.

Tex Winter, coach of the Wildcats who are ranked No. 1 in the nation by UPI, says, "Bob is as tough a big man to stop as I have seen in college basketball."

Frosh Basketball Squad Edges Shockers, 83-74

K-State's freshman basketball team ended its 1959 season last night with an 83-74 win over the previously-unbeaten Wichita university frosh in Ahearn field house.

The Cats led 42-33 at the half, with 6-10 center Gene Wiley carrying most of the scoring load for the Shockers. Wiley, however, was called for three fouls early in the first half and was forced to sit out much of the period.

The Cat frosh built up a 48-37 lead with 17:30 to go in the second half, but hot shooting guards Jim Allen and Jim Cleveland, and forward Wayne

Cincinnati, Bradley Get Tourney Bids

By UPI

Cincinnati and Bradley today bagged two of the last three post-season tournament berths that will be awarded this season.

Cincinnati, after miffing one chance last Saturday night, locked up the Missouri Valley conference championship last night by beating St. Louis, 66-59, although forced to play for the last 10 minutes without all-American Oscar Robertson.

That gave the Bearcats an NCAA berth against Texas Christian at Lawrence this Friday.

And it also cleared the decks for Bradley, runner-up in the Missouri Valley conference, to enter New York's National Invitational tournament with a quarter-final berth Saturday night against the winner of a Thursday first-round between Fordham and

Butler. This had been delayed because the Braves would have finished in a tie with Cincinnati for the league crown if Cincinnati had lost to St. Louis.

Halftime Score: Kansas State 42, Wichita 33

HIP, HIP, HURRAY for the GREYHOUND way to save money!

Got the good word about Greyhound Scenicruiser Service? It's the latest, the greatest way to go... with air-conditioning, picture windows, air-suspension ride and complete restroom! You'll have a ball headin' home on a Greyhound — it's often faster than other public transportation, and always less expensive!

BAGGAGE PROBLEMS? You can take more with you on a Greyhound. Or, send your belongings by Greyhound Package Express. They arrive in hours and cost you less!

Garzio Demonstrates Use of Potter's Wheel

"Throwing clay" on a potter's wheel was demonstrated to about 50 persons at the first live art series by Angelo Garzio, assistant professor of art, yesterday in the Union art lounge. The series is being sponsored by the Union art committee.

Starting with a lump of clay, Garzio formed or "threw" three bowls of different sizes, a pitcher, and a narrow neck pot. He first placed the clay on the wheel and centered it. After centering the clay, he made an

SAB Gives Okay To New Group

Gamma Theta Upsilon, honorary geography fraternity, was approved by the Student Activities board yesterday for a probationary period of one year.

The board also approved a bake sale for Geology Gems, an organization for the wives of geology and geography students. The women will sell baked goods to organized houses to raise money to buy a gift for the Geology and Geography department.

opening in it thus determining the final desired shape. He then formed the clay product, using water as a lubricating agent so that his hands wouldn't stick to the clay.

The clay products formed were ready to be dried and placed in a kiln to be fired. After firing, a decoration could be added. "The wonderful thing about clay is that there is no limit as to what can be done with it," said Garzio.

Garzio said that there were three ways to form clay products, but that he preferred the potter's wheel because it is much more versatile and obeys every whim of the potter.

"The secret to throwing clay is to get the clay evenly formed throughout without its having to be trimmed or carved," he said.

The clay used in the demonstration was a local clay that Garzio got at Miltonvale. Before using the clay, he kneaded it like dough to get an evenness of texture and worked it so there would be no air pockets. He then added iron oxide for color.

CONGRATULATING Gene Olander, SED Jr., who last night received the outstanding Student Council member award, is Herbert J. Wunderlich, dean of students. Charles Goetzinger, assistant speech professor (left), and Charles Wingert, Gvt Sr, also participated in the SGA awards dinner program.

Student Council Award Given to Gene Olander

Gene Olander, SED Jr., was voted outstanding Student Council member at the Student Governing Association banquet last night.

Other awards were given to Sandra Swanson, EEd Jr., for her work on the Parents' Day and Elections committees; Joanne Goetsch, SED Jr., for Committee Co-ordinating staff; Tom Cour, ChE Sr., for Book Exchange; Andy Stewart, VM Sr., for Tribunal;

Charles Moggie, BAA Sr., for Student Activities board; Marianne Gench, DIM Jr., for Traffic Appeals board; Joyce Rogers, Mth Soph, for Funds and Drives committee; Charlotte Chastain, TJ Sr., for Public Relations; and Leslie Dole, MGS Soph, for International Relations.

All Student Council members were given certificates of merit.

Students, faculty, and administration, working together, can make K-State a top school, claimed Charles S. Goetzinger, assistant professor in Speech, and featured speaker at the banquet.

Goetzinger also explained to the students that they can only expect to have powers of recommendation for the simple reason that they have no responsibility. Goetzinger was referring to re-

cent complaints that the Student Governing association has little or no authority. He went on to say that students can expect no more than recommendation powers in the future.

Goetzinger asked what would be changed when K-State becomes a university. Salaries and curriculums would be the same, and students would be the same. Either way, Kansas State is an institution of learning.

There are three things that compose an institution, the speech professor said—administration, faculty, and students. These three parts of a whole must work together toward a higher academic level.

In speaking of the administration, Goetzinger made these comments: "No one loves them; they are considered a necessary evil. They are always caught in the middle. All they can hope to do is build a climate of intellectual ideas, and then stand back and wait for the explosion."

Concerning the faculty, Goetzinger says, "The idea that all teaching takes place in the classroom must change. Fraternization is not evil. The concept that familiarity breeds contempt is wrong."

As for the student's part helping raise academic stand-

ards, Goetzinger pointed out, "The student's attitude must change. He is given an opportunity, and he must take advantage of it. He should have a respect for the faculty—not the blind type, but the kind that comes from the realization that a man wants to be pushed (by his students) in order to do the best he is able."

On October 31 balloting began and on the first day 3,500 students voted. This number was more than the total number of students voting in any campus-wide election in the school's history.

As the balloting ended 4,692

In October of 1957 the Student Council voted to hold a student referendum to determine opinion on the proposed name change. Student organized houses and organizations were asked to support the name-change and to submit a percentage of endorsements to the Council.

Upon approval by voters, other local units of government could extend the program to their employes, making it the first statewide public retire-

ment program ever given serious consideration by the Legislature.

Gov. George Docking has not said whether he would sign the bill if it passes.

Senate May Determine Fate Of Educational Building Fund

(UPI)—The Kansas Senate was expected to take action today on a bill appropriating \$2,428,420 from the educational building fund to the state university and colleges.

The measure was introduced yesterday in a busy session of the upper chamber in which one bill was killed and 13 others passed on to the House.

The appropriations bill does not take into consideration a \$17 million, five-year "crash" building program asked by the Board of Regents. However, \$100,000 is included for an addition to Wahl hall at the University of Kansas City Medical center.

A retirement program amended to exclude professors and other workers at state colleges is up for final roll call, expected today, in the Senate.

Under the amended bill, estimated to cost the state well over \$2 million a year, state employees would contribute 4 percent of their salaries.

Sen. Donald Hults (R-Lawrence) said the professors already were covered by a more generous retirement program set up by the Board of Regents. His motion would cut about 5,800 state employees out of a program originally estimated to cover 17,000. The cost also would be sliced about \$800,000, the Senate was told.

Faculty Senate Nixes SC Liaison Member

The Faculty senate last night refused a request that a Student Council member be allowed to sit in on Faculty senate meetings.

The Senate voted, instead of allowing a liaison member to sit in on its meetings, to send a copy of the minutes of its meeting to Student Council to inform it of business transacted, according to Roman J. Verhaalen, director of continuing education.

The Student Council request asked permission to have a member present at Senate meetings to "get a better idea of what the Senate was doing." The request was approved by the Faculty Council on Student Affairs but defeated by the Senate.

Faculty, students, and administration have to work together toward advancing K-State. We can not work together if we don't know what the other is doing," Chuck Wingert, Gvt Sr,

student body president, said last night.

Wingert explained that the Student Council did not ask for a vote or a voice—just a listener.

Results Are Good On Dean's Surgery

Results of surgery undergone yesterday morning by Doretta S. Hoffman, dean of the school of Home Economics, were "better than expected," according to Dorothy Harrison, head of the Foods and Nutrition department.

Dean Hoffman underwent surgery yesterday at the University of Kansas Medical center for a feared lung growth. The operation showed a tumor which was on the diaphragm and which was benign, Miss Harrison said.

Beta Theta Pi Tops List Of Frat Grades for Fall

Beta Theta Pi topped the list of Kansas State fraternities for the fall semester with a 2.693 overall grade average. Farm House was second with an average of 2.662, and Sigma Chi was third with 2.501.

Farm House held the high grade average last spring with a 1.794 on the three-point system.

The all-fraternity average for the fall semester was 2.394 and the all-men's average was 2.324.

Other fraternity averages: Alpha Gamma Rho, 2.480; Delta

Tau Delta, 2.422; Sigma Alpha Epsilon, 2.393; Delta Upsilon, 2.390; Alpha Kappa Lambda, 2.342; Phi Delta Theta, 2.339; Beta Sigma Psi, 2.334; Tau Kappa Epsilon, 2.332;

Pi Kappa Alpha, 2.319; Acacia, 2.310; Phi Kappa Tau, 2.301; Sigma Phi Epsilon, 2.273; Sigma Nu, 2.200; Delta Sigma Phi, 2.194; Alpha Tau Omega, 2.193; Lambda Chi Alpha, 2.184; Kappa Sigma, 2.175; Theta Xi, 2.102; and Phi Kappa, 2.092.

Nasser Attacks Iraqi Regime For Sabotage of Arab Unity

Compiled from UPI
By JOHN HOKANSON

Damascus, Syria—UAR President Gamal Abdel Nasser today accused Iraqi Premier Abdul Karim Kassem of working with international Communism to sabotage Arab unity.

His bitter denunciation of the Kassem regime followed mammoth demonstrations yesterday in Baghdad in which thousands of youths surged through the streets shouting anti-Nasser demonstrations.

Counter demonstrations broke out in Damascus where students demonstrated against the death sentence imposed from Baghdad on Iraqi rebel leader Col. Abdel Wahab Shawaf, reported slain in northern Iraq.

This was Nasser's most bitter attack on the Communists since the Soviet Union and its allies extended economic and military aid to Egypt four years ago. It followed increasing Cairo concern at the Communist pressures being exerted in Iraq which is now bidding for technical aid from Moscow.

Paris Talks Concluded

Paris—French officials frankly admitted today the Macmillan-DeGaulle talks did not remove all differences of opinion on the Western approach to the Berlin crisis.

But they said the talks cleared the air of the French suspicions about what British Prime Minister Harold Macmillan has been up to since his return from Moscow last week.

Officials emphasized that al-

though some divergencies persisted on how to handle the diplomatic offensive, both President Charles De Gaulle and Macmillan agreed to stand firm against any Russian attempt to tamper with Allied rights in Berlin.

In short, French officials confirmed Macmillan's remark yesterday that he and De Gaulle attained "a great measure of sympathy and agreement."

The officials said the Western powers are agreed that the agenda for such a meeting can never be restricted to the points the Soviets happen to want to discuss. The Western powers agree the agenda must include not only the Berlin crisis but the entire German problem plus disarmament and European security.

Diplomatic sources said Western notes on an East-West meeting will be sent to Moscow before Macmillan leaves for Ottawa and Washington next week. They said the notes will propose a foreign ministers meeting May 11 in Geneva which could lead to a summit meeting in July or August.

One example of differences was shown at the end of yesterday's talks when a British spokesman said, "Our idea consists in limiting armaments, freezing them under a system of inspection and control."

Runaway Bus Kills Two

Pittsburgh—A runaway bus crashed through a homeward-bound crowd at one of the city's busiest corners at the height of

the rush hour yesterday, killing two persons, one a veteran Pittsburgh Press reporter, and injuring 16 others.

The scene was one of panic and mass confusion as the lumbering conveyance slammed into the midst of the huge, tightly-packed crowd, hurled three persons into a display window of Kaufman's department store, and crashed headlong into the window itself.

Oil Men Like Controls

Washington—U.S. oil industry leaders today voiced approval of new mandatory Federal controls on imports of crude, unfinished and finished oil products.

But some suggested that even stiffer controls be ordered.

President Eisenhower announced late yesterday that the mandatory system would replace voluntary quotas which expired at midnight.

Starting today no crude or unfinished oils may be shipped into the United States from abroad unless authorized by the Secretary of the Interior.

Initial response from abroad was critical. Canadian political leaders called the restrictions applying to Canadian oil imports "regrettable" and "one-sided."

The step came at the urging of domestic producers. They complained that the voluntary program failed to halt the influx of cheaper oil from abroad and forced them to cut back production.

Rocket Test Successful

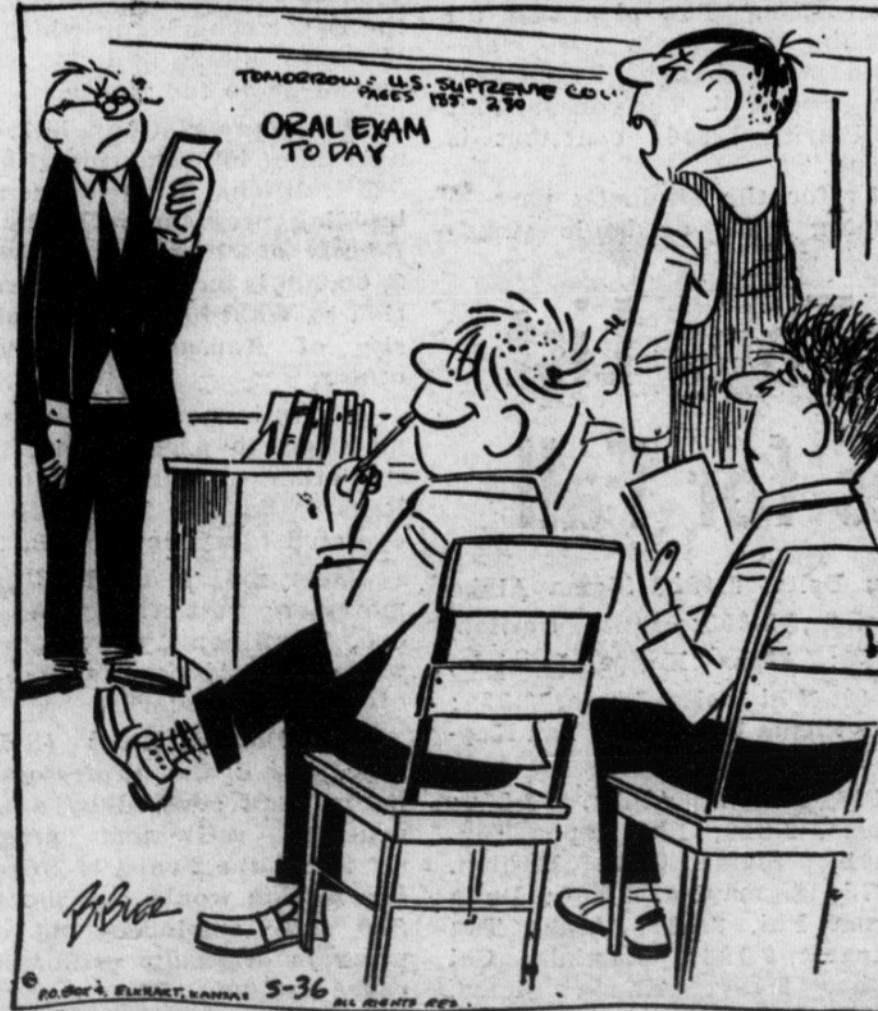

Edwards Air Force Base, Calif.—A seemingly insignificant 69-minute "captive flight" of the rocket ship X-15 has advanced the United States into the dawn of a new era in aviation.

The missile-like, 50-foot ship went aloft tucked under the right wing of a powerful, eight-jet B-52 bomber yesterday for the first flight of the North American aviation rocket ship which is designed to streak at 4,500 miles an hour somewhere beyond 100 miles in the sky.

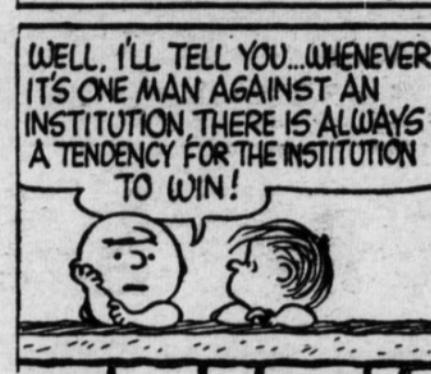

Aviation experts said the brief flight of the X-15 attached to the larger craft marked the beginning of a long program to put America in the space age and the dawning of an era between ordinary and missile-like space ships.

The X-15 carried no rocket fuel. The pilot was aboard to check out all controls. He reported that the test was successful despite the malfunction of a circuit breaker between the two crafts that caused the flight to be halted 51 minutes ahead of schedule.

LITTLE MAN ON CAMPUS

"I REFUSE YOUR QUESTION ON TH' GROUNDS MY ANSWER MAY TEND TO INCRIMINATE ME."

Top Ten Tunes

Venus, 'Stagger Lee,' Top Local Records

By Don Johnson

"It's Just a Matter of Time" before "Venus" catches up with "Peter Gunn." "I Cried a Tear" when "Smoke Gets in Your Eyes," but "My Heart Sings" when little ol' "Charlie Brown" takes the "Raw Hide" off "Stagger Lee."

Looking at this week's Manhattan record survey, Tchaikovsky might turn a pale green, but for many music fans the records are sounding really "top drawer."

THE "TOP POP" music lovers in Manhattan have selected this top ten for the week in jukebox plays:

1. Venus—Frankie Avalon
 2. It's Just a Matter of Time —Brooks Benton
 3. Donna—Ritchie Valens
 4. Petite Fleur—The Chris Barber Jazz Band
 5. Peter Gunn—Ray Anthony
 6. I Cried a Tear—La Vern Baker
 7. Stagger Lee—Lloyd Price
 8. My Heart Sings—Paul Anka
 9. Raw-Hide—Link Wray
 10. I Got a Wife—Mark IV
- Here are the record ratings on the Manhattan scene of sound.
1. Stagger Lee—Lloyd Price
 2. Charlie Brown—Coasters
 3. Donna—Ritchie Valens
 4. Venus—Frankie Avalon
 5. Petite Fleur—The Chris Barber Jazz Band
 6. Peter Gunn—Ray Anthony
 7. Alvin's Harmonica—David Seville and the Chipmunks
 8. Hawaiian Wedding Song—Andy Williams
 9. Smoke Gets in Your Eyes—Platters
 10. It's Just a Matter of Time —Brooks Benton

Prodigious, stupendous, or incredible might be used to describe the new album by the Kingston Trio, "From the Hungry I," but let's call it "crazy." The Kingston Trio, fresh from college in 1958, has skyrocketed to record heights with songs like "Tom Dooley." Now it has released an album which is a live recording from a restaurant called the "Hungry I." The album varies from calypso to hillbilly in style and includes the dialogue (jokes) of the Kingston Trio during their performance. The album features such selections as "Wimuech," the "Zu Lu Hunting Chant," and "Zombie Jamboree."

Another long play album which is selling well in Manhattan is by Frank Sinatra, "Only the Lonely."

Readers Say

What Requirements

Must Teachers Meet?

Dear Editor:

We have, in the last few months, been following articles and editorials about teaching and higher education. In reading from the Collegian and other periodicals, several unanswered questions about teaching skills, education, and salaries have arisen in connection with Kansas State college.

From reading these periodicals we get the impression that Kansas educators feel that there are two major factors which tend to raise educational standards. These major factors are faculty income and educational degree.

We feel that an instructor is a specialist who must be trained as is the scientist, executive, or any other professional man. It is usually recognized by educators and businessmen that any college graduate must go through a supervised training period to learn a specialty. We wonder if the administration of this college feels that by virtue of the degree a person is qualified in educational methods? As new instructors are hired, what requirements must they meet in oral presentation, course organizations, and testing techniques? What weight does K-State place on (1) instructional methods, (2) salaries, and (3) degree held?

We are not trying to answer these questions, we are merely interested in how this is viewed by the K-State administration and what its views are on this subject.

Sincerely,
Wayne E. Gilbert,
Soc Sr
Max Romeiser,
Age Gr

Sigma Nu, Pi Kappa Alpha Clinch IM Semi-final Berths

Sigma Nu and Pi Kappa Alpha won their matches last night in Ahearn gymnasium to advance into the semi-finals in the fraternity division in intramural volleyball.

Sigma Nu trounced Lambda Chi Alpha, 15-7, 15-4, to win Group four with a 4-0 record. Pi Kappa Alpha defeated Alpha Kappa Lambda, 15-12, 15-9, to go undefeated in five games in Group two.

The Vets advanced into the semi-finals in the independent division by beating Westminster foundation, 15-11, 10-15, 15-8. The Vets won all four of their games in Group four.

Other semi-finalists in the independent division are Jr. AVMA, Group one, 4-0; House of Williams, Group three, 4-0;

Chi Omega Wins IM Basketball Tilt

Chi Omega 1 beat Kappa Gamma, 26-15, yesterday in women's intramural basketball play in Nichols gymnasium.

Annette Tighe was high scorer for Chi Omega with 4 points, and Nancy McVicar led the Kappas with 6.

Alpha Delta Pi downed Chi Omega 2, 59-15. Peg Shannon and Peggy Briebat each hit 27 for the ADPs, and Vicki Helstrom had 8 for Chi Omega.

In today's games, scheduled for 5 p.m., the Blitz Babes will meet Southeast hall on the west court and Van Zile hall will play Pi Beta Phi on the east court.

and Scholarship house, Group two, 4-0.

Other fraternity semi-finalists are Delta Tau Delta, Group three, 4-0; and Beta Theta Pi, Group four, 4-0;

Representatives from the teams in the semi-finals will meet in Frank Meyers' office today at 4 p.m. to draw for the playoffs.

In other games last night, Farm House beat Phi Kappa Tau, 15-9, 5-15, 15-9; Acacia whipped Theta Xi, 15-7, 0-11, 15-1; Delta Sigma Phi toppled Alpha Tau Omega, 15-11, 15-6; Sigma Alpha Epsilon downed Alpha Gamma Rho, 15-10, 15-10; and the OK house trounced Wesley foundation, 15-7, 15-4.

Jayhawks Top Cowboys In Final Big Eight Game

The Big Eight conference ended its regular season last night as Kansas pinned a 63-55 defeat on Oklahoma State to finish in a third place tie with Colorado in the final league standings.

Kansas rolled to a 41-31 half-time lead and then fought off a Cowboy rally. Ron Loneski led the Jayhawks with 15 points as the losers finished with their worst record under Coach Hank Iba, 11-14.

Center Arlen Clark missed his first free throw attempt after making 40 in a row—three short of setting a new national record for consecutive charity tosses. Clark led Oklahoma State scorers last night with 23 points.

Only three teams wound up with winning overall records. Besides Kansas State, which won 24 and lost only one, Oklahoma finished with 15-10 and Colorado had 14-10.

In the league standings, it was Kansas State on top with 14-0,

trailed by Oklahoma, 9-5, and Colorado and Kansas, 8-6 each. The rest of the conference's eight members had losing loop marks.

The final standings:

	Conference games:	W	L	Pct.	PF	PA
KS	14	0	1.000	1061	784	
OU	9	5	.643	759	807	
CU	8	6	.571	898	899	
KU	8	6	.571	910	756	
NU	5	9	.357	772	836	
OS	5	9	.357	742	744	
IS	4	10	.286	684	868	
MU	3	11	.214	886	988	

	All games:	W	L	Pct.	PF	PA
KS	24	1	.960	1863	1543	
OU	15	10	.600	1385	1441	
CU	14	10	.583	1843	1459

If you're out on a limb about choosing your cigarette, remember this: more people smoke Camels than any other brand today. The costly Camel blend has never been equalled for rich flavor and easygoing mildness. The best tobacco makes the best smoke.

Escape from fads
and fancy stuff . . .

Have a real
cigarette—
have a CAMEL

"It might not be the final solution,
but a Camel would help!"

Wildcats Voted No. 1 Team In Final AP, UPI Rankings

Kansas State yesterday was named the nation's No. 1 college basketball team in the final polls of both the Associated Press and United Press International.

The Wildcats, boasting a glossy 24-1 record, moved into the top position in the UPI rankings last

week. UPI ratings are based on the vote of 35 of the nation's top coaches.

This week the sportswriters and broadcasters who vote in the AP poll shoved K-State ahead of Kentucky by the slimmest of margins—nine points.

Mississippi State, winner of the Southeastern conference championship, moved up to third place in the final AP balloting.

The two wire services agreed on nine members of the Top Ten, although the order varied considerably. However, the AP in-

cluded West Virginia while the UPI had California.

All but three of the elite group are continuing in post-season tournament play. Mississippi State, which tied K-State for the season's best won-lost record among the major colleges, did not enter the NCAA because of an unwritten segregation rule. Both North Carolina State and Auburn are ineligible because of probation.

Cat Star Misses Drill

Bob Boozer, 6-8 K-State all-American, missed basketball practice yesterday due to a back injury described by Coach Tex Winter as a muscle spasm.

Winter said the injury was not serious and expects Boozer to be back in action in practice this afternoon.

Modern Opera Subject Of Union Speech Today

Contemporary operas will be the subject of a talk by Dr. Charles Stratton, professor of music, today at 3:30 p.m. in the Union browsing library. He will explain the method used in contemporary opera, and why this form of opera has become popular recently.

"Vozek," an opera by Verdi, will be used as an example of the

contemporary opera. While playing "Voseck" music, Stratton will tell the story of it. The opera will make a premier radio appearance on the Metropolitan Opera program next Saturday.

"This program promises to be interesting and enjoyable for opera lovers and those who desire to know more about opera," says Sandra Swanson, EEd Jr.

chairman of the Music Library committee.

The program is being sponsored by the Music Library committee. Free refreshments will be served following the program.

Poultry Husbandry

Wayman Justice, PH Sr, is the recipient of a \$200 award presented each year to an outstanding poultry husbandry senior. The award is given in honor of Loyal F. Payne, retired head of the Poultry Husbandry department.

Meat Judging

Meats workouts, for the purpose of preparing for a meats judging contest next month, will be March 19, 23, 31, April 2, 6, and 9, in the meats lab in the Animal Industries building. Each of the workouts, will be at 7 p.m. They will be conducted by Dr. Robert Merkel, assistant professor of animal husbandries.

The contest, which is sponsored by the Block and Bridle club, will be at the Armour and Co. in Kansas City in the middle of April, and is set up like an inter-collegiate meats judging contest.

There will be two classes of beef, two classes of beef cuts, two classes of pork, one class of hams, two classes of lamb, and 20 beef carcasses and 10 lamb carcasses to grade. There will be five reasons classes.

HUSBANDS, ANYONE?

It has been alleged that coeds go to college for the sole purpose of finding husbands. This is, of course, an infamous canard, and I give fair warning that, small and spongy as I am, anybody who says such a dastardly thing when I am around had better be prepared for a sound thrashing!

Girls go to college for precisely the same reasons as men do: to broaden their horizons, to lengthen their vistas, to drink at the fount of wisdom. But if, by pure chance, while a girl is engaged in these meritorious pursuits, a likely looking husband should pop into view, why, what's wrong with that? Eh? What's wrong with that?

The question now arises, what should a girl look for in a husband? A great deal has been written on this subject. Some say character is most important, some say background, some say appearance, some say education. All are wrong.

The most important thing—bar none—in a husband is health. Though he be handsome as Apollo and rich as Croesus, what good is he if he just lies around all day accumulating bedsores?

The very first thing to do upon meeting a man is to make sure he is sound of wind and limb. Before he has a chance to sweet-talk you, slap a thermometer in his mouth, roll back his eyelids, yank out his tongue, rap his patella, palpate his thorax, ask him to straighten out a horseshoe with his teeth. If he fails these simple tests, phone for an ambulance and go on to the next prospect.

If, however, he turns out to be physically fit, proceed to the second most important requirement in a husband. I refer to a sense of humor.

A man who can't take a joke is a man to be avoided. There are several simple tests to find out whether your prospect can take a joke or not. You can, for example, slash his tires. Or burn his "Mad" comics. Or steal his switchblade. Or turn loose his pet raccoon. Or shave his head.

After each of these good-natured pranks, laugh gaily and shout "April Fool!" If he replies, "But this is February nineteenth," or something equally churlish, cross him off your list and give thanks you found out in time.

But if he laughs silverly and calls you "Little minx!" put him to the next test. Find out whether he is kindly.

The quickest way to ascertain his kindness is, of course, to look at the cigarette he smokes. Is it mild? Is it clement? Is it humane? Does it minister tenderly to the psyche? Does it coddle the synapses? Is it a good companion? Is it genial? Is it bright and friendly and full of dulcet pleasure from cockerel till the heart of darkness?

Is it, in short, Philip Morris?

If Philip Morris it be, then clasp the man to your bosom with hoops of steel, for you may be sure that he is kindly as a summer breeze, kindly as a mother's kiss, kindly to his very marrow.

And now, having found a man who is kindly and healthy and blessed with a sense of humor, the only thing that remains is to make sure he will always earn a handsome living. That, fortunately, is easy. Just enroll him in engineering. © 1959, Max Shulman

For filter smokers the Philip Morris Company makes Marlboro, the cigarette with better "makin's." New improved filter and good rich flavor. Soft pack or flip-top box. A lot to like!

Senate Passes Retirement Bill

UPI—Two major legislative programs of the Kansas Senate agenda, home rule and a public employee's retirement plan, were approved yesterday as the Senate moved to clean its calendar.

Five minor bills were killed, while five others were moved to the House for final passage.

Sen. Paul Wunsch, president pro-tem, said the upper chamber will probably consider its bills today or tomorrow. He added that the best "guess" on

adjournment would be for next Wednesday or Thursday.

By a vote of 34-2, the Senate gave the necessary two-thirds passage to a proposed home rule Constitutional amendment aimed at giving cities more power to govern themselves.

It would go on the 1960 general election ballot for a vote of the people if passed by the House and signed by the Governor.

The retirement plan, estimated to cost more than \$2 million, was passed, 29-6, and sent to the House.

The upper chamber used emergency procedure of the Senate rules to move up and give final 35-0 passage to a \$2,428,420 appropriation bill to go for building projects at the state colleges, university, and deaf-blind schools.

Under the retirement program, amended to exclude professors and college workers, state employees would contribute 4 per cent of their salaries.

Under approval by voters, other local units of government could extend the program to their employees, making it the first statewide public retirement program ever given serious consideration by the Legislature.

Open House To Kick Off

The 35th annual Engineering Open House will officially begin tomorrow night when St. Pat, James Burke, ME Jr., and St. Patricia, DeAnn Seaman, EEd Soph, cut the ribbon opening the doors to Seaton Hall.

Following the official opening, eight members of the freshman track squad will run a marathon race to K-Hill. St. Pat and St. Patricia will follow the race in a car.

Students in Engineering and Architecture have been working on the exhibits since early last fall. Exhibits will follow the theme "Design for the Future." In order for the students to have sufficient time to set up the displays, all classes in Seaton Hall will be dismissed all day Friday, and Saturday morning.

Exhibits will be open from 6 to 10 tomorrow night and from 10 a.m. to 5 p.m. Saturday. Three routes have been planned for viewing the tours.

St. Pat's prom, Saturday night from 9 to 12, will conclude the Open House. The royalty will be officially crowned by Dean M. A. Durland. Immediately after the coronation, Steel Ring will announce the winning Open House display and its department will be given a plaque from Steel Ring.

INTEGRITY PARTY candidate for student body president, Steve Douglas, Gvt Jr., appeared last night before a meeting of the Independent Student Association. The ISA has come out in favor of the Integrity party for the coming SGA elections. Last night's meeting began an ISA membership campaign.

Orchestra To Give Concert

The St. Louis Symphony orchestra will be featured as the final concert in this season's Manhattan artist series. The concert will be Thursday at 8:15 p.m. in the Auditorium.

The orchestra will also pre-

sent a concert Friday at 2 p.m., for students in the fifth grade through high school from Manhattan and surrounding schools, according to Prof. Luther Leavengood, head of the Department of Music. A full house of

approximately 2,000 is expected to attend the afternoon concert.

The St. Louis Symphony orchestra is the second oldest orchestra in the United States and is now in its 79th year.

This season, the 90-piece orchestra is under the direction of a new conductor, its sixth, Edouard Van Remoortel. Remoortel, 32, is a young Belgian making his first tour with the orchestra this year.

The orchestra is ranked among the country's top ten symphonies by the well-known music critic, Deems Taylor. The orchestra has spread its fame through annual tours covering every section of the country but the Far West. Recognition has also come to the orchestra for its recordings, several of which have enjoyed "best seller" prestige.

The orchestra was founded in 1880, when a fund of \$8,000 was raised to sponsor a series of six winter concerts. In 1890, ten years after the founding date, the orchestra was merged with the St. Louis Choral Society.

Kenneth Ingram, EE Soph, is the newly elected editor of the K-State Engineer. He was elected by the magazine staff to replace John Kennedy, CE Sr.

Al Engle, EE Soph, will replace Al Hjelmfelt, CE Sr., as business manager.

Ingram will appoint a staff of four sub-editors, an advertising manager, and a circulation manager, to assist him. The regular staff consists of 25 students from the Engineering and Architecture school now, but Ingram hopes to enlarge it.

The April issue will be Ingram's first. He will continue as editor until next year's Engineering Open House issue, which is always the last issue.

Last year's magazine won three national awards. One for the best cover, another for the best single cover and for the best editorial. Engineering College Magazine association gives the awards.

"Any student in Engineering and Architecture is eligible to work on the staff," said Ingram. "One of our aims is to promote interest in the magazine among students."

The magazine is published by Engineering Architecture students with Prof. Leland Hobson and Associate Dean Richard Potter as faculty advisers.

Election of AWS executive council members started today in the Union, Anderson hall, Northwest hall, Southeast hall, and Van Zile hall. Tomorrow will be the last day of voting.

Every woman student can vote in the election by presenting her activity ticket.

Candidates are president, Judy Young, Psy Soph, and Beverly Bass, HT Jr.; first vice president, Marianne Gench, DIM Jr., Ada

Church, HT Soph, and Judy Mai, HE Soph; second vice president, Janice McClenahan, EEd Soph, and Brenda Morgan, HE Soph;

Third vice president, Kay Balderson, EEd Soph, and Carolyn Moriconi, Eng Soph; treasurer, Ginny Caldwell, TxC Jr., and Peggy Ogan, EEd Fr.; recording secretary, Dee Baker, EEd Jr., and Mary Jo Mauler, HE Soph; and corresponding secretary, Marilyn Hanson, HE Soph, and Sharon Frodin, HT Soph.

Kansas State Collegian

VOLUME 65

Kansas State College, Manhattan, Kansas, Thursday, March 12, 1959

NUMBER 104

ISA Support To Integrity

Steve Douglas, Gvt Jr., Integrity party candidate for student body president, appeared last night before approximately 70 independent students who attended the Independent Student Association Guest Night to thank the organization for its support of his party and to stress the importance of the interest being shown by the ISA in student government.

Douglas was introduced following a report by Leon Durnil, BAA Jr., special ISA political representative, giving ISA's reason for backing the Integrity party in the coming elections.

Durnil stated that one of the basic long-range aims of the ISA is to run some independents in the SGA elections and that he believed the Integrity party had demonstrated more interest in independent students than had the United States party.

Lyle Clum, EE Jr., who attended the meeting in behalf of the United States party, countered Durnil's statement by inviting anyone present to look at the minutes of the USP meeting which Durnil attended before making his decision. Clum said the minutes showed that Gene Olander, SEd Jr., USP candidate for student body president, had stated that he would back ISA. Olander arrived at the meeting later but was not allowed to speak before the meeting as a whole.

Primary Turnout Is Relatively Light

Voting in yesterday's SGA primaries was relatively light, according to Dick Corbin, chairman of the Elections committee. Voting between parties was fairly equal.

Loud-speaker cars for both parties have been touring the campus between classes, urging students to get out and vote.

Party banners and candidates posters have advertised the campaign since petitions were first signed. Despite all this, "Voting isn't as good as it was a year ago," says Corbin.

Students wishing to vote can do so by presenting their activity tickets at the polls. Voting closes at 5 p.m. today.

AWS Voting Begins For Council Officers

Election of AWS executive council members started today in the Union, Anderson hall, Northwest hall, Southeast hall, and Van Zile hall. Tomorrow will be the last day of voting.

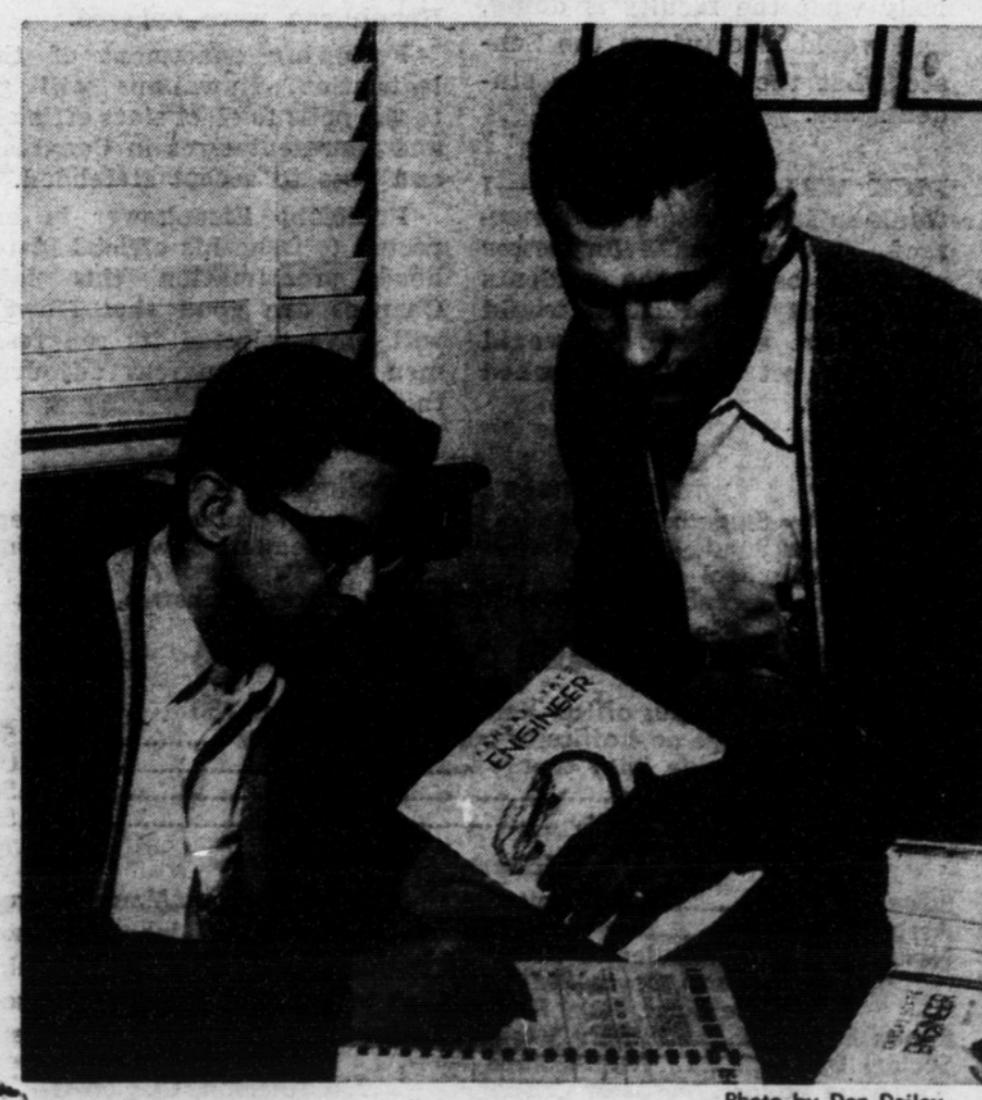

Every woman student can vote in the election by presenting her activity ticket.

Candidates are president, Judy Young, Psy Soph, and Beverly Bass, HT Jr.; first vice president, Marianne Gench, DIM Jr., Ada

Church, HT Soph, and Judy Mai, HE Soph; second vice president, Janice McClenahan, EEd Soph, and Brenda Morgan, HE Soph;

Third vice president, Kay Balderson, EEd Soph, and Carolyn Moriconi, Eng Soph; treasurer, Ginny Caldwell, TxC Jr., and Peggy Ogan, EEd Fr.; recording secretary, Dee Baker, EEd Jr., and Mary Jo Mauler, HE Soph; and corresponding secretary, Marilyn Hanson, HE Soph, and Sharon Frodin, HT Soph.

ISA Assumes Positive Attitude; Positive Results Are Promised

CAMPUS POLITICOS met head-on night in a bid for the votes of the independent students. Steve Douglas and John Nelson, Integrity party candidates for student body president and Student Council, were invited guests at an ISA guest night meeting which began an ISA membership campaign. Lyle Clum and Doris Miller, candidates for Student Council and Board of Student Publications, attended the meeting on behalf of the United States party.

Leon Durnil, special ISA representative to the campus political parties, led the meeting in a statement of the ISA reasons for backing the Integrity party in the coming elections. Durnil had been appointed earlier by the ISA to attend political party meetings and act as a guide for the organization in choosing a party.

HOWEVER, the upshot of the move was not only to choose a party to support but to chose a party which would back and assist the ISA. The ISA, which has been in a rut for some time is badly in need of assistance, and some political issues just

might stir up enough excitement to provide the interest needed.

We are glad to see some enthusiastic and intelligent leadership in this organization which has a vast potential for becoming a real power on the campus. These leaders have been wise in evaluating the position of the ISA, and in planning a course of action. They have stated that the ISA's scope and aims are not to be construed to mean that it is allied against or opposed to any existing organization or group.

Some projects set up by ISA leaders are improving social conditions for independents, creating an interest in Student government, and promoting better intramural activity for independents. Durnil stated last night that the ISA would like to be able to run its own members for SGA offices eventually—and just to prove it can be done, shortly after World War II, ISA members held all but two of the Student Council seats.

ISA LEADERS have taken a positive attitude and a positive stand which promises to bring positive results.—st

Faculty Senate Feels Open Meetings Could Be Detrimental to Discussion

Explaining why Student Council representation—specifically observation—at Faculty Senate was denied by the Senate Tuesday, Prof. Roman J. Verhaalen, Senate chairman said there was no feeling against students as such, or representatives of the Student Council.

"The vote against it was very close," said Professor Verhaalen. "If there was any one reason against it, it was feeling that Senators might not be as free with discussion if there were anyone there besides them—it could curtail open discussion."

"A second reason was that the Senate felt by sending Student Council the minutes, this would inform them of the actions taken anyway."

The resolution was in two parts:

1) An observer of Student Council be allowed to sit in on Senate meetings.

2) Student Council be given copies of the minutes.

The resolution was drawn up, passed by Student Council, passed by the Faculty Council on Student Affairs, and sent to the Faculty Senate.

The second part was passed unanimously by the Senate.

Dean Herbert J. Wunderlich, chairman of the Faculty Council, said, "The resolution was primarily so students might attend—not as active members—the Senate to learn of the problems concerning the faculty, and to better understand the policies of the faculty. It was just for communications purposes."

"We're very disappointed with the Faculty Senate's ruling," said Chuck Wingert, Student Body president. "We're not giving up, though, and we'll try again and hope the Senate will reconsider. It's going to be discussed at Monday's Student Council meeting."

"The Senate has got the optional ROTC question out of committee, and is going to take it up at its next meeting, sometime in the first part of April. We would like very much to have a Student Council member there, since the issue does pertain to students," said Wingert.

Student Council Should Have Representation On Faculty Senate, Says 90 Per Cent Asked

That the Student Council should be represented on the Faculty Senate was the opinion of 90 per cent of the 20 students interviewed by the Collegian yesterday.

The students in favor of the proposal agreed that representation on the Faculty Senate would help co-ordinate the activities of the faculty and the students.

Some of the comments:

WINIFRED KILLIAN, SED Sr—I definitely think so, especially when the Faculty Senate is considering things that the Student Council is working on. It would

give the Council a first-hand view on problems.

MARVIN McMILLAN, BA Soph—I think it should, so that the activities of the two organizations could be better co-ordinated.

JUDY STOVER, HT Sr—It seems like it would be only fair to both organizations.

JOHN SHERWOOD, BA Soph—Without student representatives on the Faculty Senate is like having taxation without representation.

BOB OBLANDER, EE Jr—I think it should, because the students make up the college and they should have a say as to what is going on.

JANISE HUDSON, Chm Soph—I feel that it should be so that the faculty could know the students' viewpoints and vice versa.

RON WHITCHURCH, BAA Jr—I don't think so. It would be like having an IPC representative on the IFC council.

JIM ELLIS, Gen Fr—Yes, I think it should be represented so that the faculty could tell the Student Council exactly how it feels about situations.

SID REYNOLDS, BA Sr—Yes, the students should be represented on the Faculty Senate so that they could directly express their opinions on problems.

ROBERT DICKENS, His Sr—

World News

British Assure Defense Of W. German Rights

Compiled from UPI
By JOHN HOKANSON

West German hostility to British Prime Minister Harold Macmillan's views on settling the Berlin crisis eased today with new British assurances that West German rights would be protected.

The assurances came as Macmillan flew to Bonn with Foreign Secretary Selwyn Lloyd for conferences with West German Chancellor Konrad Adenauer.

The principal differences arose over West German—and French—belief the Macmillan mission to Moscow might do more harm than good. Since then Macmillan has firmly stated Britain's determination to stand united with its other Western allies.

Another difference developed when Macmillan signed a communique with Soviet Premier Nikita Khrushchev promising to study a partial disengagement of forces in Central Europe. West Germany feared that might seal the division of Germany.

Official British sources in

London today made it clear Macmillan was not talking about an out-and-out withdrawal of allied troops but meant an arms freeze in Central Europe and possibly later some troop "thinning out."

In Washington, officials said President Eisenhower's grim warning of the danger of nuclear war had strengthened the Allied hand in future negotiations with Russia on Berlin.

They said the President brought into sharp focus the disastrous possibilities of the Kremlin's course when he declared yesterday he would not fight a ground war in Europe if the Berlin crisis led to hostilities but would resort to "other means."

In connection with this, reliable sources in Washington said the United States already has drafted a plan for sending a test convoy through a Berlin blockade if the Communists impose one. The plan calls for sending a normal size unarmed convoy over the road to West Berlin and to send in tanks if the trucks are stopped.

Khrushchev, who ended his eight-day East German visit today, issued a communique with East German leaders yesterday guaranteeing access to West Berlin if the Allies agree to make it into a "free city."

Hawaii Statehood Near

Washington—Congress moved swiftly today to vote the mid-Pacific vacationland of Hawaii into the Union as the 50th state.

The House was expected to pass a statehood bill by nightfall, less than 24 hours after similar legislation sailed through the Senate on a 76 to 15 roll call vote.

There was a possibility that a final measure could go to the White House today. But this depended upon backers getting unanimous consent for House acceptance of the slightly different Senate bill.

Jubilant Hawaiians stood ready to touch off a two-day celebration, including hula dancing, fireworks, and a gigantic bonfire as soon as news of final Congressional action was flashed to the Territory.

Senate passage of the statehood measure came after brief opposition from Southern Democrats. Thirty Republicans joined 46 Democrats in voting for the bill while 14 Democrats and one Republican were opposed.

Following enactment of the legislation, Hawaiians will go to the polls to elect state officials and representatives in Congress, and vote to accept statehood.

President Eisenhower is expected to issue his official statehood proclamation this fall. Chances are good that Hawaii will have selected its congressmen before Congress adjourns this summer.

Quotes from the News

Honolulu—A harried Hawaiian official wondering if he could get the official Hawaiian statehood bell out of storage in time for a celebration should Congress act swiftly on the statehood bill:

"I wonder who we can get to in Congress to get them to hold off statehood for one more day—we aren't ready for it yet!"

New York—Harold C. McClellan, general manager of the United States exhibition to be staged in Moscow, on the exhibit's purpose:

"The purpose is friendly, non-political. We won't even have a popgun there."

Miami Beach—Skin diver Bob

Wall reporting on a five-foot "monster" he saw while diving for sponges:

"I looked in a cave in a reef . . . and there it was staring at me . . . it had a long cylindrical-shaped body."

New York—Chairman William Fulbright of the Senate Foreign Relations committee claiming the United States negotiations with the Russians must be handled by professionals not amateurs:

"Mr. Khrushchev hasn't just left his private corporation to come to Moscow for a couple of years."

JANISE HUDSON, Chm Soph— I feel that it should be so that the faculty could know the students' viewpoints and vice versa.

RON WHITCHURCH, BAA Jr— I don't think so. It would be like having an IPC representative on the IFC council.

JIM ELLIS, Gen Fr—Yes, I think it should be represented so that the faculty could tell the Student Council exactly how it feels about situations.

SID REYNOLDS, BA Sr—Yes, the students should be represented on the Faculty Senate so that they could directly express their opinions on problems.

ROBERT DICKENS, His Sr—

Heinz Becomes Top Wildcat Reserve After 'Invitation' To Join Cage Squad

By JOHN PETTERSON

After being "invited" out for the team after practice was a week old, Mickey Heinz, 6-3 junior, has become a top reserve forward on K-State's Big Eight champion basketball team.

When practice started last October, Coach Tex Winter had just a 12-man squad. So he invited Heinz to practice to round the squad into working size.

Since then Heinz, by his clutch shooting and tight defense, has helped to make K-State's bench the strongest in the conference.

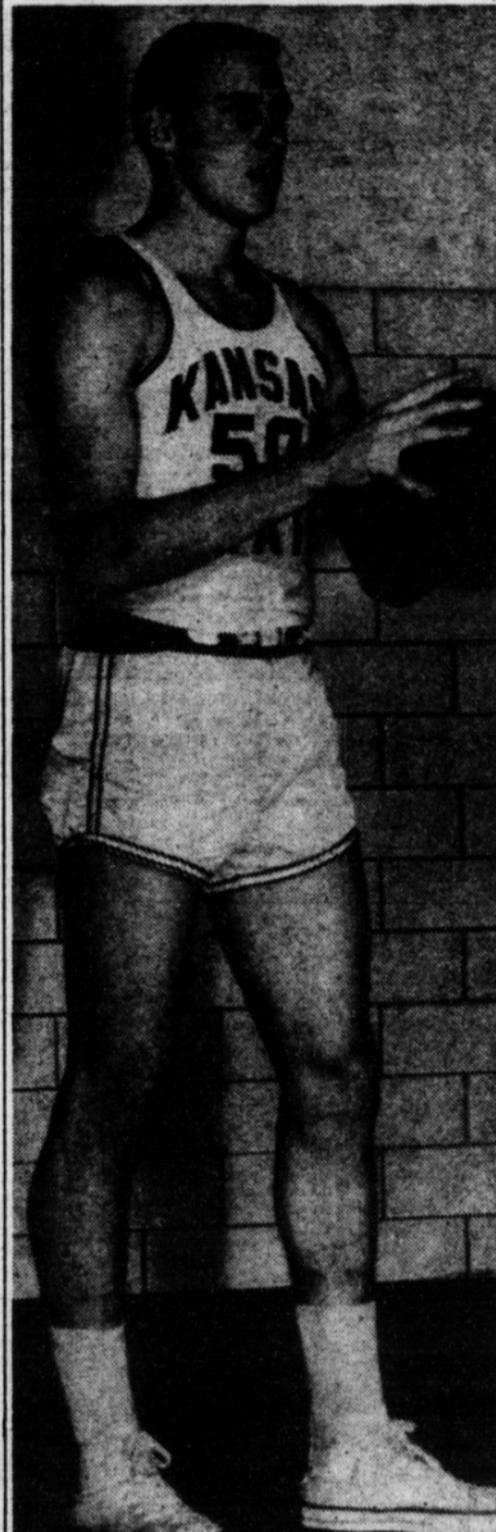

Heinz transferred to Kansas State last fall from Hutchinson junior college, where he played two years on the basketball team. His ability wasn't noticed at Hutchinson, because of other outstanding players on the same team. Heinz averaged 12 points in his second year of Juco ball.

"There is a lot of difference between junior college ball and big college ball," said Heinz. "The ballhandling, the shooting—everything is different."

Heinz said that playing against so many big men was one of the toughest things he had to adjust to. "In Juco we occasionally had to play against a man 6-6 or 6-7, but here almost every team has

one or two men that tall or taller," he said.

"I've planned to come to K-

MICKEY HEINZ

State since I was in high school," said Heinz. "I wanted to study agriculture and I figured this was the natural place to come."

"Indiana is the toughest team I've played against this year. I feel the Hoosiers were the toughest because they were the first big college team I played against."

Heinz is now hitting 42 per cent from the field, with 18 field goals in 43 attempts. This rates as one of the top shooting percentages on the team.

He has hit 14 of 21 free throw attempts for 67 per cent.

"I feel more at home playing man-to-man than the zone on defense," Heinz said. "I've always played it—in high school and in junior college. Although I like to play zone, the man-to-man is easier for me."

"If Heinz continues to show improvement, he will certainly be a vital factor in next year's plans," said Winter.

"We have been trying him at guard, and we may play him at that position next year if he can handle it," the coach added.

Heinz said his goal at K-State was to earn a letter. "It would be a great honor to earn a letter playing basketball at Kansas State," he said.

The reserve forward summed up his feelings about the game in one sentence—"I just like to play basketball."

Heinz attended high school at Claflin, where, as a standout athlete, he lettered two years in football, track, and basketball.

Volleyball Playoffs To Begin Tonight

Intramural volleyball playoffs in both the fraternity and independent divisions will begin tonight in Ahearn gymnasium, according to Frank Meyers, director of intramurals.

In the fraternity division, Delta Tau Delta will play Pi Kappa Alpha on the southwest court at 7 p.m. Sigma Nu will meet Beta Theta Pi on the same court at 8 p.m.

In the independent division, House of Williams will play the Scholarship house on the northwest court at 7. Jr. AVMA will meet the Vets at 8 on the same court.

The finals will be played next Monday or Tuesday night, depending on whether school is dismissed Monday for an athletic holiday.

Blitz Babes Win In IM Cage Play

The Blitz Babes toppled Southeast hall, 39-25, in yesterday's basketball intramurals. Wooddora Davis led the Babes with 22 points, and Delores Hutchinson and Jane Berger each scored 10 points for Southeast.

Van Zile hall whipped Pi Beta Phi, 28 to 10. Kay Linder was high scorer for Van Zile with 24 points, and Paula Wildgren and Alice Lobenstein each made 4 points for the Pi Phis.

In today's games, scheduled for 5 p.m., Waltheim will play Alpha Delta Pi on the west court, and Northwest hall will meet Kappa Gamma on the east court.

NIT Play To Start

By UPI

St. John's, coached by "Old Pro" Joe Lapchick, is an eight-point favorite over Villanova and Fordham is a two-point pick over Butler in tonight's opening games in the National Invitation tournament—the nation's oldest post-season basketball jamboree.

And looking ahead to tomorrow night's second-round action in the NCAA major college tournament, the oddsmakers have installed national champion Kansas State a whopping 16-point favorite over DePaul. Kentucky is a nine-point choice over Louisville, and upstart Navy is a seven-point pick over Boston university in the key games.

The odds on the other five NCAA second-round games, which will be staged at four different sites, are West Virginia by 3 over St. Joseph's, Michigan State 3 over Marquette, Cincinnati 6 over Texas Christian, California 4 over

Utah, and St. Mary's (Calif.) 14 over Idaho State.

Two more first-round NIT games will be played Saturday afternoon when Manhattan plays Providence and NYU takes on Denver. The four seeded teams—Bradley, St. Louis, St. Bonaventure, and Oklahoma City University—drew opening round byes.

In the only NCAA major college tournament action last night, Idaho State defeated New Mexico State, 62-61, winning the right to play St. Mary's (Calif.).

Evansville rolled to an 82-63 victory over St. Michael's (Vt.), Southwest Missouri State edged Hope (Mich.), 76-74, Los Angeles State routed South Dakota State, 92-67, and North Carolina A & T eliminated American University, 87-70, in the NCAA small college championship at Evansville, Ind. Tonight's semi-final pairings pit Evansville against North Carolina A & T and Los Angeles State against Southwest Missouri State.

Outstanding Seniors Get Honor Leader Blanks

Questionnaires for senior leadership honors have been mailed to all seniors with at least a 2.75 grade average, according to Assoc. Prof. Paul Sanford, chairman of the committee that will select the award recipients.

Three per cent of the graduating class from each school will be selected to receive Senior Leader badges and certificates in recognition for outstanding schol-

Traffic Board Refuses Four

Three parking tickets were appealed to the Faculty Traffic Appeals board yesterday. Two of the appeals were denied and one approved.

An appeal was denied for a ticket given for parking in a loading zone behind Veterinary hall. Since loading zones can not be used for parking, the appeal was denied.

Parking in front of the Chapel was declared illegal at all times, which made the second appeal invalid.

The third appeal was approved, because a parking area behind Seaton hall was not properly marked at the time the ticket was given. The area has since been marked.

The Student Traffic Appeals board declared two students automatically guilty because they did not appear yesterday.

The students were Marion K. Moore, Sp Fr, and Nunzio A. Cataldo, PEM Fr.

Alums To Elect Officers

K-State Alumni association has sent ballots to all alumni for the annual election of officers, according to Kenny Ford, executive alumni secretary.

The Alumni association elects a new president and five men to the board of directors, annually. The board is composed of 15 members who each serve a three-year term.

Joseph D. Smerchek, '32, Manhattan and H. Dean Hess, '50, Colby are running for president.

Candidates for the board of directors are Ralph H. Perry, '46, Manhattan; Dr. Merle L. Henrikson, '39, Emporia; W. William Duitsman, '40, Hays; Mary Ruth (Vanskike) Works, '43, Humboldt; Joseph B. Chilen, '47, Ulysses; Charles R. Socolofsky, '38, Scott City; Verne W. Boyd, '29, Manhattan; John A. Shaver, '41, Salina; Margaret (Bayless) Jagger, '43, Minneapolis; and Floyd E. Sageser, '49, Prairie Village.

Activities

Bridge To Be Saturday

The National Intercollegiate Bridge tournament, sponsored here by the Union Games committee, will be Saturday, March 14 from 1 to 5 p.m. in SU 208.

To be eligible for the tournament, students must be undergraduates and must pay an entry fee of twenty-five cents.

Instructions will be given before the tournament by Dr. S. Thomas Parker, professor of mathematics.

Students interested in entering the tournament have been asked to sign up at the games desk in the Union.

Agriculture Economics

Several Agriculture Economics majors from Kansas State will attend the regional Junior Farm Economics association meeting March 13 and 14 in St. Joseph, Mo.

The primary purpose of the meeting will be to discuss economic problems and exchange ideas among the clubs regarding activities carried on by each club.

Friday, there will be speeches, debates, and informal meetings with a banquet and speaker in the evening. A business meeting Saturday morning will conclude the two day program.

Other schools represented will be Missouri U., Nebraska U., and

Iowa State. It is planned that James M. Foster of the Counseling center.
